Australian Survey Regiment  
"Fortuna"  
Cnr. Thistle & Chum Streets  
BENDIGO VIC 3550

BENDIGO: BUILDING 18 "FORTUNA VILLA", INTERNAL PAINTING

Please find enclosed one copy of the consultants report regarding the investigation and recommendations for the internal colour scheme and one copy of the detailed colours proposed for this important heritage property.

The consultants recommendations are fully endorsed and have been amplified for areas not covered by the consultant. The document "Schedule of Proprietary Colours" is in effect the final recommendations for internal colours. You should note that further investigation will be undertaken to complete the scheme.

Your early concurrence is sought in order that the work can proceed. If you require any assistance in understanding or appreciating the extent of work and/or its impact please do not hesitate to contact Mr. Gordon Loader (03) 652-8344 or after Christmas and during January Mr. Peter Kerr (03) 63-0131 Ext. 8093.

The colour scheme has been developed based on the original colours used and which reflect the continuous building program that took place over some fifty years. As such it is clear that the colour scheme recommended will be a major contribution to restoring the house to its former glory. It can also be anticipated that carrying out this work will also bring considerable credit from those concerned with restoration and conservation.

JOHN WISKEN
