Royal Australian Air Force skim the North Sea headed for  
the Gestapo Headquarters at Aarhus, Denmark

## The **AARHUS MOSQUITOS** by Max Ordinall

This specially released Limited Edition print has been published from a historically accurate oil painting to aid the Mosquito Association's restoration of Mosquito PRXVI A52-600. Many of the Association's members flew the Mosquito FB VI on operations over occupied Europe with 464 Sqn RAAF. Its crews regarded this remarkable aeroplane in the highest esteem.

Created from first hand accounts of Mosquito operations the print captures the very essence of this type of mission - incredibly low flying, high speed and determination.

Three ex-464 Sqn aircrew have kindly consented to personally autograph the edition:

Sqn/Ldr Ern Dunkley DFC,  
Flt/Lt Roy Johnston,  
Flg/Off Peter Lake DFC

All three signatories participated in the Aarhus raid.
