Attention : the Manager.

Subject : Production Engineering Changes.

Dear Sir,

We have recently received a number of changed operation sheets for parts recommended for local production, and where such affected operation sheets have not yet been despatched we have inserted the revised sheets.

This, of course, means that on despatch such sheets would be to the latest available standard.

However, for those sheets which have been despatched it is felt that some information is required as to the details of the changes if we are to avoid laborious cross checking.

Although SNECMA feel that their internal change notices would be unsuitable for reproduction, they have agreed in principle that we should receive Production Engineering Change Notices in the future, and have promised to prepare a suitable form for this purpose.

In the meantime we will forward any changed operation sheets affecting local production parts as soon as possible.

Yours faithfully,

G.H. Foster

G.H. FOSTER.
