Subject : Delivery of broaches TRQs 96, 99, 112.

Dear Sir,

We have recently received revised quotations from SNECMA for TRQ 96, TRQ 99 & TRQ 112 and one copy of the following letters are enclosed :

TRQ 96	SNECMA letter	09377	9 mar. 62
99	"	09378	"
112	"	09372	"

The attached quotations referring to broaches for the compressor rotor and stator blades have been completed, but the best possible delivery period is given as 14 months from receipt of order.

These quotes have been obtained from RVB - the main supplier of broaches to SNECMA and, due to the heavy ordering on this company, our orders cannot be completed any earlier unless a change of priority can be given by SNECMA.

The alternative suppliers of broaches to SNECMA are not recommended as the quality is not to their complete satisfaction and while further discussions are being held with Univacier the French agent for Diamant a U.K. supplier, they cannot yet recommend the placement of orders on this particular firm.

It appears that the delivery date of 14 months ex SNECMA quoted will be unacceptable, and it is requested that you please cable us with the longest delivery date you can accept. When this is known, it is proposed that we again discuss this with SNECMA in an endeavour to obtain improved deliveries.

One alternative suggested by SNECMA was to place orders on Lapointe USA but this may involve additional costs.

We would appreciate your earliest advice on this matter.

Yours faithfully,

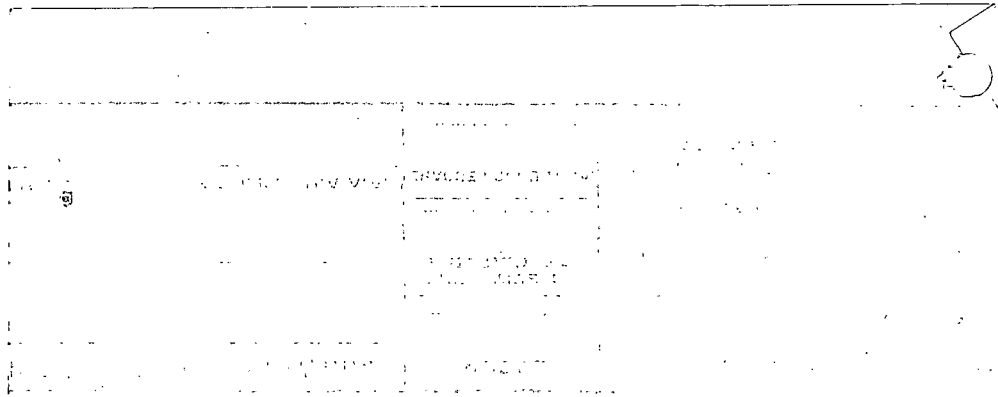

W. Bellward
