Attention : the MANAGE R.

Subject : Fuel control unit rig.

Dear Sir,

WJM

We refer to your M 250 regarding a precision air pressure controller manufactured by BRONZEAVIA, from whom we requested a quotation on 25th, April 62.

BRONZEAVIA's reply of 9th, May indicated that as the subject equipment was to be used for the testing of SNECMA designed products they intended referring our request to SNECMA for further action.

We have now received SNECMA's quotation for this equipment, as per their letter n° 23312 (21st, June), copy of which is enclosed for your information and consideration.

The specification and installation drawings requested have apparently been overlooked in the transfer of our enquiry, from BRONZEAVIA to SNECMA, but these have now been requested through the Licence Office and will be forwarded as soon as they become available.

Yours faithfully,

D.M. CARROLL
