| 59-19A | The City Storage Loop with bogie car 43's Brill 22E Truck |
| 59-20A | <p>Sturt St City Terminus with Ballarat 43 & 33 both en route to Victoria St. In the background are Morsheads, Dickins's and in the foreground – the tram stop shelter.</p> <p><i>Now this is an interesting move, looks like 43 is ahead of 33 – timetabled service?</i></p> <p><i>I have looked through the various driver runs and there is this possibility. It may be Run 23 shunting 43 off the back of the loop ready to do the 11.48 lunch time extra to Haddon Street. On 21 Run drivers sheet it says "11.48 Take bogie from Loop at 11.55 to Main Road, then to city at 12.02 and Haddon Street at 12.17, before returning to the city at 12.30." [I think I remember on another run that the bogie car should be at the back of the Loop - but that doesn't explain the Victoria Street destination.</i></p> <p><i>Advice from Chris Phillips</i></p> |
| 59-21A | Ballarat 43 & 33 both en route to Victoria St departing Sturt St City Terminus into Bridge St. In the view are a Neptune sign, HMV, Dickins, tram signals and the pole with the signal / route selector switch on it. |
