struction which has recently been the cause of some litigation, and the effect upon the plough coming into contact with a stump or the root of a tree. Close by there is a tramcar manufactured by Messrs. Duncan Frazer and Co., and of interest as being the pattern used for the horse trams of Ballarat. Along the grand avenue front a very fine collection of native furs, brought together by the commissioners, has been displayed, together with creditable trophies of an industrial character, erected by the firms of Messrs. W. H. Burford and Sons, Alex. Murray and Sons, and S. Schlank. A trophy of condiments, preserved fruits, and produce, erected by Messrs. D. and J. Fowler, is one of the most meritorious in the court. Machinery and implements of an industrial character are exhibited in the main court by the firm of James Marsden and Co., of Gawler, one of the largest implement manufacturing firms of the colony, as well as by Messrs. R. Cameron,

tion of yarns, tweeds, serges, and blankets, and there are also numerous exhibits of silk in the cocoon, saddlery, travelling apparatus, and camp equipage. Bêche-de-mer is to be shown in all its varieties and all its stages of preparation, and also turtle. A conspicuous feature will be that formed by Messrs. Burns, Philp, and Co. of the products of New Guinea. Among these are gum, copal, elime, sago, flour, rattans, and blackwood. Mr. Nulman, Government Resident at Thursday Island, has forwarded a large assortment of marine curiosities, including plants and shells of all kinds. Coral from Cape York Peninsula and the Great Barrier Reef will also be an object of interest. Arrowroot, both raw and manufactured, is largely represented, and Mr. L. Wittgenstein has sent a good collection of opossum, wild cat, kangaroo, and other prepared skins. The same gentleman will also exhibit in operation what he calls the lightning method of curing, tanning, and fell-

embroideries, to be set up in of Nestle's milk conspicuous.
