Ballarat-

ELECTRICITY

FOR LIGHTING, HEATING, COOKING and VENTILATING

ELECTRICITY is now indispensable in every up-to-date home where comfort, convenience and economy are studied. Electric Light is the cheapest, safest and most convenient Illuminant. Its use ensures a pure and healthy atmosphere in the Home, preventing illness and prolonging life. Therefore Use Electric Light and save Doctor's Bills and Drugs.

Electric Light preserves the eyesight and is in use in all the most important Hospitals and Eye Institutions throughout the World.

An Electric Radiator in the Drawing Room and Bedrooms ensures cleanliness and comfort at little cost and no trouble. It can be moved from room to room. The labour of Sweeping and Dusting is reduced to a minimum, and the busy housewife has therefore time to devote to more important business.

An Electric Kettle and Electric Toaster for the Breakfast or Tea Table ensure dainty and comfortable meals at a minimum of trouble and cost. The water is just the exact temperature to make a perfect cup of tea or coffee and the toast is divinely flavoured.

An Electric Iron practically does the work itself in the simplest, cheapest and most perfect manner without poisonous fumes to bring on headache and lassitude.

An Electric Fan in the heat of summer makes life comfortable at a purely nominal cost. It makes for happy, sweet tempered homes by keeping the temperature cool and equable.

We invite enquiries and are at your service
