

## **POLICE ACTION TO BE ASKED FOR**

### **TO STOP TOWN NUISANCES**

At the Braybrook Shire Council meeting on Monday last it was decided to seek the assistance of the police in one or two matters:

Riding bicycles on footpaths, a practice which is common among far too many young people of both sexes.

Spoliation of gum trees by enterprising youths in search of gum tips for marketing.

Speed hogs in motor trucks, carting milk, who travel at 40 miles an hour over intersections, and—in the words of Cr. Dedrick—"own the roads."

That rider of a motor cycle with an open exhaust, who traverses almost the whole length of Hampshire Road each night at the midnight hour and wrecks the nerves and destroys the slumbers of peaceful citizens. Judging from the remarks by councillors about this chap it's just as well there isn't a Tower of Melbourne!

Those gentry who congregate behind the baby health centre in a two-up, beer-up and betting school, and make themselves objectionable to residents in the vicinity.

On Saturday last a brawl occurred here, witnessed by Cr. Lowe. One man had blood streaming from him, but worse than that was his language, which was delivered in a very loud voice. When the police were summoned the brawlers soon

were summoned the brawlers soon  
had wind of it and cleared out to  
finish the fight elsewhere.
