HOW BUY? For Cash or on Credit?

Is Not the . . .

## PAY-AS-YOU-GO PLAN

THE BEST?

Many Think it is, because

1. When you pay Cash you are sure to buy at the Lowest Market Prices.
2. When you pay Cash you realise how much you are spending, so live within your means.
3. When you pay Cash you never overbuy.
4. When you pay Cash you buy at a Cash Store (if you are wise) where there is only one price, and where rich and poor are treated alike.
5. When you pay Cash, at a Cash Store, there are no "bad accounts" to consider, but prices are made on a cash basis; so you are sure to save money.
6. When you pay Cash for a few months you will not willingly go back to the old style credit plan—not if you are like the majority of Buyers.
