

# A word about McEwan's Staff at Dandenong

**Mr. Athol Jolly . . .**  
Popular manager of our completed Dandenong Store is a well-known identity in the community. His 20 years' of hardware experience has been successfully combined to a progressive policy of service to the buying public.

**Mr. Bill Hemple . . .**  
Wine and Spirit Dept. Phone him for all liquor requirements on Dandenong 8 or 45, he will give you expert advice and help you in your selection.

**Mr. Fred Taylor . . .**  
Grocery Dept. Well-known local resident interested in all local activities and known to most of you. He will give advice on all matters concerning food requirements.

**Mr. Harry Neilson . . .**  
Office Manager. Will be pleased to discuss confidentially any problems regarding financing improvements to your home and property. He will advise on all matters of finance under McEwan's Home Improvement Plan or our new Property Improvement Centre.

**Mr. Les Vagg . . .**  
Floor supervisor. A local lad well-known to all, especially the sporting fraternity, a baseball and cricket enthusiast. He is well-versed in general hardware and will give you his expert advice any time.

**Mr. Charles Clarke . . .**  
Assistant Manager. Has made many friends in Dandenong. Has been with McEwan's since 1934 and has built up a considerable knowledge of all matters pertaining to Hardware. Builders' Hardware being his speciality.

## BUSINESS CHANGE

**MR. FRED TAYLOR**, manager of the food section at Jas. McEwans Pty. Ltd., Dandenong, who has been with the firm since it opened in Dandenong, has resigned to join the Norman Buck Co., of Flinders Lane, a subsidiary of the Stanton Manufacturing Co, Dandenong.

Mr. Taylor, in his new position, will be associated with Mr. Bill Greenland and Mr. Ern Green, formerly manager of Parton's Store at Dandenong.

Mr. Taylor left McEwans last Saturday. After a holiday he will take up his new position — as assistant manager — early in February.

*Herold 26/11/55*

## McEwan's New Store Will Resemble American Super Market

WHEN it is completed, McEwan's new store at Dandenong will be the nearest approach in Australia to one of America's popular Super Markets.

Sweets and soft drinks' section. A bottle department for liquor (subject to the Court confirming its conditional certificate). And a Theatrette.

All these features will supplement the present departments. It is interesting to note that since McEwan's opened here a new year back their staff at their Dandenong store has grown from 12 to 44.

It will have its own ladies and gents' hairdressers. A well-appointed comfort station for public use. A dry cleaning bar.

# At McEwans we mean business

**"UNITREX" ... CALCULATORS YOU CAN COUNT ON WITH MORE FEATURES AND QUALITY AT PRICES YOU CAN AFFORD!**

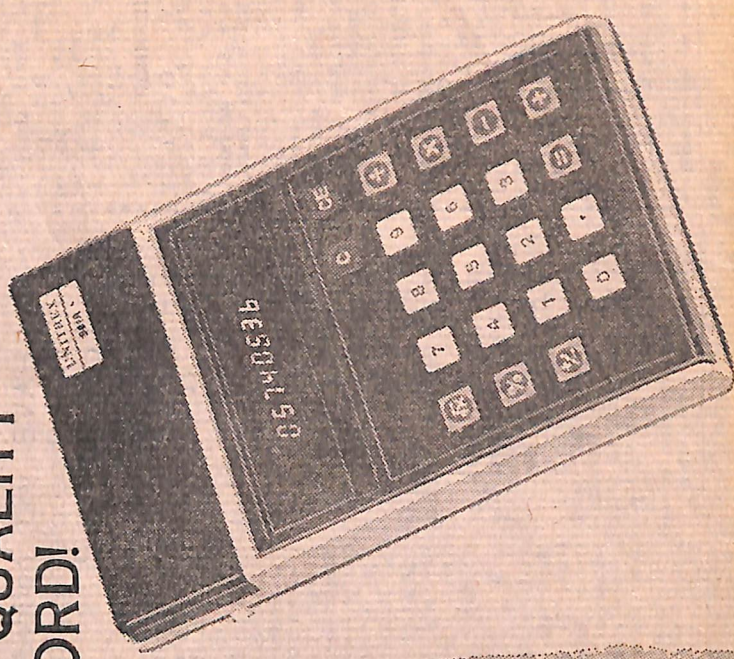

**McEWANS  
BIG IN CALCULATORS!**

**\$14.99**

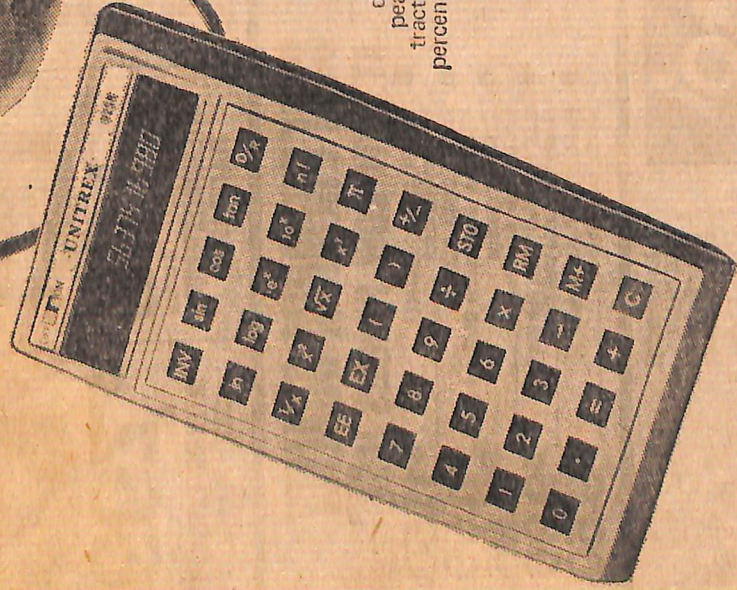

**MICRO 6 WITH MEMORY**

Handy, compact model you can count on for problem solving. With full 4 key accumulating memory (M+, M-, CA, MR), six digit large L.E.D. display with floating decimal, algebraic logic, repeat addition, repeat subtraction, add-on discount, percentage capability.

**UNITREX 901R \$19.99**

Gives you a percentage key, square root, reciprocal, 8 digit large green display, sign change (+/-) key, automatic constant in all functions and algebraic logic. Marvellous for homework, for day-to-day household budgets, and book keeping.

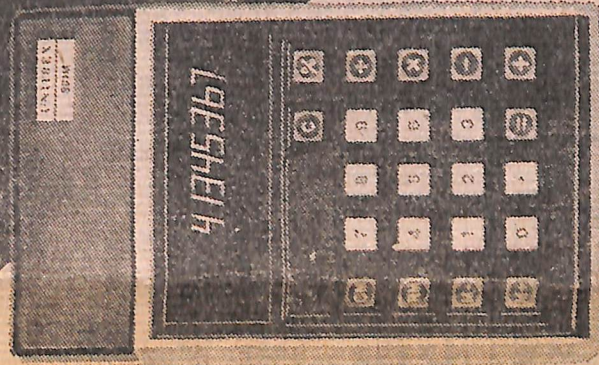

**UNITREX 92SR SLIDE RULE CALCULATOR \$59.95**

A brilliant helper for the most sophisticated calculations. Hand held scientific model with 40 keys. Can perform 31 functions including transcendental functions sine, cosine, tangent, the arc of each in degrees or radians, exponential calculations with scientific notation, 2 levels of parenthesis, Pi, common and natural logarithms, exponentiation and factorial calculations with true memory.

**UNITREX 901SR \$39.95**

Eight digit large green display pocket scientific having 26 functions. Has a 6 key true accumulating memory. Can perform common and natural logarithms.

**UNITREX 901M \$19.95**

Featuring dual true memory calculation via a sigma memory switch and a 4 key accumulating memory. Plus add-on discount, percentage key. 8 digit large green display. All right at your fingertips.
