A Buchan Communications Group production designed by Kajetan Design Group

“Dandenong Plaza is more than a new shopping centre for Dandenong. It is a total rethink of the heart of Dandenong. We are extending the vision that started with Palm Plaza. We are creating a new focus for the community in Dandenong, a place where people will do more than go shopping.

“In short this goes beyond retail and town planning issues, this centre is about returning a heart and a sense of pride to Dandenong.

“The design evokes images of the great 19th century galleries of Europe, the great retail arcades of the world.

A 3 storey Galleria space with a glass roof will best symbolise the grand approach - but it is all designed on a very human scale. And it is right for Dandenong as it approaches and enters the 21st century.”
