

Susan Ogden

Established in 1919, Dandenong High School is one of the oldest and most culturally diverse Secondary Schools in the State. Our vision is simply to create an environment where every student achieves success and realises their potential, and we enact this in all we do.

Our unique House structure and state of the art facilities ensure students' develop a deep connection and strong pride in their school.

In Years 7-9 students learn in a collaborative model in their House with teams of teachers. Learning is personalised, technology embedded and differentiated to meet individual needs and ensure every student is engaged and challenged.

Our Senior Studies Program and our strong partnerships with tertiary providers and community organisations provides students with an individualised senior pathway and the essential entrepreneurship and other 21st Century skills necessary for success once they leave school.

We offer an extensive STEM pathway and SEAL Program and our emphasis on student agency and leadership empowers our students to exact positive change and be responsible community members both inside and outside the school.

I am incredibly proud to be the leader of such a unique and dynamic learning community and would encourage you to visit our website or contact the school to arrange a tour.

Dandenong High School

Principal: Susan Ogden

Associate Principals: Mark Dewar and Katie Watmough

92-106 Princes Hwy, Dandenong VIC 3175
