

Quality auto service

There's nothing quite like a good old fashioned motor mechanic and that's exactly what you get at Auto Assurance Automotive.

Quality service and quality people are on hand to help with all motoring issues, whether it be a full service you're after, mechanical repairs, suspension diagnosis or a road worthy, owner Alex Vecchio and his team do it all.

Staying up to date with modern cars is important to Alex and that's why he is always doing courses to further his knowledge about cars.

Priding themselves on being efficient and honest, you can guarantee up front quotes and no hidden extras to come out of your pocket.

Every vehicle gets the attention it deserves, so you're in for the smoothest ride of all.

With over 25 years of experience, Alex knows the importance of offering his customers friendly advice when needed and is happy to explain what the team are doing to improve the safety of your vehicle.

Alex has been a mechanic since he was 14 years old and has always had a passion for cars.

"I've always loved mechanics and cars since I was a kid and wanted to be a mechanic from when I was five working on old cars with my dad," he said.

He has now passed that passion onto his children, who are all involved in motor sports and car racing.
