Decor move's just Dandy

Homewares brand Decor has set up in Dandenong South.

The business moved from the Scoresby site it set up nearly 40 years ago, into a newly-renovated space that combines manufacturing, warehousing and head office.

Fifty people work at the EJ Court address.

Decor produces more than 20 million products each year and invests in product design and innovation.

Managing director Anton McKernan said the company had consistent year-on-year growth and "is now fully focused on driving

huge opportunities both locally in Australia and expanding overseas".

He said this would include innovations within existing product ranges and expanding across new homewares categories.

Mr McKernan said the new space "will allow us the creative and logistical space to action our future growth plans".

Decor started in Melbourne in 1958 and today has more than 500 products in its range, including kitchenware, lunch and hydration, baby products and more.
