

MATTHEWS' PRESERVE

S. J. Mathews has pleasure in forwarding for your perusal, copies of some of the testimonials received from those who have used Mathews' Preserve during the past shipping season and solicits the favor of a trial during the coming one. It is not only the most effectual preserve in the market but absolutely the cheapest, and in actual trial against all the other preservatives has given again and again the best results.

MR. JOHN FINDLOW, the well known late Manager of the Cobden Butter Factory, whose butter is so well known, not only in the colonies, but also as getting top prices in England, says:—"I personally was pleased with it. I think I told you last that I tested it against others and it came out best." It was used at Cobden through the shipping season.

MR. ALEXANDER CRAWFORD, the General Manager of the Victorian Creamery and Butter Company, says:—"We used no other Preserve all through last shipping season, and our butter turned out magnificently in London, much better than the previous season. I have tested it this past winter against all the Preservatives in the market, and had the butter judged by experts, and in all cases the butter put down with yours came out best."

MR. J. BIRMINGHAM, of Glengarry Factory, says:—"We used some of your Preserve for some of the butter we exported last year. So far as we can judge, it was equally as effective as the 'Preservitas'."

MR. F. LITTLE, of the Stratford Cheese and Butter Factory, says:—"I have been using your Preserve in milk and butter for some time, and have pleasure in recommending it as a Thoroughly Good Preservative, and quite satisfactory."

MR. J. STANDISH, of Heyfield, the well known butter expert, says:—"I have much pleasure in stating that I used your Preserve in our factory during the latter part of last year, and found it equally as good as other agents that I have used, and I intend to use it during the coming season."

It would not serve any purpose to print all; these are a fair specimen of the I have had. Every Factory that has used it has been thoroughly satisfied with it, and all I wish for is a trial.

It is sold in 14, 28, or 56 pound boxes; or in casks from 1 cwt. up to

S. J. MATHEWS,
Dandenong.
