Dear Patricia,

Thank you so much for including us in the lovely lunch party on Tuesday. As always, it was a special occasion with delicious food and wine and with the best of company with whom to enjoy it. We always love going to your home and come away feeling refreshed and stimulated. You and John are wonderful hosts and it was a special pleasure to find you both restored to health after all the traumas of last year. I do hope that Davis will recover from this wretched polymyalgia and the pain and weariness of cancer. He did enjoy being with you again.

With love to you both

Jean
