

SIR Arthur Stephen-son has been elected an honorary Fellow of the American Institute of Architects. Mr Leon Chatelain, a former president of the Institute, who was here over the weekend, was telling us the fellowship is regarded as a rare honor, even among American architects.

The only non-Americans who had received the honor were architects whose work was internationally known. Mr Chatelain said Sir Arthur was the second Australian architect elected. First was Mr Robin Boyd, who was made an honorary Fellow four years ago.
