Dear Mrs. Davies,

Further to our telephone conversation of 8 April, I am writing to confirm my understanding of the conclusion we reached:

- That we have your permission to authorize copying of Robin Boyd-copyright material in our collection, for the purpose of research and study.

This copying will be done under the normal "research and study" provisions, i.e. these will be one-off copies, for the student's own reference. They are not to be re-copied, and permission must be sought for any further use of them, e.g. as illustrations in a publication.

Requests for copying of Robin Boyd material by anyone other than students, e.g. publishers or exhibition curators, will be referred to you, unless you prefer that we take responsibility for such authorization.

Thank you for your help in this matter. Please don't hesitate to contact me to clarify or amend anything.

Yours sincerely,

A handwritten signature in cursive script that reads "Gerard Hayes".
