

Mr Robin Boyd

Dear Sir,

9 Carlton Crescent
Hogarah Bay NSW 2217
22-11-67

A news item prompts me to write.

I am a hobbyist with an idea.

29 NOV 1967

I claim to be able to show anyone the easiest and best way to accumulate money.

It is a 2-4 collecting idea called pyramids.

I need six or a few more people to invest 10⁵ (£) each as an experiment and carry on and develop the idea if the experiment succeeds.

If the experiment succeeds I feel sure the idea can be developed into something real big.

If the experiment fails the whole idea can be forgotten.

If you are interested I can supply any further necessary details.

If you are not interested I trust there has been no harm done.

I am

yours truly

68 Litchurst
