Dear Patricia,

I wonder if you can recall Robin kindly letting me take six Japanese architecture students – the first to visit Australia since the war – to see your house in late 1960. They were very excited by it, in fact, it was the only building I saw them get enthusiastic about as I took them around. I am not sure if they took these photos and maybe on the chance you have not seen them I thought I would let you have them. *

I am delighted to know the house will be preserved as a kind of National Treasure..

My love

W. Bruce Anderson

Present to Mrs. Patricia Anderson
