

20 November 1992

Mrs Davies
Walsh Street
South Yarra

Dear Mrs Davies

The Powerhouse Museum is a government funded, non-profit organisation in Sydney, Australia. Our collection areas are decorative arts, social history and science and technology.

We are currently producing an exhibition titled - *The Australian Dream*, which documents Australian design and its application in the 1950s. With your permission we would like to construct a model of Robin Boyds *House of the Tomorrow* 1949. This is one of three architectural models we plan to have constructed for inclusion in the exhibition display.

If you agree with this use please sign and return this document at your soonest convenience.

Sincerely

Michelle Andringa
