Dear Mr. Boyd

Many thanks for your first article. We will be using it in our dummy runs, and it should hold until our first issue appears.

As for length, by all means take more space if you need it. I don't like to impose arbitrary limits, but you can take up to 1000 words if you like. At other times you may wish to write less than 750. You have plenty of scope to vary the length.

Please bear in mind the need for illustrations.

Yours sincerely,
