Dear Norma,

Thank you for the family history written by Bert York. It's always interesting to read different accounts. Stuart and I know very little of the early days of his family. Bert omitted to state, that along with 3 sons, Widow York also had 6 daughters. He also claims the family originated from Scotland, whereas George came from Barnstaple, Devon.

I have given a copy of your information to Stuart's aunt, Elaine Crow. Elaine is very much interested in the origins and life in Victoria of her family and I feel sure she will put pen to paper with some of her recollections, which I shall forward on to you.

Thank you for thinking of us, it was really good to hear from you,

Kindest regards,

as always Jean (Mock)
