DO YOU REMEMBER...

- \* public hair? (& flushing it down the toilet)
- \* the weeping of the disappointed uterus?
- \* puss in urine?
- \* the fruit juice for morning tea and,  
the day we drank the "barley water" and,  
the maid asking, "What happened to the  
jug of water I rinsed the silver in?"...

40 YEARS ON.....

Thou we're far and asunder  
and parted are some,  
who were with us that day,  
when we look back  
and forgetfully wonder,  
what we were like  
in our work and our play.  
Then it may be  
there will often come o'er us,  
glimpses of notes  
like the catch of a song,  
visions of girlhood  
will float up before us,  
echoes of dreamland,  
that bear us along.

Follow Up Follow Up Follow Up etc.  
(with apologies to the author)

Do you remember being told to ....  
"Follow up Nurse, use your head to  
save your heels" ... how we all hated  
that comment: but how many have found  
it has followed you through life and  
still practice it today?
