All Nurse Training after this time is being done in Universities, with some supervised experience in hospitals. Graduate years are hard to come by and some have found it difficult to get work after graduating. The hospitals want experienced staff, but where did they get their experience? Quite a large number of people who did hospital training went on to get their Degree (later became Diploma)

These Nurses are now known as Division 1 Nurses

State Enrolled Nurses are now known as Division 2 Nurses

Disclaimer: Considerable effort has been taken to prevent omissions or errors, however, human nature means that it is not impossible for their to be some! Please forgive!
