Our best wishes are extended to Albert and Jean Aird as Albert recently suffered a stroke and, unfortunately, is recovering very slowly. Both Albert and Jean have been very active in the community over a number of years, including a long association with the Residents' Association. We hope you will recover soon Albert.

Council elections are due again in August and we are sorry to learn that Kristine Broom has decided not to stand for another term. But, then we also understand that Kristine has taken on a very heavy workload in recent years. Kristine has attended virtually every Residents' Association meeting over the past three years and kept us well informed about what the Shire of Lillydale is up to. On behalf of the Residents' Association I would like to sincerely thank Kristine for her contribution and help over the past three years.

Most residents are probably aware that Philip Glenister has announced his intention to stand for the West Riding vacancy (so far unopposed). Philip has previously served on Council, including a term as Shire President. He is currently President of the Residents' Association, and has been for the past eighteen months. We wish Philip well in the forthcoming election.

Outer Eastern Citizen Advocacy Program:

From Jaqueline Penwill

I have recently become the co-ordinator of the Outer Eastern Citizen Advocacy Program. You may not have heard about Citizen Advocacy. We find and introduce people from the community to a person with an intellectual disability. The term 'advocate' is not used in this instance in its legal sense - but in a more general sense as a mentor, supporter or defender.

Citizen Advocates choose the amount of time they spend with their friend; it depends on the particular relationship. Most advocates find that the relationship can be part of their existing time schedule. Once introduced, the relationship takes its own course and our office is used as a back-up if needed.

For instance, we might get a call from a person who tells us about 'John', he is a gregarious fellow with a lovely nature, but has a mild intellectual disability. He is in his mid thirties and has spent the whole of his life in institutions. We introduce 'Robert' to John, Robert is a computer programmer who is married with a son and daughter. Robert and his family go for drives, have barbeques and do all of the things most of us take for granted, except where possible they now include John. For the first time in his life John has a sense of belonging, he has more confidence, laughs a lot, and at last he feels valued as a person. Robert and his family are able to look past the disability and see the warm human being that John is.

If you would like any further information on the program please contact me. Our office is situated at 2 Mount View Street, Croydon 725 4435, or call me at home on 722 1775.

Rainfall

In June 144.50mm (5.78 inches) of rain were recorded bringing the total for the year to 361mm (14.44 inches). In Melbourne the previous highest June recording was in 1859 when there were 115mm (4.60 inches).

The highest rainfall for June in Wonga Park for the past 30 years was 172mm (5.90 inches) in 1977. The highest rainfall in Wonga Park for any month in the past 30 years was 193mm (7.72 inches) December 1985.
