## The Ballarat Courier.

PUBLISITED DAILY. (First copy issued 10th June, 1867).

On page I. will be found—"Licensing Court,"
"Ballarat College," "A Unique Entertainment," &c. On page 4, in addition to mining advertisements, are trade notices, educational and Government advertisements.

advertisements, are trale notions, educational and Government to revisit the proposed increase in coal freights is taking concrete form. While the Minister of Railways is considering the recommendation of the Railway commissioners to increase freights the occlusors inland have been organising to process very foreibly. Representatives from Croswick. Clunes, Marphorough, Ararat, Stawell, Hamilton, Horshaub, Warracknabeal, Bendigo, Echnes, Oastlemaine, Kyneton, Colac, and Sale, have intimated their readiness to co-operate in a deputation to the minister, and unless Mr. Richardson soon intimates that he will not have the freights raised a deputation will wait upon him to represent the case for the country to him. It will be seen that the Chamber of Manufacturers convenes a public meeting to deal with the question next Tuesday night.

About 300 persons travelled down to Lal Lal yesterday afternoon by the half-day excursion; and, but for the unpropitious appearance of the weather prevailing during the morning, there is little doubt that the number of pleasure-seckers would have been much greater. Those who braved the elements and visited the famous waterfall and its beautiful surroundings had their pleasure spoiled by the showers that fell during the afternoon. It was stated by the railway authorities that the attendance yesterday, although rather small, would yield a fair margin of profit. So long as this can be done it is to be hoped that the people will be given weekly opportunities of getting away to view the beauties of nature and at the same time expand, their lungs with the invigorating air of the country.

Mayor Thompson, of the city, entertained his brother councillors, and also representatives of the city, entertained his brother councillors, and also representatives of the city, entertained his brother councillors, and also representatives of the city, and also representatives of the city of the city, and also representatives of the city of the city.

and at the same time expand their lungs with the invigorating air of the country.

Mayor Thompson, of the city, entertained his brother councillors, and also representatives of the Town Council and Sebastopol Borough Council, with their lady friends, at a garden party at the Botrnical Garden's yesterday afternoon. The prity—which numbered all the members of the City Council excepting Councillor Bell—also, included several prominent citizens, and a special tramear was run to the gardens for their convenience. A splendid luncheon was laid in the pavilion by Mr Plowright, and was thoroughly enjoyed. Thouly toast honored was that of "The Queen." The majority of the party were then taken for a trip round the lake in one of the Steamboot Company's steamers, but the enjoyment of the trip was greatly interfered with by a heavy storm. Subsequent to the trip around the lake, afternoon tea was also partaken of at the pavilion. It was originally intended to unveil the pair of marble lions presented to the council by Mr D. Ham, M.L.C., but as the iron gates presented by Councillor Morey, M.L.C., had not yet been fitted up, the formal ceremony was postponed. The coverings over the statuary were, however, removed, and the works of art were greatly admired. There was much uniavorable comment as to the position in which the 'tatuary was placed, and it was almost universally thought that the lions is tead of in the gardens and behind the gates.

stated by our Mati-urne correspondent that a clerk named Robinson had been arrested for embezzling 25s, the property of the Madame Barry Company. The name should have been be Graham Eerry Company, the office of which is in Melbourne, Mr Seddon being the menager.

ar Arell represented meeting of the Liberty are Froperty Defence League, held at Graig's hotel last evaning (Mr Murp'ry, M.L.A., in the chair), the subject of the proposed increase of freight on coal per the Victorian railways, was discussed at some length. Much indignation was expressed at what was described as the swiedle effort of our described as the suicidal efforts of one department of the State in endeavoring to nullify the praise-worthy attempts of other branches of the public service in fostering and encouraging to the utmost rural and other industries. The following resolution was unanimously adopted, and the acceptant instructed to it one forms. and the secretary instructed to at once forward a copy to the commissioners and Minister of Railways:—"That this meeting strongly protests against any increase in the charge of freight for coal on the Victorian railways, unless it can be satisfactorily proved that the present rates do not cover the cost of carriage."

SCHOOL OF ART.

Exhibition. Day and evening.

SATURDAY, DECEMBER 16, 1893.

The Academy of Music next week is to be the arena of quite a novel presentation. Act is to be the end and runsished.

The Commandant's half-yearly inspection of the local Militia will take place this afternoon on the common. The order of dress will be review order, with one pouch, water-bottles filled, and helmets. Arms and accountements are performed with Victorian military regulations, the fine of 7s 6d will be inflicted on all men absent without leave. In case of sickness a medical certificate must be furnished.
