

MAIN LEAD.

FROM OUR OWN CORRESPONDENT. The rush at Dairymans Gully has been abandoned by all except the prospectors and the "valiant chain" lower down the gully.

GOVERNMENT GAZETTE.

Chepstowe to be a Polling-place for the Carnham division of the Electoral District of Ripon and Hampten. Application for grants approved.—Donald Nicholson, Trawalla, 30s. 2r. 33p.

EAST RIDING BOARD OF ADVICE.

At the monthly meeting of the Board of Advice for the east riding of Riponshire the members were all present. The sub-committee's report referring to the Snake Valley and Gancio Flat school, was read. Its contents were generally satisfactory, and recommended some improvements to be effected, and greater warmth to be maintained in the first-named school.

CLOSED ROADS.

A correspondent of the "Courier" writes:—"At a public meeting held at Snake Valley on Saturday last, to consider the question of closed roads, a series of resolutions were passed to the effect that all roads in the east riding of the shire of Ripon be thrown open to the public, by removing all obstructions therefrom."

PARLIAMENTARY INTELLIGENCE.

LEGISLATIVE ASSEMBLY. TUESDAY, 3RD JULY. The Speaker announced that he had presented the address in reply to the speech by His Excellency this afternoon, to which His Excellency had been pleased to return a gracious reply.

Mr. Berry replied that the not had only been in force for a very short time. The late Government had appointed inspectors, but their term of office had been as yet too short to ascertain how the supervision would work.

LEGISLATIVE ASSEMBLY.

Mr. Bowman asked if it was the intention of the present Government to introduce a bill this session for the payment of coroners' juries. Mr. Grant said that the matter had not as yet occupied the attention of Government.

Mr. Berry replied that the arrangements had been made by a former Government. From reading the correspondence it would seem that it was anticipated that the colony would receive reliable and confidential cablegrams.

Mr. Tucker moved that in opinion of the House the fencing-in of any public road is unlawful, and infringement upon the rights of the people of this colony, and that steps should be taken to compel the opening through of every public road in Victoria.

Mr. Berry was of opinion that at any rate these councillors brought pressure to bear upon the members now on the Government of the day. He thought that a special bill would have to be brought down in order to deal with the matter in a satisfactory manner.

Mr. Longmore thought the hon. member for Rodney had gone all round the question without touching it. He would remind the House that the Minister had no power to move in the matter until the local bodies took action.

Mr. Barr stated that there were miles and miles of country where the public roads were closely fenced in. In some places people were compelled to travel around fences for sixteen miles, when they might have attained the end of their journey in four miles if the country had not been fenced in.

LEGISLATIVE ASSEMBLY.

There is any truth in the belief that those who suffer greatly in this world will escape scorching in the next, then will the victims of rheumatism assuredly be unscathed by the eternal fires; for to nothing short of martyrdom at the stake can their tortures be adequately compared.

Holloway's Ointment and Pills.—Rheumatism and Neuralgia.—Though the former disease remorselessly attacks the young and robust, and the latter ruthlessly selects its victims from the weak and delicate, the same medical treatment will infallibly cure both complaints.

OXYGEN AS LIFE.—Dr. Bright's Phosphodyno.—Multitudes of people are hopelessly suffering from Debility, Nervous and Laxative Complaints, Depression of Spirits, Headache, Timidity, Memory, Lassitude, Want of Power, &c., whose cases admit of a permanent cure by the new remedy Phosphodyno (Ozonic Oxygen), which at once allays all irritation and excitement, imparts new energy and life to the enfeebled constitution.

CALL, the 6th, of £1 per 80th Share, has been made, Due and Payable at the Bank of Victoria, on Friday, 13th JULY, 1877, or to the Manager on the Claim.

DR. PINNOCK. BEGS to inform the inhabitants of Beaufort and district, that he has succeeded to the PRACTICE of Dr. LOCK.

Beaufort Coursing Club. PRESIDENT: Wm. Lewis, Esq. COMMITTEE: Messrs. W. Smith, J. Smith, G. Carver, J. Nolan, W. Adam, W. Adams, J. H. Campbell.

MEMORIAL. Now Enterprise Company, Charlton. (NO LIABILITY.) THE Undersigned, hereby make application to the Registrar of Companies, under the Provisions of the Companies Act, 1877.

Now Enterprise Company, Charlton. (NO LIABILITY.) THE Undersigned, hereby make application to the Registrar of Companies, under the Provisions of the Companies Act, 1877.

Now Enterprise Company, Charlton. (NO LIABILITY.) THE Undersigned, hereby make application to the Registrar of Companies, under the Provisions of the Companies Act, 1877.

Now Enterprise Company, Charlton. (NO LIABILITY.) THE Undersigned, hereby make application to the Registrar of Companies, under the Provisions of the Companies Act, 1877.

HIGHEST PRICE given for SHEEPSKINS, HIDES, RALLOW, &c. WM. SMITH, Butcher, Beaufort, March 23rd, 1877.

GOVERNMENT ADVERTISEMENTS.

NOTICE is hereby given, that the SUPPLEMENTARY LIST of the names of persons claiming to be entitled to vote in the Electoral District of Ripon and Hampten for a member of Parliament for the Assembly is printed and in my possession, and can be inspected by any interested therein at my office.

Copper Coinage. NOTICE is hereby given that the Acting Deputy Master of the Mint is prepared to issue bronze coin in exchange for copper coin on application at the Mint.

Sale by Auction. PRELIMINARY NOTICE. EDWARD NICKOLS will sell by PUBLIC AUCTION at an early date, All that piece of Land—Crown allotment 2, section A, parish of Trawalla—containing 3 rods 10 perches, with Dwelling-house and Soda Water Factory erected thereon, situated on the Stockyard Hill road, near Beaufort, now in the occupation of Mr. J. # The Riponshire Advocate,

NO. 166.]

BEAUFORT, SATURDAY, JULY 21, 1877.

PRICE SIXPENCE

## The "Riponshire Advocate,"

PUBLISHED EVERY SATURDAY, CONTAINS A COMPLETE SUMMARY OF LOCAL AND GENERAL NEWS FOR THE WEEK.

Subscribers who do not receive their papers regularly or at an early hour of the morning would much oblige us by immediately forwarding their names to the office of this paper, Lawrence-street, in order that such errors may be rectified. We are most desirous of securing for our subscribers a regular and early delivery, but it will be impossible for our measures to prove effectual, unless we are warned by them when neglect takes place.

Advertisements sent in without a written order as to the number of insertions, will in all cases be continued until countermanded, and no advertisement can be withdrawn without an order in writing, delivered at the office by 10 a.m. on the day previous to publication.

Advertisements for this paper cannot be received after 7 o'clock on the evening previous to publication.

New subscribers are only charged from the time of ordering the paper.

Orders to discontinue subscriptions to the paper must be in writing, delivered at the office and for the current quarter.

Communications of a literary nature must be addressed to the Editor; and must bear the signature and address of the writer—not necessarily for publication, but as a pledge of good faith.

Advertisements for this paper cannot be received after 7 o'clock on the evening previous to publication.

All advertisements coming under the heads of Wanted, Missing Friends, For Sale, Recruits, if not exceeding twenty-four words, will be inserted for two fillings and sixpence.

Notices of Births, Marriages, and Deaths, will be charged 2s. 6d. for each insertion.

Displayed advertisements, and advertisements above one inch, four shillings per inch, for the first two insertions, and two shillings per inch for all subsequent insertions.

Business and double column advertisements, if ordered or extended periods, will be charged on a reduced scale, in proportion to the number of insertions.

## X. GASSER,

WATCHMAKER & JEWELLER, 42 BRIDGE STREET, BALLARAT.

Watches, Clocks, and Jewellery of every description on Sale.

COLONIAL JEWELLERY MADE TO ORDER.

## GREAT ANNUAL CLEARING SALE.

Unprecedented Reductions IN EVERY DEPARTMENT.

## A. CRAWFORD,

MITCHELL'S BUILDINGS, STURT-STREET, BALLARAT.

HAS secured IMMENSE QUANTITIES OF GOODS for all the leading departments (at prices never previously obtained during his long career in business) which he has determined to throw in at this sale at prices which must startle the most indifferent to a full realization of the fact he now wishes to make as widely and profitably as possible—that at this sale he is offering for the public sale, and by a special committee of the public, before the public, as no other Drapery Establishment in Ballarat has ever attempted, even in the present most desperate efforts put forth to draw out the public by unprovoked means, a magnificent lot at 2/3d; worth more to manufacturer.

A superior lot to be cleared out at 4/3d; worth more to manufacturer.

A large lot of Black Ribbon Velvets, 6d and 1s the piece, mostly cheap.

A splendid lot of superior quality Silk Scarves, all colors, 6d each.

"100 boxes of Ribbons; immense bargain, reduced to less than cost price.

Narrow widths for neck and hair, in the best qualities, almost given away.

A large lot of Colored Silk Fringes (wider widths) to be cleared out at 6/0 per yard, would be cheap at 1s 6d to 2s per yard.

Ladies' Linen Collars and Collars, in endless variety, very cheap.

A good French Kid Glove, black and colored, 1s 6d per pair.

The Counter Baskets will be heaped up with cheap lots of goods, and a large number of Baskets of Hosiery will be kept up with first-class qualities for Ladies' and Children's wear at half the regular prices.

BOOT AND SHOE DEPARTMENT.

4 trunks Ladies' best Balmain patent pumps, worn bottoms, brass heel, 12s 6d; regular price, 17s 6d.

13 trunks splendid quality Morocco Balmain, English and Colonial make, 10s 6d; regular price, 14s 6d.

A magnificent lot of Kid Boots will be shown at the door, and a lot of 6d, worth from 9s 6d to 12s 6d per pair.

5 trunks Kid Boots, for house wear, 4s 11d per pair.

8 trunks Black Boots, at 7s 6d; value never previously obtained on Ballarat.

7 trunks Seven Levant Boots, 7s 11d per pair; cheap at 10s 6d.

9 trunks of Stafford-made Levants, 10s 6d; value never previously obtained on Ballarat.

One of the very best Bluses ever offered on Ballarat. Working men will have a chance of getting a pair of best puffed Lace Boots, Yankee make, at 10s 6d.

A few trunks of Men's Elastic Side Boots, slightly damaged, at less than cost price.

A large lot of Leather Lace-ups, for Children (10 to 13 sizes), 3s 11d per pair.

Several boxes of Infants' Patent Leather Lace Boots, for sale at 2s 6d per pair.

Three hundred pairs Sample Boots, best makers, will be sold at prices that would surprise the manufacturer. They must, however, be cleared out at this sale, along with all the best goods for winter wear in stock.

Parties about to furnish, Hawkers, Country Storekeepers, and the Trade would find it immensely to their interest to take extensive advantage of this sale, as a matter of the utmost importance to themselves.

Grimean Shirts (all wool), 4s 11d, 6s 11d; about half the original price.

Genlemen's White Shirts 2s 11d and 3s 11d; worth 5s 6d and 6s 6d.

Genlemen's very superior quality, small plaits, 6s 11d, worth 8s 6d.

A magnificent lot of Tweeds, suitable for boys' clothing, on cheap every-day suits for men's wear, 1s 11d per yard; cheap at 3s 6d.

Ballarat and Geelong Tweeds, 3s 11d per yard; worth 5s at the mill.

Genlemen's Ties, Wool Scarves, Braces, Belts, Collars, &c., &c.

Boys' Felt Hats, 1s 11d each, worth 4s 6d.

FANCY, HOSIERY, AND GLOVE DEPARTMENT.

Ladies' Zenalia Umbrellas, 2s 6d, 3s 11d and 4s 11d; much under 2s value.

Ladies' Silk Umbrella, 5s 11d to 20s. All reduced to cost price.

Sewer Muslin Edgings—a magnificent lot at 2/3d; worth 6d.

A superior lot to be cleared out at 4/3d; worth more to manufacturer.

A large lot of Black Ribbon Velvets, 6d and 1s the piece, mostly cheap.

A splendid lot of superior quality Silk Scarves, all colors, 6d each.

"100 boxes of Ribbons; immense bargain, reduced to less than cost price.

Narrow widths for neck and hair, in the best qualities, almost given away.

A large lot of Colored Silk Fringes (wider widths) to be cleared out at 6/0 per yard, would be cheap at 1s 6d to 2s per yard.

Parties about to furnish, Hawkers, Country Storekeepers, and the Trade would find it immensely to their interest to take extensive advantage of this sale, as a matter of the utmost importance to themselves.

## The Great Annual Clearing Sale

Will begin on SATURDAY, 14th JULY, and will be continued until further notice.

## EXTRAORDINARY BARGAINS

May be depended on, AS THE STOCK MUST BE SOLD.

## A. CRAWFORD,

MITCHELL'S BUILDINGS, STURT STREET, BALLARAT.

ATTENTION IS CALLED TO THE

Sydney Custom-House Notice Of 21st August, 1876.

CAUTIONING THE PUBLIC THAT CERTAIN COMPOUNDS

(Not being the genuine Wolfe's Schnapps), RECENTLY IMPORTED AND ADVERTISED UNDER THE NAME OF "SCHNAPPS"

TO MISLEAD CONSUMERS, and which have been ANALYSED BY THE GOVERNMENT ANALYTICAL CHEMIST, HAVE BEEN DISCOVERED TO CONSIST OF "Different kinds of Spirits sweetened and otherwise mixed."

And are therefore liable to the highest duty imposed by law on such compounds.

THE ORIGINAL GENUINE ARTICLE Bearing the name of

Udolph Wolfe's Schnapps

Has been tested and found a "PERFECTLY PURE SPIRIT."

Entirely Free from any Injurious Ingredients, and the Public should carefully avoid all Imitations.

Sole Wholesale agents for Australia and New Zealand: M. MOSS & CO., MELBOURNE AND SYDNEY.

## 'Carbazotate of Ammonia

WAS first introduced to the notice of the profession and the public about two years ago, and has for its sponsors the elite of the profession in both London and Paris, including Dr. Dujardin-Beaumez, Bracnot, Thureau, and Manoye, of Paris; Bell, Calvert, Aspland, and Williams, of London. It is manufactured by F. G. Calvert and Co., of Manchester, for whom the undersigned act as agents in the distribution of this invaluable medicine. Its power over many diseases is usually marvellous, one dose gives relief, and one bottle usually cures Acute Rheumatism, Sciatica, Neuralgia, Lumbago, Low Fever, Ague, &c. It is given in all cases where the use of quinine is indicated, and has this advantage over that drug, that headache never follows its use.

Dr. Beaumez supplies the following cases:—No. 1.—Ague with fever. Sulphate of quinine had no effect; cured in four days. Case 2.—Same disease; cured in five days; quinine had been given for seventeen days with no good effect. Case 3.—Typhoid Ague; completely cured in eight days. Case 4.—Facial Neuralgia; instant relief, and a cure in two days. Dr. Beaumez draws the following conclusion from his long use of the drug. He says: "It is very efficacious in intermittent fever, much superior to quinine, and that by giving a teaspoonful three daily, the proxymas are instantly relieved, and no ill effects follow." It seems to be much better tolerated by the stomach than sulphate of quinine, the physiological action of which it much resembles. Sold in bottles containing 32 doses at 5s. per bottle. A liberal allowance will be made to the Trade. HOOD & CO., 147 Elizabeth-street, Melbourne.

## NEW HOME NEWSPAPER

THE LATEST AND MOST COMPLETE NEWSPAPER. Specially produced for Australia.

## THE "EUROPEAN MAIL"

The EUROPEAN MAIL is the best advertising medium for Australasia.

The EUROPEAN MAIL Office is Colonial Building, Cannon-street, London.

The EUROPEAN MAIL Victorian Agency is with Messrs GORDON and GOTCH, News Agents, Melbourne.

The EUROPEAN MAIL Local Agency is with H. P. HENNINGSEN.

### Oxygen is Life.

ALTHOUGH the modern Materia Medica includes many valuable remedies for human afflictions, it is a matter of certainty that in all cases where the animal vitality is failing, Phosphorus is decidedly superior to every other remedy at present known.

Phosphorus, such as asobolins and will produce, and it possesses the great advantage of not causing, when its use is relinquished, the slightest reaction or depression.

Dr. GAITHER—PHOSPHORUS is so sometimes said in the case of Piles and Leucorrhoea; it should be generally known that every form which SOLD PARTICLES of Phosphorus are in combination is dangerous. It is, therefore, necessary that the public should be cautioned against the use of any form of Phosphorus not perfectly soluble in water.

PROTECTED BY ROYAL LETTERS PATENT, DATED OCTOBER 17th, 1869.

(OZONIC OXYGEN),

The New Curative Agent, and Only Reliable Remedy for Nervous and Liver Complaints.

This Phosphoric combination is pronounced by the most eminent members of the Medical Profession to be unequalled for its power of replenishing the vitality of the body, by its supplying all the essential constituents of the blood and nerve substance, and for developing all the powers and functions of the system to the highest degree.

It is agreeable to the palate, and innocent in its action, while retaining all its extraordinary properties; and as a specific, surpassing all the known therapeutic agencies of the present day for the speedy and permanent cure of—Nervous Prostration, Debility of the Brain, Trembling of the hands and limbs, Impaired Nutrition, Noises in the Head and Ears, Headache, Pain in the Chest, Anxiety and Agitation, Consumption (in its first stages only), Female Complaints, General Debility, Indigestion, Flatulence, Incapacity for Study or any mental exertion, Sick Headache, Lassitude, And all morbid conditions of the system, from whatever cause. The action of the Phosphoryne is twofold—on the one hand increasing the principle which constitutes nervous energy, and on the other the most powerful blood-purifying, generating agent known; it induces a marvellous medicine for renovating impaired and broken-down constitutions. It quickly improves the faculties of assimilation to such a degree, that were years of unwholesome, enervating, and unhealthy condition have existed, the flesh will rapidly increase in quantity and firmness, and the whole system return to a state of robust health. The Phosphoryne acts electrically upon the organization, it excites nature to generate that human electricity which renews and rebuilds the osseous, muscular, nervous, membranous and organic systems. It operates on the system without exciting care or thought upon the individual as to the process. It moves the lungs, liver, heart, kidneys, stomach, and intestines, with a harmony, vigour, yet mildness unparalleled in medicine.

The Phosphoryne gives back to the human structure, in a suitable form, the phosphoric or animating element of life, which has been wasted, and exerts an important influence directly on the spinal marrow and nervous system, and stimulates the generating agent known as Phosphorus; it restores to the system that buoyant energy of the brain and muscular system which renders the mind cheerful, brilliant, and energetic, entirely overcoming all the morbidities and sluggish disposition which many persons experience in all their actions.

The beneficial effects of Phosphoryne are frequently shown from the first day of its administration, by a notable increase of nervous power, with a feeling of vigour and comfort to which the patient has long been unaccustomed. Digestion is improved; the appetite increases wonderfully; the bowels become regular; the nervous strength, showing the importance of the action of the Phosphoryne on the organs of nutrition.

Finally, the Phosphoryne exercises a certain degree of activity in the previously debilitated nervous system; it supplies all debilitated organs to return to their sound state and perform their natural functions. Persons suffering from Nervous Debility, or any of the above symptoms, who are weary and exhausted, may rest assured of an effectual or even speedy cure by the judicious use of this most invaluable remedy.

DR. BRIGHT'S PHOSPHORYNE Is sold only in Cases at 6d. by all Chemists and Patent Medicine Vendors throughout the Globe.

Full directions for use in the English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindoostani, Maldivian, Bengalian, Chinese, and Japanese languages accompany each case.

CAUTION.—The large and increasing demand for Dr. Bright's Phosphoryne has led to some unscrupulous imitations; purchasers of this medicine should be careful to observe that the words "Dr. Bright's Phosphoryne" are blown in the bottle, and that the name "Bright's Phosphoryne" is blown in the stopper of the bottle, and that the directions for use are printed in all languages on a card placed in the bottle with the Phosphoryne. Every Case bears the Trade Mark and Signature of Patentee.

WHOLESALE AGENTS FOR—Victoria:.....Folton, Grimwade, and Co., Melbourne. New South Wales:.....F. H. Nicholls, Adelaide. South West Wales:.....Ellitt Bros., Sydney. Queensland:.....Berkley and Taylor, Brisbane. New Zealand:.....Kempthorne, Prosser and Co., Dunedin and Lyttelton. Export Agents—Evans, Leecher, and Evans, 60 Bar tholomew Close.

## The "Riponshire Advocate,"

PUBLISHED EVERY SATURDAY MORNING, CIRCULATES IN THE FOLLOWING DISTRICTS:—Beaufort, Stockyard Hill, Lake Goldsmith, Salton's Gully, Main Lode, Ralston, Charlton, Waterloo, Erambonee, Bunger, Middle Creek, Sluiceway, Travalla, Burrumbeet, Learmonth, Strathain, Skipton, and Carrington.

TRADE MARK—"BLOOD MIXTURE."

THE GREAT BLOOD PURIFIER AND RESTORER.

For cleansing and clearing the blood from all impurities, cannot be too highly recommended.

For Scrofula, Scoury, Skin Diseases, and Sores of all kinds it is a never-failing and permanent cure.

It Cures Old Sores, Cures Ulcerated Sores on the Neck, Cures Ulcerated Sore Legs, Cures Blackheads, or Pimples on the Face, Cures Scurvy Sores, Cures Cancerous Ulcers, Cures Blood and Skin Diseases, Cures Glandular Swellings, Cleans the Blood from all Impure Matter, From whatever cause arising.

As this mixture is pleasant to the taste, and unobtrusive from anything injurious to the most delicate constitution of either sex, the Proprietor solicits sufferers to give it a trial to test its value.

Thousands of Testimonials from all parts.

WONDERFUL CURE OF ULCERATED SORE LEGS OF 15 YEARS STANDING.

Messrs. C. Moody and Co. Proprietors, Pharmaceutical Chemists, Gosport, write as follows:—"We have received the enclosed remittance, and have much pleasure in forwarding it to you. As we obtained the medicine from us, we can vouch for the truth of his statement.

27th February, 1875.

I, Charles Laker, keeper of the Royal Engineers' Office, at Gosport, having had ulcerated sore legs for the last 15 years, which broke out while stationed at the Camp of Good Hope. Since my return to England I have tried everything in the way of patent medicines I could hear of, and have had the best advice both in Government and private hospitals, but obtained no permanent relief, on hearing, three months ago, of your medicine, I was induced to try them, and, wonderful to relate, after having taken one large bottle of Blood Mixture, and applied two 4s. 6d. pots of your Miraculous Salve, my legs are perfectly healed.

You are at perfect liberty to make what use you like of this, as I think all who suffer from similar diseases should try the same.

THOMAS HOLLOWAY, London, February 15th, 1876.

THE GREATEST "SEWING MACHINE."

TRIUMPH OF THE AGE

We respectfully ask the public not to be misled by the puff of our "Rival of former years."

The number of Sewing Machines imported (like other engines) is an criterion of the number sold; the evidence of which lies in the fact that Melbourne is overstocked with the importations of 1874.

Reasons why the "WHEELER AND WILSON" Sewing Machine is far superior to the "Singer."

The W. and W. will do more work, and do it better. The W. and W. is much more durable. It will last a lifetime, and run for years without repair.

The W. and W. is easier to work than the Singer. The W. and W. is not so liable to get out of order.

The W. and W. has no cog wheels to wear away and break, as a Singer.

The W. and W. has no heavy machinery to tire and weary the feet, as the Singer.

The W. and W. is simpler in action. The W. and W. has less wear and tear. The W. and W. is better finished.

The W. and W. has been awarded more prizes. If any further proof is required of the superiority of the Wheeler and Wilson, it is found in the fact that Singer's agent has never accepted our challenge to have the machines publicly tested.

We warrant every genuine W. and W. machine to give entire satisfaction. LONG & CO., Australian Agents for Wheeler and Wilson's Machines.

Beware of SPURIOUS IMITATIONS. Instruction Given Gratis.

P. DE BAERZ, WATCHMAKER, Sole Agent for Beaufort.

COLONIAL LITERATURE.

COMMERCIAL.

BALLARAT PRODUCE MARKET.

A fair amount of business was transacted at the market on Wednesday, but we have no special sales to record, and prices remain unchanged. Wheat, 6s. 1d. to 7s.; oats, 3s. 10d. to 4s. 2d.; barley, 3s. 10d. to 4s.; English do., 4s. to 4s. 6d.; peas 4s. 2d.; potatoes, 35s. to 40s.; carrots, 32s. to 37s.; 6d. man- goid, 27s.; onions, 24s. to 27s.; 1 1/2 lb. to 1 1/2 lb. 5s.; 1 lb. to 1 lb. 5s.; 1 lb. to 1 lb. 5s.; 1 lb. to 1 lb. 5s.;

ARARAT PRODUCE MARKET.

The markets have been well sustained in most articles last week, with the exception of flour; a miller from Ballarat offering to undersell the local mills at the price of 4s. 6d. per bushel. The offer did not, however, lead to business, as it was found that the quoted prices here meant nothing. However, to-day these have been lowered to 11s. 15s. to 11s. 10s., with very little trade doing. Wheat, is quoted at 7s. to 7s. 3d. There has not been much doing in horse feed. Oats have been firm, with none coming in. Peas would readily command 4s. per bushel. Bran is worth 1s. 5d. and pollard 1s. 6d. Potatoes have been sold at 4s. for the Ballarat, Port Fairy being quoted at 1s. Cheese has come in in fair quantities, and has been offered at 8d. for fair quality. Fresh butter has been very saleable at 1s. 6d., and putted at 1s. 1d. to 1s. 2d. Hams and bacon have been dealt in at our quotations. Eggs are still scarce. There is no change to note in hay. We quote—Wheat, 7s. to 7s. 3d.; oats, 3s. 10d. to 4s.; pollard, 1s. 6d.; bran, 1s. 5d.; barley, 4s.; flour, 35s. to 40s.; potatoes, 32s. to 37s.; 1 1/2 lb. to 1 1/2 lb. 5s.; 1 lb. to 1 lb. 5s.; 1 lb. to 1 lb. 5s.; 1 lb. to 1 lb. 5s.; 1 lb. to 1 lb. 5s.;

BALLARAT LIVE STOCK MARKET.

MESSES. HERRBY, LEONARD AND BOWE REPORT: Fat Cattle—100 bullocks for Mr. J. Little, Eversley, at from 18s. 10s. to 14s. 2d.; 25 head for Mr. R. H. Adams, Koornoolung, and others, to 11s. 15s.; total sales, 125. Fat Calves—11 for Mr. R. H. Adams, Koornoolung, to 60s., averaging 43s.; 15 for farmers at market rates. Fat Sheep—165 crossbred wethers for Messrs. Jax. Fry and Co., Sutton Park, at 15s. 9d.; a few ewes lower; 105 crossbred wethers and ewes for Mr. D. Kinross, Learmonth, the former at 14s. 3d. and the latter to 14s. 4d.; 176 crossbred wethers and ewes for Mr. L. Henderson, Maroon, the former to 13s. 1d., the latter to 10s. 1d.; 100 merino wethers for Mr. T. Wilson, Racecourse, at 12s. 10d.; 100 merino wethers, light weights, for Mr. H. C. Walker, Bunnaloo, at 12s.; 160 crossbred wethers for Messrs. March Bros., Balmoral, at 11s. 6d.; 400 merino wethers for Mr. Jax. Malone, Sinton, at 10s. 6d.; 722 merino wethers and ewes for Messrs. J. and J. Beveridge, Middle Creek, and others, at market rates.

GEELONG LIVE STOCK MARKET.

MESSES. RICHARD WELSH AND CO. REPORT: Fat Cattle—As usual for some weeks past, we had again a short supply; quality of the major part good; competition was keen, prices ruling 35s. to 40s. per 100lbs. We sold for Messrs. C. Hall and E. Duffield, 12 head useful mixed bullocks, 13 10s. to 11 1/2; heifers, 12 to 18 10s. Fat Sheep—A moderate supply forward, quality of all descriptions; for best sorts the demand was good, at about last week's currencies; medium were hardly so firm. Our sales were, on account of Messrs. R. Fletcher and J. Stewart and Son, 95 fair quality wethers, to 11s. 9d.; 123 small medium mixed, at 6s. 10d.; a few culls, at 5s.; and outside for Mr. D. Hamilton, 56 culls wethers, at 17s. Fat Lambs—Supply about equal to demand. We sold, for Messrs. J. Stewart and R. Fletcher, 30 medium to fair, from 7s. 6d. to 8s. 2d. Store Sheep—We sold, at the yards, 1736 and 84000 cross-bred ewes, in lamb, at 7s. 6d.; and 94 ditto 2-tooth mixed ewes, at 6s.; and could place 2000 merino cross-bred wethers (3 or 4 years old), at top market value.

GEELONG STATION PRODUCE MARKET.

MESSES. GEORGE STYNOX AND CO. REPORT: Sheepskins—In the last report, we have disposed of 10,569 skins, at the following satisfactory prices:—Best butcher's skins, from 48d. to 72d. each; extra large, to 84d.; medium ditto, from 30d. to 42d. each; lambskins, from 30d. to 36d. each; station skins, from 34d. to 6d. per pound, and to 4s. each. Hides—Small consignments to hand, and buyers holding off for lower prices. We sold wet salt hides from 34d. to 4d.; good condition, 11s. 6d. to 14s. 10d.; 3d. to 5d. culls, from 2s. to 3s. 6d. Tallor.—During the week, we have sold several lots in good shipping order. Best mutton, from 13s. to 15s. per ton; beef, from 13s. to 15s. per ton; inferior, 12s. to 12s. 6d.

THE ESTIMATES 1877-8.

The Estimates of Expenditure for the service of 1877-8 were laid on the table of the Legislative Assembly on Tuesday. The public works vote and the prospecting vote are not included in the Estimates, which consist chiefly of the ordinary departmental expenditure. The total amount to be provided for is £2,930,717. In the Chief Secretary's department, for which £530,811 is required, there is an increase of £110,700, owing to the enlargement of the votes for the police and the lunatic asylums, the former absorbing £8214, and the latter £4255 extra. The expenditure on account of seab prevention and diseases in stock shows a reduction of £1590. The Minister of Public Instruction, for £434,500, which is £132,027 more than the sum required by him last year. The increase is pretty generally distributed over the various heads of expenditure. No provision is made in the estimate for the salary of Professor Pearson. In the departments of Attorney-General and Minister of Justice there are no changes to notice. The Treasurer will require altogether £174 less than was voted last year, but under the headings there are increases to notice. The vote for the Government Printer is augmented by £2289, and the defence vote is swollen by £4000, apparently in consequence of extra outlay in the purchase of Martini-Henry rifles. By savings here and there the Minister of Lands is enabled to do with £11,498 less than was asked for in 1876-7. Contract surveyors appear to have cost somewhat less, and the requirements of the Botanical and Domain Gardens have fallen from 12,140 to £8310 a reduction of £3821. Grants in aid stand at £14,400, instead of £15,750. The reduction in the demands of the department would have been greater but for additional expenditure on the Agricultural College reserve and forests, to the amount of £4222. The estimates of the Commissioner of Public Works amount only to £4,524, instead of £345,943, owing to the fact that for works and buildings merely a vote on account is asked for. In the Department of Trade and Customs there is a saving of £1481. Forts and harbours show a decrease of £4708, and marine surveys a decrease of £1200, these reductions are almost counterbalanced by the free item of £5000 required for carrying out the Licensing Act 1876. The Postmaster-General is to have £12,802 more than before, the post and telegraph officers requiring £7640, and the mail services £6092 additional. The estimate for the department of Railways and Roads is £69,918 above that of the previous year, consequent upon increased expenditure for general railway purposes. For roads and bridges only £11,150 is required, instead of £21,300. The prospecting vote being omitted, the estimate for the department of Mines is £10,000 less than that of last year.—"Argus."

UNCLAIMED LETTERS AND NEWS-PAPERS.

- Adams, Mr.; Aitken, Henry. Blackmore, P.; Boyd, A.; Barkie, James. Cooper, D. E.; Cowan, R.; Carr, John. Etherton, Mrs. Funston, Mr. Mitchell, J.; Myers, A.; McArthur, C.; Maylino, J.; Morris, Joel; McIntosh, Mr.; Maitacker, Mr. Nunn, R. Palfrey, G. H.; Pernington, D.; Roberts, William; Ramsey, H.; Rowland, H. Smith, E.; Smith, A. Mr.; Smith, Mrs.; Stewart, H.; Stewart, John. Thompson, M. A. Mrs.; Vance, Mrs. Walsh, William; Whalley, J. THOMAS LEWIS, Postmaster. Beaufort, July 20th, 1877.

THE Riponshire Advocate.

Published every Saturday Morning.

SATURDAY, JULY 21, 1877.

A Local Land Board will sit at the Court House, Beaufort, on Thursday next.

The next County Court at Beaufort will be held on Thursday 6th September. The 18th August is the last day for issuing summonses.

The Hon. Robert Simson, with his usual liberality, has forwarded £5 to the secretary of the Beaufort State School Five and Drum Band as a donation.

The tributors of the New Victoria Company, Waterloo, obtained last week 65oz 17dw. and for the first five days of the present week, 75oz 15dw.

The New Enterprise Company, Charlton, commenced work on the 13th inst with the large lifts lately procured from Ballarat, they succeeded in taking the water out in twenty-four hours and since then the pumps have been fixed in their places. On going below they found the drives standing in as good order as when left by the previous company. They are now driving for the wash which it is anticipated will be reached in a very short time, and profitable returns obtained.

The election campaign for the Shire of Ripon was opened yesterday at Stockyard Hill by Cr. Lewis, the retiring member for the West Riding, who seeks re-election, addressing about 25 of the electors at the Stockyard Hill hotel, after which a vote of confidence in the candidate was passed, and a number of those present pledged themselves to secure Mr. Lewis' return. Mr. Kirkpatrick will be the opposing candidate, and the seat will no doubt be very keenly contested. A report of the meeting appears elsewhere.

The undermentioned officers under section 6 of the Education Act Amendment Act 1876, are appointed to summon parents under the fourth section of the Principal Act in the Shire of Ripon:—North Riding, Sergeant Michael Woods; East Riding, Constable John Wilson Menagh; West Riding, Constable John O'Shaughnessy.

The receipts on the Victorian Railways for the week which ended on the 12th July were £18,301 2s. 7d. The amount received in the corresponding week of 1876 was £17,223 10s. 5d.

The death of Colonel J. Anderson, C.B., K.H., is announced in the Melbourne papers, at the advanced age of eighty-eight, having made this colony his residence for the last thirty years of his life. The gallant Colonel was the father of the Colonel Commandant of the Victorian Volunteer force. Mr. J. B. Thompson, a well-known literary man and authority on athletic sports, has also gone over to the majority.

In the Dog Act Amendment Bill the registration fees proposed to be charged are:—For every greyhound, kangaroo-dog, or lurcher, 20s.; for every pointer, setter, or retriever, 10s.; for every sheep or cattle dog, 5s.; for every bona fide watchdog, 5s.; for every pound, being one of a pack of not less than 24, 2s. 6d.; and for every other dog, 10s.

We ("Courier") regret to hear that Mr. Paul Reid, for many years station-master in Ballarat East, and now filling a similar position at Castlemaine, has been attacked with paralysis his medical attendant advises complete repose as necessary to his recovery, and he will probably therefore apply for leave of absence for a somewhat lengthy period.

Mr. Longmore (says the "Age") laid on the table of the House on Friday evening fresh regulations under the Land Act 1869. The first of these recs. part of former regulations relating to licenses to cut timber, so as to reduce the annual fee payable for the privilege to 11. The other regulation relates to fees under section 49 of the Land Act 1869, and is as follows:—"Any person holding a license, or who shall hereafter hold a license under section 49 of the Land Act 1869, situated without the boundaries of a borough, township or village, and who has, hereafter, paid in fees for occupation in the aggregate a sum equal to 11 per acre, or fractional part of an acre, for the area specified in the license, under the said section at the reduced rate of 2s. 6d. per annum, and upon the approval of such reduced rate accordingly."

Last week (says the "Dunolly Express") at the selection of Mr. John Hill, between the Archdale and Dalenyong stations, a lamb was dropped having a well-formed body with two perfect heads and necks, and eight legs, of which four were attached to the hind quarters, two to the fore; the remaining two protruding from the middle of the belly. The little animal was not allowed to live.

Some people don't believe in advertising because, they say—"Nobody reads the papers." But let them get into a scrape, and we'll see them trying around to the newspaper offices with the request—"Please don't mention that affair, it is a mistake; I don't wish my name to be published all over the country."

A terrible case of lynch law occurred in Wayneborough, Georgia, on the 23rd of April. A band of thirty men called at the sheriff's residence in that town at eleven o'clock at night, and forcing him to deliver up the keys, they proceeded to the goal, and took out of a cell a colored prisoner named Wells, charged with murdering a white pedlar. After shooting him several times, he was placed, still alive, on a side bench, and a chain being fastened round his neck, the bench was removed, when fifteen bullets were fired into his body. The chain broke, but was carefully respiced, and the body hung up again. The lynchers are unknown, and the coroner's verdict makes no suggestion.

"Attions" (in the "Leader") writes:—

"Valiant attempts have been made to show that manufacturing interests in New South Wales are in a healthier state than those of Victoria. A few days ago I met a paper-maker from the former colony, who has worked a mill, from which he turned out an average of about 20 tons a week, an amount which he could have doubled if he had found a demand for his goods. But he met with so little encouragement that he has been compelled to close his works, and, thereby, of course, threw a large number of men and women out of employment. As a contrast to this, I see that steps are being taken to establish a new paper-mill in Geelong, in which probably some of the disengaged hands from Sydney will succeed in getting work. This doesn't look as if free-trade agreed with the paper-making industry at all events."

A most astonishing jewellery robbery (says a telegram in the "Herald") is reported to have taken place at Grafton. A well-educated woman, employed in an hotel there, stole a quantity of jewellery from a doctor's wife. After the robbery, a young girl, daughter of one of the celebrated Six Hundred, who took part in the charge at Balachyna, showed the thief a love-letter from her lover, promised to send her a quantity of jewellery, and the thief, fearing detection, then sent the stolen property to the girl as if it came from her sweetheart. The young woman wore it for several days, and then the thief sent a letter to the owner, intimating wereth property would be found. The police were called into requisition, and the unfortunate girl was arrested on a charge of stealing the jewellery; but just as the handcuffs were being put on the victim's wrists, the real thief relented, confessed the whole thing, and has since been sentenced to twelve months' imprisonment.

BEAUFORT COURSEING CLUB.

The All-aged Stakes will be run for on Wednesday next on the Langi Kal-Kal estate, and the meet will take place at the Travalla Railway Station. Dogs must be in the slips at 10 o'clock a.m. sharp. Owing to the entries not coming up to the expectations of the committee, they decided to reduce the stake from £50 to £26 10s., to be divided as follows:—Winner, £12 10s.; runner up, £6 10s.; winner of three courses, £3; and winners of two courses, £2 each. The following are the entries received and drawn:—Mr. E. McLeod's b Maggy Lander agst. Mr. T. Robertson's bl and w b Bannockburn. Mr. H. McQuinn's bl d Tarragon agst. Mr. J. Smith's r d Leader. Mr. W. Lovis' bk b Nelly agst. Mr. J. Rodgers' f b Nell. Mr. B. Heburn's bk b Young Hen agst. Mr. J. Nolan's bl d Sultan. Mr. W. Anderson's f and w b Lucy agst. Mr. B. Heburn's bk and w b Honeycomb. Mr. T. Robertson's bk and w d Kelpie agst. Mr. J. Smith's bk and w d Raglan. Mr. J. Corhill's y and bl b Minnie agst. Mr. J. Smith's bl d Pablo Rank. Mr. J. Smith's bk b Fly agst. Mr. F. Beggs' w and bk d Bevis. Mr. J. Cowan's f b Rose agst. Mr. J. Smith's w and f d Cato. Mr. W. Smith's f b Tybria agst. Mr. W. Anderson's bk d Black Hawk.

MAIN LEAD.

FROM OUR OWN CORRESPONDENT. A rush has taken place behind the Public Hall and opposite Gibson's store at this place. Some time ago a Chinaman washed the bottom of his shaft and came on some nice nuggets, since then John has been working away quietly, however, it eked out and a rush of celestials took place. There are over a dozen claims now in full work and more are pegged out. The working is close to the Old Lead diggings and is either an outside run or a branch from Musical Gully.

The workings at Daryman's is looking up, Gibson's abandoned claim has been taken up by a fresh party who went down the shaft on Saturday last, drove out two tubs where Gibson left off and got 5 dwts. of gold, they are on the run with three feet of wash dirt. Other abandoned claims have also been taken up in the same place.

We are glad to see that the Hon. F. Longmore has taken up the splitter's case and got the licenses reduced from 10s. to 5s. per quarter. Success to our member! He has put in the thin end of the wedge for the working man and I have not the least doubt with the help of the able strikers he has to back him up, the wedge will be driven home.

WARDEN'S COURT.

THURSDAY, JULY 18TH, 1877. (Before Warden Webster.) George Morris v. Thomas Gibson—To claim partnership in a 13oz nugget of gold found by the defendant on Sunday, 1st July. Mr. Turner for complainant. George Morris deposed to having purchased a share from, and to have been in partnership with the defendant and two others in a mining claim at Daryman's Gully from 28th May to 25th June; they then divided the proceeds (a few shillings) between them. They did not dissolve partnership on the last mentioned date, but very little or no work was done between them and the 1st July (Sunday). On that day they agreed to go speaking, and were all together when the defendant picked up what at first appeared to be a tonstone, but on closer examination found it to be a 13oz nugget.

By the Bench: Did not, between the 25th June and 1st July, ask the others when they were again going to work. Mr. Turner submitted that the defendant had offered his claim £2, but he being in partnership, of course, claimed a "fill share." But the Crown could claim the "gold" under Charles II it being found on a Sunday. The Bench ruled that there was no mining partnership existing at the time, the nugget was found, even if there was, they were only partners in their claim; and as to a party going speaking, each one is entitled to what he can find, and the defendant offering the £2, was only an act which a successful one in such an expedition would be likely to offer one less fortunate.

Case dismissed, no costs allowed.

NOTE THIS.—Why should I be without a PRANO or ORGON, when I can get my choice of a splendid assortment at FAR LESS than Melbourne prices, and pay for them by monthly instalments, or, if preferring a liberal discount, for cash at R. H. Sutton and Co's, new, Pine-street, Melbourne. Warehouse, 31 Sardin-street, Melbourne.

POLICE COURT.

BEAUFORT, THURSDAY, 18TH JULY. (Before Graham Webster, Esq., R.M.) Crown Lands Bailiff v. Charles Robertson—Removing timber off Crown lands without a license.—It was shown that the father of the defendant had a license at the time, and the defendant had pleaded guilty with a fine of 10s. and 2s. 6d. costs. Harris and Troy v. Sutherland—Goods supplied, £8 5s. 4d.—Order for amount and 2s. 6d. costs.

Edward Birmingham, an orphan 15 years of age was brought by under arrest and pleaded guilty of stealing from the dwelling of John Doran, bootmaker, Neill-street, Beaufort, a pair of blankets, two pairs of boots and other articles valued at £1 19s. John Doran deposed to having been an inmate of the Beaufort Hospital for a few weeks, and had left his place secretly fastened; on his return he found that "the things in his place had been upset; he missed two pairs of boots, etc., and had never given the defendant or any other person authority to remove them. The accused made no defence, Sergeant Woods informed the Bench that the lad had been taken from the Orphan Asylum and apprenticed to a person at Ararat, but owing to ill-treatment ran away, he had been recently employed by a blacksmith in this town as "striker." In reply to the Bench, the defendant elected to have the case tried here, and was sentenced to one month's imprisonment.

Ali Gon was brought up charged with stealing from the dwelling of Mr. Galway of Charlton about 30lbs. of flour, a ham and clock.—Sergeant Woods stated that the accused was a notorious thief and the constables had had desperate work to secure him. Ellen Galway deposed that her husband was working at Dunkeld, remembered 9th July left the house securely fastened by a padlock. The clock (produced) was her own property also the ham which she had cured herself. Constable Donnelly gave evidence as to going in company with Constable Love and of the finding of the clock and ham. The interpreter not being able to interpret to the satisfaction of the Bench, the case was postponed until the 3rd August.

RIPONSHIRE REVISION COURT.

The court for the revision of the Riponshire voters' list sat at the Shire hall on Monday.

Present.—The President (Cr. Adams) in the chair, and Crs. Wotherspoon, Beggs, Lewis, and Tompkins. Mr. Kirkpatrick, of Stockyard Hill, appeared and objected to the names of Donald and Clatherine Cameron being placed upon the roll as joint occupiers for land at Yangenahill. As the objection had not been lodged in writing and the Council had placed the names on the rate book as joint occupiers, the Court refused to alter the rate book except upon objection being made in accordance with the Local Government Act.

Hugh Cushing applied to have one vote added to his name, on the grounds that his brother, John Cushing, not being entitled to be enrolled, as he had sold his qualification to him. The Council having struck John Cushing's name from the rate book since the 30th ult., on the above grounds, his claim was allowed, and John Cushing's name was struck from the list as his name did not on that day appear upon the rate book as entitled to a vote.

Hugh Sutherland made a similar application, and was dealt with in the same way. William Chalmers applied to have his name entered on the voters' roll as occupier of the Societies' Hall, Beaufort. The claim was allowed and ordered to be inserted.

W. Geep's name was placed on the roll in lieu of that of H. Williams as occupier of a dwelling in Pratt-street, Beaufort. Several alterations had been made in the rate book since the list was made up, and no objections being made the Court placed them all upon the list.

The following persons applied to have their names placed upon the roll as joint occupiers in land stated in their several applications, and were disallowed as the Court considered there was not sufficient proof before it that the applicants were liable to be rated:—West Riding—Francis Beggs, jun., Moalack; Philip Anderson, Baanag, Jessie McIntyre, Mallock; Alexander McKenzie, Yangenahill, North Riding—James Thompson and William Tanner for Societies' Hall, Beaufort; Alexander McKenzie, Travalla, East Riding—Alexander McKenzie, Lillorie.

The lists as revised and corrected were then signed and completed. The members of the different ridings who were present, directed that steps should be taken to recover from defaulting ratepayers general and water rates not yet received.

THE RUSSO-TURKISH WAR.

OFFICIAL TELEGRAM.—The following has been received from the agent-general by the Government:—

LOXDOX, 16th July. The Russian operations in Armenia are unsuccessful, and the siege of Kars has been abandoned. The Turks are victorious at all points.

Russian operations in Bulgaria are progressing slowly. Great cruelties are reported to have committed by the Russians on the Moslems in Bulgaria.

Arms taken from the Moslems by the Russian soldiery have been given to the Christians.

REUTER'S SPECIAL TELEGRAM.—SARAJEVO, 16th July. Eighteen battalions of Russians have crossed the Balkans, and arrived unopposed at Saghna.

The Russians have arrived at Rasgrad, and are cutting the Railway between Yarna and Ruestchik.

A Turkish frigate has bombarded Sinferopol, in the Crimea.

The Russians have raised the siege of Kars. Mukhtar Pasha and the governor of Kars are preparing to attack General Melnikoff's army.

Russian reinforcements are proceeding by forced marches to Armenia.

The heat in London was most intense on the 3rd and 4th inst, coming very suddenly after cold weather. Sir Henry Pelly, Bart., M.P. for Huntingdon, shipwrecked on the coast of the Malay Peninsula, on the 18th inst. The vessel was the "Dunolly," of 1000 tons, and was bound for London.

STRAY NOTES.

It seems to be the intention of the Education Department to punish the school children of our State school for another six months by compelling them to receive their divers punishment, catch extra colds and destroy their books in that tumbling down structure known as the Baptist Chapel, as they have last week had another extension of the lease for that period exacted by the trustees. Although our representative is one of the leading members of the "people's ministry," the Mayor seems to monopolise all the funds for building purposes in his own favored district and still continues to assure his constituents that there is plenty of money to satisfy all their demands, whilst we have been soliciting, begging and praying for the last four years for an extension of school accommodation, so as to have our children educated with some show of decency, comfort and under the control of a head teacher, and not have to wander backward and forward to have their progress reviewed from time to time, which by the late ukase issued, will cause the peregrinations of the innocent lambs to be greatly increased. Just fancy Master Brown and Jones receiving a complimentary ticket to leave the school and visit the head teacher, a distance of about 200 yards. What a fine chance to enjoy a game of marbles, hop-scotch, chivy, dunks or tops to while away a part of the oppressive school hours and relieve their innocent minds of the pleasure and excitement of the coming interview with the head teacher and his amusing cane, as he now is to have all the pleasure of such affectionate re-unions. The assistant teachers in the Ballarat district have called a meeting, and seem to think they have been greatly injured by the order that head teachers are only allowed to punish in future. Still we are not quite forgotten by the Government, they sent one of their well-paid officials this week who took a few measurements of the present school and grounds, I presume to quiet our energetic Board of Advice, it could be for nothing else as they have plans already prepared for the necessary extension, but when is it to be done, that is the question? By the way we hear nothing of the copybook scandal lately, it has gone the way of all things as usual.

I suppose the Government intends to expend about £100 upon improvements at an railway station. I understand they intend to form a footpath on the south side of the station to the gate opposite Harris and Troy's premises, also a gate from the Golden Age Hotel into the station ground and some other necessary improvements.

The Mre Brigade will hold a demonstration and competitive practice on Friday the 3rd prox, when it is expected that the Ararat Brigade will send a team to indulge in a friendly contest with our local brigade who are endeavoring to induce the Water Commission to move the fire-plug now opposite the Common office to the corner of Pratt and Lawrence streets, near the "Advocate" office, as at that point it would command all the buildings in the former street which are now totally unprotected and also enable the brigade to command the best 200 yards run in the township. I hope they will succeed as it will afford a greater protection to property than where it is at present.

The trustees of our cemetery are making many improvements in it in the way of tree planting, etc., which I will notice next week. It will be a great misfortune and disappointment to the ratepayers of this riding if we do not have a contest next month for the seat about to become vacant in our council. So many are waiting anxiously to be informed of the delinquencies of our sitting members which it is a great wrong to deprive them from learning. I trust some good patriot will throw himself into the breach and gratify their curiosity for charity sake. N.N.

WEST RIDING ELECTION.

A meeting of ratepayers of the West Riding convened by circular by Mr. Lewis the retiring member who offers himself for re-election, was held yesterday afternoon at 3 o'clock at Mr. R. Kirkpatrick's hotel, Stockyard Hill, about 25 ratepayers being present. On Mr. Lewis' request Mr. G. Newall took the chair, who said that all present were well aware of the object of the meeting and he would therefore at once call on Mr. Lewis to address the ratepayers; he had no doubt but a fair hearing would be accorded him, the meetings at Stockyard Hill were always well conducted. Mr. Lewis then briefly addressed the meeting, stating that he had been a councillor for the last eight or nine years, that he had been requested by his friends to offer himself again for re-election and had consented to do so; he had always taken great interest in local affairs and attended to the duties of the shire, but he would prefer not to say any more, but rather that those present should ask him questions which he would be quite willing to answer. In answer to Mr. Wm. Sutherland he said that he would be very willing to have the rate reduced from 1s. to 9d. in the £, but so far the Council had not seen their way clear to do so on account of the great improvements required in the shire, and a reduction in rates would also reduce the amount received from the Government. To Mr. Hannah he stated that land should be taxed according to its value, but the Council could not do anything in that, in the Local Government Act the law is laid down. To Mr. Bain, he said that he would not advocate any remission of rates paid for the neglect of thistle cutting, it was only through the strict carrying out of the law in this shire that it is at present so exempt from thistles in comparison to the adjoining shires of Ararat and Lexton etc. In reply to Mr. Bain he said that the Engineer has no power to materially alter specifications or works after contracts are accepted, without consulting Councilors in the matter. The Engineer had to supply a report at every Council meeting which is published and if anything was wrong the ratepayers could complain. Mr. J. H. Cameron who had been contracting for the shire for a number of years stated that he never knew of any specifications having been altered after the contracts were once accepted. Mr. Hannah proposed Mr. Lewis as a fit and proper person for a councillor for the West Riding and Mr. Stevenson who expressed himself much pleased in seconding the motion.

ARRIVAL OF THE ENGLISH MAIL.

ABELLAIDE, FRIDAY MORNING. The R.M.S.S. Avoca reached King George's Sound on Sunday morning, July 15. She experienced a head sea with squally weather. She left the Sound at 10 p.m. the same day, and experienced a gale after leaving. She anchored at Glenelg at 11 o'clock.

Her Majesty is in good health at Balmoral, whither she proceeded with Prince Leopold and Princess Beatrice on the 18th May. The Court will return to the south in a fortnight. The Queen gave a garden ball to the country and servants at Balmoral on the 2nd inst.

The Prince and Princess of Wales are in London. His Royal Highness met the Princess at Paris, on her return from Athens, on Monday last.

Intelligence reached the Admiralty this week of an engagement having taken place off the Peruvian coast, between Her Majesty's ships Shah and Amethyst, and the Huascar, a turret ram, built two years ago in England for Peru. Her crew had joined a revolutionary president, and committed piratical acts against British subjects. She was met with by the two British ships off Ilo on the 29th May, and engaged. She made her escape after dark but was so damaged that she had to surrender to the Peruvian squadron. There were no casualties on the British side. Particulars of this affair are looked forward to with great interest, as it is the first instance in which any of the ironclads of Her Majesty's Government have been in action.

A German surgeon from Ardahan reports that after capturing that fortress the Russians plundered every house and violated every woman. They set fire to the hospital, and the wounded soldiers perished in the flames. Three hundred English officers have offered their services to Turkey.

A serious robbery of securities, principally Egyptian bonds, was committed in the express train for Paris, between Calais and Boulogne last Saturday morning. Scrap to the value of £100,000, forwarded from London, was stolen from the van under seal.

Several thousand men are employed in throwing up defences in Constantinople. Prince Reuss (German) Count Zichy (Austrian), ambassadors at Constantinople, are united in endeavoring to influence Turkey in favor of peace. The Grand Vizier Edhem Pasha and Salvet Pasha are in favor of making terms with Russia after the first decisive action.

Count Schewaloff returned to London from St Petersburg yesterday. It is believed that he brings assurances that Russia will avoid interfering with British interests.

Temple Bey, nephew of the Bishop of Exeter, and physician to the Sultan, has been summarily ordered either to go to Batoum, or quit the Sultan's service, for informing him that many of the shells fired by his troops on the Danube contained no powder.

Moussa Bey, with 4,000 Kurdish cavalry, was utterly routed at the Begli on the 31st May by a Russian movable column of cavalry, infantry, and artillery. They were attacked at midnight on three sides. First accounts stated that only 200 escaped. The Russians only lost six killed and 30 wounded; 83 Kurds were left dead on the field. Several mountain guns, ammunition, waggon, and standards, besides prisoners, were taken.

Holloway's Pills.—The Liver, the Stomach, and their ailments.—Alterations of temperature, muggy weather, a troubled mind, sedentary habits, excesses of the table, and a gay, reckless mode of life exert the most deleterious influence over the liver and stomach. When once these organs are fairly out of order, great inroads are quickly made on the general state of the health; the constitution, which has been deprived of two of its noblest organs, soon gives way, and diseases quickly follow, from which, if neglected, the worst consequences will inevitably result. If a course of Holloway's celebrated Pills be persevered in, the system will gradually begin, as they have done for many years past, to purify the blood of the system of all morbid humors.

PARLIAMENTARY INTELLIGENCE.

LEGISLATIVE COUNCIL.

TUESDAY, 17TH JULY.

The President announced the re-election of the Hon. H. Cuthbert, who, having been introduced by Messrs. Cumming and Belcher, took the oaths and his seat.

Mr. Cuthbert gave notice—"That on that day week he would move for leave to bring in a Bill to Improve the Jurisdiction and Procedure of the Supreme Court." (Hear, hear.)

The House adjourned at a quarter to 5 at pleasure, to await the transmission of the Supply Bill from the Legislative Assembly.

At 5.58 the House re-assembled, and the bill authorising the appropriation of £710,000 from the consolidated revenue for the service of the year 1877-8 was received from the Legislative Assembly, and passed through all its stages without amendment.

At 6.20 the Governor attended, and in the presence of members of both Houses assented to the bill in the name of Her Majesty.

The House then adjourned till Tuesday next.

LEGISLATIVE ASSEMBLY.

TUESDAY, 17TH JULY.

Mr. Bird asked the Minister of Lands if he was aware that the police receive a fee of 5s. for every conviction they obtain of persons found cutting and removing timber from Crown lands without a license.

Mr. Longmore said, in reply, that the police were receiving 5s. for each conviction. He had ordered the reduction of the license fee to one-half, so that now there was no excuse for breaking the law.

Mr. Tucker asked the Minister of Lands if he would give instructions to have the return to an order of this House on the 17th June, 1875, for the enumeration and definition, by means of a map for each municipal district, of every surveyed road and every reserved road, and every proclaimed road, street, or public highway, within every municipal district in Victoria, completed and furnished without further delay.

Mr. Longmore stated the return had gone astray in the Treasury. He thought that by the end of the year 500 parishes would be proclaimed.

Mr. Finlinton asked the Commissioner of Customs—If any duty was paid on two locomotive engines imported by or for the Meama and Denitiquin Railway Company, and which were erected at the Williamstown workshops. Is any duty paid on locomotive engines imported for or by the Victorian Government, and if so, how much. Is duty paid on all or any dutiable material, plant, or articles imported by or for the Victorian Government.

Mr. Lalor, in answer, said that in 1875 the separate portions of two locomotives were allowed to land duty free, and they were erected in the Government workshops. In 1876 the engines were sent up on the Government lines to Denitiquin. The Government engines, or any portion of them, were, by act of Parliament, imported free.

The House went into Committee of Supply.

Mr. Berry moved that the sum of £710,000 be granted for the use of Her Majesty.

Mr. Service would like to know the true reason why the teachers of the State schools had not been paid their salaries for the last month. He thought that it was because supplies were not asked for beyond the month of June.

Mr. Berry said that the hon. member for Maldon was quite correct. Former governments had only asked for supplies for twelve months instead of for thirteen months. He hoped to be in a position to obviate this difficulty further on in the session.

The resolution was reported to the House. The bill passed through all its stages, and was sent to the Upper House.

Mr. Woods moved the second reading of the Railway Construction Bill, and in doing so he thought a word of explanation was due to the House on the apparent haste in bringing forward the bill. The work should have been done by the last Parliament. But there was another motive for bringing the matter on. The money had been voted long ago, and but for the supineness shown by the late Government, a large portion of the money would now have been circulating.

From South Australia he had learned that 128 miles were now being constructed, and 277 miles were about to be built. In New South Wales 128 miles were being constructed, and 344 miles would be tendered for shortly. Therefore he thought the Government would do well by pushing on the proposed works and circulating the money voted as early as possible, so as to keep the bone and sinew in the colony.

The policy of the country should be to connect Melbourne with the Darling, so as to catch and grapple with the Riverine district. The sister colonies were bidding high for the trade, and unless Victoria bid higher she would, notwithstanding her greater facilities for exporting, lose the race. The various lines in connection with the railway loans had been added to by loans from the Land Loan, which had already been exceeded. The Beechworth line had exceeded the contract by £35,000. There were accounts in the office for surveying lines amounting to £250,000. The amount of the liquidation account which closes in 1880, was £43,000. The total amount at present at the disposal of the Government for the construction of railways amounted to £1,251,000. The Government found that they had been not only running out the new lines, but they had also been running out of rolling stock. If £20,000 per year were allowed every year for the renewal of rolling stock it would not be found too much. It would be absolutely necessary here very long to build a station for Melbourne, and do away with the shelter sheds at present doing duty for the Spencer-street station.

After an attempt to obtain an adjournment had failed, the bill was read a second time, and committed *pro forma*.

LEGISLATIVE ASSEMBLY.

WEDNESDAY, 18TH JULY.

Several petitions were presented against the Railway Construction Bill.

Dr. Madden moved that the second reading of the Amended Dog Act Bill be discharged from the notice paper. He did so as he considered that the bill ought to be originated in committee.

The Speaker stated that the present bill was introduced to the House by a message from the Governor, but inasmuch as the revenue went to private local bodies, he thought it was optional with the introducer of the bill whether he went on with the bill or not.

The bill was withdrawn by leave of the House.

The Justices of the Peace Act Amendment Bill was further considered in committee and reported with amendments.

The report was considered and the third reading of the bill was made an order for Wednesday next.

The discussion on the Railway Construction Bill was resumed.

The first schedule, referring to the Melbourne to Oakleigh line, was postponed.

The second schedule, viz. from Avenel to Shepparton was agreed to; Mr. Woods promising a further opportunity for discussion.

The third schedule, viz. Dunolly to St. Arnaud, was then moved.

Mr. Finlinton advocated the Avoca route, which he said contained a number of agricultural settlements, while a line from Dunolly would traverse comparatively barren country. The action taken by Ballarat was in favor of national, not local interests. Ballarat was taken by surprise, because almost every member of the Ministry had expressed opinions favorable to Avoca. Four out of five of the St. Arnaud people preferred the Avoca route.

Mr. Longmore said he had inspected the routes. He was formerly in favor of a line from Ballarat to Avoca *via* Beaufort, but the project was opposed by the very people who now advocated the Avoca route to St. Arnaud. The line by Dunolly would be five miles shorter. The country on either route would not justify an expenditure of £5000 to open it up. The object of the Government was to open up the best and cheapest communication with the settled country beyond St. Arnaud. The expense *via* Dunolly would be upwards of £17,000 less than by way of Avoca. He was quite aware that he had arrived at a decision which had made him unpopular, but he was convinced that it was the best for the country.

The Dunolly route was carried.

All the other lines, including that from Oakleigh were carried, and all the clauses passed the first reading.

The detailed schedule relative to the Oakleigh line was postponed.

The Goulburn Valley schedule was carried, and that of St. Arnaud postponed.

LEGISLATIVE ASSEMBLY.

TUESDAY, 18TH JULY.

Mr. Bosisto asked the Treasurer whether he was aware that the price charged at the Melbourne Mint to purchasers of silver is 5s. 1d. per oz. standard quality, and in other parts of the world is 6d. per oz. less; and whether he would direct that the price be reduced to the English rate, viz. 4s. 6d. per oz. The question vitally affected jewelers in the colony.

Mr. Berry, in reply, said that the master of the Mint had reported that he had received 5s. 6d. per oz. for fine and 5s. 1d. standard. He (Mr. Berry) would look into the matter for himself, and would be able to acquaint the House with the result.

The House went into committee on the Public Works Loan Bill, estimate of expenditure. Several resolutions were agreed to, and after considerable discussion on the item for the building of the new law courts, Mr. Kernot maintained that the stone selected was unsuitable for the work.

The resolutions were reported, and the bill passed through its first reading, the second reading was made an order for next Tuesday.

Other resolutions affecting the estimated expenditure for public works, and for the Victorian Railways, were agreed to.

The House went into committee upon the further consideration of the Railway Construction Bill.

Mr. Woods proposed the first schedule on the Oakleigh line.

Mr. Munro, as an amendment, proposed the outer circle route in the place of the direct line from Melbourne to Oakleigh. He quoted figures to show that the Gippsland line would result in a loss of £30,000 per annum.

Sir John O'Shanassy opposed the direct line. He contended that from the insufficiency of information before the House respecting it, the country would not be justified in incurring so large an expense. He was inclined to favor the outer circle, as the only choice of two evils.

Mr. Woods, in reply, said that the Government proposed the line because it was the shortest, and offered the least interference with private property.

Mr. A. K. Smith considered the line proposed would be a loss to the country. The best plan, he thought, would be to take running powers over the Hobson's Bay line.

After further discussion, the debate was adjourned, on the suggestion of the Chief Secretary; and the House then adjourned till next Tuesday.

THE FLOGGING QUESTION IN STATE SCHOOLS.

The following is a copy of the new regulation made by the Minister of Education with reference to the use of the cane in State Schools:—"The attention of the hon. the Minister of Public Instruction has been called to the extreme severity with which corporal punishment for trifling faults is frequently inflicted upon children by subordinate teachers in the State Schools. The Minister directs that for the future corporal punishment must only be inflicted by head teachers, except in cases where his special permission for a different arrangement has been obtained. Subordinate teachers are to report misconduct of any pupil to the head teacher, who alone will be held responsible for his due correction. It is further directed that a book be kept in each school, in which the teacher must enter the name of each pupil offending and the offence for which he is punished. It is also directed that corporal chastisement shall only be resorted to 'when all other means have failed,' and when administered should be surrounded with as much ceremony as possible, so as to leave a greater impression upon the mind than on the body. The Minister considers those teachers best qualified to perform their duties who are able to keep their pupils in a thorough state of discipline without resorting to too frequent use of corporal punishment. For the information and guidance of teachers, extracts upon this subject are directed to be printed upon a separate sheet, from the fifth edition of 'Corporal Punishment,' from the Manual of Method and Organisation, adapted to the Primary Schools of Great Britain, Ireland, and the Colonies,' by Robert Robinson, Inspector of National Schools, Ireland, and sanctioned by the Commissioners of Education in that country. The Minister of Public Instruction strongly advises each head teacher to secure a copy of the abovesaid invaluable work."

THE FLOGGING QUESTION IN STATE SCHOOLS.

The following are the extracts referred to in the above:—"Punishment.—In the selection of the punishment, and in its mode of administration, the teacher should exhibit peculiar judgment; but, above even if he should exhibit temper and humanity; corporal punishment cannot be wholly dispensed with, but it should not be inflicted until all other methods have failed. Teachers are to be very careful in obeying this rule. It is very common to see them striking the boys on the head or across the ears with a cane or pointer, or boxing their ears with violence, and this, perhaps, from some very trifling cause. Such conduct is unpardonable. "Corporal punishment ought not to be inflicted hastily, or with an improper instrument, or on a wrong part of the body—never about the head; but it is wonderful how very little of corporal punishment is required for the maintenance of order and discipline. In the very best schools with which I am acquainted it is almost unknown. "Punishment is often a substitute for discipline.—It is only when discipline fails that corporal punishment becomes necessary. The infliction of punishment, if it does anything in relation to the system of discipline in a school, is that the system is bad or ineffective. In nine cases out of ten punishment is resorted to as a substitute for discipline rather than as a means of sustaining it. If the government of a school is unvarying and correct, severity will very seldom be required; and if, required, the punishment is inflicted more in sorrow than in anger, and with the necessary solemnity, the necessity for it will soon disappear. Children should not be punished when the wrong was not intentional, otherwise they would see no difference in voluntary and involuntary acts. Their sense of justice would be blunted, and their faith in correctness of principle would be destroyed. "Should be by the Principal Teacher.—The chastisement of a child should in all cases be inflicted by the principal teacher. When a pupil misbehaves, the duty of an assistant teacher is simply to represent the misconduct to the principal teacher, on no account taking on himself the function of measuring or inflicting the punishment, or in any manner abusing or ill-treating the offending child. "Rewards.—As children must be reprimanded and otherwise punished for faults, so ought they also to be rewarded for good actions, and for the value of the performance of duty, but as a motive for the performance of duty, but as a means of marking the worth of their good actions as well as their faults. Remember, however, that a frequent resourse either to rewards or punishment deadens their effects. A child who is frequently subjected to punishment will, in the end, become hardened and callous, and he who is always receiving rewards is always expecting them. He will grow so accustomed to these stimulants that he will soon be unable or unwilling to act without them. Praise and blame, and species of rewards and punishments, and, therefore, they also must be administered sparingly. A child may be called good or bad, pleasing or disagreeable, until he will listen to either character with indifference. "Value of Discipline.—By the steady and temperate enforcement of discipline some of the greatest benefits of education are reproduced. The habits of regularity and discipline which pupils acquire in a well-ordered school are even more valuable than their literary advancement. Reading may lead to mischief, knowledge may be abused, skill may be misdirected; but the fruits of early obedience, regularity, and discipline are everlasting and ever beneficial."

OXYGEN IS LIFE.—Dr. Bright's Phosphodyne.—Multitudes of people are hopelessly suffering from Debility, Nervous and Liver Complaints, Depression of Spirits, Hypochondria, Timidity, Indigestion, Failure of Hearing, Sight, and Memory, Lassitude, Want of Power, &c., whose cases admit of a permanent cure by the new remedy Phosphodyne (Ozonic Oxygen), which at once allays all irritation and excitement, imparts new energy and life to the enfeebled constitution, and rapidly cures every stage of those hitherto incurable and distressing maladies. Sold by all chemists and druggists throughout the globe. CAUTION.—Phosphorus is sometimes sold in the form of Pills and Syringes; it should be generally known that every form of these solid articles of Phosphorus are in combination is dangerous. It is therefore necessary that the public should be cautioned against the use of any form of Phosphorus not perfectly soluble in water.

Tenders, ARE requested for delivering 300 CORDS of FIREWOOD, viz. St. Enoch's household, Tenders to be addressed and sent to Mr. Geo. Robertson, St. Enoch's, Stockyard Hill, on or before 8th of August, from whom all particulars can be obtained. J. & W. ADAMS. St. Enoch's, July 20th, 1877.

Shire of Ripon. NOTICE is hereby given that LEGAL PROCEEDINGS will be taken on and after the 25th inst. to RECOVER UNPAID RATES. By order. W. R. NICOLL, Collector. Riponshire Offices, Beaufort, 10th July, 1877.

Beaufort & United Common. NOTICE is hereby given that all FEES DUE for depositing on the above Common MUST BE PAID by the end of the current month, otherwise legal proceedings will be taken for recovery without further notice. By order. J. W. BROWNE, Secretary.

"EVER READY." Amusement for the Million. IMMENSE & UNPRECEDENTED ATTRACTION. COMPETITIVE PRACTICE, GORGEOUS TORCHLIGHT PROCESSION, GRAND CONCERT and B A L L. Fire! Fire!! Fire!!! THE ANNUAL DEMONSTRATION of the Beaufort Volunteer Fire Brigade Will be celebrated on FRIDAY, 3rd AUGUST, 1877.

Head Office—Queen Insurance Buildings, Queen-street Melbourne.

H. P. HENNINGSEN, BOOKSELLER, STATIONER & NEWS AGENT, HAVELOCK-STREET, BEAUFORT.

PARLIAMENTARY INTELLIGENCE. LEGISLATIVE COUNCIL. TUESDAY, 24th JULY. Mr. Guthbert introduced a bill to improve the jurisdiction and procedure of the Supreme Court, and its second reading was fixed for that day fortnight.

LEGISLATIVE ASSEMBLY. TUESDAY, 24th JULY. Mr. Lalor brought up the report of the Elections and Qualifications Committee on the petition of Mr. Lock against the return of Mr. D. M. Davies, one of the sitting members for Grenville.

The discussion of the committee in this case was given to the following effect:—That Mr. D. M. Davies was not at the date of the election a minister of a religious denomination, and was therefore, July 24th, a member of the Legislative Assembly in this present Parliament.

Mr. Dow presented a petition from selectors and others at Natto Yallock in favor of the Avoca route for the railway to St. Arnaud. Mr. Longmore presented a petition from Glenorchy in favor of the Danully route.

The House then went into committee on the Railway Construction Bill. The discussion on the first schedule—Gippsland, Melbourne to Oakleigh (direct line)—to which an amendment had been moved by Mr. Munro in favor of the outer-circle line, was resumed by Mr. Longmore.

Mr. Dixon strongly condemned the course pursued in reference to the Gippsland railway, of constructing the more distant portions of the line before communication had been established with Melbourne. An expenditure of £200,000 had thus been rendered entirely unremunerative up to the present time; and a further expense of £70,000 or £80,000 had been incurred in the cartage of rails and other material.

Mr. Lawson said of all proposals to connect Oakleigh and Melbourne the Government one was the worst. It would interfere with the Harbor Trust works, and also be an act of vandalism to the Botanical Gardens.

Mr. Berry defended the proposal of the Government. He had heard no arguments to induce the Government to depart from this scheme. All alternative lines had been considered and rejected, including the outer circle, and the Government proposition as amended was carried by fifty-four to twenty-three.

LEGISLATIVE ASSEMBLY. WEDNESDAY, 25th JULY. In reply to Mr. Bird. Mr. Berry said the Government would introduce a bill this session to amend the Friendly Societies Act.

Mr. Lawrence asked the hon. Chief Secretary if he will during the present session, bring in a bill to amend the Public Health Amendment Act, No. 310, so as to give local boards of health the power of recovering from the owners of the premises upon which notice has been served, as provided by the 47th section of the act, the equitable compensation payable under the 48th section thereof.

Mr. Berry promised to bring in an amending bill at an early opportunity. Mr. Levick asked the Minister of Lands whether he would endeavor to devise some means whereby the delay which occurs in issuing "permits to occupy" to land selectors can be remedied. In doing so, the hon. member alleged that even when there was no technical objection to the issue, a delay of seven or eight weeks usually occurred.

Mr. Ramsay, on the motion that the second reading of this schedule being proposed, said he supposed that these lines meant their construction to the exclusion of all other proposed lines. He felt convinced that the Gordon line never could pay expenses.

Mr. Lalor said that if there was any district in the colony which required railway communication it was Gordon. The soil was the richest in the colony, whilst the timber would prove invaluable for mining purposes, and could, if the line was constructed, be supplied very much cheaper than at present. The population was exceedingly dense, and numbered about 15,000 persons, who would be accommodated by this proposed line. He believed that even if this line were never extended beyond Gordon, it would prove a payable one.

Mr. Service complained that the committee had had the new proposals thrust upon them without being able to sift the statistics connected with the lines. He regretted that the second reading of the Queenscliff line had been carried, but he thought that the Gordon line should not be passed all in a hurry. The former line had been before the House as introduced by former Governments, and so, perhaps, the committee had not so much to complain of. But he intended to oppose the Gordon line until the Darling trade had been gathered into Victoria by means of extending railways from the main trunk. He should like to see a line to Wentworth.

Mr. Berry thought that the objection of the hon. member for Maldon was not pertinent at present, as the line to Wentworth would cost a million or a million and a quarter. With regard to Gordon, he might remark that the line was desirable in many respects, and had been considered in other bills besides the present one. It had been admitted on all sides that it would be desirable at some time to construct a line from the farm to Melbourne. The Government in proposing the line, and considering the small amount at their disposal, thought that they could not do better than construct the line to Gordon.

Mr. Cooper thought the present time was not suitable in which to argue the points of a national line such as the Wentworth line was because only some £50,000 was at the disposal of the State. The farm of Gordon, which had hitherto been worked up in a corner for so long, should be considered, more especially as it was shown on the face of it that the Gordon line would pay. Some of the land in the locality had been sold for £63 per acre, and its price showed that the land was exceedingly fertile. Many of the farmers are selectors, and were doing well, but they required railway accommodation.

Mr. Berry, in answer to Sir John O'Shannassy, stated that owing to the alteration in the line to Oakleigh, the Government would have sufficient money to construct the line to Queenscliff and Gordon, more especially as the Government would make a survey in another line.

Mr. Service presumed that the line referred to in which a saving was concerned was the St. Arnaud line. If this were so he thought that the Government were putting the cart before the horse. The items connected with the Gordon line were insufficient, and should be put before the House more plainly than they were at present.

Mr. Berry remarked that the Government were anxious to proceed with the bill in order to get along with the other business of the country. However as it appeared to be the wish of the House that further information should be furnished he would have no objection to supply the information by next Tuesday. He would now propose that progress be reported.

Mr. A. T. Clark, whilst supporting the Gordon line as likely to be a paying one, condemned the Queenscliff line as useless, and one which would never pay. The motion at the instance of Mr. Munro was withdrawn, and the schedule was passed *pro forma*.

Shire Election. To the Ratepayers of the North Riding of the Shire of Ripon. LADIES and GENTLEMEN.—As my term of office as one of your representatives in the Shire Council will shortly expire, I beg to offer myself as a CANDIDATE for RE-ELECTION.

THE SAN FRANCISCO MAIL.

Russian gold has been at work among the Turks, and it is asserted that many field officers have been heavily bribed.

The "New York Herald's" London special says the relations between England and Russia are of the most critical kind short of actual war.

A protectorate of Crete by Great Britain is suggested.

On the Russian army any foreshadowing of peace would fall with a thrill of passionate disgust that would strain the bonds of discipline to the utmost.

The peace party in Constantinople gain ground daily. At the council of war on 12th June, at which the Sultan presided, several of those present, especially Mehmed Ruchdi Pasha, strongly advocated peace.

Ruchdi said it was now quite clear that Turkey could not hope for active aid from any power, and could not carry on the war single-handed.

The "Chicago Tribune's" London special says:—"The attitude of Austria is getting more and more hostile to Russia. Starting out with friendly feelings and expecting to share in the territorial distribution when Turkey should be dismembered, she has since been driven to the opposite standpoint by internal influence and outside pressure."

The alliance of Russia with Germany is one cause of the dissatisfaction. Recently overtures were made to England for an offensive and defensive alliance.

An American vessel in London on the 13th at 3d per lb.—6d. for the best. This was owing to the extreme heat.

The working-men are preparing to demonstrate in favor of General Grant.

The Pope's Jubilee was celebrated in Ireland with great solemnity. Religious processions passed through the streets of several cities.

During divine service, lightning struck the Roman Catholic church at Wreschen, killing six persons outright, and injuring eighty others.

A strong party in Constantinople is in favor of restoring ex-Sultan Murad, who has in a great measure recovered his health.

According to a despatch received at Washington on the 19th instant, from the U. S. Charge at Vienna, Sheikh-ul-Islam recently sent a delegation of agents of law to the Cherif of Mecca, direct descendant of the Prophet, for the purpose of demanding funds from the treasury of Islam, to be applied in defence of the Islam faith.

This treasure is formed from the annual offerings of pilgrims, which are accumulated in the Kasban of Mecca. The Cherif of Mecca receives on an average 15,000,000 francs in annual offerings.

One of the richest chest was opened during the Russo-Turkish war in 1828, and several large sums were withdrawn, but it was afterwards again closed. A second chest was opened in 1854, during the Crimean war, but the third chest has not been opened since 1415.

It is conjectured that the accumulation of money in the last-named chest cannot be less than 250,000,000 francs, and it is fully believed that the total amount of the treasure of Islam will exceed 600,000,000 francs, and even a much higher sum.

Mount Vesuvius is again in eruption, showing at night fire at the mouth of a new crater.

The Turkish Ministers have resolved to renounce their salaries during the war.

The Emperor Francis Joseph of Austria has commenced a suit against Dr. E. W. Buck, of Hudson, New Jersey, for the recovery of a large amount of valuable property left by an Austrian subject named John Kunmer, who committed suicide in Hoboken, New York.

The Imperial litigant in his plea says Kunmer was employed under the Austrian Government in a railroad office, from which he stole a large quantity of bonds and fled to America.

The Brazil Mission has been tendered to General Logan.

FEW PERSONS who handle Bank of England notes ever think of the amount of labor and ingenuity that is expended on their production.

These notes are made from pure white linen cuttings only, never from rags that have been worn.

They have been manufactured for nearly 200 years at the same spot—Laversham, in Hampshire—and by the same family, the Fortals, who are descended from some French Protestant refugees.

So carefully is the paper prepared that even the number of dips into the pulp made by each workman is registered on a dial by machinery, and the sheets are carefully counted and booked to each person through whose hands they pass.

The printing is done by a most curious process in Mr. Cox's department within the Bank building. There is an elaborate arrangement for securing that no note shall be exactly like any other in existence; consequently there never was a duplicate of a Bank of England note except by forgery.

It has been stated that the stock of paid notes for seven years is about 94,000,000 in number, and by file will 18,000 boxes, which, if placed side by side, would reach three miles. The notes, placed in a pile, would be eight miles high; or, if joined end to end, would form a ribbon 15,000 miles long.

The "European Mail" touches for the truth of the following—"The Grand Duke Nicholas recently said to a foreign consul, 'Neither Prince Bismarck nor Lord Derby will prevent the Russian Army from entering Constantinople. As the Germans did at Paris, we shall enter Constantinople, only to leave it again.'"

THE DEFENCE OF THE COLONY.

The following is Sir W. Jervois' summary of recommendations for the defence of the colony:—"1. The passage of an enemy through the shoals near the entrance to Port Phillip to be prevented by two forts and by two torpedo boats."

2. The outer anchorage and the passage to it to be defended by two land batteries. 3. The Cerberus to act in conjunction with the forts and land batteries, both in the protection of the outer anchorage and in the defence of the passages through the shoals."

4. A possible attack from Western Port or from the westward of Port Phillip to be met by a field force. 5. The naval and military forces to be maintained should be as follows:—(a.) For Manning Batteries.—Permanent artillery, 200 officers and men; naval reserve, 200 officers and men; volunteer garrison artillery, 200 officers and men. (b.) For Torpedo Defences.—Torpedo and signalling corps, 100 officers and men. (c.) For Field Force.—Infantry, cavalry, field artillery, engineers, 2000 officers and men. (d.) For Naval Defences.—The Cerberus: 110 officers and men in time of war, with a reduced establishment in time of peace; when the system of defence is completed. A swift gunvessel to take the place of the Victoria, to be employed on survey and other duties in time of peace. The total land forces, therefore, to be maintained would amount to 2700 officers and men, for which a staff of 35 officers and instructors should be provided."

The capital cost for the scheme I recommend would be approximately as follows:—Defence of passages through shoals—Forts, and armaments, £235,000; torpedo stores and equipment, £50,000. Defence of entrance outer anchorage—Forts and armaments, £75,000; total, £360,000. The following is an estimate of the annual expenditure:—Land forces, including naval reserve and general staff, £1,300,000; Cerberus on a reduced establishment £10,000, annual supply of ammunition and torpedo stores for practice, £7,000; camps of instruction and training generally, £2,500; repairs to military works and buildings, £1,000; ordnance store department, £4,000; contingencies as now provided annually, £3,500; total, £1,792,000. The present naval and military expenditure, as provided in the Estimates for 1877-8, amounts to £3,263,500, viz., £1,938,500 for the Cerberus and Nelson, and £1,325,000 for military purposes, including naval reserve."

THE COST OF WAR. The following statement respecting the loss of lives and money in the wars of the last 25 years, 1852-77, appears in a contemporary, and is, perhaps, as near the truth as it is possible to come in so large a subject. The statement is carefully compiled from official statistics of the various nations concerned, and includes, in addition to the troops slain, a portion of the deaths occasioned by the ravages of the wars among the civil population:—1. Lives lost, 1852-77—killed in battle, or died of wounds and disease—Crimean War, 750,000; Italian War (1859), 45,000; war of Schleswig-Holstein, 3,000; American Civil War—the North, 280,000; the South, 520,000—\$80,000; war between Prussia, Austria, and Italy in 1866, 45,000; expeditions to Mexico, Cochín, China, Morocco, Paraguay, etc., 65,000; Franco-German War of 1870-1—France, 155,000; Germany, 60,000—215,000; Turkish massacres of Christians in Bulgaria, Armenia, etc., 1876-7, 25,000; total, 1,948,000. 2. Cost, 1852-77, Crimean War, 340 million pounds; Italian War, 1866, 60 million pounds; American Civil War—the North, 940 millions; the South, 460 millions—1,400 millions; Schleswig-Holstein War, seven millions; Austrian and Prussian War, 1866, 66 millions; expeditions to Mexico, Morocco, Paraguay, etc., (say only) 40 millions; Franco-Prussian War, 500 millions; total, 2,413 million pounds. The loss of life is equal to about half the population of the whole metropolitan area; and we may vaguely imagine what would be the effect upon production and consumption of absolutely depopulating the whole of the West and North districts of London. The loss of 2,413 millions sterling of capital is equal to about eight on ten years' revenue of all the Governments of Europe and North America. But a public revenue is applied in the payment of services and the promotion of public works which are to a large extent useful. The 2,413 millions of money destroyed in war have been absolutely annihilated. Further, the fortresses, ships, artillery, etc., destroyed by war have to be replaced by capital taken over a series of years, from productive purposes. The same remark applies to the pensions and rewards granted to maimed and disabled soldiers and sailors.

Valuable Discovery for the Hair.—If your hair is turning gray or white, or falling off, use "The Mexican Hair Renewer," for it will positively restore in every case Gray or White hair to its original color, without leaving the disagreeable smell of most "Restorers." It makes the hair charmingly beautiful, as well as promoting the growth of the hair on bald spots, where the glands are not decayed. Ask your chemist for "The Mexican Hair Renewer," prepared by Henry C. Gallup, 493 Oxford-street, London, and sold by Chemists and Perfumers everywhere at 3s. 6d. per bottle.

Throat Affections and Hoarseness.—All suffering from irritation of the throat and hoarseness will be greatly surprised at the almost immediate relief afforded by the use of "Browne's Bronchial Troches." These famous "lozenges" are now sold by most respectable chemists in this country at 1s. 1d. per box. People troubled with a "hacking cough," a "slight cold," or bronchial affections, cannot try them too soon, as similar troubles, if allowed to progress, result in serious pulmonary affections. See that the words "Browne's Bronchial Troches" are on the Government Stamp around each box.—Manufactured by John I. Brown & Sons, Boston, United States. Depot, 493 Oxford-street, London.

Advice to Mothers.—Are you broken in your rest by a sick child suffering with the pain of cutting teeth? Go at once to a chemist and get a bottle of Mrs. Winslow's Soothing Syrup. It will revive the poor sufferer immediately. It is perfectly harmless and pleasant to taste, it produces natural, quiet sleep, by relieving the child from pain, and the little cherub awakes "as bright as a button." It soothes the child, it softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for dysentery and diarrhoea, whether arising from teething or other causes. Mrs. Winslow's Soothing Syrup is sold by medicine dealers everywhere at 1s. 1d. per bottle. Manufactured at 493 Oxford-street, London.

Fluorine!—For the Teeth and Breath.—A few drops of the liquid "Fluorine" sprinkled on a wet tooth-brush produces a pleasant lather, which thoroughly cleanses the teeth from all parasites or impurities, hardens the gums, prevents tartar, relieves aches, gives to the teeth a peculiar pearly-whiteness, and a delightful fragrance to the breath. It removes all unpleasant odour arising from decayed teeth or tobacco smoke. "The Fragrant Fluorine," being composed in part of honey and sweet herbs, is delicious to the taste, and the greatest toilet discovery of the age. Price 2s. 6d., of all Chemists and Perfumers. Prepared by Henry C. Gallup, 493 Oxford-street, London.

THE GUM LEAFCURE. EUCALYPTI ESSENCE. I ET THE PUBLIC take notice of a few facts put forward for their information in this information. They may be worth their study, and repay the pains in enlightening them upon a subject of practical utility.

THE HISTORY OF THE OIL'S DISCOVERY. The Australian anti-fever tree—that is, the blue gum, or "eucalyptus globulus"—has now spread its fame throughout the world; but there are many who do not properly estimate its splendid qualities. It has been estimated that the Australian blue gums, which staid the face of the colony, contain about 500 million gallons of pure volatile oil, that is the moral food of fevers and ague. Every day in the year, the forests of the colony are giving out and exhaling in the form of vapor an aromatic fragrance to our breezes, and a health giving essence to our people. This fact is now recognised by all scientists in the world.

ITS CLAIM AS A CURATIVE. It has now become the fashion with the inventors and discoverers of remedial agents to sound forth little short of infallibility and universality of cure for their respective agents. Messrs. Sanger and Son do nothing of the sort. They have confidence that their essence possesses many virtues; but the full extent of these they do not know yet. They are now collecting data, and they are most careful and searching in performing this. It is quite sure, then, that their eucalypti essence can fairly assert itself to be a grand panacea for many of the ills that flesh is heir to.

In Scarlet, Typhoid, or any case of Fever, nothing will protect better against contagion than a few drops of the essence poured in the palm of the hand (and rubbed in, in order to liberate the vapors), or sprinkled over the clothes. The perfume will be noticed for a great length of time.

For Children attending Schools the same mode may be adopted. In cases of Sickness, a few drops poured in a saucer, and put in the room will, being an ethereal essence, evaporate and fill the room with purifying vapor.

Are you obliged to travel? A few drops occasionally rubbed on the body, will protect against any contagion you may be exposed to, in coming in direct contact with sick persons, or in sleeping in the same room with, or in beds occupied previously by sick persons. All Hotelkeepers will do well to sprinkle, from time to time in drawers, where linen is kept, a few drops of the pure essential essence. It produces no spots whatever, as every particle of it evaporates, and nothing remains.

In short, where a Disinfectant is needed, the pure essential eucalypti essence ought to be the one you have recourse to, and no family ought to be without it.

For all Wounds, Cuts, Burns, Scaldings, Ulcers, and Cancerous Wounds, a piece of linen wrapped round the suffering part and moistened with a few drops of the eucalypti essence, will stop all pains and effect a speedy cure. In cases where a piece of linen cannot be applied to the moistening of the suffering part with the pure essence will do as well.

In Cases of Colic and Cholera, the use of a few drops and inhale the vapor, and you will find immediate relief and entire riddance of the heat.

In all Cases where the Lungs may be affected, the above mentioned process continually repeated will be the best that can be advised.

In Cases of Rheumatism, a mixture of one part of the pure essential eucalypti essence with three parts of spirits of wine, well rubbed into the suffering part has acted better than any other remedy.

In all Cases of Inflammation the essence may be applied to the part affected.

In Severe Cases of Toothache of rheumatic origin, the pure essence may be applied on the external part of the face.

In Cases of Inflammation of the Eyes, apply the pure essence to the outside of the eye-lids. Headache and Rheumatic Pains in the Head are positively removed and cured by rubbing the essence on the affected parts.

For many Cases of Severe Bruises the essence has proved the best remedy.

It is worthy of note, that three or four drops in half a tumbler of water. The essence effects a most surprising change of the whole constitution, correcting indigestion and creating a healthy appetite.

No other essence is genuine, except that in the vials, bearing on the labels our signature and trade mark.

Mails for Stockyard Hill and Sallor's Gully (a loose bag to Lake Goldsmith) are despatched three times a week—Mondays, Wednesdays, and Fridays.

Holloway's Ointment.

Bad Legs, Bad Breasts, Wounds, and Ulcerations of all kinds. THERE IS NO medicinal preparation which may be so thoroughly relied upon in the treatment of the above ailments as Holloway's Ointment. It is more salutary than its action on the body, both locally and constitutionally.

Relaxed and congested throats, elongated uvula ulcerated or turgid tonsils, whooping cough, croup, wheezing from accumulated mucus, and other difficulties of respiration, all palpitations, stitches and shortness of breath, may, with certainty, be cured by rubbing this healing Ointment over the chest and back for at least half an hour twice a day, assisted by appropriate doses of Holloway's Pills.

For Glandular Swellings, Stiff Joints, and Diseases of the Skin. This invaluable ointment has greater power over gonorrhoea than any other preparation. None need remain in pain if its removal be set about it in good earnest, by using this infallible remedy according to the printed instructions affixed to each pot. All sores, ulcers and pains are removable in the same manner.

Gout and Rheumatism. There is no preparation for salutory effects comparable to this remedy. It should be well rubbed over the affected parts after their due fomentation with warm water. It acts by stimulating the absorbents to increased activity, by preventing congestion and promoting a free and copious circulation in the parts affected, thence speedily and effectually it ensures a cure.

Piles, Fistulas, and Excoriations.

The cure which this Ointment effects in healing piles and fistulas of long standing, after they have resisted all other applications, have been so countless and notorious throughout the world that any effort to give an adequately detailed statement of their number or character would be vain. It is sufficient to know that the Ointment has never proved inefficient.

In Disorders of the Kidneys, Stone, and Gravel. The Ointment is a sovereign remedy if it be well rubbed twice a day into the small of the back, over the region of the kidneys, into which it will gradually penetrate, and in almost every case give immediate relief. Whenever this Ointment has been once used it has established its own worth, and has again been eagerly sought for as the easiest and safest remedy in all disorders of the kidneys.

Both the Ointment and Pills should be used in the following complaints:—Bad Legs, Gout, Sore Throats, Bad Breasts, Skin Diseases, Skin Diseases, Granular Swell, Sore Throats, Bunions, Ingles, Sore Heads, Chills, Lumbago, Ulcers, Chapped Hands, Piles, Wounds, Corns (soft), Rheumatism, Contracted and Sore Nipples, Stiff Joints, Scalds.

The Pills and Ointment are sold at Professor Holloway's Establishment, 538, Oxford-street, London, by nearly every respectable Vendor of Medicine throughout the Civilised World, in boxes and Pots. The smallest box of Pills contains four dozen; and the smallest Pot Ointment one ounce.

Full printed directions are affixed to each Box and Pot, and can be had in any language, even in Turkish, Arabic, Armenian, Persian, or Chinese.

HOLLOWAYS PILLS.

NO family should be without these Pills. Their long trial efficacy in curing disorders of the liver and stomach, stimulating the bowels, and purifying the blood, has secured for them an imperishable name throughout the world. A few doses produce comfort, a short continuance effects a complete cure. Invalids may look forward to their recovery with the certainty of obtaining relief.

How to Enjoy Life. It is only known when the blood is pure, its circulation perfect, and the nerves in good order. The only safe and certain method of effecting all this is to take Holloway's Pills, which have the power to take blood from all noxious matters, expelling all humors which taint or impoverish it, and thereby purify and invigorate and give general tone to the system.

Our Mothers and Daughters. The functional irregularities peculiar to the weaker sex are invariably corrected without pain or inconvenience by the use of Holloway's Pills. They are the safest and purest medicine for all diseases incidental to females of all ages, and most efficacious at the turn of life, or when entering into womanhood.

Debilitated Constitutions—Bad Coughs. In general debility, mental depression, and nervous depression, there is no medicine which operates so like a charm as these famous Pills. They soothe and strengthen the nerves and system generally, give tone to the stomach, elevate the spirits, and in that order the patient reaches a total and most delightful resolution in his whole system. Thousands of persons have testified that by their use alone, they have been restored to health after all other means have proved unsuccessful.

Indigestion and its Cure. Indigestion with torpidity of the liver is the bane of thousands, who pass each day with accumulated sufferings, all of which may be cured by taking these Pills according to the accompanying directions. These strengthen and invigorate every organ subservient to digestion, and effect a cure without astringent or exciting the system; on the contrary they support and conserve the vital principle by a complete purification of the blood.

Holloway's Pills are the best remedy known in the world for the following diseases:—Ague, Piles, Asthma, Rheumatism, Bilious Complaints, Retention of Urine, Scabies on the Skin, Scrofula, or King's Evil, Bowel Complaints, Sore Throats, Debility, Stone and Gravel, Dropsy, Secondary Symptoms, Female Irregularities, Tif-Blowers, Fevers of all kinds, Ulcers, Gout, Venereal Affections, Headache, Worms of all kinds, Indigestion, Weakness of the Stomach, Liver Complaints, Warts, and all other Lumbago, Cures, &c., &c.

The Pills and Ointment are sold at Professor Holloway's Establishment, 538, Oxford-street, London; also by nearly every respectable Vendor of Medicine throughout the civilised world in boxes and Pots. The smallest box of Pills contains four dozen, and the smallest pot of Ointment one ounce.

Full printed directions are affixed to each box and pot, and can be had in any language, even in Turkish, Arabic, Armenian, Persian, or Chinese.

"Is there no hope? the sick man said; The silent doctor shook his head." "While there is life there's hope, be briered." "Zegrot, dan, animus, est, spes est."

DR. L. L. SMITH, (The only legally qualified medical man advertising) CONSULTS—On all affections of the Nervous System, (no matter from what cause arising); On all broken-down constitutions; On all diseases arising from early intemperance; On Gout; On Rheumatism.

IN these columns, those excesses which we have indulged in "hot youth" tell upon us with fearful interest. Our regrets are useless, our repentings futile. The sole idea should be the chance we possess of remedying the ills we already have, or preventing the evils likely to result. Hide it as he may, put on as good an exterior as he can, still is the victim conscious that he is a living hell, and that sooner or later his wiles will discover him to the world. Our faith, our obligations to society at large, the welfare of our future offspring, and the duty we owe to ourselves, forbid procrastination, and points out to us, not to wait till the ravages break out in our constitutions.

Before negotiating with a merchant, before engaging with a confidential clerk; before employing a barrister, a careful man makes enquiries as to their standing, their length of occupancy or residence, and in the case of a legal adviser, both as to his legal qualifications and as to his capability of transacting the individual business he is enabled him upon. Strange to say, however, in the selection of a medical man, the sufferer frequently omits these necessary precautions, and without regard to fitness, qualification, experience, and ability for the particular ailment requiring treatment, he consults the nearest man, whose experience and practice, perhaps, lies in quite an opposite direction.

It is astonishing that so many ardent men, ardent in health, and ardent in spirit, hope and money; have I not forgotten pointed out to them that Dr. L. L. Smith, the only legally qualified medical man advertising in the colony? Have I not also presented, at my own expense, these very queries, and expounded the various ailments they are suffering, such as Phosphorus, Essence of Life, &c., and then analysed and found them to consist of—Barned Sugar and flavoured water; and the certificates I have procured to be all large. It is for this reason that I step out of the ethics of the profession and advance to give those who require the services of my branch an opportunity of knowing they can consult a legally qualified man, and one, moreover, who has made this his special study.

Dr. L. L. Smith is the only legally qualified medical man advertising, and he has been in Melbourne 25 years in full practice on—Nervous Diseases, Loss of Power and Debility, Syphilitic Diseases, Want of Condition, Gout and Rheumatism.

Dr. L. L. SMITH can be consulted by letter.—Fee £1. Medicines forwarded to all the colonies. Dr. L. L. SMITH, 182 Collins Street East, (Late the Residence of the Governor), MELBOURNE.

Printed and published by HENRY DAVES for the proprietors, at the office, Lawrence-street, Melbourne, Victoria.
