

The Riponshire Advocate

No. 201.]

BEAUFORT, SATURDAY, APRIL 6, 1878.

PRICE SIXPENCE.

The "Riponshire Advocate,"

PUBLISHED EVERY SATURDAY,
CONTAINS a complete summary of local and general news for the week.

Subscribers who do not receive their papers regularly or at an early hour of the morning would much oblige us by immediately forwarding their names to the office of this paper, Levenhoe street, in order that such persons may be rectified. We are most desirous of securing for our subscribers a regular and early delivery, but it will be impossible for our messengers to prove effectual, unless we are warned by them when neglect takes place.

Advertisements sent in without a written order as to the number of insertions, will in all cases be continued until countermanded, and no advertisement can be withdrawn without an order in writing, delivered at the office by 10 a.m. on the day previous to publication.

Advertisements for this paper cannot be received after 7 o'clock on the evening previous to publication.

New subscribers are only charged from the time of ordering the paper.

Orders to discontinue subscriptions to the paper must be in writing, delivered at the office and for the current quarter.

Communications of a literary nature must be addressed to the Editor, and must bear the signature and address of the writer—not necessarily for publication, but as a pledge of good faith. An observance of this rule will be the means of preventing disappointment to contributors.

All advertisements coming under the heads of Wanted, Missing Friends, For Sale, Rewards, if not exceeding twenty-four words, will be inserted for two shillings and sixpence.

Notices of Births, Marriages, and Deaths, will be charged 2s. 6d. for each insertion.

Displayed advertisements, and advertisements above one inch, four shillings per inch, for the first two insertions, and two shillings per inch for all subsequent insertions.

Business and double column advertisements, if ordered or extended periods, will be charged on a reduced scale, in proportion to the number of insertions.

"The Weekly Times" with which is incorporated the "Economist" and "Town and Country" Newspapers.

Enlarged to TWENTY PAGES or ONE HUNDRED WIDE COLUMNS.

PRICE THREEPENCE.
The Cheapest Weekly Paper in Australia.

EVERY Farmer should subscribe. It contains reliable and intelligible agricultural news; and special attention is paid to carefully-compiled market reports.

Every Gardener should subscribe. It is the gardener's chronic, and an amateur can afford to be without it.

Every Sportsman should subscribe. The turf pages are written by thoroughly competent writers. Cricket, Football, &c., will be fully reported.

Every Squatter should subscribe. The station information of the "Economist" now appears in "The Weekly Times."

Every household should be furnished with "The Weekly Times."

Agricultural, Horticultural, Mining, Political, Social, Sporting, Shipping, Commercial, and General News, will be furnished "The Weekly Times."

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which will save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure food and a properly nourished frame."—See article in the "Civil Service Gazette."

Made simply with boiling water or milk. Sold in 1/2-lb. and 1-lb. packets and tins (not damaged in transit), labelled thus—

TWO MONTHS IN THE BALLARAT DISTRICT HOSPITAL.

By a Patient.

The following interesting article appeared in the "Ballarat Star" of Tuesday last. Having noticed lately a number of letters in the Hospital in the daily papers, the following narrative by a patient may interest your readers, and show the subscribers what the management of the institution, as far as the patients are concerned, really is. I was taken ill, taken to the Hospital, conveyed into a large cold waiting-room, and seated on a bench. After waiting some time, a door at the upper end of the apartment was opened, and a tall man, the hall porter, ushered out a woman with a sickly deformed child from an inner room. He then called out, "Who's the next?" Two men, who had apparently just come up from a room, rose and assisted them into the room; his cut coat sleeve, and the awkward bandage, through which some blood oozed, showed that he had lately met with an accident, although not a serious one. He was soon overhauled, and sent to the accident ward. Several others were admitted and attended to, and then my turn came. The tall man said, "Now then, young fellow, and carried me in, when I found myself in the presence of the doctor, who examined my face for admission, and remarked, "Well, sir, what's the matter with you?" He cut short an elaborate description of my bodily ailments with "That will do," and the tall man and another produced a highly-polished stethoscope made of cedar, and most uncomfortable as a means of conveyance, and in this they placed me and bore me away. The tall man, who was in the hind shafts, and who reminded me of Long Tom Coffin, said, "Shift over, my son, you've got to get a list to port." We were soon in the ward, and he shouted, "Here's another for you, and there's one coming in our wake; but he's a very slow sailor, and making a deal of lee way." This applied to a man who had paralysis. Two wardmen undressed me and put me to bed; my clothes were tied in a bundle and taken away; my age, name, etc., were written down and hung up at the head of the bed; my money and other property sent to the secretary, who afterwards gave a receipt for them, and then, weak and tired, I fell into a sleep. At tea time some one woke me, and on a box by my side I found a piece of dry bread and a mug of tea, which had that peculiar flavor that tea has when boiled in a billy. It was so unpalatable, especially to a sick man, that I could not touch it, and, although weak and faint, it was with great difficulty I could swallow a few mouthfuls of the dry bread. The tea things were washed up by two of the patients, and shortly after the gas was lighted and the blinds closed. About 7 o'clock the doctor came; he ordered a hot fomentation, and went away. This relieved me. At 10 o'clock the wardman told me to call if he was wanted, and my helpless state necessitated availing myself of his services once or twice, and the elderly with which he responded to my calls was only excelled by the instantaneous manner in which he was in bed and asleep again. A powder has been given me, but it failed to make me sleep; the pain, the strange bed, and general surroundings all tending to keep me awake. My bed was at the end of the room, and by the faint glimmering of the half turned-down gas I could see a long vista of white beds, containing men and boys in all sorts of postures, with a Chinaman who had chosen "the silent hour" to pluck his pistol. One patient had a cough—such a cough!—which lasted many minutes, and terminated with a sound between a shout and a scream. Another was delirious. He was a butcher, and had received an injury to his head. He would suddenly startle all hands by shouting "Shop! I left it on the block, Mrs. Mac, I assure you; do you think I would deceive a lady?" And once he got up, and in light marching order attempted to make his escape from the place. The doors are never locked, that being against orders, but a man roused the guardian of the night, and the warder was captured and put to bed like a refractory child. But all through that night the words "Shop!" and "George!" were yelled out in a clear tenor, until a blessing, more or less powerful, was heard to rise up from every bed in the place. My first night in an hospital passed at last, and at the first glimpse of daylight up went the blinds, and the little hive of suffering humanity—except those who could not rise—were in motion. Medicine was served out, wounds and sores dressed, fomentations changed, beds made, and all the necessary duties of a sick-room attended to. The eggs for breakfast were then collected from such patients as possessed any, their names written on them, and then placed in a bag to go to the kitchen to be boiled. A table was set for those who could "get up"; two large tins were brought in, one containing tea and the other milk; the bread served out, and I received my share with the same sort of boiled tea as on the previous evening. After breakfast, the mugs, etc., were washed up by the patients, and two more swept the floor while the wardmen went to their meals. When they returned one of them brought the morning paper. This was subscribed for by one of the patients. It went the rounds, each paper getting it in turn. This was the only daily paper we saw, and the question as to where the papers went that were sent to the institution often arose, and the statements made, unless much exaggerated, went to show that the number sent from the different newspaper offices and placed in the receiving boxes, by private persons, would afford a great treat to the sufferers if properly distributed among them. Some of the patients then went out into the garden, which is both useful as well as ornamental, and well looked after. Portions are always kept deeply trenched, and the contents of the earth-closets, the slops, egg shells, and in fact all the refuse of the place is buried there, except the amputated portions of the human frame from the dissecting room, which are said to be buried in the collins with the dead as circumstances require. A story is told that a woman, whose husband's leg had been amputated, having heard that the limb had been buried in the same coffin with a Chinaman, lodged a complaint. Darning and scrubbing go on for some time, and the political position is discussed by the convalescent patients, and men on their death-beds enter into the topic, when "Hush! here's the doctor!" is heard, and with stethoscope in hand he goes round. To judge him by his manner, he has been amongst soldiers. He is abrupt, and his answers to

questions such as "May I go home, sir?" "Can I have my clothes, please?" "Will you give me some more tucker, doctor?" are very brief, and occasionally very emphatic. The patients all entertained the opinion of his skill, and I had every reason to be convinced of it before I left. He carefully examined me, wrote a prescription in a book, and filled up a card for my diet—beef-tea and milk, with bread and tea. On this I was kept for six weeks, with the addition of a little rice and eggs. The later I had to provide for myself. During the time between the doctor's visit and the dinner hour I had a good opportunity of taking stock of the ward and its occupants. It was large, lofty, and well ventilated, scrupulously clean, and comfortable. The beds were of good distance apart, roomy, but hard, and inhabited by numerous members of the B flat persuasion. Near each bed is a box or locker. At one end of the room were shelves containing the plates, mugs, etc., and drawers in which were lint, bandages, and all the necessary appliances so mysterious to the uninitiated. At half-past 12 o'clock a whistle sounded, and the dinner was brought in. It consisted of soup, beef-tea, mutton, and beef, cut up in pieces and boiled, served with potatoes. This meat was always very tough, and rather trying on the teeth of some of the old men. A little rice, with some milk and a sprinkling of sugar, and bread, were also provided. Sometimes a chop cut off a baked loin of mutton was allowed. This constituted the whole dietary system afforded by the institution, excepting spirits, wine or beer being very rarely administered. The meat and potatoes are only given to those who are on No. 3 diet. After dinner the things were carried away and washed up, the ward swept, and everything put in its place. There were a few visitors, and amongst others one or two well-known theatrical celebrities, who seem strangely out of their element. The monotony of the proceedings was occasionally varied when the medicine was brought round in bottles. One once every four hours seemed to be the general thing; some had grog served out—it was generally whisky. There were a few books to read, the library consisting of about 250 volumes, a very poor collection of works. The catalogue is handed round once a week, and the rush on the readable ones is so great that it is not unusual to put your name down for five or six and not get any. There were plenty of illustrated papers, a source of great enjoyment, especially to the youngsters. Everything was quiet at this time, the man with the cough was asleep, and the delirious one evidently getting very weak. Again the whistle goes, this time for tea, which had the same boiled flavor as before, and the bread was, if anything, drier. Butter is allowed, but only with the No. 3 diet, and then in a very small quantity. The gas is again lighted, blinds closed, and a repetition of the wheezing, coughing, and odd remarks from the delirious man, which on any other occasion would be exceedingly dull. About 7 o'clock the doctor came in and inquired, "All the same here?" The wardman drew his attention to the sick man, and received some directions. Those patients who had their clothes visited their friends and neighbors, and passed the time as best they could in the partial darkness, until 9 o'clock, when all go to bed, and at 10 o'clock perfect silence was insisted on. About 3 o'clock in the morning the whole ward was in commotion, the gas was turned up, and a large screen placed round the delirious man's bed. He was dead. The body was washed, and a shell brought in by four of the wardmen, in which the body was placed and taken to the morgue, all these preparations being decently conducted, out of the sights of the patients. The bed and bedding were also taken out and the bedstead fumigated, and "George," as he was called, was soon forgotten, as far as his late companions were concerned. Many deaths occurred during my stay, principally amongst worn-out old men. They generally had an inclination to get up and wander about, gradually got weaker, and then sunk into a peaceful sleep. Sometimes the deaths were very sudden. One man, an old soldier, got up and shaved himself as if quite well, and then lay down and died, his last act being the force of habit evidently. A sailor, I was told, whose neighbor was making what he called "very heavy weather of it," told him to "turn his face to the wall, and die like a man," and he did. A Chinaman died on his hands and knees, and a fellow-countryman, although in the next bed, took no more notice of him than if he was a dog. This is said to be their custom. The next day was visiting day, and the place was crowded. Here many painful scenes occurred, but as my allusion to them might be painful to the feelings of others, they are better omitted. One thing remarkable was how exceedingly well some of the men's wives were dressed, although there could be no doubt of their poverty. One instance of self-sacrifice is worthy of mention. I overheard a woman say, "John, I have brought you all the eggs the hens have laid, except one that Tom and Liz had between them this morning." Many ladies expressed frequently escaped that were very suggestive with regard to the poverty of this "golden colony." Among the visitors were a class of men whose intentions are no doubt exceedingly good; they go amongst the patients, giving what they no doubt consider to be religious consolation, and no matter what creed, they speak to all indiscriminately. To say the least, the act is most intrusive, as the clergyman of the different denominations attend frequently, and will always attend when sent for. If these, no doubt well-meaning but misguided individuals knew the facts, they would find they did more harm than good, and were only a cause of irritation and annoyance, as they frequently in my presence thrust themselves among a family, and interfered with the conversation between men and their wives and children. Might I suggest to those well-meaning persons that a few eggs or a little butter (where such is allowed) would be far more acceptable than what is called "gospel grinding" by the patients. One old fellow, who has a gaunteness in the habit of presenting each patient with a few flowers every Sunday, and I was always welcome. A number of boys were occasionally brought in, mostly from the agricultural districts. They were colonials. They were apparently very delicate, with fair skin, fine hair, and thin eyebrows, bearing no resemblance to their parents who were of European birth; over when convalescent they were slow in their speech and movements, and with a great contempt for the learned

professions, no care about the future, but with a manly sense of honor, and intelligent wit. Many of these suffered from disease in the bone, produced in most cases from overwork and exposure. They were boys doing men's work. Young children were frequent visitors, and it was extraordinary to witness how soon they were reconciled to their situation. After a cry, and "I want to see ma," they became quite happy, and the want of female petting and nursing seemed to have the effect of rendering them perfectly happy and contented. The hospital, however, is no place for children, as they must hear language and see sights calculated to leave a bad effect on their plastic minds. They are very old-fashioned. I drew a horse on a sledge to amuse one of them; and, although no hand with the pencil, it was not unlike the quadruped it was intended to represent. "That ain't so bad, but where's his shoes?" Very many hopeless cases were admitted, bushmen, and confirmed drunkards, etc. An old man of 84, on thanking the doctor for his treatment, was told "the rest and shelter had done him good." One patient's case, I was told, was diagnosed as "No home." The visiting staff are frequently in attendance, and consultations are held when necessary. The wardmen, of whom there are two to each ward, have a great deal to do, although assisted to some extent by the convalescents. The "week's wash" is a sight to see. The sheets, etc., are changed whenever required; the patients' shirts are also washed. During the two months I was there the same routine was carried on as I have described during my first night and day. This is a plain statement of what came under my own observation, and I leave your readers to draw their own inferences therefrom.

A CASE OF INTEREST TO EMPLOYERS OF LABOR.

There are said to be a few Acts of Parliament so imperfectly framed that, figuratively speaking, a coach-and-four could not be driven through them. Perhaps the most noticeable piece of bad legislation in this line is the Master and Servants Act, as shown by a case tried in the Hamilton court last Friday. A man named Corcoran (reports the "Spectator") sued Mr. Bolster, the well-known contractor, for some £35 odd, wages, but apparently did not know what really was owing to him, as his solicitor immediately consented to the amount being reduced in one fell swoop to about £24. Against this Mr. Cresswell, who appeared for defendant, wished to prove a set off; he stating that, what with money paid plaintiff at various times, and orders met, Corcoran had been paid in full. He proved payment of something like £7 in hard cash, but directly he sought to show that Bolster had paid Mr. Cussen, a storekeeper, £8 odd on Corcoran's account, and £3 to Mrs. Thorne, Mr. Samuel raised the objection that a set-off could not be claimed under the Act. Mr. Cresswell admitted this, but submitted it would be very hard upon his client if he were not allowed for what he had paid on Corcoran's account, and asked that the case might be dismissed, so that it might be brought on again at the County Court, where he could put in the set-off. The magistrates, however, deemed the objection raised fatal, and made an order for the payment of £17 some odd shillings, and £2 7s. costs. We believe, with Mr. Samuel, that the Act must have been framed in the convic days, and could not have been intended for a thoroughly-civilized community. Notice of appeal has been given, and a week allowed to file it, and the result will be looked forward to with no small amount of interest by all employers of labor. In future, contractors and others honoring orders on account of their servants, should see and have a receipt endorsed on the back of such order. Something to the following effect would do:—"Received in part satisfaction (as the case may be) the sum of £ , as and for full payment to the extent thereof, of wages due to me by J.S. (master)." This receipt has kindly been drawn up for us by a professional gentleman, and may be of service to employers of labour, who do not desire to get caught in the same trap as unfortunate Mr. Bolster.

PREPARATIONS FOR WAR.

The warlike character of the European telegrams at the present time has (says the "Age") put the Government on the alert, and every possible preparation for any contingency that may arise has been made. Captain Mandeville and Colonel Anderson last interview with the Chief Secretary yesterday. The Corps, which is now in line fighting trim, is to be sent down to Queensland, and a regular look out, as kept in time of war, is to be maintained. The whole of the defence force is to be sent down to Queensland, where they will go into camp and assist in throwing up the earthworks and trenches that will have to be erected to protect all the guns. It is probable the defence force will be marched from Geelong to Queensland in order to make them acquainted with the intervening country. If any more urgent measures are necessary, the Government will call out 400 to 500 of the volunteers who are willing to enlist under the Military and Naval Discipline Act 1870, and send them into the barracks to be drilled. The vacation of the barracks by the defence corps will make them available for that purpose, if necessary. Several of the torpedoed have been already laid, and many of the guns at Queensland have been placed in position. The Chief Secretary has had a sample of gun cotton made in the colony submitted to him, and is to be tested by Mr. Ellery. De-guns for the Nelson have been ordered by telegram, as well as a supply of rifles and revolvers for the Corps, and a further supply of gun cotton and torpedo wire. A torpedo boat has also been ordered from England. Should her new news indicate the necessity for such a step, the Government will submit a militia Bill to the House at an early date.

The receipts on the Victorian Railways for the week ended on the 28th of March amounted to £22,935 2s. 4d. The amount received in the corresponding week of 1877 was £19,129 5s. 2d. A California paper describes "the latest thing out" as a new horse-shoe, made out of three thicknesses of raw hide compressed together by heavy pressure. It is said to last longer, weighs one-fourth as much as the common shoes, never splits the hoof, and has no bad influence on the foot. It is so elastic that the horse's step is never uncertain.

Beaufort Post Office.

TIME TABLE, 1878.

Table with columns for Post Town, Mails arrive at Beaufort, and Mails close at Beaufort, listing various towns like Melbourne, Geelong, Ballarat, etc.

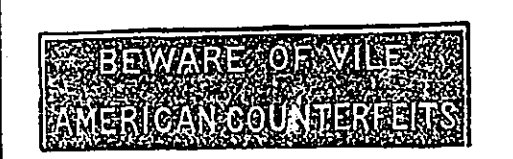

The mails for Ararat, Melbourne, Ballarat, Geelong, Burra, and Traralgon are despatched twice daily. Mails for Shirley, and Eurambeen are despatched three times a week—Mondays, Wednesdays, and Fridays.

Throat Affections and Hoarseness.—All suffering from irritation of the throat and hoarseness will be agreeably surprised at the almost immediate relief afforded by the use of "Brown's Bronchial Troches." These famous "lozenges" are now sold by most respectable chemists in this country at 1s. 1/6 per box.

Valuable Discovery for the Hair.—If your hair is turning grey or white, or falling off, use "The Mexican Hair Renewer," for it will positively restore in every case Grey or White hair to its original color, without leaving the disagreeable smell of most Restorers. It makes the hair charmingly beautiful, as well as promoting the growth of the hair on bald spots, where the glands are not decayed.

Advice to Mothers.—Are you broken in your rest by a sick child suffering with the pain of cutting teeth? Go at once to a chemist and get a bottle of Mrs. Winslow's Soothing Syrup. It will relieve the poor sufferer immediately.

Oxygen is Life.—Dr. Bright's Phosphodyne.—Multitudes of people are hopelessly suffering from Debility, Nervous and Liver Complaints, Depression of Spirits, Hypochondria, Timidity, Indigestion, Failure of Hearing, Sight, and Memory, Lassitude, Want of Power, &c., whose cases admit of a permanent cure by the new remedy Phosphodyne (Ozone Oxygen), which acts once always all irritation and excitement, imparts new energy and life to the enfeebled constitution, and rapidly cures every stage of these hitherto incurable and distressing maladies. Sold by all chemists and druggists throughout the globe. BEWARE OF IMITATIONS.—Phosphodyne is sometimes sold in the form of Pills and Lozenges; it should be generally known that every form where solid particles of Phosphorus are in combination is dangerous. It is therefore necessary that the public should be cautioned against the use of any form of Phosphorus not perfectly soluble in water.

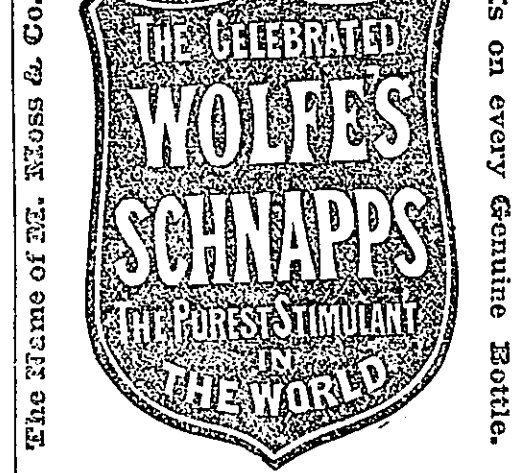

Of Holloway's Pills and Ointment. I most respectfully take leave to call the attention of the inhabitants of Australasia to the fact that Messrs. Henry, Curran and Co., Wholesale Druggists, of New York, have Agencies in various parts, and that their Travellers are going all over the country vending Spurious Imitations of my Pills and Ointment, which they make in New York, and which bear some resemblance to my trade mark, but which I have no right to use. I have therefore decided to have my name put on the wrapper of my Pills, and to have the words "New York" retained. Much of this spurious stuff is sold in the Auction Rooms of Sydney and elsewhere, and readily finds its way into the back settlements. These are vile frauds, as I do not allow my Medicines even to be sold in any part of the United States; they are only made by me at 333, Oxford-street, London.

The same people are circulating a report that my business is about to be formed into a Company, which is utterly false. I must earnestly appeal to that sense of British justice, which I feel sure I may venture upon asking from my kind countrymen and countrywomen in their distant homes, to assist me, as far as may lay in their power, in denouncing this shameful American Fraud, by cautioning their friends lest they be duped into buying villainous compounds styled "Holloway's Pills and Ointment" with any New York label thereon.

Each Pot and Box of the Genuine Medicines bears the British Government Stamp, with the words "Holloway's Pills and Ointment, London" engraved thereon. On the label is the address, 333, Oxford-street, London, where alone they are manufactured.

Signed THOMAS HOLLOWAY, London, February 15th, 1876.

£50 REWARD.

It having come to our knowledge that certain unprincipled persons in Melbourne and the interior of the colony are retailing under the name of Wolff's Schnapps a spurious adulterated article,

We hereby GIVE NOTICE that in order to prevent a continuance of such proceedings, and TO PROTECT THE PUBLIC FROM IMPOSITION, we have initiated measures whereby a full exposure of such practices will be effected and made public, and further action will be taken with the view to PROSECUTE Offenders under the Act of Parliament which inflicts a Fine or Imprisonment for such offences.

The above Reward will be paid for information that will lead to the conviction of offenders.

THE GENUINE WOLFF'S SCHNAPPS. Is naturally more costly than other compounds, which the GOVERNMENT ANALYTICAL CHEMIST of N.S.W. has found to consist of "Different kinds of Spirits sweetened and otherwise mixed."

Hence the attempts of unscrupulous dealers to substitute them upon the unwary.

We claim the ASSISTANCE of the PUBLIC in carefully looking for our name on the top label of the wrapper of each bottle, and in rejecting all other kinds, no matter under what pretence they are offered.

Sole Agents for Australia and New Zealand: M. MOSS & CO., MELBOURNE AND SYDNEY.

Holloways Ointment.

Bad Legs, Bad Breasts, Wounds, and Ulcerations of all kinds. THERE is no medicinal preparation which may be so thoroughly relied upon in the treatment of the above ailments as Holloway's Ointment. Nothing more salubrious than its action on the body both locally and constitutionally. The Ointment rubbed around the part affected on the pores as salt purifies the skin, and drives it from the system. Brachitis, Diphtheria, Colds, Sore Throat, and Shortness of Breath. Relaxed and congested throats elongated uvula ulcerated or turgid tonsils whooping cough, croup wheezing from accumulated mucus, and other difficult cases of respiration also pulmonary strictures and shortness of breath will with certainty be cured by rubbing this healing Ointment over the chest and Larynx for at least half an hour twice a day assisted by appropriate doses of Holloway's Pills.

Piles, and Fish-bone, Eborations. The cure which this Ointment affords in treating the above ailments, after they have resisted other applications, have been so countless and notorious throughout the world that it is not necessary to give an elaborate statement of their number, or of the character of the ailments, or to state that the Ointment never proved inefficacious.

In Disorders of the Kidneys, Stone, &c. and Gravel. The Ointment is assuaging in its effects, it being rubbed twice a day into the small of the back, over the region of the kidneys, into which it will gradually penetrate, and in almost every case give immediate relief. Wherever the Ointment has been once used it has established its character, and has again been eagerly sought for as the easiest and safest remedy in all disorders of the kidneys.

Both the Ointment and Pills should be used in the following complaints: Bad Legs, Bad Breasts, Burns, Chilblains, Clapped Members, Corns (Soft), Contracted Feet, Stiff Joints, Rheumatism, Skin Diseases, Gout, Gravel, Hemorrhoids, Inflammation of the Lungs, Piles, Rheumatism, Scalds, Sore Throat, Skin Diseases, Sprains, Stomachic Disorders, Ulcers, Wounds.

HOLLOWAYS PILLS.

NO family should be without these Pills. Their long tried efficacy in curing disorders of the liver and stomach, stimulating the bowels, and purifying the blood, has secured for them an imperishable name throughout the world. A few doses produce comfort, a short continuance effects a complete cure. Invalids much distressed by indigestion, flatulency, and constipation, will find relief in the use of these Pills.

How to Enjoy Life. Is only known when the blood is pure, its circulation perfect, and the nerves in good order. The only safe and certain method of expelling all impurities is to take Holloway's Pills, which have the power of cleansing the blood from all noxious matters, expelling all humors which tend to impoverish it, and thereby purify and invigorate and give general tone to the system. Young and old, robust or delicate, may all expect to derive beneficial effects. Myriads affirm that these Pills possess a marvellous power in securing those great secrets of health by purifying and regulating the fluids, and strengthening the solids.

Our Mothers and Daughters. The functional irregularities peculiar to the weaker sex are invariably corrected without pain or inconvenience by the use of Holloway's Pills. They are the safest and purest medicine for all diseases attendant on females of all ages, and most precious at the time of life, or when entering into womanhood.

Debilitated Constitutions.—Bad Coughs. In general debility, mental depression, and nervous depression, there is no medicine which operates so like a charm as these famous Pills. They soothe and strengthen the nerves and system generally, give tone to the stomach, elevate the spirits, and do not weaken the patient sensible of a total and most deplorable revolution in his whole system. Thousands of persons have testified that, by their use alone, they have been restored to health after all other means have proved unsuccessful.

Indigestion and its Cure. Indigestion with torpidity of the liver is the bane of thousands, who pass each day with accumulated sufferings, all of which may be avoided by taking these Pills according to the accompanying directions. They strengthen and invigorate the system, and do not weaken the patient sensible of a total and most deplorable revolution in his whole system.

Holloway's Pills are the best remedy known in the world for the following diseases: Ague, Asthma, Bilious Complaints, Bowel Complaints, Debility, Dropsy, Female Irregularities, Gout, Headache, Indigestion, Liver Complaints, Lumbago, Rheumatism, Retention of Urine, Scalds, Stomachic Disorders, Stomachic Complaints, Strains and Sprains, Secondary Sympptoms, Theobaldis Pills, Ulcers, Venereal Affections, Wounds of all kinds, Weakness from whatever cause, &c., &c.

The Pills and Ointment are sold at Professor Holloway's establishment, 333, Oxford-street, London; also, by nearly every respectable Vendor of Medicines throughout the civilized world, in boxes and pots. The smallest box of Pills contains four dozen, and the smallest pot of Ointment one ounce.

Full printed directions are affixed to each box and pot and can be had in any language, even in Turkish, Arabic, Armenian, Persian, or Chinese.

"Is there no hope? the sick man said; The silent doctor shook his head." "While there is life there's hope, he cried." Zegrot, dum, animus, est, spes.

DR. L. L. SMITH, (The only legally-qualified medical man advertising in the columns.)

On all affections of the Nervous System, (no matter what cause arising.) On all broken-down constitutions. On all diseases arising from early imbecilities. On Gout. On Rheumatism. IN these colonies, these excesses which we have indulged in "hot youth" tell upon us with keen intensity. Our regrets are useless, our repentings futile. The sole life should be the chance we possess of remedying the ills we already have, or combining the effects likely to result. Life is too short to be squandered on a course of such a nature, and that sooner or later his views will discover him to the world. Our faith, our obligations to society at large, the welfare of our future offspring, and the duty we owe to ourselves, forbid procrastination, and points out to us, no to wait till the ravages break out in our constitutions.

Before negotiating with a merchant, before engaging with a confidential clerk; before employing a barrister, a careful man makes enquiries as to his standing, their length of occupancy or residence; and in the case of a legal adviser, both as to his legal qualifications and as to his capabilities of transacting the individual business he consents him upon. Strange to say, however, in the selection of a medical man, the subject is rarely considered. These necessary precautions, and without regard to fitness, qualification, experience, and ability for the particular ailment requiring treatment, he consults the nearest man, whose experience and practice, perhaps, lies in quite an opposite direction. It is astonishing that so many unprincipled men, unacquainted in health, and are bankrupt in spirits, hope and money! I have not however pointed out to them that I, Dr. L. L. Smith, am the only legally qualified medical man advertising in the columns! Have I not also presented, at my own expense, these very queries, and exposed the various nostrums they are selling, such as Phosphodyne, Essence of Life, &c.,—and had them analysed and found them to consist of "Bitter Sugar and flavoring matter," and the certificates I have procured to be all forged. It is for this reason that I step out of the circles of the profession and advertise to those who require the services of my branch an opportunity of knowing they can consult a legally qualified man, and one, moreover, who has made this his special study.

Dr. L. L. Smith is the only legally qualified medical man advertising, and he has been in Melbourne 21 years in full practice on Nervous Diseases, Loss of Power and Debility, Syphilitic Diseases, Want of Condition, Gout and Rheumatism.

Dr. L. L. SMITH can be consulted by letter.—Fee £1. Medicines forwarded to all colonies. Dr. L. L. SMITH, 182 Collins Street East, (Late the Residence of the Governor), MELBOURNE. Printed and published by HENRY BAXTER for the proprietor, at the office, Lawrence-street, Beaufort, Victoria.

PRICE SIXPENCE.

The "Riponshire Advocate,"

PUBLISHED EVERY SATURDAY,

CONTAINS a complete summary of local and general news for the week.
Subscribers who do not receive their papers regularly or at an early hour of the morning would much oblige us by immediately forwarding their names to the office of this paper, Lawrence street, in order that such errors may be rectified. We are most desirous of securing for our subscribers a regular and early delivery, but it will be impossible for our measures to prove effective, unless we are warned by them when neglect takes place.

Advertisements sent in without a written order as to the number of insertions, and in all cases be continued until countermanded, and no advertisement can be withdrawn without an order in writing, delivered at the office by 10 a.m. on the day previous to publication.

Advertisements for this paper cannot be received after 7 o'clock on the evening previous to publication.

New subscribers are only charged from the time of ordering the paper.

Orders to discontinue subscriptions to the paper must be in writing, delivered at the office and for the current quarter.

Communications of a literary nature must be addressed to the Editor, and must bear the signature and address of the writer—not necessarily for publication, but as a pledge of good faith. An observance of this rule will be the means of preventing disappointment to contributors.

All advertisements coming under the heads of Wanted, Missing Friends, For Sale, Rewards, if not exceeding twenty-four words, will be inserted for two shillings and sixpence.

Notices of Births, Marriages, and Deaths, will be charged 2s. 6d. for each insertion.

Displayed advertisements, and advertisements above one inch, four shillings per inch, for the first two insertions, and two shillings per inch for all subsequent insertions.

Business and double column advertisements, if ordered or extended periods, will be charged on a reduced scale, in proportion to the number of insertions.

GRATEFUL—COMFORTING.
H. P. P. S. COCOA,
BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Humors of all kinds are floating around ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article in the "Civil Service Gazette."

PARLIAMENTARY INTELLIGENCE.

LEGISLATIVE COUNCIL.

Tuesday, 9th April. Punctually at the hour appointed his Excellency the Governor entered the chamber, attended by his aide-de-camp Major Pitt and other naval and military officers.

The President vacated the chair on the entrance of his Excellency, and occupied a seat on the left of the Governor.

The Usher of the Black Rod was commanded to request the attendance of the Speaker of the Legislative Assembly and hon. members of the Assembly.

On the arrival of Mr. Speaker, proceeded by the Sergeant-at-Arms and the Clerks of the House, at the bar of the Legislative Council Chamber.

His Excellency gave the vice-regal assent to the following bills:—The Appropriation Bill, Payment of Members Bill, and the Beechworth Waterworks Bill.

His Excellency then delivered the following speech:—MR. PRESIDENT AND HONORABLE GENTLEMEN OF THE LEGISLATIVE COUNCIL:

MR. SPEAKER AND GENTLEMEN OF THE LEGISLATIVE ASSEMBLY: I am glad to be able to release you from your Legislative duties, after a protracted and memorable session.

The measures which you have passed are both numerous and important, and will, I trust, add to the contentment and prosperity of the people.

Grave questions of constitutional rights and powers have arisen, and been debated and maintained with inflexible resolution; but I rejoice to add that a settlement has been ultimately found not inconsistent with the principles of responsible government and the spirit of the constitution.

To avoid, however, the possibility of the recurrence of such a conflict in the future, my advisers will, with all possible despatch, prepare a measure to alter and amend the Constitution Statute.

It is satisfactory to announce that a land tax, so long imperatively demanded by the country, has become law, and that beneficial effects are already indicated by its operation.

The Railway Construction Bill will open up fresh tracts of country, and prove a boon to the large number of selectors who have made homes upon the soil.

The alteration of the Tariff is well calculated to increase production, and at the same time to assist commerce.

Friendly societies in Victoria have assumed an importance which justified comprehensive legislation, and I trust the bill passed this session will tend to the consolidation and increase of these important organisations.

I regret that *Phylloxera vastatrix* has made its appearance in the vineyards of the colony, but the prompt measure of the Legislature will, I trust, stamp out this scourge in its infancy.

The war recently waged between Russia and Turkey has increased the danger of this colony by the possibility of hostilities occurring between the former power and Great Britain.

My advisers have adopted every possible precaution with the view of placing Melbourne under the possibility of a successful attack from any quarter.

MR. SPEAKER AND GENTLEMEN OF THE LEGISLATIVE ASSEMBLY: I thank you on behalf of her Majesty for the liberality of your grants for carrying on the public service of the colony and for the further development of its resources.

Notwithstanding the delay which unfortunately occurred in connection with the passing of the Appropriation Bill, the public works of the colony have been uninterruptedly continued, and the administration of justice and of the several departments of the Government has proceeded without intermission.

MR. PRESIDENT AND HONORABLE GENTLEMEN OF THE LEGISLATIVE COUNCIL: MR. SPEAKER AND GENTLEMEN OF THE LEGISLATIVE ASSEMBLY: During the recess, my advisers will be enabled carefully to scrutinise the various departments of the public service, with a view to retrenchment.

In being relieved from your onerous duties you must be gratified to know that, under the blessing of Divine Providence, the country has continued prosperous, notwithstanding the prolonged political struggle.

In the name of her Majesty, I declare this Parliament prorogued to Tuesday, the 21st day of May next, and it is hereby prorogued accordingly.

The proceedings then terminated.

LEGISLATIVE ASSEMBLY. Tuesday, 9th April. The Speaker announced that he had presented the address passed by the Assembly to the Governor at the Treasury buildings on that day, to which his Excellency had replied as follows:—

"Mr. Speaker and Gentlemen,—I thank you in the name of the Queen for this assurance of your continued loyalty and devotion to our gracious and beloved Sovereign. On my own behalf I thank you for the expression of your respect and for the testimony which your address contains to my constant endeavors to pursue a strictly constitutional course throughout the grave political difficulties from which we have so happily emerged.

It is always most satisfactory, on public grounds, that the representative of the Crown should enjoy the confidence of the representatives of the people; and this is an address from the representatives of a great colony, of which any representative of the Crown might well be proud. The events of the session now brought to its close will fill an important chapter in the history of Victoria. It is my earnest hope that any excited feelings caused by the recent conflict will rapidly disappear, and that the several branches of the Legislature, by the aid of mutual forbearance and wise moderation, will combine in harmony and good-will to promote the true interests of all classes of the community. In conclusion, Mr. Speaker and Gentlemen, I request you once more to accept my hearty thanks for your address, and to receive the assurance of my sincere desire to co-operate cordially at all times with both Houses of Parliament.—G. F. Bowen, Government Offices, Melbourne, 9th April, 1878."

Mr. Bird asked the Minister of Lands whether, when an alteration is required in the survey of land, and survey fees have been paid once by selectors, he would take steps to discontinue the present system of paying a second survey fee.

Mr. Longmore, in reply, said that it was seldom a second fee was required by the Government surveyors, and in every instance where it was deemed necessary to hold a secondary survey the fee would be returned.

Mr. Berry in answer to Mr. Nimmo, stated that he would cause the Chief Commissioner of Police to issue instructions to the police to report on all deaths arising from alcoholic poisoning.

At this stage the Usher of the Black Rod summoned hon. members to attend in the Council Chamber.

On the return of the Speaker and hon. members the speech was read, and hon. members having shaken hands with the Speaker, the proceedings terminated.

ADVERTISEMENT.

To Mr. John Withell, Railway Gatekeeper, Travalla.

SIR,—Yesterday my pigs were again in your paddock. I express my regret, and I will try all means, except shutting them up, to keep them from your paddock. I did tell your son to take small stots to fiddle them up with, and I would find powder and shot. This cannot do you any good, should they again get in, to take the law in the meantime. It is only fair that you should fence across the creek, as it is a trap. Please tell Mrs. W. to leave the pigs alone when on the flat, as these she was driving, and worth over £20; they are all lady pigs, and can hardly walk. A very serious thing might have happened. The last time one elderly woman could not reach her den when she was taken later, and as one old lady expressed it: "What a shame to drive the poor things; I wonder how she would like it in the same way." But I am happy to inform you that she presented me with eleven beauties, and with a little good and care mother and family are doing well. I have now a more serious charge to meet. My pigs have been on the line more than once. This I shall meet in the proper time and place. In the meantime I shall do nothing but what I should send you a copy of this journal, and another to the Chief of the Traffic Department, so that he may make all inquiries, with as little trouble as possible. I must do this or others may suffer from my shortsightedness, and I shall fight you with other written pigs, effects unknown. Please pay me attention. Yesterday when my son walked on you and Mrs. W. you told him that he was drunk, and that all in the house were drunk, and one I should not have noticed. This is a lie in the first place. Mrs. W. said that the pigs had stripped the clothes off three children. The statement is very extraordinary, as I have not heard of it before. You (Mr. W.) state that you had a day and date on which I had sold spirits on Sunday. I admit the charge at once by stating that one of your family did come for 6d. worth of brandy for some sick purpose. You had value for your money. I served it. I think this statement of yours proves you a bad man. I was under the impression that by good treatment it was possible to make a Christian out of a devil. In your case, Sir, I give up the thought, and shall fight you with other weapons. Yesterday, when I asked to speak to you in presence to Mrs. W., you told me I was drunk, and ordered me off the line, after reading for me. This is another lie of yours, and one I should not have noticed. If you had noticed your rash tongue to the male portion of my house, and now, in conclusion, there are many wonders in this life; and I wonder if there is a family in Travalla you have not in some way annoyed. I never keep day or date of every act of yours, but I do wonder how many hares you shot in the last close season, and what time you were absent from your duty to shoot them; and the same question applies to ducks. I would advise you to hang up the gun next season, or don't say that I take advantage of you. You compel me to advertise this to counteract Mrs. Withell's statements in Beaufort. MARK BARNES, Travalla Hotel, Travalla. Friday, April 5th, 1878.

ORDERS & REPAIRS PROMPTLY ATTENDED TO. SANDERS AND SONS EUCALYPTUS EXTRACT.

UNDER the distinguished patronage of His Majesty the King of Italy at Rome, according to communication received from the Consul-General, for Italy, at Melbourne, upon the instructions from the Minister for Foreign Affairs, dated 14th March, 1878.

Dr. Cruikshank, Health officer for the City of Sandhurst, the discoverer of the medical properties of the Extract of the Eucalyptus Globulus, has pronounced the extract to be the most reliable remedy for all external inflammation of whatever kind, inflammation of the chest, and lungs, all throat affections (bronchitis, diphtheria), all pains of rheumatic nature, neuralgia, etc., all swellings, bruises, sprains, wounds of all kinds, and of most serious nature, all disorders of the bowels, diarrhoea, etc.

The extract is proved as the surest cure for all throat affections (to be applied by means of a feather), and the best disinfectant and preventive of contagion in scarlet or typhoid fever, more reliable than quinine in cases of intermittent fever.

For reports of effected cures, where medical aid was of no avail, see our Saturday's advertisements in the Melbourne "Ago." To be had of all Chemists. CAUTION.

The genuine article is made up in vials, bearing on the labels our trademark and signature. Other preparations of the gum (turpentine) are most dangerous in consequence of their nature, for the most of the diseases our Extract is recommended for, therefore ask for Sander and Sons' Extract in vials with our label, trademark and signature thereon. Every vial is accompanied by directions for use, and reports of cures.

Mr. John Dolan and Mr. R. Klunder; Robert (servant to Lord Totterley); Mr. Klunder; Thomas (servant to Miss Bloomfield); Mr. Dolan; Louisa Bloomfield (engaged to Danvers); Miss Munro; Chintz (Miss Bloomfield's maid); Miss Nellie Wilson. As the juvenile old man Mr. Wilson's make-up was perfect, and his acting was spirited, making the most of the many good points in the character. Bill Downey (Mr. Munro) was of course, the centre of attraction, and his quaint speeches were received with loud and prolonged laughter. He made the most of the part, and succeeded in pleasing his hearers immensely. Mr. Marshall excelled in the character of Flamster, his rendering being even, and he gave several of his longest speeches in an excellent manner, with a life and go highly appreciable. James Miller (Mr. Dudley) was in good hands, and in his scenes with Chintz he was glorious. As the old woman nothing could be better, his assumed voice and manner being grand. Mr. Humphreys, as the love-sick lawyer, looked the part, and went through it with credit. Miss Munro, as Louisa, gave a very lady-like and graceful rendering of the part, her personal appearance lending a charm to an excellent impersonation. As Chintz, the charming lady's maid, Miss Wilson looked quite captivating, and acted throughout very naturally. In the quarrel scene with Jen she was particularly good. Messrs. Klunder and Dolan, who undertook the double characters of Catch and Robert and Nibble and Thomas, executed their part of the entertainment with praiseworthy excellence and finish.

A NOVEL RAILWAY ENTERPRISE.

An aerial railway scheme, such as has been talked of for the Messy docks, is now being carried out on a very bold scale in New York, where, after a good deal of litigation, a company has acquired by a decision of the highest court in the land, the power literally to operate the rights of others in a manner rather astonishing to old world notions of fair play...

Of Holloway's Pills and Ointment. I most respectfully take leave to call the attention of the inhabitants of Australasia to the fact that Messrs. Henry, Curran and Co., Wholesale Druggists, of New York, have Agencies in various parts, and that their Travellers are going all over the country vending Spurious imitations of my Pills and Ointment, which they make in New York, and which bear the name of 'Holloway's Pills and Ointment'...

Signed THOMAS HOLLOWAY London, February 15th, 1876.

It having come to our knowledge that certain unprincipled persons in Melbourne and the interior of the colony are retailing under the name of Wolf's Schnapps a spurious adulterated article. We hereby GIVE NOTICE that in order to prevent a continuance of such proceedings, and TO PROTECT THE PUBLIC FROM IMPOSITION...

THE GENUINE WOLF'S SCHNAPPS is naturally more costly than other compounds, which the GOVERNMENT ANALYTICAL CHEMIST of N.S.W. has found to consist of "Different kinds of spirits sweetened and otherwise mixed."

Holloways Ointment. Bad Legs, Bad Breasts, Wounds, and Ulcerations of all kinds. There is no medicinal preparation which may be so thoroughly relied upon in the treatment of the above ailments as Holloway's Ointment. Nothing can be more salutary than its action on the body both locally and constitutionally.

Dr. L. L. SMITH can be consulted by letter.—Fees £1. Medicines forwarded at the collector's. (Late the Residence of the Governor), MELBOURNE.

Pills, and Fistulas, Eborations. The cure which this Ointment effects in healing piles and fistulas of long standing, after they have resisted all other applications, has been so countless and notorious throughout the world that any effort to give an adequate statement of their number or character would be vain. It is sufficient to know that the Ointment has never proved inefficient.

In Disorders of the Kidneys, Stone, and Gravel. The Ointment is a sovereign remedy if it be well rubbed twice a day into the small of the back, over the region of the kidneys, into which it will gradually penetrate, and in the kidneys, into which it will gradually penetrate, and in the kidneys, into which it will gradually penetrate...

HOLLOWAYS PILLS. NO family should be without these PILLS. Their long tried efficacy in correcting disorders of the liver and stomach, stimulating the bowels, and purifying the blood, has secured for them an imperishable reputation throughout the world.

How to Enjoy Life. Is any known when the blood is pure, its circulation perfect, and the nerves in good order, and the system in general free from all morbid humors, it is a pleasure to be enjoyed...

Debilitated Constitutions—Bad Coughs. In general debility, mental depression, and nervous prostration, there is no medicine which operates so efficaciously as these famous Pills. They soothe and strengthen the nerves and spirit generally, give tone to the stomach, elevate the system, and in fact restore the patient sensible of a new and most delightful sensation in his whole system.

Indigestion and its Cure. Indigestion with torpidity of the liver is the bane of thousands, who pass each day with anxious uneasiness, all of which may be avoided by taking these Pills according to the accompanying directions. They strengthen and invigorate every organ subservient to digestion, and assist a cure of indigestion by cleansing the system; on the contrary they support and conserve the vital principle by a complete purification of the blood.

Holloway's Pills are the best remedy known in the world for the following diseases: Ague, Asthma, Bilious Complaints, Blisters on the Skin, Bowel Complaints, Debility, Dropsy, Female Irregularities, Fevers of all kinds, Gout, Headache, Indigestion, Liver Complaints, Lumbago, Piles, Rheumatism, Scalding of the Urine, Scrofula, or King's Evil, Stone and Gravel, Strains, Stomachic Disorders, Ulcers, Venereal Affections, Weakness of all kinds, Weakness from whatever cause, &c., &c.

Dr. L. L. SMITH. (The only legally-qualified medical man advertising in the colony.) On all affections of the Nervous System, (no matter from what cause arising). On all broken-down constitutions. On all diseases arising from early indiscretions. On Gout. On Rheumatism. IN these colonies, those excesses which we have indulged in "hot water" tell upon us with certain interest.

Before negotiating with a merchant, before engaging with a confidential clerk; before employing a business agent, a careful man makes enquiries as to their standing, their length of occupancy or residence, and in the case of a legal adviser, both as to his legal qualifications and as to his capabilities of transacting the individual business he commits him upon. Strange to say, however, in the case of a medical man, the sufferer rarely enquires into these necessary precautions, and without regard to fitness, qualification, experience, and ability for the particular ailment requiring treatment, he consults the nearest man, whose experience and practice, perhaps, lies in quite an opposite direction.

Dr. L. L. SMITH can be consulted by letter.—Fees £1. Medicines forwarded at the collector's. (Late the Residence of the Governor), MELBOURNE.
