

The Riponshire Advocate.

No. 524

BEAUFORT, SATURDAY, NOVEMBER 7, 1885

PRICE SIXPENCE

The "Riponshire Advocate,"

PUBLISHED EVERY SATURDAY,
CONTAINS a complete summary of local and general news for the week.

Subscribers who do not receive their papers regularly or at an early hour of the morning would much oblige us by immediately forwarding their names to the office of this paper, Lawrence street, in order that such errors may be rectified. We are most desirous of securing for our subscribers a regular and early delivery, but it will be impossible for our measures to prove effectual, unless we are warned by them when neglect takes place.

Advertisements sent in without a written order as to the number of insertions, will in all cases be continued until countermanded, and no advertisement can be withdrawn without an order in writing, delivered at the office by 10 a.m. on the day previous to publication.

7 o'clock on the evening previous to publication. If subscribers are only charged from the time of ordering the paper.

Orders to discontinue subscriptions to the paper must be in writing, delivered at the office and for the current quarter.

Communications of a literary nature must be addressed to the Editor, and must bear the signature of the writer, and be accompanied by a pledge of good faith. An observance of this rule will be the means of preventing disappointment to contributors.

All advertisements coming under the heads of Wanted, Missing Friends, For Sale, Rewards, if not exceeding twenty-four words, will be inserted for 1 shilling and sixpence.

Notices of Births, Marriages, and Deaths, will be charged 6d. for each insertion.

Displayed advertisements, and advertisements above one inch, four shillings per inch, for the first two insertions, and two shillings per inch for all subsequent insertions.

Business and double column advertisements, for extended periods, will be charged on a reduced scale, in proportion to the number of insertions.

LONDON AND LANCASHIRE FIRE INSURANCE COMPANY.
Established in the Colonies 1863.
Capital, £1,500,000 fully subscribed.

The undersigned having been appointed Agent for Beaufort is prepared to receive Proposals for all descriptions of Insurances at the LOWEST CURRENT RATES.

Risks accepted on Threshing Machines, Stocks, and Agricultural Produce.

Premiums for the year, £425,355 or £57,870 over 1878.

The additions to Reserve Funds now amount to £23,729 to meet fire losses only, in addition to the Capital.

Out of a surplus of £110,735, only £19,987 was paid to Shareholders in Dividends, the balance being added to Reserve Fund.

H. P. HENNINGSEN

WANTED KNOWN.
I have come to my knowledge that Subscribers to the Daily Papers are charged Nine Pence (9d.) a week for the benefit of the public I wish to inform them that the "Ballarat Star," "Age," and "Daily Telegraph" can be had and will be delivered in the township of Beaufort at 6d. per week, or 6s. 6d. per quarter.

H. P. HENNINGSEN.

GRATEFUL—COMFORTING.
EPSS'S COCOA
BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epss has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article in the "Civil Service Gazette."

Made simply with boiling water or milk.
Sold in 1/2 lb. packets by Grocers labelled thus:—

WEEKLY NEWS OF THE WORLD.
PRICE THREEPENCE.
subscriptions per post 3s. 6d. per quarter, or 12s. per annum in advance.
Office: 86 COLLINS ST. EAST, MELBOURNE.

NOTICE.

It having come to my knowledge that certain unprincipled vendors of sewing machines have frequently substituted in place of the
GENUINE "WERTHEIM"
Machines on a similar principle, but of a far inferior make, I beg to

INFORM THE PUBLIC
That EVERY
GENUINE WERTHEIM SEWING
MACHINE BEARS THE TRADE MARK
Of the
Wertheim Sewing Machine Manufacturing Company, a GNOME.

Representing the Dwarf of German Fable, in a sitting posture, with a mallet resting on his shoulder, and long flowing beard reaching to his feet.

Besides this Trade Mark the NAME "WERTHEIM" is PAINTED IN GOLD ON THE PLATE of each Machine.

As a Further SECURITY
To GUARD AGAINST IMITATION every
GENUINE WERTHEIM SEWING
MACHINE
SHIPPED TO AUSTRALIA
Has STAMPED ON THE SHUTTLE-SLIDE the
NAME OF THE SOLE AGENT for Australasia,
viz. —

HUGO WERTHEIM,
MELBOURNE.

I hereby inform Vendors of Sewing Machines in Victoria and the other Australian colonies that the WERTHEIM "GNOME" TRADE MARK, as well as the name "WERTHEIM," have been properly REGISTERED in Australia; and that any infringement upon the said registration will be at once proceeded against according to law.

Hugo Wertheim,
39 FLINDERS LANE EAST,
MELBOURNE.

Sole Representative and Agent in Australia for the Wertheim Sewing Machine Manufacturing Company.

PETRUS DE BAERE,
Agent for Beaufort and District.
Machines from £4 10s.
Easy Terms. Illustrated Catalogues.

THE GREATEST "SEWING MACHINE."
TRIUMPH OF THE AGE

We respectfully ask the public not to be misled by the puff of our "River of former years." The number of Sewing Machines imported (like other goods) is no criterion of the number sold, the evidence of which lies in the fact that Melbourne is overstocked with the importations of 1874.

Reasons why the
"WHEELER AND WILSON"
Sewing Machine
is far superior to the "Singer."

The W. and W. will do more work, and do it better. The W. and W. is much more durable. It will last a lifetime, and run for years without repair. The W. and W. is easier to work than the Singer. The W. and W. is not so liable to get out of order.

The W. and W. has no cog-wheels to wear away and break, as a Singer. The W. and W. has no heavy machinery to tire and weary the feet, as the Singer. The W. and W. is more simple in action. The W. and W. has less wear and tear. The W. and W. is better finished. The W. and W. has been awarded more prizes.

If any further proof is required of the superiority of the Wheeler and Wilson, it is found in the fact that Singer's agent has never accepted our challenge to have the machines publicly tested.

We warrant every genuine W. and W. machine to give entire satisfaction.
LONG & CO., Australian Agents for Wheeler and Wilson's Machines.

WASHING LIQUID.
MRS. GILLOCH begs respectfully to inform the residents of Beaufort and district that she is manufacturing a "Washing Liquid" which will be found to materially lessen the labor of Washing Clothes, besides giving the clothes a good color. Warranted not to injure any article, of whatever description or texture; it will also take out paint, and improve colored articles.

DIRECTIONS FOR USE.—For every 3 gallons of cold water add one half-pint of the liquid, wet and soap the clothes, place in the boiler, and boil for half an hour, then rinse in plenty of water; blue and dry as usual. Soap and wash linens in warm water, and place in boiler when the white dottle are taken out, and allowed to remain 15 or 20 minutes; then dry and rinse as usual.

Sold in large or small quantities. Single Bottle 8d.

SANDER AND SONS'
EUCALYPTI EXTRACT.

UNDER the distinguished patronage of His Majesty the King of Italy, at Rome.

Dr. Cruikshank, Health officer for the City of Sandhurst, certifies to the extract being the most reliable remedy for external inflammation, bronchitis, diphtheria, affections of the lungs, chest, all pains of rheumatic nature, neuralgia, etc., all swellings, bruises, sprains, wounds, disorders of the bowels, diarrhoea, &c.

PROFESSOR DR. MOSLER, at the University of Greifswalde, Germany, reports astonishing cures of Diphtheria, Lung and Throat Diseases by inhaling the vapors of SANDER AND SONS' EUCALYPTI EXTRACT.

Epitome of declaration made before M. Cohen, Esq., J.P., at Sandhurst, October, 1877.—The son of Mr. Raabe was hurt with an axe on the knee. After nine weeks' medical treatment it was declared necessary by Dr. Macgillivray to amputate the injured limb. At that juncture the extract was applied, and the wound speedily cured without amputation.

The daughter of Mr. Junghen, suffering from disease of the bowels, as pronounced by Drs. Atkinson and Boyd, was cured just as speedily. Cures of whooping cough, very severe cold, croup, bronchitis, diphtheria, earache, pains in the head (neuralgia), inflammation of the eyes, and that of a severely injured foot; others of bad legs, wound on the arm with enormous swelling, of severe bruises and a sprained ankle (H. Brown), in which case eight months' medical advice was of no avail, are reported by the "Donald Times," "Newcastle Morning Herald," "Cooktown Courier," "York's Peninsula Advertiser," and others.

The extract regulates the action of the kidneys cures dysentery and diarrhoea, and is the surest curative agent and preventative of contagion in scarlet, typhoid, and intermittent fever. For particulars see testimonials accompanying each bottle.

Sold at 1s. 6d. and 2s. 6d. per vial.

CAUTION.
Do not confound SANDER AND SONS' EUCALYPTI EXTRACT with the common Eucalypti Oil, a resinous fluid equal to turpentine, without the healing vapors of our Extract, and positively injurious in most cases for which our preparation is highly recommended; therefore ask for SANDER AND SONS' EUCALYPTI EXTRACT and see that you get it. The genuine article is made up in vials bearing our trade mark and signature, and for greater safety each vial is secured by an outside green band with our signature and address—

"Dissolved Nature often times breaks forth in strange eruptions."—Act II, Scene 1.

TO THE PUBLIC.

SOME patients suffering from nervous affections are so afraid from sheer bashfulness and modesty to FRANKLY consult a medical man—other patients have not the self-possession and coolness when in the consulting room, to accurately describe their symptoms—their habits of life, and the nature of the disease they suffer from.

Let such persons (be or she) sit quietly down in the privacy of their own apartments, and with calm minds describe clearly each symptom of their case, a clear statement thus

COMMERCIAL.

BALLARAT WHOLESALE PRODUCE MARKET.

There was a fair market on Thursday. We quote as follows:—Barley—English, 4s 3d; Cape barley, 2s 11d; wheat, 3s 6d to 4s 1d; oats, 2s 9d to 2s 10d; hay, sheaves, L3 to L2 10s; do, manger, L3 to L3 15s; potatoes, L3 to L2 9s 6d; straw, oatens, L3; do, wheaten, L3 10s; peas, 3s to 3s 6d; bran, 1s; pollard, 1s 3d; bonedust, L6 10s; flour, L8 10s.

ARARAT PRODUCE MARKET.

There has been little change in produce market during the past week. An easier feeling is experienced in wheat though one lot of seventeen bags changed hands at 3s 8 1/2 ex bags. A fair quotation would be, however, 3s 7d to 3s 7 1/2. Very little is being done locally in flour, sales being made at L7 15s to L8. At Horsham the market is a trifle easier, and little or no business is being done at 4s 4d. The Donald market is still declining, and 3s 4d is now top price, and at St. Arnaud the price has receded to 3s 5d. In this district oats are inactive. One lot of 40 bags realised 2s 2d, ex bags, at Maroocha. Warramboul potatoes are still coming in at L3 5s. Ballarat varieties are delivered at L3 5s. Hay and straw are being supplied well up to requirements. Fresh butter is not so plentiful and sells now at 9d, potted being worth 7d. Good cheese fetches 8d, and there is a brisk demand for eggs at 8d per dozen. We quote:—Wheat, 3s 7 1/2, per bushel, ex bags; oats, 2s 9d per bushel; pollard, 1s 1 1/2 per bushel; bran, 1s 1d; Cape barley 2s 6d per bushel; English barley, 4s; peas, 3s; flour, L7 15s to L8 per ton; Warramboul potatoes, L4 per ton; Ballarat, potatoes, L3 5s per ton; hay, (sheaves) L3 10s; hay (trussed) L3 15s; straw, oatens, 30s per ton; do, wheaten, 25s; chaff, 4s per cwt; carrots, 2s; onions, 10s per cwt; butter (fresh), 8d to 9d per lb; butter, (potted), 7d; hams, 10d per lb; bacon, 8 1/2; cheese, 8d; eggs, 8d per dozen. —Advertiser.

GEELONG WOOL SALES.

Messrs. G. Hague and Co. report:—Wool.—We held our second sale of the season on Wednesday, and submitted 1034 bales. There was a very large attendance of buyers present, and competition was exceedingly active up to the level of the prices realised on our opening sale last week. All light conditioned greasy wools, suitable for America, were taken up at very full prices.

Holloway's Ointment and Pills.—Female Complaints.—On the mothers of England devolves much and serious responsibility in securing for their daughters robust health; frequently, alas! thoughtlessly sacrificed by culpable heedlessness at a particular period of life, when all important changes take place in the female constitution, upon the management of which depends future happiness or misery. Holloway's Pills, especially if aided with the Ointment, have the happiest effect in establishing those functions, upon the due performance of which health and even life itself depend. Mother and daughter may safely use these powerful deobstruent remedies without consulting anyone. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about the desired result.

Reports from the interior of New South Wales state that the effects of the drought are very severe, particularly in the Walgett and Bourke districts. Station owners are renting country wherever procurable, and large flocks of sheep and mobs of stock are moving for pasture. The rivers Barwon and Natool are a chain of waterholes. The stock country is in a deplorable condition, and cattle are dying in all directions. Only four inches of rain has fallen since the beginning of April. Two stations near Walgett, generally carrying from 80,000 to 200,000 sheep, have removed every hoof, and 100 degrees in the shade has been registered.

When his Worship the Mayor of Melbourne entertains his friends with a ball in the Town Hall, a stranger in that city would think the czar of all the Russias was about (remarks the Sydney "Bulletin"). Some forty yards of pavement in front of the municipal palace is denied to the unhappy wretch that doesn't possess a ticket. He mustn't even walk in the roadway while the carriages are discharging their lovely burdens. The whole police force of the metropolis is employed in seeing that he neither walks, loiters, or stands still, within at least thirty yards of the Town Hall steps. That municipal ball is the apotheosis of snobs in seedy waggons.

The law-makers of Bavaria have become tired of supporting the children of pauper parents, who are getting disagreeably numerous in that ancient kingdom. They have accordingly passed a law forbidding the marrying of men and women who have not sufficient means to support themselves, or who have at any time within a period of three years immediately preceding their proposed marriage, received any assistance from the public funds, who have not paid their taxes, or who, for any reasons to suspect, may be unable to support the families from such a union. It has been the custom in nearly all ages among almost all nations to encourage marriages. Some even went so far as to impose fines on celibacy. But this appears to be the first instance on record where repressive measures have been invoked against matrimony.

A North Queensland tale of this year.—A squatter out West has been so perplexed with the dreadful visitation of drought that he was placed in a straight betwixt two—as to which of his herds of sheep and cattle he would sacrifice to save the balance, and after mature consideration he resolved upon killing 500 of his cattle. The method he adopted was novel. He had the mob driven into a small paddock, in which there was no water, and allowed to miserably perish, the last one dying after three weeks without the watery fluid. His reason for thus destroying them was that he did not know when the rain might fall, and in case of its coming, the whole of the stock thus cast to die should be saved.

THE Riponshire Advocate. Published every Saturday Morning.

SATURDAY, NOVEMBER 7, 1885.

A Local Land Board will be held at Beaufort, on Thursday, 19th instant, when a large number of applications will be dealt with. Applicants will notice that the Board will sit at 10 a.m.

His Honor Judge Trench presided at the Beaufort County Court on Tuesday last. There were only four cases set down for hearing, and three of them were settled out of court. In the other case, Harris and Troy v. Samuel Woods, defendant did not appear, and a verdict was given for the full amount claimed, £15 12s 1d, with 1s 1d costs. The Court then adjourned sine die.

Recently we have had to chronicle what appeared to be several attempts to wreck the rail by placing obstacles placed on the railway line between the Beaufort station and Mr. Gullick's gate, on the Ballarat side of the station. On Sunday night last a most determined attempt was made by some person to throw the morning train off the rails. When Porter Ryan was coming on duty at half-past six on Monday morning he found a large quartz boulder placed in the joints, which was tied down to the rail by a piece of rope. Had it not been noticed the train which arrives from Ballarat at about half-past 7 would certainly have been thrown off the rails, and with what results it is hard to say. The detectives have had the matter laid hand for some time, but up to the present have been unsuccessful in shooting it home to the guilty party.

A very large meeting of the members of the Beaufort Mutual Improvement Association was held on Tuesday evening last. In the absence of the President, Mr. Neeldman occupied the chair. The subject of the essay was "Spiritualism" by Mr. B. O'Dowd, who handled his subject in a clever manner, but the essay came in for some severe criticism at the hands of some of the members. The debate on the essay was very lively, and prolonged, and a most enjoyable and profitable evening was spent.

The third competition for the Wilson trophy by members of the Beaufort District Rifle Club was fired on Saturday last. The ranges were 200 and 400 yards, seven shots at each. There was a high wind blowing, which was not at all conducive to high scores. The four highest actual scores made were as follows:—G. A. Eddy, 87; J. M'Keich, 51; W. C. Thomas, 49; J. Chimpman, 47.

The Hon. Secretary of the Beaufort Ladies Benevolent Society desires us to acknowledge the following donations with thanks:—Mr. Galle, 2l; Mr. Murray, 1s.

We have received a copy of the "Victorian Almanac" for 1886, published by Messrs. Mason, Pirth, and M'Outchison, Melbourne.

The following are the reported yields for the past week:—New Discovery, 34oz. 12dw. 1gr.; New Victoria, 75oz.; Waterloo, 65oz.; Hobart Pasha, 37oz.; Royal Saxon, 19oz.; South Victoria, 15oz.

We have received a copy of the current number of the "Illustrated Australasian News." A colored supplement accompanies the paper, entitled "How they come," a very nice sketch of a young lady, foreigner in hand, viewing the race for the Melbourne Cup. There is also a four-page supplement with the paper, containing several interesting pictures. A number of sketches in connection with the racing carnival are given in the paper, including sketches of the finish for the Melbourne Cup, the Caulfield Cup, and the Melbourne Cup, the winners of the Derby and the Caulfield Cup. The paper is published at one shilling per copy, which may be had from Mr. Henningson, the local agent.

Messrs. Wotherspoon Bros. and Co.'s establishment will be closed on Monday next, the Prince of Wales' Birthday.

The sub-committee appointed to arrange the sports to be held in the Recreation Reserve on Boxing Day met on Monday evening last, and drew up a long and varied programme of events, the prizes amounting to over £40.

The ordinary monthly meeting of the Riponshire Council will be held on Thursday next. Guy Fawkes Day was celebrated by the juveniles of Beaufort by lighting high bonfires on the hills surrounding the township, with the usual display of Chinese crackers.

Chloroac Whistler, the well-known American wrestler, died in Melbourne yesterday morning.

At the V.R.C. meeting on Cup Day £3,025 was taken on the meeting for the sale of grand stand and lift tickets.

It is estimated that the Melbourne Cup race was witnessed by 140,000 persons on Tuesday.

The "Argus" states that there were 20 locomotives and 170 carriages employed in the race traffic on Cup Day.

Writing of the telegraphic arrangements at Flemington on Cup Day the "Argus" states that "the message containing the name of the winner of the Cup was transmitted to New Zealand immediately the horse passed the winning post, and owing to the message being anticipated, and to the line being kept clear for it, it was received in Wellington within a minute of the time the horses passed the post, or whilst Sheet Anchor was being led by the clerk of the course to the scales."

By the intelligence from China by the Hampshire, we glean the following particulars regarding the massacre of Christians at Anam:—Four Christians who escaped from the fanatic assassins, arrived at Bary Anam on the 28th September, and gave the following account of the massacre:—"On the 10th of seventh month (19th of August), the Christians of Quonian were all imprisoned during the night, and at daybreak the massacre and conflagration commenced. Father Jubine, in trying to escape on horseback, was arrested, and immediately beheaded. His head was taken to Father Abou, a native priest, who was too old to escape. After making him identify Jubine's head they beheaded him. Fathers Charlette and Dat ran towards the mountains, and their fate is unknown.

Nearly every day we hear of some crank who has tried an entirely new and original way of committing suicide, but the latest comes from Brooklyn, N. Y. A tramp pedlar of that place became tired of life, and concluded to cross to the beautiful shore by his own hand. There was plenty of water near by in which he could easily have drowned himself, but water made him sick, and besides the mode was altogether too common. He walked into a stone yard, and seizing a large stone tossed it into the air, and then deliberately stood beneath it, letting it crash upon his exposed pate. This would have been enough to change the mind of any ordinary man, but the pedlar seemed to have his mind "set." He repeated his toss-up-and-catch-a-number of times, and at last hit the dust. The patrol waggon carried him to an hospital, but his injuries were pronounced fatal.

Victorians pride themselves on their good habits, but in the matter of despatch with the rabbit pest they most certainly are behind Queensland. A telegram received late on Wednesday night informs us (says the "Age") that the Government of that colony have voted no less a sum than £100,000 towards the cost of rabbit-proof fencing, with which to erect a line of defence along the border.

On Saturday afternoon last (writes the "Age") a local post and telegraph office at Alexandria was struck by lightning, and the whole of the operating instruments, including all the wires connected with the lightning arrester, were destroyed. Miss Powell, the postmistress, states that she was in the act of forwarding a message to Melbourne, when she heard a terrific report as if some one outside the office had fired a revolver through the window. Immediately afterwards a large ball of fire descended from the gutter percha wire, and completely destroyed everything with which it came in contact. The molten gutta percha also set a quantity of paper on fire. Miss Powell staggered from the instrument quite deaf and blind, and called assistance. Her escape from death was miraculous.

The schooner Ernestine was returning to New Caledonian from the New Hebrides with a considerable cargo and several passengers. Immediately on mooring at Goro, at the entrance to Havannah Passage an explosion occurred on board the vessel. Three passengers were killed, and several of the passengers wounded. The ship was destroyed in a few minutes. Those who escaped from the explosion threw themselves into a boat, and reached the shore. The vessel belonged to the New Hebrides Company, and was insured, together with her cargo. An enquiry (says the "Telegraph") will be held on duty at half-past six on Monday morning. He found a large quartz boulder placed in the joints, which was tied down to the rail by a piece of rope. Had it not been noticed the train which arrives from Ballarat at about half-past 7 would certainly have been thrown off the rails, and with what results it is hard to say. The detectives have had the matter laid hand for some time, but up to the present have been unsuccessful in shooting it home to the guilty party.

Archer, the famous jockey, has declined a "retainer" from the Prince of Wales, to the scandal of loyal Britons, who regard the intimation of a royal wish as the most imperative of commands. In point of fact, Archer does not pay Archer anything like the figures that the crack jockey receives from other employers, while the stables will be small and will not contain many animals of the highest class, if any at all.

During a severe storm at Adelaide on Wednesday a lad, aged fourteen, was struck dead by lightning, and a dog which was with him was also killed. The lad's body was placed in a casket and much scorched, the remnant of his clothes being still burning. A chimney collapsed in the storm, and an hotel was much damaged. Little if any, rain fell.

A new method of getting rid of rabbits has been brought under the attention of the Government by Mr. Charles Ross, Coimada, in the Beaufort District. Mr. Ross places a gas bar just inside the mouth of all burrows, and places where rabbits are likely to come in contact with it. He puts tar upon chaff, old rags, leaves, or anything that will stick to the rabbits' fur. He finds that as rabbits are very clean animals, they endeavor to lick the tar off, with the result that their tongues become clogged with it, and they eventually die.

It is not at all unlikely (says the "Age") that the Minister of Agriculture will, before the close of the Parliamentary session, ask the Legislature to give its approval to a short bill, having for its object the eradication of the codlin moth. The insect is committing great havoc in our orchards, and so seriously is the matter regarded by the Secretary for Agriculture, that he fears that unless some check is introduced, the amount of apples in Victoria will soon be a thing of the past. The Minister contemplates introducing a bill upon the lines of an Act passed by the Tasmanian Legislature.

The New Zealand Loan and Mercantile Agency Company Limited held their usual wool sale on Thursday afternoon, when a catalogue comprising about 2300 bales was submitted to a full attendance of buyers. There is no change in the market since last report; competition is still brisk, and prices ruling about the same as at last week's sale. The feature of this sale was the clip from Gringegalona Station, in the western district of Victoria. The lambs realised 13 1/2d, being the highest price obtained for greasy wool this season. 187 bales greasy fleeces of same clip brought 12 1/2d, the other classes selling in proportion. No scoured wool of importance was offered, the highest price for this description being 15 1/2d. A small lot of washed fleeces realised 12 1/2d.

The increasing demand of horses for cavalry remounts in India has led to a large exportation of suitable stock from the Australian colonies. During the past four months Mr. M'Intosh, grazier, of Gippsland, has sent several shipments of horses admirably adapted by breed and stamina for military purposes. Messrs. Service and Co., as agents for steamers engaged in the Indo-Australian trade, have shipped upwards of a thousand horses during the past season.

Last year Victoria produced one-fourth more gold than all the other colonies, seven times as much as New South Wales, and four times as much as Queensland.

A Brooklyn mechanic has invented a wonderful sewing machine, which, it is claimed, will do 80 per cent. more work than any machine in the market. An experiment with steam power moved it with a speed of 2200 stitches a minute, and it was started and stopped instantly. It is simple in construction, is easily operated, and sews all kinds of fabrics, from leather to linen.

There was an extraordinary visitation of locusts at Quorn, South Australia, last week. Houses that happened to be opened swarmed with the pest.

"I wish, mamma," said little Johnnie Fizzleton, "that I lived in South Africa." "Why, my son, do you wish you lived in South Africa?" "Why, the mammas down there don't wear any slippers, you know." "Yes, my son, but you must also remember that little boys in South Africa don't wear any pants either." "That's so," said Johnnie, "it's queer that I never thought anything about that."—Texas Sittings.

A shocking fatality occurred at Monmouth "Good Morning, Bill," near Ararat, on Saturday. Mr. F. Smith, surveyor, and a young man named George Cawsey, his son-in-law, Mr. F. Gamson chemist, went out on a shooting party. They were met by a young man named Herberston, and walked in line near the mount. Three shots were heard, but on cooing for Cawsey when it was time to return no answer was given, and on searching in the direction where the last shot was heard he was found dead alongside the brush fence, with a fearful wound in his left side. Apparently the gun must have exploded when the deceased was attempting to get over a fence. Deceased was married about twelve months ago.

According to a rough calculation, the Prince of Wales is entitled to wear 70 different uniforms. The estimate is rather under than over stated, for he has a right to don 17 military and volunteer uniforms alone, to say nothing of the special costumes associated with his position as Grand Steward of Scotland, Governor of the Charter House, Lord of the Isles, President of the Society of Arts, knight of some score of orders, &c.

The renowned elephant Jumbo, whose death was recently announced in a brief message from a London correspondent, was, it appears, with a violent end. This event is thus discussed upon the "Argus" New York correspondent, writing on the 17th September:—"As it was not enough for the Americans to win the International Yacht Race on Monday, there must needs be another sorrow for England in the death of the famous elephant Jumbo. It happened in the early morning and in Canada. Jumbo was walking on the railway track, where he was to embark in a train, and was killed by an engine which happened to come along very inopportunistically. The keeper tried to make the animal descend the embankment, but elephant flesh is obstinate, and hence the calamity. Jumbo was about 25 years old, and had probably been seen by more people than any other elephant that ever lived. For a long time he was a sensation at the London Zoological Gardens, and thousands of children have been carried on his back."

The expulsion of Poles from Prussian territory (writes a London correspondent), is being continued with the same keenness vigor. The thousands already banished another batch of 1500 persons (presumably also their wives and families) is to be added to the number of those who are responsible traders, and have been a long time settled in East Prussia. There is much mystery about this cruel proceeding; but two things are clear enough. First, though the Russian people are serious about it, the Russian Government and the peoples of Europe have been wont to demonstrate on the occasion of similar expulsions from other countries in the past, they do not venture to remonstrate when Germany plays the tyrant. They know they would be told to mind their own business.

Beach (says the "Herald"), has accepted Matterson's challenge to row over the Lynton course for £200 a side and the championship of the world, the winner to take seventy-five per cent. of the steamer money.

The trial of harvesting machines at Smithfield, South Australia, on the 23rd October, appears to have been carried out most systematically, and with a much larger number of machines than usually take part in such competitions (says the "Argus"). We note that the allotments were laid along the lands, but that practical men would have preferred them the other way. Some of the lots were rougher than the others, as is almost invariably the case. The judges decided by points, 720 representing absolute perfection. They were most painstaking, and at length decided as follows, viz.:—Horsley's 638 points; McCook's, 640; the Howard, 638; the W. A. Wood, 635; the Johnston, 600; the O'Connell, 590; the Esterby, 555; the Deering 555 points. The numerous visitors expressed great satisfaction with the award.

In the United States arrangements have been made for a postal "immediate delivery" system, which was to be brought into operation in all towns of 4,000 inhabitants or over on the 1st of October. It is intended that all letters bearing a special stamp of the value of 10 cents, shall reach their address with all possible expedition. The postmasters of towns are directed to open mails upon their arrival and immediately separate all letters bearing the special stamp, and have them delivered at once. Mr. Campbell, the Postmaster-General of this colony, considers that the system might be of some utility here and he has entered into communication with the American authorities with a view to obtaining full particulars of the scheme and the results which have attended its operation in America.

An agitation regarding social purity (writes the Dunedin correspondent of the "Argus") has been going on for some time past in Auckland. At the opening of the Auckland Diocesan Synod, Bishop Cowie condemned the movement. He said that there were vices which it was impossible to speak about in detail before the young without doing more harm than good. The minds of the young were defiled by "revelations." It was not by talking at public meetings nor by special pledges that this particular evil was to be lessened, but by the Christian training of children, by the better exercise of parental control, and by amending the conventional notions as to the essentials of a prudent marriage.

From Glemloka, in Galicia, recently came details of a terrible outrage, of which seven members of a Jewish family were the victims. The murderers slaughtered with hatchets and knives an innkeeper, his wife, son, daughter, niece, and servant. Another son was found frightfully mutilated and insensible, and there is no hope of his recovery. The ruffians plundered the house; but a baby and two little girls of ten and thirteen, who had hidden themselves under the pillows of the beds, escaped massacre.

Unpleasant dreams and general unrest arise more frequently from indigestion than from any other impairment of the organic functions. Indigestion means mal-assimilation of food, and the pancreas that breaks up this internal revolution is the cure for the malady. This will be found in Wolfe's Schnapps. Be sure you obtain Wolfe's Schnapps.

Mr. William Bridges, of art union fame, was proceeded against at the Ballarat Police Court on Friday last for a breach of the 5th section of the gaubling Amendment Act. The evidence of a large number of witnesses says the "Star," was taken including that of the winner of the £1000 and several prizetakers in lesser amounts, who were brought from various parts of the colony. The object of the examination was to show that in each case money prizes and not pictures were given. After hearing the evidence, as also the arguments of counsel, Mr. Carr, P.M., said that he was of opinion that the art union could not be considered as a lottery of works of art, or for the encouragement of art. He would inflict a light penalty, but one sufficiently large to enable Mr. Bridges to appeal if he so wished. The defendant was fined £5 ss. Mr. Gaunt said the costs in the case would come to £26 8s. The majority of the witnesses, being prize-takers in the art union, agreed to forego their expenses, and the costs were finally assessed at £9 15s. Mr. Gaunt stated that this was merely a test case, and that any case of a similar kind in future heavy penalties would be asked for.

An agricultural journal informs its readers that "a hive of bees placed in the orchard will increase the crop of apples, as the pollen rubbed off the bodies of the bees fertilizes thousands of blossoms which might otherwise be barren." We can assure our farmer friends, however, that one cross dog placed in the orchard will increase the apple crop 50 per cent. more than two hives of bees. A cross dog will "go right to the spot" quicker than the pollen.

The Melbourne correspondent of the "Ararat Advertiser" writes:—A curious rumor is afloat with respect to the owners of a horse that had been backed for one or two of the big races for pounds, shillings, and pence. The story goes that for several nights the owners slept in the stable armed with revolvers, so apprehensive were they of foul play being attempted; or rather it would be more correct to say that one slept while the other kept very wide awake. All of a sudden these precautions were entirely abandoned, the owners departing for a trip up to the country, and it being doubtful even whether they would get back in time to see the horse on whom they had staked so much competence in the race. And now everyone is asking the reason.

In Queensland the Licensing Bill had passed the Legislative Council. This measure does not provide compensation, but local opinion has been adopted, with a slight modification regarding the number of ratepayers who may require a poll to be taken.

At a banquet in connection with the Free-thought Conference in Melbourne on Wednesday a long toast list was gone through, but that of The Queen was omitted, and grace was dispensed with. The remnants of most of the speakers were confined to the spread of free-thought principles throughout the Australian colonies.

A Melbourne correspondent, whose authority is undoubted, writes us (says the "Lynton Observer") that the Ministry have determined to close the session in four weeks from the present date. A reconstruction of the Ministry will then take place, Mr. Kerfer, the Attorney-General, retiring from Parliament and taking a seat on the bench. Mr. Deakin will succeed to the position vacated by Mr. Kerfer, and Mr. Deakin's portfolio will be taken over by Mr. J. G. Duffly. Another Minister is expected to retire from the Cabinet.

The use of arsenic to save growing crops on the Pacific coast from the ravages of grasshoppers has proved efficacious, but has aroused something of a fear among people there of dieting on vegetables near which the poison has been used.

A convict near Noumea a few days ago (says the "Telegraph") shot three of his friends dead, and then gave himself up to the police.

BEAUFORT UNITED COMMON.

A meeting of the managers of the above common was held yesterday, when there were present—Messrs. Brown, Nicoll, Thomas, and Wotherspoon. The Secretary reported as follows:—Balance in hand £47 3s 5d; Cash in hand, 21 13s; making a total credit of £68 16s 5d. Fees received to date for current half-year, £59 8s 10d; fees unpaid on cattle which have been branded by the herdsmen, £8 19s 4d. Total assessment of stock to date, £68 8s 8d; percentage due to the herdsmen, £21 10s.

The herdsmen reported during the month 20,840 sheep and 184 head of cattle passed through the common, and that T. Harding had on three occasions travelled cattle through the common without having given the required notice.

From the Lands Department, stating that it is considered that selected lands (if abandoned) do not revert to a common except by proclamation.

From the Ripon Shire Council, forwarding to the managers a circular from the Marong Shire Council, asking for assistance to recoup the Bet Bet Shire Council its heavy loss incurred in defence of common management.—No action taken.

From Prow Brothers, asking for permission to use water from the dam below Mr. Cochran's residence for mining purposes. The application was supported by the signatures of thirty-six residents of Beaufort. Consideration postponed, in the meantime applicants to be recommended to apply to the Water Commission for a supply from the standpipes.

From Messrs. Harris and Troor, offering to sell a bull for £5. From William Frasher, making a similar offer. In both cases the offer was declined, as it was thought the bulls, if purchased, would not stop on the Beaufort portion of the common. The herdsmen was authorized to proceed to Ballarat to purchase a suitable bull.

From the Land Office, Ballarat, intimating that the proclamation of certain forfeited lands as a part of the common will be considered by a Local Land Board on the 19th instant.

It was resolved—that Mr. Harding be written to, cautioning him not to travel stock through the common without giving notice.

The following accounts were passed for payment:—Herdsmen, £8; Secretary, £2. To meeting then adjourned.

Cable News.

(FROM THE ARGUS.)

LONDON, Nov. 3. At the Antwerp wool sales to-day 8,000 bales of Australian wool were submitted, all of them being sold. The prices obtained were about 1d above the closing rates of the last London wool sales.

The relations between the moderate Liberals and the Radicals are at present severely strained. It is, however, expected that the speeches shortly to be delivered by Mr. Gladstone in Midlothian will have the effect of smoothing over the differences existing between the two sections of the party.

The British Government has decided that even if King Theebaw submits to the demands recently made to him, Burma must cease to be an independent state, and must be placed under British protection.

British subjects settled in Mandatay, the Burmese capital, are leaving the place.

The ocean postal scheme proposed by Mr. R. C. Baker, of South Australia, and sanctioned by Victoria, New South Wales, and South Australia, has been referred by the British postal authorities to a committee to report upon.

King Alfonso of Spain is suffering from an attack of fever.

A colonial consignment company is being formed, with a capital of £50,000.

A movement has been started with the object of defending the Church of England against the attacks of the Radicals and others who are agitating for its disestablishment.

Among the promoters of the movement are the Duke of Westminster, the Duke of Argyll, Earl Grey, Earl of Selborne, (Lord Chancellor in the late Gladstone Ministry), and other prominent public men.

THE MILITARY REVIEW.

General orders explaining the whole of the arrangements for the review of the military forces which is to take place at Flemington on the Prince of Wales' Birthday were issued by the Colonel-Commandant on Monday (says the "Argus"). The Sandhurst cavalry will be conveyed to Melbourne by special train on Monday morning; the Field Artillery and Torpedo Corps and Engineer Corps will proceed by route marches to Footscray. The first and second battalions of Victorian Rifles will be conveyed from Melbourne to Newmarket by rail, and the country battalions will be disembarked at Footscray. The Geelong Mounted Rifles and the Woodend and Euroa detachments will also take part in the manoeuvres. Fifteen rounds of ammunition for each gun, and 30 rounds for each rifle will be served out, and commanding officers are directed to husband their ammunition as much as possible. The men will be dressed in full marching order, with or without great coats, as the commanding officers may think desirable. The general plan of manoeuvres for the forenoon is as follows:—A force having arrived at Footscray, endeavors to cross the Saltwater River, and advances across the racecourse on Melbourne. An opposing force arrives at about the same time at the Newmarket railway station, and endeavors to prevent the crossing by destroying the bridge over the Saltwater River. In the afternoon His Excellency will inspect the troops, and the detachment will take part in the manoeuvres as may be directed, with a view of attacking the heights on the opposite side of the Saltwater River. The attacking force will be under the command of Lieutenant-Colonel Aiken, with Major Kinloch, C.F., as staff officer commanding the advance guard. The opposing force will be commanded by Lieutenant-Colonel Templeton, with Major Follows as staff officer. The garrison artillery will man the guns at the various forts.

NEW VICTORIA NO. 2 TRIBUTE COMPANY, WATERLOO.

The half-yearly general meeting of the above company was held at Currier's Hotel, Beaufort, on Friday last. Mr. Archard occupied the chair, and 1300 shares were presented.

The following is the directors' report:—Your Directors have the honor to report that since the general meeting held in April last, the machinery has been erected and operations resumed in the shaft. The terms of your tribute has been extended for five years from August last. Your capital having been called up, an increase has been made of five shillings per share. For the short time that your mine has been in washdirt, the result is favorable, and a prosperous future is anticipated. Messrs. Wotherspoon and Currier are the retiring directors, Mr. Wotherspoon being eligible for re-election. A statement of receipts and an expenditure is submitted for the half-year ending 21st October 1885.

The balance sheet showed that the company had a debtor balance of £146 6s 7d. The principal items of receipt were—Cals, £204 7s 6d, and gold, £242 4s 3d. Amongst the principal items of expenditure were wages £681 8s 4d; machinery, £235 17s 1d; contracts, £129 8s 11d; timber, £24 15s 5d. The auditors' report certified to the correctness of the accounts.

Messrs. Wotherspoon and Gilmore were re-elected directors, and the auditors, Messrs. A. Cunningham and J. B. Humphreys, were re-elected. A vote of thanks was accorded the directors, and a similar compliment having been paid to the clerk, the meeting closed.

For Sale or to Let.

LAND, being allotments A and B, section 4, parish of Yanongahilly, comprising 140 acres situated on the Bald Hill, also 27 acres in the parish of Travalla, on the Stockyard Hill road, well known as Bell's paddock. For full particulars apply to ADAM BELL, London, Warracknabeal East.

W. BAKER, Cabinet Maker, Upholsterer, Window Blind and Bedding Manufacturer.

W.B. has ON SALE the following lines:—Pine Shelving, Flooring, and Lining Boards; California, Kauri, and Clear Pine, up to 36 inches; Cedar, all thicknesses and widths; Table Legs, Sashes, Doors, Architecture and other Moldings, Window Glass, White Lead, Oils, Tapes, and all other Building Requisites.

Sashes, Doors, and all kinds of Joiner's Work made to order at the Lowest Possible Prices. Hardwood supplied at Timber Yard Prices.

GARDENING FOR NOVEMBER.

KITCHEN GARDEN.—Beds of rhubarb and cress that have been forced should be cleared out. Cress cutting apparatus, or you will weaken the roots. Attend to cucumbers and melons; if any have missed, sow again. Stop leading shoots of cucumbers, to induce laterals. If tomatoes are not planted against a wall or fence, they should be tied to strong sticks and pruned moderately, or fruit will be small and few. This is the time for preventing a great deal of pruning in winter. Use the finger and thumb judiciously in disbanding and stopping fruit trees; thin the fruit where thick; increased size and superior flavor will be the result. Vines will require frequent attention as regards training, tying, and thinning shoots.

FLOWER GARDEN.—Hybrid perpetual roses should have their shoots pruned back immediately they have bloomed. Newly planted shrubs or plants suffering from hot sunshine should be protected by boughs of trees or wattle. Empty casks, with both ends knocked out, make very good shelters, although rather unsightly. At close of month budding may be proceeded with. Flower seeds can still be sown, although with greater risk of their well-doing than in sown earlier.

FARM.—In some districts harvesting will have commenced, and farmers generally will have little time to attend to growing crops of mangolds, potatoes, etc.; but if the weeding and hoeing of these are neglected, they will soon tell tales. Maize and sorghum may still be sown.

"KEATING'S POWDER" destroys BUGS, FLEAS, MOTHS, BEETLES, and all other insects, whilst quite harmless to domestic animals. In exterminating Beetles the success of this powder is extraordinary. It is perfectly clean in application. See the article you purchase is "KEATING'S" as imitations are numerous and ineffectual. Sold in tins, 6d., 1s., and 2s. 6d. each, by all chemists.

Consumers of Wolfe's Schnapps especially those taking it medicinally, should purchase it only by the bottle, and thus ensure the genuine article, as there is a fraudulent imitation in the market. Large and small bottles are obtainable at every respectable hotel and Wine and Spirit Merchant in the colony. The name of M. Moss and Co. is on the top label of the yellow wrapper.

TOWLE'S PENNYROYAL AND STEEL PILLS FOR FEMALES quickly correct all irregularities, and relieve the distressing symptoms so prevalent with the sex, such as Indigestion, Flatulency, Headache, &c. Prepared only by E. T. Towle, Chemist, Nottingham, England. Agents for Melbourne—Rocke, Tompsett & Co., Wholesale Druggists; Hemmings and Co., Wholesale Druggists; William Ford & Co., 47, Swanston Street.

"TICKLING SENSATION."—Persons affected with a tickling sensation in the throat, depriving them of rest night after night, without leaving the throat taking a dose of ROWLEY'S COUGH EXPELLER at bedtime, and if the dose is repeated a cure will soon be effected. For coughs, colds, asthma, bronchitis, and all affections of the throat, chest and lungs; ROWLEY'S COUGH EXPELLER is the best known remedy. Ask your chemist for it; do not be put off with any other. It may be obtained from A. ANDREWS, Chemist, Beaufort. Sold by all chemists. Wholesale agents—Fulton, Grimwade and Co., and Rocke Tompsett, Melbourne.

FLORELINE.—FOR THE TEETH AND BREATH.—A few drops of the liquid "Floreline" sprinkled on a wet tooth-brush produces a pleasant lather, which thoroughly cleanses the teeth from all parasites or impurities, hardens the gums, prevents tartar, stops decay, gives to the teeth a peculiar pearly whiteness, and a delightful fragrance to the breath. It removes all unpleasant odors arising from decayed teeth or tobacco smoke. "The Fragrant Floreline," being composed in part of honey and sweet herbs, is delicious to the taste, and the greatest toilet discovery of the age. Price 2s. 6d., of all Chemists and Perfumers. Wholesale depot 33, Farringdon Road, London.

SUFFERERS FROM VIND ON THE STOMACH, Indigestion, Colic, Giddiness, Sick Headache, Heartburn, Disturbed Sleep, Palpitation of the Heart, Colic, Ague, Biliousness, Liver Complaints, Skin Eruptions, &c., should use no time in availing themselves of that most excellent medicine—"PAGE WOODCOCK'S WIND PILLS," which for 30 years has held the first place in the world as an effectual antidote to the above and all complaints arising from a disordered state of the stomach, bowels, or liver. Tonic, invigorating and purifying. Medicine Vendors boxes at 1s., 1/6, 2s., 3s., 4s., and 6s. 6d. each. Proprietor, Page D. Woodcock, Lincoln, England.

VALUABLE DISCOVERY FOR THE HAIR.—If your hair is turning grey or white, or falling off, use "The Mexican Hair Renewer," for it will positively restore in every case Grey or White hair to its original color, without leaving the disagreeable smell of most "Restorers." It makes the hair charmingly beautiful, as well as promoting the growth of the hair on bald spots, where the glands are not decayed. Ask your chemist for "The Mexican Hair Renewer," sold by Chemists and Perfumers everywhere at 5s. 6d. per bottle. Wholesale depot 33, Farringdon Road London.

Beaufort Post Office.

TIME TABLE, 1885.

Table with 3 columns: Post Town, Mails arrive at Beaufort, Mails leave at Beaufort. Rows include Melbourne, Geelong, Ballarat, Traralgon, Raglan, Chute, Waterloo, Main Lead, Sailor's Gully, Stockyard Hill, Ararat, Buangor, Shireham, Burley.

The mails for Ararat, Melbourne, Ballarat, Geelong, Buangor, and Traralgon are despatched twice daily.

Mails for Waterloo, Waterloo South (loose bag), Main Lead, Chute, and Raglan are despatched daily from Beaufort.

Mails for Shirley, and Surambreen are despatched three times a week—Mondays, Wednesdays, and Fridays.

Mails for Stockyard Hill and Sailor's Gully (a loose bag to Lake Goldsmith) are despatched three times a week—Mondays, Wednesdays, and Fridays.

OXYGEN IS LIFE.—Dr. Bright's Phosphodyne—Multitudes of people are hopelessly suffering from Debility, Nervous and Nervous Complaints, Depression of Spirits, Hypochondria, Timidity, Indigestion, Failure of Hearing, Sight, and Memory, Lassitude, Want of Power, &c., whose cases admit of a permanent cure by the new remedy Phosphodyne (Ozonized Oxygen), which at once allays all irritation and excitement, imparts new energy and life to the enfeebled constitution, and rapidly cures every stage of this hitherto incurable and distressing malady. Sold by all chemists and druggists throughout the globe. BEG. CAUTION.—Phosphorus is sometimes sold in the form of Pills and Lozenges; it should be generally known that every form where solid particles of Phosphorus are in combination is dangerous. It is therefore necessary that the public should be cautioned against the use of any form of Phosphorus not perfectly soluble in water.

ADVICE TO MOTHERS.—Are you broken in your rest by a sick child suffering with the pain or restlessness of a teething child? Go at once to a chemist and get a bottle of Mrs. Winslow's Soothing Syrup. It will relieve the poor sufferer immediately. It is perfectly harmless and pleasant to taste, it produces natural, quiet sleep, by relieving the child from pain, and the little cherub awakes "as bright as a button." It soothes the child, it softens the gums, allays all pain, relieves trouble, regulates the bowels, and is the best known remedy for dysentery and diarrhoea, whether arising from teething or other causes. Mrs. Winslow's Soothing Syrup is sold by medicine dealers everywhere at 1s. 1/6 per bottle.

THROAT AFFECTIONS AND HOARSENESS.—All suffering from irritation of the throat and hoarseness will be agreeably surprised at the almost immediate relief afforded by the use of "Brown's Bronchial Trochæ." These famous "lozenges" are now sold by most respectable chemists in this country at 1s. 1/6 per box. People troubled with a "hacking cough," a "slight cold," or bronchial affections, cannot try them too soon, as similar troubles, if allowed to progress, result in serious Pulmonary and Asthmatic affections. See that the words "Brown's Bronchial Trochæ" are on the Government Stamp around each box.—Prepared by John I. Brown & Sons, Boston, U.S. European depot, 33, Farringdon Road, London.

READ THE FOLLOWING.—"Carlton, near Nottingham, February 27, 1883. 'Messrs. the Midland Counties Drug Company, Lincoln. 'Gentlemen,—Some ten years ago my wife became lame with ulcerated legs. I tried every recommendation for a cure, and also a large number of doctor (some of these very clever men with diseases of kind), but to no effect. After being in this state for twelve and a half years I determined to try your Blood Mixture, as a last resource, as the fact that you were to be attended to, and I am thankful to say, after taking 13 of your small bottles she experienced a perfect cure. This is now four years ago, and she has never been affected, and there is no sign of the complaint returning. I may add that it had cost us scores of pounds to try one remedy after another previous to taking your valuable medicine, for which I return my sincere thanks.—I am, Gentlemen, yours gratefully 'J. C. S.'"

"P.S.—You may make what use of the above you think fit, in the event of advertising it kindly keep back my name. You can, however, send my name making private inquiries to my address at follows.—C. S., Midland Station, Carlton, near Nottingham."

Sold in Bottles 2s. 9d. each, and in Cases containing six times the quantity, 11s. each—sufficient to effect a permanent cure in the great majority of cases—sold by all Chemists and Dispensaries, and MEDICINE VENDORS throughout the world.

Proprietors, THE LONDON AND MIDLAND COUNTIES DRUG COMPANY, LINCOLN, ENGLAND. TRADE MARK—"BLOOD MIXTURE."

IMPORTANT NOTICE TO HEADS OF FAMILIES AND OTHERS.

Drapery, Woollens and Clothing, Carpets, Floorcloths and Linoleums, Bedsteads and Bedding, direct from the Importers, at actual Wholesale Prices.

CRAIG, WILLIAMSON, AND THOMAS

SUPPLY the Public with Drapery, Woollens, Carpets, Floorcloths, Linoleums, Bedsteads and Bedding at Importers' Rates, and purveyors to the Trade. The Terms being strictly Net Cash, purchasers at C. W. and T.'s warehouses have not to pay for losses occasioned by bad debts and they save the retail profit, fully 10 per cent. on the goods.

Extensive shipments from England and the Continent are received weekly by the several steamers, thereby ensuring a continuous supply of the newest goods.

Persons residing in the colonies, including the adjacent colonies, can rely on their orders having a careful attention. The principle of having only one price (no matter how large or how small the parcel) is a guarantee that families ordering by letter are placed on the same footing as if they selected the goods personally.

The Tailoring and Outfitting Departments having assumed such large proportions are now located at the warehouse, No. 6 Elizabeth street, close to the drapery warehouse. Cards for self-measurement and patterns forwarded on application.

The Stock in all departments is now fully assorted for winter requirements, and the firm have pleasure in inviting an inspection of their

DRAPERY WAREHOUSE AT 14 and 16 ELIZABETH STREET, and their CARPET AND CLOTHING WAREHOUSE, 6 ELIZABETH STREET.

Holloway's Ointment.

Bad Legs, Bad Breasts, Wounds, and Ulcerations of all kinds.

There is no medicinal preparation which may be so thoroughly relied upon in the treatment of the above ailments as Holloway's Ointment. Nothing can be more salutary than its action on the body both locally and constitutionally. The Ointment "rubbed" around the part affected enters the pores as salt permeates meat. It quickly penetrates to the source of the evil, and drives it from the system.

Rheumatism Diptheria Colds Coughs Sore Throat and Shortness of Breath.

Relaxed and congested throats elongated uvula ulcerated or torpid tonsils whooping cough, croup wheezing from accumulated mucus, and other difficult cases of respiration also palpitation stitches and shortness of breath may with certainty be cured by rubbing this healing Ointment over the chest and back for at least half an hour twice a day assisted by appropriate doses of Holloway's Pills.

For Glandular Swellings, Stiff Joints and Disease of the Skin.

This invaluable unguent has greater power over gout and rheumatism than any other preparation. None need remain in pain if its removal be about it in good earnest, by using instructions remedially according to printed directions affixed to each pot. All settled aches and pains are remediable in the same manner.

Gout and Rheumatism.

There is no preparation for salutory effects comparable to this remedy. It should be well rubbed over the affected parts after their due fomentation with warm water. It acts by stimulating the absorbents to increased activity, by preventing congestion and promoting a free and copious circulation in the parts affected, thence speedily and effectually it ensures a cure.

Piles, Fistulas and Eczematous. The cures which this Ointment effects in healing piles and fistulas of long standing, after they have resisted all other applications, have been numerous and are attested throughout the world that any order for a moderate quantity of this Ointment will be sent to you in a box, and you will be able to give an adequate detailed statement of their number and character. It is sufficient to know that the Ointment has never proved inefficacious.

In Disorders of the Kidneys, Stone, and Gravel. The Ointment's sovereign remedy if it be well rubbed twice a day into the small of the back, over the region of the kidneys, into which it will gradually penetrate, and a almost every case give immediate relief. Whenever it has been once used it has established its own worth, and has again been eagerly sought for as the easiest and safest remedy in all disorders of the kidneys. Both the Ointment and Pills should be used in the following complaints:—

Bad Legs, Piles, Sore Throat, Bad Breasts, Skin Diseases, Burns, Glandular Swellings, Bunions, Ings, Sore Heads, Chilblains, Lumbago, Tumours, Dropped Hands, Pains, Ulcers, Corns (soft), Rheumatism, Contracted and Sore Nipples, Stiff Joints, Scalds.

The Pills and Ointment are sold at Professor Holloway's Establishment, 78 New Oxford Street, London; and by nearly every respectable Vendor of Medicines throughout the Civilized World, in boxes and Pots. The smallest box of Pills contains four dozen; and the smallest Pot of Ointment one ounce.

Full printed directions are affixed to each Box and Pot, and can be had in any language, even in Turkish, Arabic, Armenian, Persian, or Chinese.

"For the Blood is the Life."

CLARK'S WORLD FAMED BLOOD MIXTURE.

THE GREAT BLOOD PURIFIER AND RESTORER.

For cleansing and clearing the blood from all impurities cannot be too highly recommended.

For Scrofula, Scurvy, Skin Diseases, and Sores of all kinds it is a never-failing and permanent cure.

It Cures Old Sores, Cures Ulcerated Sores on the Neck, Cures Ulcerated Sore Legs, Cures Blackheads, or Pimples on the Face, Cures Scurvy Sores, Cures Cancerous Ulcers, Cures Blood and Skin Diseases, Cures Glandular Swellings, Clears the Blood from all Impure Matter, From whatever cause arising.

As this mixture is pleasant to the taste, and warranted free from anything injurious to the most delicate constitution of either sex, the Proprietor solicits sufferers to give it a trial to test its value.

Thousands of Testimonials from all parts.

READ THE FOLLOWING.—"Carlton, near Nottingham, February 27, 1883. 'Messrs. the Midland Counties Drug Company, Lincoln. 'Gentlemen,—Some ten years ago my wife became lame with ulcerated legs. HOLLOWAY'S PILLS

NO family should be without these Pills. Their long tried efficacy in correcting disorders of the liver and stomach, stimulating the bowels, and purifying the blood, has secured for them an imperishable name throughout the world. A few doses produce comfort, a short continuance effects a complete cure. Invalids may look forward towards their recovery and revivifying medicine with the certainty of obtaining relief.

How to Enjoy Life. It is only known when the blood is pure, its circulation perfect, and the nerves in good order. The only safe and certain method of expelling the impurities is to take Holloway's Pills, which have the power of cleansing the blood from all noxious matters, expelling all humors which taint or impurify it, and thereby purify and invigorate it. This gives great tone to the system. Young and old, robust or delicate, may alike experience their beneficial effects. Myriads attest that these Pills possess a wonderful power in securing these great gifts of health by purifying and regulating the blood, and strengthening the solids.

Our Mothers and Daughters. The functional irregularities peculiar to the weaker sex are invariably corrected, without pain or inconvenience by the use of Holloway's Pills. They are the safest and purest medicine for all diseases incidental to females of all ages, and most precious at the turn of life, or when nature is weak and wavering.

Debilitated Constitutions—Bad Coughs. In general debility, mental depression, and nervous depression, there is no medicine which operates so powerfully as these famous Pills. They soothe and strengthen the nerves and system generally, give tone to the stomach, elevate the general tone of the system, and render the patient sensible of a total and most desirable revivification in his whole system. Thousands of persons have testified that, by their use alone, they have been restored to health after all other means have proved unsuccessful.

Indigestion and its Cure. Indigestion with torpidity of the liver is the bane of thousands, who pass each day with accumulated sufferings, all of which may be avoided by taking these Pills according to the accompanying directions. They strengthen and invigorate every organ subservient to digestion, and rid the system of the contrary they support and conserve the vital principle by a complete purification of the blood.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague, Piles, Rheumatism, Bilious Complaint, Retention of Urine, Blisters on the Skin, Scrofula, or King's Evil, Sore Throat, Sore Eyes, Dropsy, Second Water, Female Irregularities, St. Alois, Urinary Complaints, General Aches, Headache, Weakness of all kinds, Liver Complaints, Cause, &c., &c., Lumbago.

The Pills and Ointment are sold at Professor Holloway's Establishment, 78 New Oxford Street, London; and by nearly every respectable Vendor of Medicines throughout the Civilized World, in boxes and Pots. The smallest box of Pills contains four dozen, and the smallest pot of Ointment one ounce.

Full printed directions are affixed to each box and pot and can be had in any language, even in Turkish, Arabic, Armenian, Persian, or Chinese.

COMMERCIAL.

BALLARAT WHOLESALE PRODUCE MARKET.

There was a fair market on Thursday. We quote as follows:—Barley—English, 4s 3d; Cape barley, 2s 11d; wheat, 3s 6d to 4s 1d; oats, 2s 9d to 2s 10d; hay, sheaves, L2 to L2 10s; do., mangle, L3 to L3 15s; potatoes, L2 to L2 9s 6d; straw, oaten, L3; do., wheaten, L2 10s; peas, 3s to 3s 6d; bran, 1s; pollard, 1s 3d; bonedust, L6 10s; flour, 1s.

ARARAT PRODUCE MARKET.

The produce market during the past week has been characterized by unrelieved dullness, the few sales reported being of a very unimportant nature. In wheat very little is being done, but one small lot changed hands at our quotation. This rate will not compare with the price current in the metropolitan market where this staple continues to decline, and it may be expected that before long a further drop will be experienced here, and the difference between the local and the outside market thus adjusted. It is feared that lower prices will rule as harvest approaches, for though the crop prospects in the Wimmera district would lead to the belief that the gross returns from this portion of the colony will not approach those of last year, in the North Eastern district the crop will be a heavy one, and may be expected to uphold the average over the entire colony. The same remark will apply to oats, the market being largely influenced by New Zealand. A few small lots of flour have been put off at L8 and L7 12s 6d for small up-country brands. There is nothing doing in wheat at Horsham at 3s 4d, whilst the Donalld market is inactive at 3s 3d, 3s 5d is the quotation at St. Arnaud. Oats in this district show no movement. Hay is fairly well supplied at late rates. Onions are scarce, and have advanced to 11s per cwt. Fresh butter is firm and no notice is offering. A load of cheese of good quality was taken up on Saturday at 8 1/2d, and prime old would command a higher figure. Eggs are not so liberally supplied, and are worth up to 10d per dozen. We quote:—Wheat, 3s 7 1/2d, ex bags per bushel; oats, 2s 7 1/2d to 2s 8d; pollard, 1s 1 1/2d per bushel; bran, 1s 1d; Cape barley 2s 6d per bushel; English barley, 4s; peas, 3s; flour, L7 12s 6d to L8 per ton; Warramboul potatoes, old, L4; new, 10s per cwt.; Ballarat, potatoes, L2 15s; hay, (sheaves) L3 10s; hay, (trusses) L3 15s; straw, oaten, 30s per ton; do., wheaten, 25s; chaff, 4s per cwt.; carrots, 2s; onions, 10s per cwt.; butter (fresh), 10d per lb; butter, (potted), 8d to 8 1/2d; hams, 1s per lb; bacon, 10d; cheese, 8d; eggs, 10d per dozen.—Advertiser.

GEELONG STATION PRODUCE REPORT.

Wednesday. Messrs. George Hague and Co. report—Sheepskins—A full master of buyers, and fair competition. We had a good supply, and cleared out as follows:—Butchers' fresh skins, 24d to 3s each, superior to 4s1 each, country and station skins, 18d to 20d each, superior to 30d each and 2d to 4 1/2d per pound. Hides—An average supply, which we cleared at late quotations:—Heavies, 3d to 4d per pound; light and medium sorts, 3d to 3 1/2d per pound; kip, 3d to 3 1/2d per pound; calf, 5d to 6d per pound. Tallow a considerable decline has taken place, in sympathy with the London market. We have a large line under offer, for shipment to the Continent, and expect to close in the course of this week. Odd lots are easier.

The New Zealand Loan and Mercantile Agency Company Limited offered 3,800 bales of wool at their sale this afternoon to a full attendance of buyers. Competition continues brisk for all good wools, especially for fine cross-breds. There is no notable change in the market since last week. At to-day's sale superior easy merino brought from 8d to 13d., and fine crossbred from 8d to 11d. Scoured and washed wools were not well represented, the former brought up to 16 1/2d and the latter to 13d.

The Mooris of the Hot Lake District (says the "A.") broke out into open riot on Wednesday at Otonnetu, on the shore of Lake Roturua. They seized the Palace Hotel and severely maltreated both police and civilians. Eventually, however, the ringleader was captured and order was restored.

Mr. T. R. Marriott, captain of the Nottingham Tricycle Club, has completed an extraordinary ride on his tricycle. He left the Land's End Hotel, Cornwall, on the 20th September, and reached John O'Grady's House, Cathness, Scotland, in 6 days 15 hours, 25 minutes, after being delayed no less than 10 hours by a snowstorm in the Highlands. The distance was 950 miles. The performance entirely eclipses all previous rides taken on either tricycles or bicycles between these two points.

The Attorney-General of Great Britain has decided in a case informally submitted to him that a barrister who receives retaining fees to try an action, and fails to attend the trial, ought to return so much of the fees as exceeds the amount which would have been proper for merely giving an opinion. Heretofore barristers have pocketed their retainers and kept them whether they have rendered any service or not.

An "Argus" cablegram says:—The Radicals are furious with Mr. Brison, the Full English Premier, for his refusal to grant a full amnesty to the anarchists who are under imprisonment. The fall of the Brison Ministry is now regarded as inevitable.

Thursday's "Mill Free Press" states that on Saturday morning, the North-Western Varian Road accepted tenders at £32 for 34 miles of rabbit-proof fencing from the south-east corner of the north-western district along the 36th parallel. It was also decided to call for tenders, returnable on the 16th December, for the remaining portion. In reply to an inquiry, a letter was read from the Secretary of Lands stating that the Department were prepared to subsidise the Board to the extent of ten shillings for full grown wild dogs.

During the first eight months of the current year the total number of German emigrants was 79,933, as compared with 111,253 in the same period of 1884.

UNCLAIMED LETTERS AND NEWS-PAPERS.

KILDAHL, Postmistress. Beaufort, November 20th, 1885.

THE Riponshire Advocate.

Published every Saturday Morning. SATURDAY, NOVEMBER 21, 1885.

The decline in the price of wool in the English markets is so serious a matter to the Australian Colonies, as likely to adversely affect their prosperity in an appreciable degree, that it need occasion no surprise to find the woolgrowers of Australasia taking counsel to avert evil consequences. The Association have taken the bull by the horns, facing the difficulty with resolute action, which, if successful, should convert the threatened injury to our staple industry into a means of expanding Australian interests in the direction in question. Not merely woolgrowers, but farmers, many of whom keep sheep, and the general public also, are deeply interested in the wool-trade, from which so much of the wealth of Victoria is obtained. The Woolgrowers' Association of Australasia have approached the public in the crisis, appealing to them generally, but more particularly to those directly interested in pastoral pursuits, to assist with subscriptions in a movement, having for its objects the opening of new markets for our wool and other products. Thus, it is considered that China, Japan, and British India would present a suitable outlet for our superabundant wool, provided those channels were made the most of while the field is still open to us. There has been an influential meeting on the subject in Melbourne, and one of the results is that it was determined to form an Association to secure co-operative action in all matters affecting the interests of wool-growers. Members' subscription was fixed at £1 from all who are willing to accord the movement their support. It appears that, according to the Secretary, in many cases bales of wool have been offered; in others, a certain percentage of wool from the shearing of the whole flock; others, a yearly subscription of so much money for so many years, so as to give the scheme a fair trial. All these are estimable propositions, but the Committee have evidently, in their good pleasure, thought it inadvisable to dictate to their subscribers how they shall give or what they shall give, as long as in some way the support of the public is obtained. The fact that all classes of the community in Australasia are more or less affected by the fall or rise in the value of our staple product is pregnant to all, for is not the ship owner, the broker, and the tradesman each, individually and collectively, affected by the ravages of a drought, though, perhaps, in some cases, indirectly? Therefore, if the results of the labors of the Commission which it is proposed to send to China, Japan, and British India be successful, factories will be started, and new and inexhaustible markets be found for our wool, then must the prices rise in proportion, and each one become richer. The Executive Committee of the Woolgrowers' Association take the position that this question is of such serious moment to the colonies as to lift it out of the groove of a class interest or the region of parochial influence. There is no doubt that a blow at the pastoral interest would recoil with great force on the general public, so that the movement to a large extent falls within national lines. Support, prompt and substantial, ought to be accorded to the effort to expand so important a branch of industry as that of wool growing, and to bring foreign capital into the colony. Moreover, when the initial difficulties are surmounted, we believe the effort will meet with a large measure of success; and as it is of vital consequence to every active factor in the community, we have no hesitation in commending the scheme to the sympathetic notice of cultivators in these western areas.

The councillors in the shire of Lexton are at their wits' end to know what to do in order to cope with the rabbit pest in the shire, which is on the increase. At their meeting on Wednesday they resolved to dispense with the services of the Rabbit Inspectors, while an ineffectual attempt was made by Cr. Hermitson to abolish the present system of paying for the scalps of rabbits caught on the commons within the shire. The revenue of the shire is not a very large one, and the sum spent in coping with the pest is getting rather too large, and hence the anxiety among the councillors to curtail the expenditure. The usual monthly Police Court will be held at Beaufort on Monday next. A long discussion took place at the Lexton Shire Council meeting on Wednesday on an application from the Lexton Free Library for a grant-in-aid. Crs. Pinch, Douglas, Schulze, and the President supported the application, and the first-named gentleman moving that £2 be passed, while he spoke very highly of the manner in which the books are kept. Cr. McKenzie, Leadbeater, Gordon Hermitson and Spiers voted against any sum being paid, and the result was the motion was lost.

The following are the reported yields from the mines in this district for the past week:—New Discovery, 32oz. 16dwt. 14gr.; New Victoria, 35oz.; Waterloo, 35oz.; Hobart Pasha, 27oz.; South Victoria, 15oz. Several of the Lexton Shire councillors do not consider it right to vote money out of the shire funds towards public libraries. An application from the Lexton Free Library was refused on Wednesday, although Cr. Finch testified to the good that was being done by that and other kindred institutions in the shire. Our Waterloo correspondent writes:—"The anniversary services of the Waterloo Sunday School were celebrated on Sunday and Monday last. On Sunday two sermons were preached in the afternoon by the Rev. Mr. Keir, of Ballarat, and in the evening by the Rev. T. Nichols, of Stawell. The children recited and sang at each service as usual. On Monday the annual picnic was held on the sand dune sports grounds, and as the day was fine a large number of the parents and friends congregated, and seemed to enjoy themselves. At about half-past 3 the children, numbering about 180, sat down to an excellent tea, and at 5 o'clock the adults partook of tea, the number present being 127. Mr. S. Whiting, of Beaufort was the caterer, and gave general satisfaction. The children's entertainments consisted of cricket, swings, races, tug-of-war, and other games. In the evening a public meeting was held in the Mechanics' Hall, Mr. J. Proctor in the chair. The hall was as full as it could hold, and the chairman gave a very appropriate address in opening the meeting. The children recited and sang during the evening, and both portions of the services being very good. Mr. C. Rankin gave a statement of the financial affairs of the school, from which it appeared that the income last year was £237 17s 4d, and expenditure £31 2s 9d, leaving a balance of £206 14s 6d. The takings this year were not so good as last, only amounting to £20 10s 6d, and the year's losses. The usual votes of thanks to the ministers, chairman, etc., brought the meeting to a close. The annual Licensing Court will be held at Beaufort on the 19th December. Messrs. Dandell and Watson sat as a Local Land Board at Beaufort on Thursday, and had a long day's work; in fact they were not able to give their decision in a number of cases, owing to having to leave for Ballarat by the 5.25 p.m. train, as they were due at Smythesdale at an early hour yesterday. The reserved decisions, however, will be conveyed to the applicants by letter. The Lands Officer in Ballarat will have some trouble in putting all the applicants for land in the parish of Langi Kal Kal, at the Land Board held at Beaufort on Thursday. There are only about 3,200 acres in the parish open for selection, yet there were eleven applicants who wanted 1000 acres each. Mr. Richard Farley, undertaker, notifies in another column that he has purchased a new hearse. In the future the conventional raggwagette will be done away with in conveying the dead to the local cemetery, a reform which was much needed in order to keep pace with the times. Public attention is directed to the sale of Mrs. Gunn's household furniture and effects, etc., which will be conducted on Monday next by Mr. W. Edward Nichols, auctioneer. Scarcity of trucks is still the cry at the Beaufort Railway Station. We are informed on reliable authority that two wood-carriers have sought fresh fields and pastures new during the past week, as they are unable to get their wood conveyed to Ballarat. The Captain of the Beaufort Cycling Club wishes us to state that the members will meet at half-past 6 each evening next week for a run to Box's Outing. On Tuesday evening last a special meeting of the Beaufort Volunteer Fire Brigade was held at the brigade room, for the purpose of formally presenting the trophies to the men who composed the winning teams at Horsham, particulars of which we gave in our last issue. Captain Stuart handed the trophies over to the winners, and in doing so highly complimented them on their success, and did not know what to say, maintained by these men as the result of constant practice, and urged the other members to follow their example. The health of the winning team was then proposed by Captain Stuart, and drunk with musical honors. A number of other toasts followed, interspersed with songs, and altogether a very sociable and pleasant evening was spent. Charlotte Makor, Mrs. Kenny, and Ah Sun were each fined £25, with costs, at Ararat on Tuesday last for selling liquor without a license. John Killeffer, Ex-Inspector, prosecuted. A man named Patrick Roundtree was fined £10, and costs, at the same court, for tearing a horse's tongue out. Monday next being Constitution Day will be observed as a bank and public holiday. The total number of men enrolled in the Victorian militia is 4,428. The R.M.S. Ballarat, which sailed from Melbourne for England on the 17th inst., was valued at £127,000 for London and India. The most juvenile divorce suit yet reported has been instituted in Philadelphia. Melissa Amelia Evans, who is only fourteen years old, wants to be released from her marriage with Smith B. Rhodes, not yet twenty-one, on the grounds that she did not know what she married him for; that he deceived her in stating that he owned a brick house, whereas he was a bricklayer's apprentice, receiving only £1 4s. a week, and that since the ceremony he has cruelly treated her and not given her enough to eat. Holloway's Pills.—Nervousness and want of energy.—When first the nervous feel unstrung, and listlessness supplants energy, it is the right time to take some alternative as Holloway's Pills to prevent disorder running into disease. These excellent Pills correct all irregularities of the bowels, and act so kindly, yet so energetically on the functions of digestion and assimilation, that the whole body is revived, the blood is rendered richer and purer, the muscles become firmer and stronger and the nervous and absorbent systems are invigorated. These Pills are suitable for all classes and all ages. They have a most marvellous effect on persons who are out of their dinner, and rectify whatever is in fault, restoring strength to the body and confidence to the mind. The Queensland Parliament was prorogued on Thursday. H.M.S. Opal left Sydney for New Guinea with an expedition to search for the Geographical Society's exploring party on Thursday. The work of removing the Benja and Williams monument from Collins street, Melbourne, to make room for the tramway was commenced yesterday. In the town of Vistabella, province of Castellon, Spain, a couple of well-to-do people were recently married, and a most splendid affair was "and dinner. All who ate at that dinner, including the bride and bridegroom, and the poor, among whom the remains of the feast were distributed, were suddenly seized with symptoms of poisoning. No fewer than 17 died, and over 60 were in a critical condition. From a local paper it appears that the father of the bride owed a small sum of money, which he would not pay. The creditor went to the wedding, and just as the bride was being prepared, and threw some poison into one of the dishes.

LEXTON SHIRE COUNCIL.

WEDNESDAY 18th NOVEMBER, 1885.

Present.—The full Council. The minutes of the previous meeting were read and confirmed.

CORREY PONDERY. From the Secretary Lexton Free Library, applying for the usual annual donation.—No action taken.

From Central Board of Health, stating that its model by law as to dairies and a by-law for regulating the cleaning of closets and disposal and disinfection of nightsoil under Section 24 of the Act, No. 783, must be made by all local boards.—Held over till next meeting.

From the Hon. Treasurer Victorian Infant Asylum, forwarding annual report, and soliciting a donation.—Held over.

From the Secretary Shire of Ripon, asking what salary is paid this Council's rabbit inspector.—Complied with.

From Same, pointing out that the planking of the Stroy Ford bridge having become rotten and dangerous, it had been found necessary to renew the same at a cost of £11 10s, and asking this Council to bear their share of the expense of renewing the same.—Resolved to co-operate as requested.

From Shire Council of M'Evoy, asking Council to send delegates to a conference to be held in Melbourne to discuss the desirability of the Land Tax being given to the municipalities in which the properties taxed are situated.—Resolved.

From the Department of Public Works, stating that the Hon. the Commissioner of Public Works had decided to comply with the request of this Council for some assistance in maintaining the Wimmera main road, and will allow the expenditure on this road since October, 1884, to be charged against the vote for such works.—Received.

From Mr. W. H. Uren, M.P., with reference to letter received from this Council, asking him to support proposition from Marong Shire Council with reference to closed roads, and stating that the matter will receive his attention.—Received.

From John Adams, Stony Creek, Talbot, asking permission to depasture his sheep on the Evansford Common.—Request not entertained, as it had been previously resolved that no sheep be allowed to depasture on the common.

From Shire Council of Ripon, suggesting the desirability of the engineers of the Shires of Lexton and Ripon conferring together and furnishing a report as to the state of the Trawalla bridge and advise as regards to the kind of bridge they may deem the most desirable to build in its place.—Request to be complied with.

From William Simpkin, stating that while carrying out contract No. 172, which showed about 500 yards of filling, the side cutting was so double that the filling ran out to allowance owing to the extra work.—The engineer said that there was no doubt but that Mr. Simpkin's statement was correct, but the Council decided not to entertain the request.

ADJOURNED ANNUAL MEETING. The annual meeting was still further adjourned for a month, as the accounts had not yet been audited. On the motion of Cr. Spiers it was resolved.—That this Council express their disappointment at not having the accounts audited ready for the annual meeting.

REPORT. The engineer reported as follows:—"In accordance with instructions tenders were received on the 24th of October for clearing and burning refuse timber on the Wimmera road, between Hunter's and Mount Direction, and the tender of Henry and Co., for £19 17s 6d, has been accepted. The work has been since completed satisfactorily. Tenders are invited for contract 177 for repairs and additions at Lexton. The whole of the contract works let during the past year are completed. The estimates for 1885-6 set forth the works proposed to be constructed during the current year. I would advise that tenders be called for all the maintenance metal set down in the estimates.—The report was received, and adopted, tenders to be called for the metal as advised.

TENDERS. The tender of J. Retailick at £3 16s 6d was accepted for road repairs at Lexton.

NOTICE OF MOTION. Pursuant to notice Cr. Hermitson moved.—That the present system of paying for scalps of rabbits killed in the shire be discontinued. He did not think that the system worked well.

Cr. Spiers said he was in favor of giving the rabbit inspectors instructions to carry out the law in its integrity. The President said he did not think it fair to carry out the law in its integrity, while the commons were merely breeding grounds and no steps were taken to kill the rabbits thereon.

Cr. Schulze said the question was whether a cheaper method could be adopted for the eradication of the pest. He had seen bisulphide of carbon used with good effect, as also sawdust and sulphur.

Cr. Spiers suggested that tenders be called for the eradication of the pest on the common. Cr. Pinch said he considered that while the harbor for rabbits was allowed to exist in the shape of brush and log fences it was useless to spend money in trying to eradicate the pest.

Cr. Douglas supported the present system of paying for scalps, although he objected to the Council paying for rabbits killed on the common. On the motion being put it was lost.

RABBIT SUPPRESSION. The Rabbit Inspectors for the three Ridings handed in very long reports, from which it appeared that the work of exterminating the pest was progressing satisfactorily. Cr. Hermitson said that he thought that the reports of the inspectors should be read to the land-holders, and not to the Council. The inspectors should report as to who had not complied with the act. After some further discussion the Council went into committee to consider the matter of dealing with the inspectors. On resuming it transpired that the committee had decided to dispense with the services of the rabbit inspectors.

COMMONAGE FEES.

Cr. Schulze gave notice of his intention to move at the next meeting.—That the commonage fees be increased, in order to meet the expenditure incurred in the destruction of rabbits on the common, the herdsman's salary not to exceed that at present paid.

GENERAL BUSINESS. On the motion of Cr. Pinch, seconded by Cr. Spiers, it was resolved.—That the herdsman of the Evansford Common report at the next meeting as to the number of the cattle registered on the common since the 1st November.

THE ESTIMATES. Were read by the Secretary, and amended by the Council, the confirmation of them being held over till next meeting.

FINANCE. The monthly account having been passed for payment, The Council then adjourned.

LOCAL LAND BOARD.

A Local Land Board was held at the Court-house, Beaufort, on Thursday, last, before Mr. J. J. Blandell, Land Officer, and Mr. G. R. Watson, of the Lands Department, Melbourne, when the following applications were dealt with:—SECTION 33 LAND ACT 1884.

Henry M. Elder, Mary Keating, James Madden, jun., and Edward J. Penn were applicants for 40a. of land, parish of Banzal, allotment 3B, section 36. Mary Keating was the only applicant that appeared, to whom the land was recommended.

Allotment 4B, section 14, 15a., parish of Banzal.—Charles Bradshaw, Duncan Cameron, William B. Madden, and James Stoddart were applicants for this land. After the evidence of each of the applicants had been taken, the application of Duncan Cameron was recommended, the others being refused.

Allotment 5, section 14, 23a., parish of Carrambill North.—Margaret Keating and Archibald Stewart were the applicants for this land, and the application of the latter was recommended.

John Keating applied for 13a. of land, parish of Carrambill North, allotment 5, section 11.—Recommended.

John Lowrey and Frances Ritchie were applicants for 20a. of land, being allotment 8B, section 37, parish of Carrambill North. The Board decided to recommend the application of Mrs. Ritchie, but expressed an opinion that the land should be sold by auction if possible.

William E. Jay applied for 45a. of land, being allotment 5B, parish of Langi Kal Kal.—Recommended.

James Blackmore, William Bradshaw, John W. Cook, William J. D'Imple, John Duly, James Doyle, Agnes Keating, John Kerr, George Kirkpatrick, David A. Madden, Donald McKenzie, Patrick O'Brien, Francis Oddie, Charles Westbrook and John Whelan were applicants for 70 acres of land, parish of Wongan, allotment 1c. An objection to the alienation of this land was lodged by Mr. T. R. Oddie on the grounds that it had been reserved some years ago for public purposes. The application of George Kirkpatrick was recommended.

SECTION 65, LAND ACT 1884. Donald Cameron, Beaufort, 20a.—Recommended, subject to survey. John Cochrane, Beaufort, 20a.—Recommended, subject to survey. William Cochrane, Beaufort, 20a.—Recommended, subject to survey. John B. Cochrane, Beaufort, 20a.—Recommended, subject to survey. Eliza Wood, Beaufort, 20a.—Recommended, subject to survey. Thomas Wood, Beaufort, 20a.—Application refused, as the land applied for is too far distant from a prior selection at the Wimmera.

Charles Wood, Beaufort, 20a.—Recommended, subject to survey. Charles H. Smith, Langi Kal Kal, 20a.—Recommended, subject to survey. SECTION 67 LAND ACT 1884. John B. Cochrane, William Cochrane, and Rupert Smith were applicants for 1000a., parish of Beaufort. In reply to Mr. J. W. Browne, member of the Ararat Mining Board, Mr. Blandell stated that the alienation of this land did not prevent the free access of wood-cutters to the land for the purpose of removing timber under license. Mr. Rupert Smith did not appear, and as the land applied for was the same block, the Board recommended that the land be divided between Messrs. J. B. Cochrane and W. Cochrane, the northern portion of the block to the former, and the southern to the latter.

Albert Andrews, 1000a., Thomas Canfield, 675a., and Denman Mason, 700a., parish of Eurambreen. This is the same land, and Mr. Andrews and Mr. Mason, on being asked the question, declined to take half the land, while Mr. Canfield said he was willing to take the southern half. In this case the Board decided to recommend that the northern half of allotments 11 and 12 be granted to Thomas Canfield, and the southern half to Denman Mason, while allotment 13 would be recommended to Albert Andrews.

George Topper applied for 1000 acres in the parish of Eurambreen, being portions of allotments 13, 14, and 4. Mr. Neil McIntosh objected to that land included in allotment 4 being granted to Mr. Topper. Recommended that 965 acres of land outside of the common be granted to Mr. Topper, which does not include that in allotment 4.

Petrus Do Baer, 1000a.; John Frusher, 1000a.; Ann Mulcahy, 500a.; Daniel Mulcahy, 500a.; John Muteahy, 500a.; Margaret Mulcahy, 500a.; Michael Mulcahy, 500a.; John M'Naughton, 500a.; Bertha J. Stephens, 1000a.; Margaret G. Stephens, 1000a.; Sophia Stephens, 1000a.; and Thomas S'ephens, 1000a.; all in the parish of Langi Kal Kal, were applicants for the same land.—The decisions in these cases to be forwarded to the applicants by letter.

Thomas Kewley, Langi Kal Kal 1000a.; J. E. Conbar, Langi Kal Kal, 1000a.; James Brown, Langi Kal Kal, 900a.; Edward Carter, Langi Kal Kal, 1000a.; Charles Loft, Langi Kal Kal, 1000a.; James M'Erval, Langi Kal Kal, 1000a.; Georges Neil, Langi Kal Kal, 1000a.; James Neil, Langi Kal Kal, 1000a.; Robert Neil, jun., Langi Kal Kal, 1000a.; Robert Neil, Langi Kal Kal, 500a.; Alfred T. Stevens, Langi Kal Kal, 1000a.; James Trengrove,

COMMONAGE FEES.

Cr. Schulze gave notice of his intention to move at the next meeting.—That the commonage fees be increased, in order to meet the expenditure incurred in the destruction of rabbits on the common, the herdsman's salary not to exceed that at present paid.

GENERAL BUSINESS. On the motion of Cr. Pinch, seconded by Cr. Spiers, it was resolved.—That the herdsman of the Evansford Common report at the next meeting as to the number of the cattle registered on the common since the 1st November.

THE ESTIMATES. Were read by the Secretary, and amended by the Council, the confirmation of them being held over till next meeting.

FINANCE. The monthly account having been passed for payment, The Council then adjourned.

LOCAL LAND BOARD.

A Local Land Board was held at the Court-house, Beaufort, on Thursday, last, before Mr. J. J. Blandell, Land Officer, and Mr. G. R. Watson, of the Lands Department, Melbourne, when the following applications were dealt with:—SECTION 33 LAND ACT 1884.

Henry M. Elder, Mary Keating, James Madden, jun., and Edward J. Penn were applicants for 40a. of land, parish of Banzal, allotment 3B, section 36. Mary Keating was the only applicant that appeared, to whom the land was recommended.

Allotment 4B, section 14, 15a., parish of Banzal.—Charles Bradshaw, Duncan Cameron, William B. Madden, and James Stoddart were applicants for this land. After the evidence of each of the applicants had been taken, the application of Duncan Cameron was recommended, the others being refused.

Allotment 5, section 14, 23a., parish of Carrambill North.—Margaret Keating and Archibald Stewart were the applicants for this land, and the application of the latter was recommended.

John Keating applied for 13a. of land, parish of Carrambill North, allotment 5, section 11.—Recommended.

John Lowrey and Frances Ritchie were applicants for 20a. of land, being allotment 8B, section 37, parish of Carrambill North. The Board decided to recommend the application of Mrs. Ritchie, but expressed an opinion that the land should be sold by auction if possible.

William E. Jay applied for 45a. of land, being allotment 5B, parish of Langi Kal Kal.—Recommended.

James Blackmore, William Bradshaw, John W. Cook, William J. D'Imple, John Duly, James Doyle, Agnes Keating, John Kerr, George Kirkpatrick, David A. Madden, Donald McKenzie, Patrick O'Brien, Francis Oddie, Charles Westbrook and John Whelan were applicants for 70 acres of land, parish of Wongan, allotment 1c. An objection to the alienation of this land was lodged by Mr. T. R. Oddie on the grounds that it had been reserved some years ago for public purposes. The application of George Kirkpatrick was recommended.

SECTION 65, LAND ACT 1884. Donald Cameron, Beaufort, 20a.—Recommended, subject to survey. John Cochrane, Beaufort, 20a.—Recommended, subject to survey. William Cochrane, Beaufort, 20a.—Recommended, subject to survey. John B. Cochrane, Beaufort, 20a.—Application refused, as the land applied for is too far distant from a prior selection at the Wimmera.

Charles Wood, Beaufort, 20a.—Recommended, subject to survey. Charles H. Smith, Langi Kal Kal, 20a.—Recommended, subject to survey. SECTION 67 LAND ACT 1884. John B. Cochrane, William Cochrane, and Rupert Smith were applicants for 1000a., parish of Beaufort. In reply to Mr. J. W. Browne, member of the Ararat Mining Board, Mr. Blandell stated that the alienation of this land did not prevent the free access of wood-cutters to the land for the purpose of removing timber under license. Mr. Rupert Smith did not appear, and as the land applied for was the same block, the Board recommended that the land be divided between Messrs. J. B. Cochrane and W. Cochrane, the northern portion of the block to the former, and the southern to the latter.

Albert Andrews, 1000a., Thomas Canfield, 675a., and Denman Mason, 700a., parish of Eurambreen. This is the same land, and Mr. Andrews and Mr. Mason, on being asked the question, declined to take half the land, while Mr. Canfield said he was willing to take the southern half. In this case the Board decided to recommend that the northern half of allotments 11 and 12 be granted to Thomas Canfield, and the southern half to Denman Mason, while allotment 13 would be recommended to Albert Andrews.

George Topper applied for 1000 acres in the parish of Eurambreen, being portions of allotments 13, 14, and 4. Mr. Neil McIntosh objected to that land included in allotment 4 being granted to Mr. Topper. Recommended that 965 acres of land outside of the common be granted to Mr. Topper, which does not include that in allotment 4.

Petrus Do Baer, 1000a.; John Frusher, 1000a.; Ann Mulcahy, 500a.; Daniel Mulcahy, 500a.; John Muteahy, 500a.; Margaret Mulcahy, 500a.; Michael Mulcahy, 500a.; John M'Naughton, 500a.; Bertha J. Stephens, 1000a.; Margaret G. Stephens, 1000a.; Sophia Stephens, 1000a.; and Thomas S'ephens, 1000a.; all in the parish of Langi Kal Kal, were applicants for the same land.—The decisions in these cases to be forwarded to the applicants by letter.

Thomas Kewley, Langi Kal Kal 1000a.; J. E. Conbar, Langi Kal Kal, 1000a.; James Brown, Langi Kal Kal, 900a.; Edward Carter, Langi Kal Kal, 1000a.; Charles Loft, Langi Kal Kal, 1000a.; James M'Erval, Langi Kal Kal, 1000a.; Georges Neil, Langi Kal Kal, 1000a.; James Neil, Langi Kal Kal, 1000a.; Robert Neil, jun., Langi Kal Kal, 1000a.; Robert Neil, Langi Kal Kal, 500a.; Alfred T. Stevens, Langi Kal Kal, 1000a.; James Trengrove,

MISCELLANEOUS.

Application from the managers of the Beaufort United Common, to have allotment 4, parish of Eurambreen, re-proclaimed as part of the Common, as also several other allotments of forfeited land in the shire. The Board decided to accede to the request. The Board then adjourned.

BEAUFORT MUTUAL IMPROVEMENT ASSOCIATION.

The quarterly "social" in connection with the above Association was held on Tuesday evening last, which proved to be quite an enjoyable affair. The attendance was not so large as on previous occasions, but this may be accounted for by the short notice given to the public of the affair. However, the hall was about half filled with an appreciative audience. Mr. J. B. Humphreys (President) occupied the chair, and the following programme was gone through:—Overture, "My Van Winkle," Miss R. Jackson and Messrs. J. Jackson, sen., R. Jackson, J. Jackson, jun., and Mr. J. McKeich; opening remarks, Mr. J. B. Humphreys; song, "Our Fat," Miss Heathershaw; recitation, "Our Follies," Mr. H. Smith; song (comic), "Father," Mr. C. W. Tompkins; song, "The Social Chair," Miss Rogers; reading, Mr. T. G. Archard; song, "The Maid of the Mill," Mr. W. H. Elise; remarks, Mr. Needam (V.P.); Second Part: Overture; song (comic), "That's the way to the Zoo," Mr. H. Smith; recitation, "The Queen's Letter," Mr. R. Sinclair; song, "Dulcinella," Miss Rogers; recitation (comic), "Mr. King," Mr. C. W. Tompkins; song, "The Queen of the Earth," Miss Heathershaw; song, "Shipwrecked," Mr. R. Jackson; song (comic), "The Queen," Mr. C. W. Tompkins; remarks, Rev. H. Heathers

Traveller.

A Day's "Drive" with Hontann Coy-bobs.

SOFTLY against the dark mass, a wall in the faint light of the coming sun-gods...

Very slowly and cautiously the herd moves forward; sometimes there is a halt in front...

Down in the camp, in the shelter of the little stream which cuts through the plain...

Up comes the sun over the mountains; brighter and brighter grows the sky...

But the herd moves easily now, drifting little, so as to enable the hungry brutes to crop at the fresh green grass...

But the herd moves easily now, drifting little, so as to enable the hungry brutes to crop at the fresh green grass...

A picturesque locality full of fellows, these with "comrades" who are there in abundance...

The long twilight sets in, gradually melting into the shades of night; silence reigns over the camp...

THEY COULD—In answer to a query as to how to remedy clothes which have become shiny, the Scientific American says—

All in the Dreamy Quiet. A dreamy quiet, a fire-lit room. Two cups of coffee whose rich perfume steals over our senses...

Gradually the prairie is passed; quietly and gently the nervous brutes are crowded more closely together...

But! pater! pater! the rushing, confused roar of hundreds of hoofs striking the ground...

Sketcher.

In the Near Future.

Among the facts that every school-boy knows, and which most men and women have forgotten, are those familiar on our tongues...

We know, but hardly remember, that the greatest single manufacture in the world is scarcely a hundred years old.

Marvellous as have been the inventions of the recent past, stupendous as are the changes they have effected, inventions actual progress...

Let the herd move more easily now, drifting little, so as to enable the hungry brutes to crop at the fresh green grass...

There is plenty of good camping places to be seen, and there is in abundance...

The cattle feel that the hour of rest has come, as, unrestrained by the drivers, they lie at ease on the ground...

THEY COULD—In answer to a query as to how to remedy clothes which have become shiny, the Scientific American says—

Ladies' Column.

The Lack of Marrying Men.

THE problem of what we are to do with our girls is one of the most important in the world...

Old bachelors are no longer looked on as ridiculous beings, but as sensible men, too prudent to enter matrimony until they are settled in life...

Another, though less patent, reason for the infrequency of marriage, is the security of marriage itself. It is recognized by all of us that a wife is a very valuable asset...

Men with a future are not likely to be attracted by conveniences not found in independent houses. The absence of stairs is itself an enormous saving of labor...

Caution may serve as a foil, but there is no pleasant safeguard against real dishonesty. It circumvents all our efforts to shield ourselves from it, because it lurks in secret places, hedges us about, and springs upon us when least aware or suspicious of its presence. It assumes one of its direst forms when it comes in the shape of a sham, because it is apt to impose on the weak-minded and credulous. Its most hideous phase is when it essays to usurp the place of a splendid article like Wolfe's Schnapps, in the spurious trick of a base imitation. Be sure you ask for Wolfe's.

Public Notice.

EARLY in December a new story by the author of the popular story, "His One Mistake," will be published in our supplement, entitled "Tut Asunder, or Lady Castlemaine's Divorce."

THE NATIONAL MUTUAL LIFE ASSOCIATION OF AUSTRALASIA. Head Office: Melbourne, 1 Market Buildings.

Established 1869.

The chief features are MODERATE RATES, LARGE BONUSES, and AMPLE SECURITY. Policies opened before 31st October have a special advantage—they will participate in the Bonus to be declared for the period ending 30th September, 1886.

Forms of Proposal to be had from any of the Agents throughout the colonies.

ALEX. H. YOUNG, Manager.

Agent for Beaufort: J. B. HUMPHREYS.

Geelong Wool Sales.

We shall hold AUCTION SALES OF WOOL on each TUESDAY AND THURSDAY, throughout the coming season.

We draw attention to some of the advantages we have to offer for the sale of Western and Victorian clips:

A SAVING IN CHARGES AND FREIGHT.

Of, as compared to Melbourne, about SEVEN SHILLINGS PER BALE.

The ATTENDANCE of all the EUROPEAN and AMERICAN BUYERS, and in addition, a LARGER LOCAL CONSUMPTION.

Of Wool than in any other Australian Town.

Our Warehouse accommodation, which enables us to store or display a Catalogue of 9000 Bales, and its situation—

which is within a STOKY'S THROW of the SHIPPING.

and in close proximity to the Sale Room, thus enabling buyers, at a minimum inconvenience, to re-examine any lots which may have been passed in at auction.

THE CAREFUL VALUATION and Personal Attention of each Member of the Firm.

Trusting that our efforts to provide Growers with every facility for the Sale of their Wool in the Colony, will meet with a correspondingly increased support.

We are, etc., Denny, Lascelles, Austin and Co. Geelong, August 17th, 1885.

Geelong Wool Sales.

GEORGE HAGUE & CO. Will hold Sales of Wool every Tuesday during the ensuing Season.

To keep pace with the Extraordinary Progress our business has been making, we have been compelled to greatly extend our Warehouse accommodation, and with the latest additions our Warehouse is now one of the largest and most convenient in the Australian colonies.

OUR NEW SHOW ROOMS

Are admirably adapted for the exhibition of Clips to the best advantage. A steady supply of light, which is so necessary to the efficient display of the superior Western Wools, being a special feature; and last season all the English, Continental and American buyers declared our New Show Rooms to be the best lighted and most suitable for the proper display of wool of any in the colony.

EVERY LOT, no matter how small, is carefully examined prior to sale, and protected up to full market value.

CASH ADVANCES made on the ensuing clip.

FARMERS' LOTS receive the most careful attention, and no effort is spared to secure utmost value, even for the smallest lots.

20,344 BALES.

Passed through our hands last year, and we think this enormous increase should be sufficient evidence that our mode of conducting business has met with the approval of our constituents.

PROMPT SETTLEMENTS.

Account Sales and Cheque for proceeds forwarded invariably three days after sale.

CHARGES.

The lowest ruling in the colony, and growers will find they effect a Saving of Seven Shillings per bale by selling at Geelong instead of Melbourne.

WOOLPACKS and STATION STORES supplied at lowest market rates.

SHEEPSKINS, HIDES, TALLOW. Sales every Wednesday throughout the year.

GEORGE HAGUE & CO., Wool Brokers. Geelong, 1st July, 1885.

THE YOUNG STALLION TIME OF DAY

Will stand this season at his owner's farm at Clute. TIME OF DAY is now rising two years old, and is by Darwin, Dam by Crown Prince. This promising young colt is of great quality, perfectly moulded, possessing grand bone and hair. He gained first prize at Talbot last year against 18 competitors, and second at Clute, and first prize at Carperie against colts and fillies.

Only a limited number of mares will be taken. A good grass paddock provided, with a plentiful supply of water. Due notice will be given when mares are stabled; when paddocking will be charged if not removed.

KENETH MCKINNON, Clute.

THE PURE-BRED CLYDESDALE HORSE YOUNG CONQUEROR

He is by Moffat's Conqueror, and half brother to Darnley, which is now the most popular horse in Scotland. Darnley is the sire of M'Corneak's Blue Ribbon. Young Conqueror's dam was by The Pride of Scotland, which stood in this colony at fifteen guineas. Young Conqueror will travel through Beaufort, Raglan, Middle Creek, and Shirley, starting on the first Monday in October, and every Monday throughout the season.

Terms, three guineas, to be paid at the end of the season. For further particulars apply to the proprietor,

WILLIAM SUTHERLAND.

Young Vanquisher

Will stand this season at his owner's farm, Middle Creek, and will travel the surrounding district.

He is by VANQUISHER, the imported pure Clydesdale entire horse, and has taken champion prizes at Ballara, Staveland, and Hosiery. Vanquisher's sire was the celebrated Champion, the property of Mr. Muir, of Loch Fergus. Champion took first prize at Kirkeubright when two years old, and the £50 prize given by the Melbourn Society at the first Melbourn Show in 1872. Champion is the sire of the first Melbourn Champion, who gained eight first prizes at the Highland Society, Glasgow, Strirling and all other places. Champion is brother to Prince Charlie and the famous Victor.

YOUNG VANQUISHER was bred by P. Anderson, Esq., Gillespie, Wigtownshire, out of a brist, who, when two years old, took first prize at Ayr; at three years old the first prize at Kelso, also first prize at Dalbeattie; the first prize at the Great Glasgow Exhibition at Kilburn in July, 1870, the first prize horse out of 815 shown was Druid, who was a dam (Thibbe) was not by Vanquisher.

With regard to Druid, the following extracts from the "Journal of the Royal Agricultural Society of England" speak for themselves as to the excellence of that horse. In that journal is the report of the stewards and the judges at the Great International Exhibition at Kilburn, in which they say:—"It would not be easy to find more facilities for the exhibition of the best of the world's first prize for aged stallions, and also carried off the Champion Cup." The judges say—Stallions, four years old and upwards. The first horse having more substance, and very deservingly obtaining the premium ticket, and afterwards easily won the Cup. David Buchanan, Glasgow, and James Muir, Glasgow, value £25 for Druid, four years old, bred by Mr. James Muir, Glasgow, and James Muir, Glasgow, value £25 for Vanquisher \$100.

This splendid entire is now rising seven years old, stands 16 hands 3 inches, is a beautiful dappled bay, with a good flat bone, and silky hair in the right place.

YOUNG VANQUISHER took second prize as a yearling at the Agricultural Show, and second prize at Ararat as a two-year-old, second at Beaufort as a five-year-old. His stock gained Mr. Henningsen's prize for the best yearling at the Beaufort Agricultural Show, 1885.

YOUNG VANQUISHER'S dam was bred by William Lewis, Esq., Stoneleigh, and got by the imported Clydesdale stallion Wallace. It will thus be seen that Young Vanquisher is got by the best strain of blood that Scotland could produce.

TERMS: £2 10s. each mare, to be paid at the end of the season. Good paddocks, with plenty of water provided, for which 5s extra will be charged. All sort of care will be taken, but no responsibility incurred.

Any mares not proving in foal will be served next season for half price. Guarantee as per agreement. One mare in four allowed to have foal owners.

THOMAS JESS, Proprietor.

THE PURE CLYDESDALE HORSE LORD BYRON

Will stand this season at his owner's farm, Raglan, Goldendale, Winton, Clute, and Shirley.

LORD BYRON is a bright dappled brown, eight years old, with extra quality of bone and hair, standing 17 hands high. His sire, Young Ben, champion horse at Denington Society's show in 1877, also first prize in 1878. Young Ben, by Ben Lobb, by the celebrated mare Lamond (imported); g. grand sire Prince Albert, known as the Spruiston horse. Ben Lobb's dam was the noted prize mare Jean, the dam also of the Captain, the Colonel, and other well-known horses. Lord Byron is out of Mr. Archibald Young's well-known prize mare by Cromwell (imported). Lord Byron's dam Maggie gained first prize at Beaufort Society's show in 1880 for the best brood mare. She is by the far-famed Old Prince Charlie (imported); g. grand-dam Dig Jess, by Star; g. g. granddame by Black Champion (imported); g. g. granddame by Queen's Land; and g. g. granddame by the first prize as a yearling at Beaufort, 1877, and second prize at the Echus show in 1878, as a two-year-old; also second prize the same year at Denington Society's show in 1879. Lord Byron's dam also gained first prize at Beaufort in 1883; second prize at Inglewood, 1884, and second prize at Waddellburn Pastoral and Agricultural Show in 1885.

TERMS: £2 3s. If paddocked, £3 10s. Guarantee as per agreement. Due notice will be given when mares are stabled, and if not then removed they will be charged for. Every care taken, but no responsibility.

For further particulars apply to the Groom, or

JAMES CUTHBERTSON, Owner.

THE IMPORTED PURE-BRED SUPERIOR FOLK-PUNCH STALLION DUKE

Will stand this season at his owner's farm, TRAWALLA.

DUKE is a rich blood chestnut, without white, standing over 16 hands 2 inches high. He was foaled in England, and imported by Mr. James Lambert, of Mendlesham, his dam by Mr. Catlin's Royal Duke, the winner of many prizes, his sire by Mr. John Bloomfield's Ben, the winner of many prizes. DUKE himself won the first prize at Ipswich for three-year-olds, also the silver cup, special prize, open to all ages. The horse was purchased by his previous proprietor from Mr. C. E. Fisher, and selected the best of horse best adapted to benefit the farmers and breeders of this district. The fact of his having been used by Mr. Fisher as a stud horse for some years past is the best guarantee of his excellence as a sire and sire-getter and producer of first-class stock.

Mr. Walsh (Stonehouse), editor of "The Field," on one of the greatest authorities on the subject in England, when speaking of the Folk-Punch in his work "The Horse in the Stable and the Field," says:—"His admirers maintain that no other horse is so hardy, and that he will do more work in the same time, and on the same amount of food, than any other."

For further particulars see "Stud Book." Terms: £2 10s. If paddocked, £2 10s.

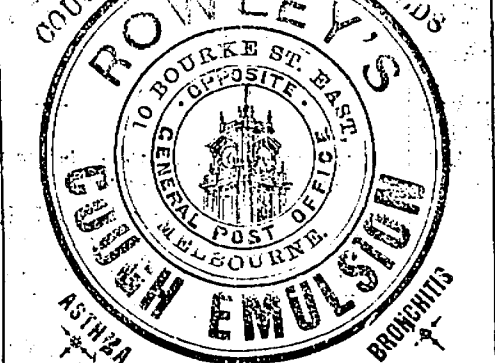

Good grass paddock provided, with a plentiful supply of water.

RICHARD WILKINSON, Proprietor.

THOMAS GEO. ARCHARD, CIVIL ENGINEER.

BEGS to inform the inhabitants of Beaufort and district that he is prepared to execute Plans and Specifications for any description of buildings, supply Contractors' quantities, and prepare estimates. Address—Messrs. Hawkes Bros., Ironmongers, etc., Beaufort.

The Riponshire Advocate.

No. 527

BEAUFORT, SATURDAY, NOVEMBER 28, 1885

PRICE SIXPENCE

The "Riponshire Advocate,"

PUBLISHED EVERY SATURDAY,

CONTAINS a complete summary of local and general news for the week.

Subscribers who do not receive their papers regularly or at an early hour of the morning would much oblige us by immediately forwarding their names to the office of this paper, Lawrence street, in order that such errors may be rectified. We are most desirous of seeing for our subscribers a regular and early delivery, but it will be impossible for our measures to prove effectual, unless we are warned by them when neglect takes place.

Advertisements sent in without a written order as to number of insertions, will in all cases be continued until countermanded, and no advertisement can be withdrawn without an order in writing, delivered at the office by 10 a.m. on the day previous to publication.

Advertisements for the paper cannot be received after 2 o'clock on the evening previous to publication.

Our subscribers are only charged from the time of ordering the paper.

Orders to discontinue subscriptions to the paper must be in writing, delivered at the office and for the current quarter.

Communications of a literary nature must be addressed to the Editor, and must bear the signature and address of the writer—not necessarily for publication, but as a pledge of good feeling. An observance of this rule will be the means of preventing disappointment to contributors.

All advertisements coming under the heads of Wanted, Missing Friends, For Sale, Rewards, if not exceeding twenty-four words, will be inserted for 6 shillings and sixpence.

Notices of Births, Marriages, and Deaths, will be charged 2s. 6d. for each insertion.

Displayed advertisements, and advertisements above one inch, four shillings per inch, for the first two insertions, and two shillings per inch for all subsequent insertions.

Business and double column advertisements, if ordered for extended periods, will be charged on a reduced scale, in proportion to the number of insertions.

The additions to Reserve Funds now amount to £233,720 to meet fire losses only, in addition to the Capital.

Out of a surplus of £110,720, only £16,997 was paid to Shareholders in Dividends, the balance being added to Reserve Fund.

H. P. HENNINGSEN

WANTED KNOWN.

I have come to my knowledge that Subscribers to Daily Papers are charged Nine Pence (9d.) a week, for the benefit of the public I wish to inform them that the "Ballarat Star," "Age," and "Daily Telegraph" can be had and will be delivered in the township of Beaufort at 6d. per week, or 6s. 6d. per quarter.

H. P. HENNINGSEN

GRATEFUL-COMFORTING.

EPPE'S COCOA,

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Eppe has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article in the "Civil Service Gazette."

Made simply with boiling water or milk. Sold in 1/2 lb. packets by Grocers labelled thus—

TO BE MORE FULLY REPORTED.

The Weekly Times is now the Cheapest and Most Complete Weekly Newspaper

PUBLISHED IN THE WORLD

At the Price.

THE SPORTING DEPARTMENT

Of the Weekly Times will continue to be a Special Feature in the Paper.

In the Weekly Times will be found a Good Selection of Light Literature, comprising Original and Selected Tales, Sketches, Household Hints, and the Ladies' Column.

In addition to the above, The Weekly Times will contain the Latest and Fullest Cablegrams, Commercial, Shipping, and General News, thus supplying in a condensed form the

WEEKLY NEWS OF THE WORLD.

PRICE THREEPENCE.

subscriptions per post 3s. 6d. per quarter, or 12s. per annum in advance.

Office: 86 COLLINS ST. WEST, MELBOURNE

NOTICE.

It having come to my knowledge that certain unprincipled vendors of sewing machines have frequently substituted in place of the

GENUINE "WERTHEIM"

Machines on a similar principle, but of a far inferior make, I beg to

INFORM THE PUBLIC

That EVERY GENUINE WERTHEIM SEWING MACHINE BEARS THE TRADE MARK

Of the Wertheim Sewing Machine Manufacturing Company, a GNOME,

Representing the Dwarf of German Fable, in a sitting posture, with a mallet resting on his shoulder, and long flowing beard reaching to his feet.

Besides this Trade Mark the NAME "WERTHEIM" is PAINTED IN GOLD ON THE PLATE of each Machine.

As a further SECURITY TO GUARD AGAINST IMITATION every GENUINE WERTHEIM SEWING MACHINE

SHIPPED TO AUSTRALIA HAS STAMPED ON THE SHUTTLE-SLIDE THE NAME OF THE SOLE AGENT for Australasia, viz.:

HUGO WERTHEIM,

MELBOURNE.

I hereby inform Vendors of Sewing Machines in Victoria and the other Australian colonies that the WERTHEIM "GNOME" TRADE MARK, as well as the name "WERTHEIM," have been properly REGISTERED in Australia, and that any infringement upon the said registration will be at once proceeded against according to law.

Hugo Wertheim,

39 FLINDERS LANE EAST,

MELBOURNE.

Sole Representative and Agent in Australia for the Wertheim Sewing Machine Manufacturing Company.

PETRUS DE BAERE,

Agent for Beaufort and District.

Machines from £4 10s.

Easy Terms. Illustrated Catalogues.

THE GREATEST "SEWING MACHINE."

TRIUMPH OF THE AGE

We respectfully ask the public not to be misled by the name of "Rival of former years."

The number of Sewing Machines imported (like other goods) is no criterion of the number sold, the evidence of which lies in the fact that Melbourne is over-stocked with the importations of 1874.

Reasons why the "WHEELER AND WILSON" Sewing Machine

is far superior to the "Singer." The W. and W. will do more work, and do it better. The W. and W. is much more durable. It will last a lifetime, and run for years without repair.

The W. and W. is easier to work than the Singer. The W. and W. is not so liable to get out of order.

The W. and W. has no cog wheels to wear away and break, as a Singer.

The W. and W. has no heavy machinery to tire and weary the feet, as the Singer.

The W. and W. is more simple in action. The W. and W. has less wear and tear.

The W. and W. is better finished. The W. and W. has been awarded more prizes.

If any further proof is required of the superiority of the Wheeler and Wilson, it is found in the fact that Singer's agent has never accepted our challenge to have the machines publicly tested.

We warrant every genuine W. and W. machine to give entire satisfaction.

LONG & CO. Australian Agents for Wheeler and Wilson's Machines.

BWARE OF SPURIOUS IMITATIONS. Instruction Given gratis.

P. De BAERE, W A T C H M A K E R,

Sole Agent for Beaufort.

All Sewing Machines delivered FREE of charge at Melbourne Prices. Discount allowed for Cash, or on easy terms.

And "TRIBUNE" OFFICE, East Charlton.

BOOKBINDING

ON REASONABLE TERMS

MINING SCRIP, CALL, RECEIPTS, DELIVERY BOOKS, &c., Prepared on the shortest notice

THE ARGUS may be had daily, on the arrival of the mid-day Train, at the shop of Mr. H. P. HENNINGSEN, Agent, Beaufort. Price, Two-pence.

WARD & LIPMAN, Commission Merchants, PHILADELPHIA, U. S. A. EXPORTERS OF AMERICAN GOODS. Advances made on Consignments. Contracts for Railways and Public Works Solicited.

WASHING LIQUID.

MRS. GILLOCH begs respectfully to inform the residents of Beaufort and district that she is manufacturing a "Washing Liquid," which will be found to materially lessen the labor of Washing Clothes, besides giving the clothes a good color. Warranted not to injure any article, of whatever description or texture; it will also take out stains, and improve colored articles.

Directions for Use.—For every 3 gallons of cold water add one half-pint of the liquid, without soap; place in a tub, and add a few drops of soft soap in plenty of water; blue and dry as usual. Soap and soak flannels in warm water, and place in a tub when fine white cloths are taken out, and allowed to remain 15 or 20 minutes; then dry and iron as usual.

Sold in large or small quantities. Single Bottle 3d.

The "Riponshire Advocate,"

THE Riponshire Advocate.

Published every Saturday Morning. SATURDAY, NOVEMBER 28, 1885.

THERE can be no doubt that the time has arrived when a radical change must be made in the system hitherto adopted for the purpose of supplying the granary of the colony with wheat in sufficient quantities to repay the husbandman for the toil and means expended in its cultivation.

SHIRE OF RIPON.—Colony of Victoria.—Notice of Application for a Publican's License.—To the Licensing Magistrate for the District of Ballarat.—TOM DAVIS MARTIN, of Waterloo, do hereby give notice that I desire to obtain and will at the next Licensing Meeting to be held at Beaufort on the 19th day of December, 1885, apply for a Certificate authorizing the issue of a Publican's License for a house situated at Waterloo, known as the Commercial Hotel, in the shire of Ripon, containing four rooms exclusive of those required for the use of the family.

SHIRE OF RIPON.—Colony of Victoria.—Notice of Application to Remove a License to other Premises.—To the Licensing Magistrate for the District of Beaufort.—I, THOMAS WELSH, of Beaufort, do hereby give notice that I desire to obtain and will at the next Licensing Meeting to be held at Beaufort on the 19th day of December, 1885, apply for the removal of the license for the house and premises known as the Camp Hotel, Beaufort, to a house situated at the corner of Pratt and Lawrence Streets, Beaufort, containing thirteen rooms exclusive of those required for the use of the family, and to be known as the Camp Hotel.

SHIRE OF RIPON.—Colony of Victoria.—Notice of Application for a Grocer's License.—ALEX. ANDERSON, of Beaufort, do hereby give notice that I desire to obtain and will at the next Licensing Meeting to be held at Beaufort on the 19th day of December, 1885, apply for a Certificate authorizing the issue of a Grocer's License for a shop situated at the corner of Lawrence and Neil Streets, Beaufort.

COMMERCIAL.

BALLARAT WHOLESALE PRODUCE MARKET. There was a fair market on Thursday. We quote as follows:—Barley—English, 4s 3d; Cape barley, 3s 11d; wheat, 3s 6d to 4s 1d; oats, 2s 9d to 3s 10d; hay, sheaves, L2 to L2 10s; do, manger, L3 to L3 15s; potatoes, L2 to L2 9s 6d; straw, oaten, L3; do, wheaten, L2 10s; peas, 3s to 3s 6d; bran, 1s; pollard, 1s 3d; bonedust, L6 10s; flour, L8.

ARARAT PRODUCE MARKET.

A limited number of transactions have been recorded in the past week. Wheat is inactive, but the feeling is firmer, and 3s 8d is given for good samples, bags returned. A good deal of local flour is being sent away at 1s 5s per ton, whilst wheat-country is landed at 17 13s. At Harscham wheat is quoted at 3s 4d; the Donald at 3s 3d, and St. Arnaud 3s 5d. In this district little is being done in oats. One lot of 35 bags of good short oats changed hands during the week at 2s 2d ex bags. Pollard and bran are firm, the latter being inquired for for up-country. Old Warman wheat is now out of the market. Two loads of new came in during the week, that on Friday selling at 9s per cwt. Sheaf hay has been well supplied and is easier. Farmers who have been holding back for an advance in price are now, since hay-making has commenced, busy cutting in. Trussed is in good demand at L3 17s. Onions are scarce at 10s to 11s. All the fresh butter is taken up at our quotation and there is a good demand for 8d to 9d. We quote as follows:—Wheat, 3s 8d, ex bags per bushel; oats, 2s 8d to 2s 9d; pollard, 1s 1d per bushel; bran, 1s 1d; Cape barley 2s 6d per bushel; English barley, 4s 3d; peas, 3s; flour, L7 15s to L8 5s per cwt.; Warramboul potatoes, 9s per cwt.; Ballarat potatoes, L2 15s; hay, (sheaves) L3 10s; hay (trussed) L3 15s; straw, oaten, 30s per ton; do, wheaten, 25s; chaff, 4s per cwt.; carrots, 2s 6d; onions, 11s per cwt.; butter (fresh), 10d per lb; butter, (lotted), 8d to 8 1/2d; hams, 10d per lb; bacon, 8 1/2d; cheese, 8d; eggs, 8 1/2d per dozen.—Advertiser.

SEVERE PUNISHMENT OF TWO WELSHERS.

An "Argus" telegram from Wagga Wagga on Thursday says:—At the Quarter Sessions to-day a bookmaker named Robert Phillips prosecuted two men, named Williams and Smith, for robbing him of £240 in notes on the night of the 20th inst. Phillips was standing outside the Commercial Hotel for the purpose of settling for the Wagga race meeting, when Williams came up behind and snatched a bundle of notes out of Phillips's hand. The prosecutor pursued him, and got some of the notes back, when Williams handed the balance to Smith, who was also quickly caught. There was a large crowd there at the time, and the police surrounded the prisoners. Williams pleaded guilty, and appeared as a witness for Smith, who he said, had assisted Phillips to recover the notes. A detective from Sydney identified the prisoners as "welshers" who attended race meetings. A verdict of guilty was returned, and Williams was sentenced to three years and Smith to two years imprisonment with hard labour.

During the thunderstorm on Wednesday two men named Tainsch, who had taken shelter under a tree near the Gong Gong, Ballarat, were struck dead by lightning. The men were father and son, and the latter had resided at Beaufort for some time. He leaves a wife and one child to mourn their loss.

A frightful case of suicide occurred in the Garrison Barracks at Queenscliff on Tuesday morning. Gunner John Summersgill, a recruit of about six weeks standing, blew his brains out with a Martini-Henry at half-past five o'clock. He took the rifle from his bedside and fixed the muzzle of it in the hollow of his right eye, then fired, and the roof of his skull was blown completely off, his brain and blood being scattered over his sleeping comrades, some twenty in number. Deceased had not been drinking, but it is supposed that the act was premeditated, as he was not allowed his rifle till three days ago, and had in the meantime appropriated one belonging to a comrade, who had reported it as missing. Deceased (says the "Herald") went to bed on Monday night in good spirits, and was playing cricket on Monday. He was twenty-five years of age, and came from Sydney.

Mr. Thomas Skene, of Penola, S.A., committed suicide at his cousin's station, Kirkella, near Stawell, on Wednesday. Deceased was in low spirits for some time, the fall in the price of wool having preyed upon his mind, but when examined by Drs. Bennett and Johnson, they expressed an opinion that nothing serious was the matter with him. On the evening previous to his death he seemed in better spirits, and spoke of taking a trip to England. Early on Wednesday morning he got up appearing very restless, and during the absence of his wife he left the room, and subsequently his body was found in a waterhole containing about three feet of water. A magisterial enquiry was held, when an opinion was recorded that deceased committed suicide whilst labouring under temporary insanity.

If a man wants a carriage or implement photographed so as to make a working copy to scale, all that is necessary is, when the photo is being taken, that a clear and distinct two foot rule be placed on the carriage, and, no matter what the size of the print or negative, will always be a true scale. It enlarges and diminishes in exactly the same proportion as the carriage.

News has been received from Tasmania to the effect that a startling tragedy was perpetrated at Fingal on Monday morning. A young man named John Beadkett called a girl named Maria Sheppard, whom he had been courting, out of her own home, seized her by the hair, and gave her throat. Beadkett then ran away, and got himself up to the police. The girl has received a wound five inches long, but will probably recover.

The agent-general has forwarded to the Government 1000 labels for the use of intending exhibitors at the forthcoming Colonial and Indian Exhibition in London. If packages of exhibits bear these labels they will be exempt from the usual Customs examination on arrival in London, and exhibitors may obtain whatever number they require on application to the secretary of the commission.

For the first time in the history of this Empire (says the "Home News") the colonies occupy a prominent place in election addresses. Not only do the great party leaders include Imperial Federation amongst the great aims of their policies, but all the smaller men take up the cry. The value of the colonies, and the urgent need for a closer connection between them and the mother country, seems to be appreciated by all our public men, whatever their politics. Conservative candidates express themselves most anxious for Imperial Federation, and gladly echo Lord Salisbury's sentiments when he stigmatised "neglect of colonial affection and good feeling as gross and palpable faults, no less than faults of heart." Liberal candidates, of course, go further, and are anxious to associate the reform of Parliament with any scheme of federation. Some of them would be satisfied with giving colonial representatives or seats a status in the Lower House; others wish to establish life peerages, and to reform the House of Lords. Strangers to say, among the latter is Lord Lorne, who would also gladly welcome commercial co-operation with the colonies, although he does not go the length of those who advocate a federation for purely fiscal purposes.

The following are the reported yields from the mines in this district for the past week:—New Discovery, 31oz. 11dw. 4gr.; Waterloo, 37oz.; New Victoria, 40oz.; Royal Standard, 35oz.; Hobar Pasha, 27oz.; South Victoria, 14oz.

The farmers in this district are complaining about the want of rain, and in some instances we hear that the cattle have been turned into the crops. The crops generally will be light, as the long-continued dry weather has matured them too early.

On Tuesday last information was received by the Beaufort police that a man named James Black had been robbed near Trawalla by a well-known character named William Bennett, who has several aliases. Sergeant Woods being away on leave Constables Hede and Bourke set out to look for the offender, and on Wednesday evening they succeeded in capturing Bennett in a house on the main road between Trawalla and Beaufort. It appears that Bennett had followed Black from Ballarat to Trawalla, and then induced him to camp out with him, and during the night he robbed Black of all his belongings.

It is notified in last Friday's "Government Gazette" that licenses to fell and remove waste trees from the Mount Cole State Forest up till January 15th, 1886, have been granted to the following:—Charles Green, Alexander Crocker, W. H. Patterson, Richard Pitcher, Robert Pitcher, James Patterson, and Alexander Douglas.

Mr. J. C. Thomson presided at the Beaufort Warden's Court on Monday. The only business brought before him was an application from Mr. Joel Tompkins for a gold mining lease for a piece of land near the Bald Hill. The consideration of the application was postponed in order to allow the applicant time to arrange matters with the mining surveyor.

The assistance of Mr. Uren, M.P., having been enlisted with a view of attempting to secure a better supply of trucks for the colony, a number of trucks have been granted to the following:—Mr. Francis, Assistant General Traffic Manager, on the 17th instant, in the absence of the Commissioners and Mr. Anderson, General Traffic Manager, when Mr. Francis pointed out that a number of coal ships had to discharge their cargo at Geelong, and the coal trucks had to be withdrawn to meet the emergency. He also intimated that the Department had not nearly enough of trucks, and until some more were constructed some delay would have to be put up with, in consequence of times. Mr. Francis, however, promised that as many trucks as possible would be sent, and since that time an ample supply has been received at Beaufort. Mr. Uren has earned the gratitude and goodwill of all concerned in the wood trade at Beaufort by the willing and prompt manner in which he always attends to their requirements.

The total rainfall at Beaufort from the 1st to the 25th instant was 24 points.

Mr. W. E. Nickols, auctioneer, reports a very successful sale of Mrs. Gunn's property on Monday last, the attendance being very large, and the lots were cleared out at satisfactory prices. On the 26th instant held an extensive sale at Frenchman's, near Moonambel, when horses were sold at from £10 to £25, milk cows from £4 to £4 10s, store cattle from £10s to £4 15s. Farming implements, etc. sold at satisfactory prices.

The fourth competition for the Wilson trophy will be fired by members of the Beaufort District Rifle Club to-day. The ranges are 300 and 500 yards, seven shots at each. Firing will commence at 10 a.m., and the last squad will fall in at 4 p.m.

The anniversary services in connection with the Beaufort Primitive Methodist Sunday School will be held at Beaufort on Monday. The vocal and musical portion of the services will be of more than usual excellence.

The polling for the first batch of constituencies in the general election for the United Kingdom, took place on Tuesday, (says the "Argus") and resulted on the whole favourably for the Conservatives, who gained altogether 11 seats. 69 members have been elected, of whom 35 are Conservatives, 22 Liberals, and two Parliamentaries. The elections, so far, have been for the most part decided by the metropolitan boroughs, including several of the metropolitan constituencies. The result of the polling for the English elections on Wednesday resulted in further gains for the Conservatives, who according to our London correspondent have now gained 71 seats, the Liberals being divided as follows:—Liberals, 50; Radicals, 10; Parliamentaries, 5; independent, 2. A Reuter's telegram states that the latest results are—Liberals, 80; Conservatives, 88.

King Alfonso XII. of Spain died Wednesday of dysentery, at the age of 28 years.

Electoral registers are directed by the Chief Secretary to keep their offices for the issue of electors' rights until nine o'clock p.m. every day, up to Tuesday next, the 1st December. Rights must be of later date than 1st December, 1885, otherwise they have expired. As the general election for the Legislative Assembly will take place early next year, those persons who claim to be entitled to vote by virtue of national and residence, must take out rights previous to, or on the above-named date, if they have not already done so, or they will be disqualified.

At the Annual Court of Sessions on October 19, Mr. John Howard Parnell, of New York, a brother of Mr. Charles Stewart Parnell, sued several of his tenants for non-payment of rents for seven years. The magistrate remarked that the defendants had evidently obeyed Charles S. Parnell's injunctions instead of the plaintiff's. A verdict in favour of the plaintiff was rendered in each case.

A decision of interest to hotelkeepers and others with whom money or articles of value may be deposited for safe keeping was given at the Melbourne County Court on Wednesday, in a case in which a man named Holden sued the landlord of the Cricketers Arms, North Fitzroy, for £60, money handed to him for safe keeping, and which the defendant was able to prove had been stolen, with other money, from his house. Judge Guinness, in giving the plaintiff, hold it down that the defendant had taken all possible care of the deposit, and it had not been lost through any fault on his part; he could not be required to pay the amount.

A suggestion to Invalids.—No better advice can be given to invalids than to use, without loss of time, that agreeable, strengthening, and mind-clearing cordial, that admirable remedy for indigestion, rheumatism, gravel, gout, ineffectual dropsy, and inactivity of the organs of evacuation and urination, Wolfe's Schimpas, which has been before the public for over thirty-five years, and is endorsed by the medical faculty. Be sure and obtain Wolfe's Schimpas.

BEAUFORT POLICE COURT. MONDAY, 23RD OCTOBER, 1885. (Before Messrs. J. C. Thomson, P.M., and J. Prantice and C. Leadbeater, J.S.P.) P. O'Connell v. Michael Russell.—Goods sold and delivered, £5 16s 6d. Order for amount, with 5s costs.

Truant Officer v. Cecil Baker, Mary Grant, William Provis, D. Curran (two cases), Mrs. Kiely, and James Thompson.—Neglecting to send their children to school, as required by the Act, for the quarter ended 30th June. A fine of £1 was imposed in the case of William Provis, with 4s costs, and each of the other defendants were fined 5s with 4s costs.

Permission was granted to Mrs. Witherden, widow of the late Thomas Witherden, Waterloo, to carry on the business of the Albion Hotel till the end of the year. The grocer's license held by Mrs. Gunn was transferred to Mr. Alexander McDonald. The Court then adjourned.

THURSDAY, 26TH NOVEMBER, 1885. (Before Messrs. J. Prantice and A. Andrews, J.P.) John Naseby was charged with the larceny of a quantity of timber. The first charge was that the prisoner stole timber valued at 2s, from the yard of George Smith, George Hotel, Beaufort, on the 23rd instant. Constable Hede deposed that on that date at 11 o'clock at night, he saw prisoner in front of Schlick's store. Prisoner then went through the back gate into Mr. Smith's yard, knocking down the gate. About two minutes afterwards saw the prisoner coming out of the front gate of Mr. Smith's premises with two pieces of timber on his shoulder, one a piece of firewood, and the other the split rail produced. Saw Mr. Smith afterwards, who identified the rail produced as his property, but could not identify the piece of firewood. Then arrested the prisoner, and asked him where he got the timber, to which he replied that he had been out in the bush cutting firewood. George Smith corroborated the evidence given by Constable Hede as to the identification of the timber. The prisoner was not asked the usual question as to whether he was being guilty, as he was not in the yard at all on that date. The prisoner was sentenced to one month's imprisonment in the Ballarat Gaol.

The prisoner was also charged with stealing a number of palings or bars of the tree-guards on the road to the Beaufort cemetery by the property of the Riponshire Council. Constable Hede deposed that about half-past 10 on the night of the 23rd instant he was informed that some damage had been done to the tree-guards on the cemetery road. Proceeded to the place indicated, and found that a number of palings had been stripped off the tree-guards. Afterwards went to prisoner's house, in company with Constable Bourke, and found the palings produced in prisoner's yard. Examined the tree-guards next day, and found that two or three palings had been taken off them, which exactly correspond with the number found in prisoner's yard. When charging the prisoner with the offence he said "If the Council make a great row about it, I'll soon put it all right again." Mr. H. H. Jackson, shire engineer, deposed that the palings produced were similar to those which are on the tree-guards on the cemetery road, but could not swear to them as being those removed from the tree-guards. The value of the palings was about 8s. Constable Bourke deposed that he had computed one of the palings produced with those on the tree-guards on the road leading to the Beaufort Cemetery, and found them to correspond very minutely, and also corroborated Constable Hede's evidence.

The prisoner said he had taken some of the palings off but was willing to put them on again.

The Bench sentenced him to one month's imprisonment in the Ballarat Gaol, the sentence to be cumulative on the previous sentence.

William Bennett was charged with larceny from the person of James Black, Superintendent Palmer, who was present in the Court, said that the police were hardly ready to go on with the case, and asked that the case be remanded for a week. The request was granted, and bail was allowed in two sureties of £50 each and the prisoner in his own recognisance of £100.

The Court then adjourned.

PARLIAMENTARY ITEMS. (FROM THE ARGUS.) The Legislative Assembly on Wednesday agreed to all the amendments, with one exception, made by the Legislative Council in the Licensing Bill, and the good work done on the measure was regarded by Ministers with satisfaction. Mr. Gaunson made an attempt to amend, but he had absolutely no support, and in half an hour abandoned his intention. The amendments were declared by Mr. Kerford to be such as could be readily consented to by the House, and the Government proposed only to disagree with the new clause providing for the removal of the license from one hotel not having the statutory accommodation, to another building having the requisite accommodation. The amendment omitting the definition of the word "lodge" from the bill, was not regarded favourably by Mr. M. Lellan, Mr. Zox, Mr. Coppin, and others, but the Government were firm in their determination to fall in with the views of the council, and they carried their point. The new clause, said Mr. Kerford, would undermine the principle of the bill. The object of the reform of the law was to decrease the number of the hotels, but the clause would have the effect of perpetuating the existing number. No hon. member was prepared to accept the clause as it stood but Mr. Carter thought it should be amended so as to provide that licenses could be removed from one building to another, both of which might have the statutory accommodation. He mentioned that the leases of several hotels in Collins-street would very soon fall in, and the buildings would be closed. It was necessary that power should be given for the removal of the licenses to convenient places in the neighborhood. Mr. Shiels moved that a transfer could be made on condition that if the license for the new house was taken away after a fixed term, the compensation should be paid to the licensee. It was agreed that the clause should be amended in the following manner:—

THE FALL OF KHARTOUM. Major Kitchener's report on the fall of Khartoum has been communicated to the Lower House. After describing the course of events in the beleaguered city from December 14, 1884, the last date of Gordon's diary, until the 26th January, 1885, and the dreadful state of famine into which Gordon's troops were reduced, Major Kitchener says:—"Farag Pasha has been very generally accused of either having opened the gates of Khartoum himself or of having connived at the entrance of the rebels; but this has been distinctly denied by Abdullah Bey Ismael, who commanded a battalion of irregular troops at the fall of the town, as well as by about 30 refugee soldiers, who lately escaped and came in during the last days of the English occupation of Dongola. The accusations of treachery have all been vague, and are, to my mind, the outcome of mere supposition. Hassan Bey Balmasawy, who commanded at the Massalmeih Gate, certainly did not make a proper defence, and failed to warn General Gordon of the danger the town was in. He afterwards appears to have taken a commission under the Mahdi, and to have gone to Kordofan with the Emir Abu-Abga. In my opinion Khartoum fell from sudden assault, when the garrison were too exhausted by privations to make proper resistance. Having entered the town, after making several fierce attacks, the rebels rushed through the streets, shouting, and murdering every one they met, thus increasing the panic, and destroying any opposition. It is difficult, from the confused accounts, to make out exactly how General Gordon was killed. All the evidence tends to prove it happened at, or near the palace, where his body was subsequently seen by several witnesses. It appears that there was one company of black troops in the palace besides General Gordon's cavasses. Some resistance was made when the rebels appeared but I think this was after General Gordon had left the palace. The only account, by a person claiming to be an eye-witness, of the scene of General Gordon's death relates:—"On hearing the noise, I got my master's Jockey and went with him to the palace; we met Gordon Pasha at the outer door of the palace. Muhammad Bey Mustapha, with my master Ibrahim Bey Rusdi, and about 20 cavasses, then went with Gordon towards the house of the Austrian Consul, Hausel, near the church, when we met some rebels in an open place near the outer gate of the palace. Gordon Pasha was walking in front, leading the party. The rebels fired a volley, and Gordon was killed at once; nine of the cavasses, Ibrahim Bey Rusdi, and Muhammad Bey Mustapha, were killed; the rest ran away." A large number of witnesses state Gordon was killed near the gate of the palace, and many accounts have been related from hearsay of the exact manner in which he met his end. The massacre in the town lasted some six hours, and about 4000 persons at least were killed. The Bashi-Bazouks and regulars, numbering 3,327, and the Shaigia irregulars, numbering 2,530, were mostly all killed in cold blood, after they had surrendered and been disarmed. At about 10 a.m. the Mahdi sent orders to stop the massacre, which then ceased. The rebels left to looting the town, and ordered all the inhabitants out of it." Major Kitchener closes his story with the following words:—"The memorable siege of Khartoum lasted 317 days, and it is not too much to say that such a noble resistance was due to the indomitable resolution and resource of one Englishman. Never was a garrison so nearly rescued, never was a commander so sincerely lamented."

THE QUEEN'S JUBILEE. Yet ten months and Queen Victoria (67), will enter her year of jubilee. For celebrating such an event it would seem fitting that long preparations should be made, not only in the United Kingdom, but throughout the whole empire. When George III. entered the sixtieth year of his reign, in 1802, great rejoicings took place in London. Debtors were freed from prison, processions, attended by the King in person, were made to St. Paul's, and when the celebration in England had been completed, it was renewed with extraordinary splendour in India the next year. An eye witness has just described to me the ceremony at Windsor Castle, where George III. and Queen Charlotte appeared on the Terrace, amid the cheers of the people. How few living can recollect that day! If, then, such an event was kept with due honor, with so much more honor should her Majesty's jubilee be observed, as her reign has passed in a magnificence the reign of all her predecessors. If we place noble monuments on sites that can only be approached by many steps, in point of time ten months are scarce too long to prepare by degrees the keeping of so glorious a year. That year—namely, 1886—will be the 300th anniversary of the condemnation to death of Queen Mary Stuart by the last of our English sovereigns—Elizabeth. Since Elizabeth no monarch of purely English blood has occupied the English throne: while, on the other hand, the line of Mary Stuart has never ceased to be sovereign until it has become most precious to us in the person of that great woman, and great ruler, the present Queen. England, Scotland, Wales, and Ireland, all four, should vie with each other in this celebration. These, as four horses of widely varying tendency and mettle, are attached to the car of the British state. Of all metaphors the reign of Government in the hands of a ruler is the most frequent. May we extend it, and say that in our Sovereign's hand those reins have been held with a skill as marvellous as the difference is great between four people of divergent motives which must suggest themselves both to the national and to the imperial mind for the keeping the jubilee with honor worthy—the chief of all must be the sense of gratitude for a co-existence of religious and political liberty unknown outside our empire. That such a state of liberty has been brought about by the genius of the British people is a common place of lore. It deserves to be a common place that it has been ad-

Traveller.

Still Hunting The Grizzly.

By THOMAS ROOSEVELT IN THE "CENTURY." The grizzly bear undoubtedly comes in the category of dangerous game, and it is, perhaps, the only animal in the United States that can be fairly so placed. In the Appalaches, a few jaguars found north of the Rio Grande. But the danger of hunting the grizzly has been greatly exaggerated, and the sport is certainly very much safer than it was at the beginning of this century. The best hunters who came into contact with this great bear were men belonging to that hardy and adventurous class of backwoodsmen which had filled the wild country between the Appalaches and the Mississippi. These men carried but one weapon, the long-barreled, small-bore pea-rifle, whose bullets ran level to the point, the amount of powder used being a little less than that contained in the cartridge of a thirty-two-caliber Winchester. In the Eastern States almost all the hunting was done in the woodland; the deer and black bear were the largest game; moreover, the pea-rifles were marvellously accurate for close range, and their owners were famed the world over for their skill as marksmen. That these rifles had a very good range, good enough for the work they had to do, and had also done excellent service as military weapons in the ferocious wars that the men of the border carried on with their Indian neighbors, as at the battles of King's Mountain and New Orleans. But when the restless frontiersmen pressed out over the Western plains, they found that the grizzly bear was a far greater bulk and more savage temper than any of those found in the Eastern woods, and their small-bore rifles were utterly inadequate weapons with which to cope with such a monster. The grizzly was considered by them to be almost invulnerable and extraordinary tenacious of life. He would be a most unpleasant antagonist to a man armed only with a thirty-two-caliber rifle that carried but a single shot, and was loaded at the muzzle. A rifle to be of use in this sport, should carry a ball weighing from half an ounce to an ounce. With eyes or heart, and the grizzly was a very common bear. But the introduction of heavy breech-loading repeaters has greatly lessened the danger, even in the very far-off places where the grizzlies are still so numerous. For nowadays such better aware of the death-dealing power of men, and as a consequence, far fewer than in the case with their erstwhile foes, who so unhesitatingly attacked the early Western travellers and explorers. Constant contact with rifle-carrying hunters, for a period extending over many generations, has made the grizzly by bitter experience that man is his undoubted overlord, as far as fighting goes; and this knowledge has become a hereditary characteristic. No grizzly will attack a man now unless he is armed with a rifle rather than a bow; though if he is wounded or thinks himself cornered he will attack his foe with a headlong, reckless fury that wild beasts, and even all wild animals depends upon the amount of resistance they are accustomed to meet with, and the quantity of molestation to which they are subjected. The character of the grizzly has been precisely paralleled by the change in the characters of his northern cousin, the polar bear, and of the South African lion. When the Dutch and the English sailors first penetrated the Arctic seas they were kept in constant dread of the white bear, who regarded a man as simply an early variety of seal, quite as good as any of the other seals. There were two others beside myself in the party: one of them, the teamster, a weather-beaten old plainsman, who possessed a most extraordinary stock of miscellaneous information, and the other, my ranch foreman, Merrifield, who was originally an Eastern black woodsman, and during the last year or two had been hunting grizzlies in the mountains of Idaho. He was a tall, well-built, good-looking fellow, an excellent rider, a first-class shot, and a keen sportsman. None of us had ever been within two hundred miles of the Big Horn range, and I had never seen a grizzly. Merrifield had the added zest of being also an exploring expedition.

Humor.

Three Black Crows.

A tall man, with long white hair, which half hid his coal-black eyes, and a pair of spectacles, stood in front of one of the buildings on lower Broadway at noon the other day. His face was upturned, and he appeared to be gazing intently at the roof of the structure. In a few minutes he was joined by another man, and in a few minutes more a third man was gathered together on the pavement, looking at the upper stories of the tall structure. As the crowd began to swell, busy brokers stopped to look, messenger boys looked to the spot from all directions, and a number of the spectators who were in their journey and gazed at the building as if they expected some frightful catastrophe to occur. The throng soon grew too large for the pavement, and the gutter and a part of the street were speedily occupied by several hundred elbowing, jostling, impatient, and curious sight-seers. "I wonder if the walls are going to fall!" observed a spectator on the outskirts of the throng. "They say the wall is going to fall," repeated the man next to him. "Look out, the wall is going to fall!" "It's a fire!" yelled a man in the centre. "The wall is going to fall!" "Look out! Look out!" shrieked a dozen others, and the men passed by bowed the pavement, and there was a great commotion on the pavement to let a regiment march through. "I wonder whether it's on fire," observed another spectator. "It's a fire!" shouted another. "See the smoke!" yelled a third. "Fire! fire!" howled a score of other voices, and the crowd surged back to the pavement as fast as they could get away in summer time. "I hope there are no women or children in the building," remarked a charitable inclined citizen. "There are no women and children in the building getting burned up," shouted another. "Three women getting burned up!" yelled another. "The window and rescue them!" piped a little man who was observing the building from under a tall man's coat-tails. "Bring a ladder!" yelled a sensible man. "Ladder! ladder! ladder!" howled a dozen others, and a number of boys were dispatched in various directions for those useful articles. "Why doesn't someone turn on the fire-alarm?" suggested another man. "Turn on the alarm!" took up the crowd. "Call the fire department!" and several men started simultaneously for the fire-alarm station. "Fifty dollars to the man who saves their lives!" yelled a tall man with a waist and a wide-brimmed hat. "Break open the doors and get upstairs!" howled an enthusiastic man, as he edged away from the crowd in the opposite direction from the building. "Save their lives!" yelled another, as he made a dash through the stone steps, followed by a half-dozen other men. "Call the police!" said another man. "Police! police! police!" shouted the crowd. "Some one will go through the building and rob the offices!" said another on the outskirts. "Robbers! Robbers! Police! Police! Fire! Fire! Save the money! Bring a ladder! Bust in the front door!" howled the crowd. "What's the row?" growled a policeman on the opposite corner, as he observed the commotion. "Someone's getting killed," replied an imaginative but inaccurate long-range spectator. "Get up for help," replied the guard on the peace, sagaciously. "What's the racket?" cried another policeman, as he came panting around the corner. "Terrible fight over there," replied the first; "two men being murdered." "More rap," bellowed a policeman. "Fire engines heard coming in a distance. 'Let's clear the crowd,' said a policeman. 'Fire! Murder! Police!' shouted the crowd. "Clear the way!" howled the officers. "Whack, thump, bang!" remarked the policeman's clubs as the sturdy officers reached the edge of the crowd. "Here come the police! Clear the way! Quit hitting me! Ouch! Stop crowding me!" shouted the spectators, as they made way for the policeman and dodged the fast gathering engines. "What's the matter?" cried an officer as he rushed into the building. "Nothing," replied the janitor. "What is the row in the street?" "What's the row out here?" inquired another officer of one of the spectators in the crowd. "Nothing is the matter here," replied that individual. "Please help the blind." "Where's the fire?" shouted the fire marshal. "The fire here," said the policeman. "What's the light about?" inquired the police sergeant, who appeared on the scene at the head of the reserve force. "No light," replied the officer. "Where's the dead man?" asked the ambulance driver, as he stopped his panting horse in front of the building. "No dead man here," said the officer. "Well, I'll echo the policeman, fire marshal, janitor, and fire engine, as they all said, 'Please help the blind.' In the thick of the crowd stood the man with the white hair, his eyes fixed immovably on the building. "Say, old man!" said the sergeant, as he grasped the arm, "what is thunder are you looking at?" "The old man slowly turned around, his hat outstretched in his hand, displaying on his breast a large placard which read: "Three hours later the old man faced the bar of justice in the toms. "Charge?" observed the court. "Begging on the street, blockading the pavement, creating a disturbance," replied the police sergeant. "Six months," replied the court. "Call the next case." "Puck."
