

Poultry Yard.

Ducks.

The New England Farmer, in replying to a correspondent who asks for some advice about ducks, says that not much attention has been given in this country to duck raising...

Ducks are not reliable sitters and for that reason, as well as because they are not so good mothers as hens, it is better to get hens to hatch the eggs and bring up the young ducks...

Facts About Hog Feeding.

The following summary of results, as obtained by Prof. T. Hunt, of the Illinois College Farm, in his experiments, will be of interest to those engaged in practical pork-producing.

- 1. It required 18.30 pounds of grain milk to produce one pound of pork when fed with corn meal, ratio one and one-seventh to fattening hogs.
2. It required 15.50 pounds of grain milk to produce one pound of pork when fed with corn meal, ratio one and one-seventh to fattening hogs.

Use of the Word "Whoa"—Worth of a Well Trained Horse.

After the colt has become accustomed to the harness and to being driven about in it, he should then be placed between the shafts. A kicking strap as a preventive should always be put on so that the colt cannot kick if he tries.

Cooking Recipes.

- Make cold mashed potatoes into flat cakes, flour them and fry in hot lard until light brown.
CREAM PIE. Beat together one half teaspoon of sugar, the white of one egg, the tablespoon of flour, one teaspoon of milk; bake with one crust only.

Ladies' Column.

Economy in the Household.

Economy will always pay; The man who saves is wise; He who is content with much to-day, Will some day eat mince pies.

Everyone knows the convenience of having constantly at hand a jar of fresh lard or something which will supply its place; but we doubt if all young housekeepers know the best store replenisher.

Where their use in croquettes is not desired, left-overs from steaks, ham, bacon and other cold meats may be profitably used by chopping finely, adding a little butter, salt and pepper, or other seasoning to taste, a sprinkling of flour and a tablespoonful or more of water.

Only a Dog, But a Hero.

"Yes, boys, Romeo deserves to live in history, as he certainly lives in the hearts of almost our family."
"Who, who is Romeo?" Oh, tell us about this dog, who is he?" cried Fred.

"That's because your girl," exclaimed little Bert, the smallest, and in his own opinion the bravest in the family.
"Now, Uncle Fred, begin," whispered Mamie, laying her head over her uncle's rosy shoulder.

A Model Son.

Overboard in a tram-car. Fussy old gentleman to a chance traveling lady companion: "Have you any children, madam?"
"Yes, sir, a son."

Children.

A Dear Little Maid of Two.

I'll sing you a song to a nursery tune, Of a dear little maid of two, Who has peaches cheeks and rosy lips, And eyes of a soft sea-blue; With charms of a gleeful innocence, That are ripe at the age of two.

Children.

A Fearful Adventure.

BY EMERSON BENNETT.

I was a medical student in Paris at the time the strange and startling adventure happened which I am about to record. Tired with long lectures and hard study, I was out one evening for a stroll in the Bois de Boulogne, and as I strolled along I was struck by a beautiful girl, who was carrying a basket on her head.

"Will monsieur have a bouquet?" she asked, in a sweet, musical tone, holding out to me a well-arranged collection of beautiful flowers.
"They are very pretty," said I, taking them in my hand; and then, somehow, I could not help adding, as I fixed my eyes upon her, "and so, I think, is their fair owner."

Miscellaneous.

The Yedips.

Where, all day long, the sunbeams played, In golden light or purple shade, The twilight shadows gather now; And the soft breeze that coolets my brow Seems frightened with the hopes and fears That mark the passing of my years.

Umbrella Language.

There is a language of umbrellas as of flowers. For the position of your umbrella in a rack and it will indicate that it will change owners.
To open it quickly in the street means that somebody's eye is going to be put out; to shut it, that a hat or two is going to be knocked off.

Josh Billings' Philosophy.

A man's reputation is something like his coat; there is certain risk that it will be stained and grease spots out of it; but it is always best to have a second-hand kind of a coat, and generally second-hand is the best.

The Wise Always Learning.

Cato said that wise men had more to learn of fools than fools of wise men. Probably he meant that, being wise, they would learn more.
Everywhere the wise man is the apt learner; and the lesson usually travels in one wisdom will ever glean from the exhibition of folly.

Try Jackson's Tea, 1s, 1s 3d, 1s 6d, 1s 9d, 2s.—[Advt.]

FLORIANE.—For the first time since a few drops of the liquid was sprinkled on a wet foot, the patient's teeth from all parasites of impurities, and the gums prevent further decay, and give a delicate rosy glow to the complexion. It is the only remedy of the kind.

Supplement to the Riponshire Advocate

Estate, Finance Agent, Auctioneer, and Sharebroker,

**LARGEST RENT COLLECTING BUSINESS
IN BALLARAT.**

The Rents Collected by the undersigned on Shops, Houses, Offices, and Lands, represent no less than

**AN EIGHTEENTH OF ENTIRE RATED PROPERTY IN THE CITY!
AN 18TH OF THE CITY!**

This statement (which may be verified at the City Rate Office) is exclusive of rents collected in Ballarat East and on Farms and Lands in other parts of the District; and which result shows an increase of 10 per cent. on the previous year's rent business.

So large a rent business enables the agent to have a constant demand for lettable properties. An experienced clerk is set apart expressly for rents and supervision of property.

COMMISSION REDUCED TO 2½ PER CENT.

— NO CHARGE FOR AGREEMENTS. —

Careful attention given to Buying and Selling Debenture, Bank, and other Investment Stocks; Selling by Auction or privately, all kinds of property and effects, supplying securities for Capital by way mortgage, &c.; Arbitrations, Valuations, Absentee Business, etc.

District Agent for

THE TRUSTEES, EXECUTORS, and AGENCY COMPANY, LIMITED.
PENINSULAR AND ORIENTAL S.S. COMPANY.
AUSTRALIAN DEPOSIT and MORTGAGE BANK, Limited (for fixed deposits).
MELBOURNE PERMANENT BUILDING SOCIETY.
IMPERIAL FIRE INSURANCE COMPANY, &c., &c.

WILLIAM LITTLE,

54 Lydiard Street, Ballarat,

Member of Ballarat Stock Exchange and of the Victorian Stock Exchange, Melbourne.

Agencies in Sydney, Brisbane, Adelaide, New Zealand, and in Melbourne.

Berry, Anderson and Co., Printers, &c., Lydiard Street, Ballarat.

A Circular issued from the COMPANY'S OFFICE, 54 LYDIARD STREET, BALLARAT.

The Trustees, Executors, & Agency Company, Limited.

ESTABLISHED 1876.

DIRECTORS:

JOHN BENN, ESQ., CHAIRMAN. THE HON. JAMES BALFOUR, M.L.C., VICE-CHAIRMAN,
F. R. GODFREY, ESQ.
ROBERT MURRAY SMITH, ESQ., C.M.G. W. TEMPLETON, ESQ.

Acting Manager

JAS. BORROWMAN, ESQ.

A Million Pounds Sterling in Estates Yearly !!

A BALLARAT COMPANY IN POINT OF CAPITAL.

£130,000 Invested in this Company by Ballarat Shareholders!

That is to say, FOUR times more Capital is invested by Ballarat residents in this Company than in any other Trustee Company doing business in Ballarat.

Small and Large Estates carefully managed. The charge in no case exceeds 2½ per cent.

WHAT THE BALLARAT NEWSPAPERS SAY:

"The operations of the Company include not only acting as executors, but it is empowered to apply for letters of administration, thus relieving the next of kin from the responsibility and difficulty of finding sureties. It also acts under the will as executor and co-trustee with any friend of the family, always giving the best attention to the smallest wills, and in no case is the charge more than 2½ per cent. Owing to the powerful capital at its disposal, the Company is enabled to 'nurse' an estate difficult to dispose of, and to pay off its liabilities and wait for a favorable market to realise the assets. The local agent, Mr. W. Little, has had the advantage of 30 years' experience in this particular kind of business, and is therefore an expert in all its details. This Company is now so well established that it will, according to its motto, 'go on for ever,' thus guaranteeing to its friends a permanence, so necessary in this line of business.

"This pioneer Company continues to gain in popularity and public confidence. Its Ballarat business is increasing, and as far as the amount of share capital locally invested is concerned, it is the most local and the most established Company here. It has its local agent to direct and manage local affairs, subject to the supervision and direction of the Directors, who include some of the best commercial names in Melbourne."

"That phenomenal Company, The Trustees Executors and Agency Company, Limited, and parent of all similar companies, advertises to-day to pay its nineteenth half-yearly dividend to the Ballarat shareholders, and on this occasion at the rate of 45 per cent., payable at Mr. William Little's office, and who is the district agent for this remarkable Company. The result must be gratifying to all concerned, but particularly to Mr. W. Templeton, the competent managing director and originator of the Company."

"The Company acts for Absentees, and takes over existing trusts, relieving Trustees from all responsibility."

DIRECTIONS FOR MAKING A WILL.

A Will cannot be made in language too simple or concise; it must be written with ink, on paper or parchment; and if contained on one sheet, must be signed at the end, by the Testator, in the presence of two or more Witnesses; and if written on more than one sheet, the Testator and the Witnesses must sign each sheet. If a Witness is interested in the Will, the claim to such interest becomes forfeited. Omissions or alterations of any sort in a Will ought, if possible, to be avoided; when of necessity made, they must be signed by the Testator and Witnesses in the margin or as near to the alteration as possible. Marriage after making a Will renders the Will void.

N.B.—Where practicable, it is advisable that a Solicitor be instructed to prepare the Will. The Company is always agreeable, and in fact makes it a point of employing any Solicitor in this district who prepares a Will. Forms, advice, and assistance given on application to Mr. Little.

This is the Last Will and Testament of me

of
in the Colony of Victoria

I appoint "The Trustees Executors and Agency Company Limited" Executor and Trustee of this my Will and I declare that the said Company may execute any of the trusts or powers therein contained by its officers I devise all my real estate and bequeath all my personal estate to the said company upon trust that the said Company shall sell call in and convert the same into money with discretionary power to postpone for such period as shall seem expedient such sale calling in or conversion and shall stand possessed of the moneys arising from such sale calling in and conversion after payment of my funeral and testamentary expenses and debts and the expenses of executing the trusts of this my Will Upon trust for

Here set out how the Testator wishes the property to be distributed; for instance, "for my wife," or "for my wife during her lifetime, and after her death in equal portions amongst such of my children as may then be surviving."

In witness whereof
I have to this my last
day of

I the said
Will and Testament hereunto set my hand this

One thousand eight hundred and ninety

Signed by the said

as and for his last Will and Testament in the presence of us present at the same time who in his presence and in the presence of each other have hereunto subscribed our names as Witnesses.

[This Will form may be used as it is.]

Where the Will is prepared by the Testator himself, he is requested to attach memorandum naming the solicitor whom he would wish to be employed to take out probate, etc.

This is a **Codicil to my Will** which Will bears date the _____
day of _____ One thousand eight
hundred and ninety I revoke the appointment in my said Will contained of _____

as Trustees and Executors thereof and I appoint "The Trustees Executors and Agency Company Limited" Executor and Trustee of my Will in the place of the said _____

and I direct that my said Will shall take effect as if in every devise and bequest upon trust in my said Will contained and generally throughout my said Will the name of the said Company had been substituted for those of the said _____

I declare that the said Company may execute any of the trusts or powers contained in my Will and this Codicil by its own officers In witness whereof I have hereunto set my hand this _____

PARKER.—On 14th inst., at Beaufort, the wife of Arthur Parker of a daughter.

THE Riponshire Advocate. Published every Saturday Morning.

SATURDAY, OCTOBER 18, 1890.

WHATEVER objections may be urged by particular sections of the community to our public system of primary education in Victoria, on special grounds there can be no doubt whatever that it is doing the work which it was designed to do.

It is, indeed, no exaggeration to say that in none of our state departments has greater, more intelligent, or more energetic activity been displayed than in that of public instruction.

An advertisement elsewhere notified that Mr Burton, organising secretary of National Scripture Education League, will visit Beaufort next Friday for the purpose of establishing a branch of the League.

In the working of the Waubra to Ballarat railway, "Woman's Rights" are in evidence, to judge from the fact of the Railway Department having engaged the services of station-mistresses.

A meeting of the committee of the Beaufort Mechanics' Institute was held on the 9th inst.; Messrs McKrich (president), Hughes, Cougle, Andrews, Cameron, Sinclair, and Dungey being present.

Declared and subscribed before me, one of Her Majesty's Justices of the Peace for the Southern Districts, in the County of Grant, this 10th day of December, 1888.

SUPPLEMENT.

SWORN FACTS. SWORN FACTS. READ THE UNDOUBTED TESTIMONY OF MANY WELL-KNOWN PEOPLE IN EVERY TOWN IN THE COLONY, DULY DECLARED UPON OATH.

Many Doctors declared them to be incurable, nevertheless they have been completely cured by MR. H. E. KUGELMANN'S

WONDERFUL HERBAL MAGNETIC TREATMENT

Which is now universally acknowledged to be the only Humane, Efficient, and Natural Method of Eradicating Chronic Diseases of Every kind, now known to Mankind.

IF YOU ARE SUFFERING FROM ANY CHRONIC OR SUPPOSED INCURABLE DISEASE, ABANDON ALL OTHER TREATMENT AT ONCE AND IMMEDIATELY CONSULT

MR. H. E. KUGELMANN,

CONSULTING HERBALIST AND ECLECTIC, at his Australian Head Office and Warehouse,

172 & 174 WILLIAM STREET, MELBOURNE,
TWO DOORS ABOVE BOURKE STREET.

If living at a distance and unable to consult him personally, send (free) for his Self-Diagnosing Chart, by which you can be cured equally as well in any part of the world.

Consultations at Melbourne Address Every MONDAY Only. Hours 9 a.m. till 4 p.m. All Consultations Free.

As there is no other man practicing in Australia who is so experienced and so well qualified to treat chronic and long-standing diseases as Mr. KUGELMANN, everyone may know they have here the most undoubted skill and advice obtainable.

Mr. KUGELMANN'S Treatment differs from all others known, and is Perfectly Unique and Original to himself. If you are suffering from any form of Disease do not fail to obtain a personal consultation (free), as he never fails to understand the producing causes of all Chronic Diseases, and will tell you at once what it is, and the cost for a complete cure. You can then have treatment or not, as you may prefer. No Mineral Drugs or Poisons are ever used by him. Avoid Allopathic Drugs and Operations as you would avoid a pestilence. Nature's remedial agents are purely Herbal, Magnetic, and Electrical, and never leave any injurious after effects like Drugs and the Allopathic Knife do.

MR. KUGELMANN HAS SUCCESSFULLY CURED THE FOLLOWING DISEASES AMONGST OTHERS:—Cancer, Blindness, Cataract of the Eye, Scrofula, Scurvy, Lupus, Eczema, Itch, and all every Skin Disease, all Blood Diseases, Pruritus, Consumption, Asthma, Bronchitis, Induration of Lungs, Bleeding from Lungs, Heart Disease in every form, Enlarged Liver, Enlarged Spleen, Congested Liver, Ulcerated Liver, Hypertrophy of the Liver, Anemia, Hysteria, Epilepsy, Cholera, Dyspepsia—or Indigestion,—in every form known, Dropsy, Palsy, Paralysis, Spinal Complaint, Gravel, Diabetes and all Kidney Diseases, Baldness, Mania, Nervousness, Nervous Debility, Withering and Loss of Vigor, Impaired Vision and Memory, Prolapsus Uteri, Displacement, Irregularity and all Female Complaints, Gout, Rheumatism, &c., &c., and many others.

ALL CONSULTATIONS FREE.

NOTICE.—If preferred, a Signed Agreement given, which provides that NO COST is incurred in the Event of CURE NOT being EFFECTED.

SWORN CERTIFICATES.

(THESE SPEAK FOR THEMSELVES.)

(Copy of Sworn Certificate.)

Bungally, 26th November, 1888.

Mr. H. E. Kugelmann,
Dear Sir,—Four years ago I was working in a chaffmill in South Australia and was taken ill while at that work, for some time I was attended by a homoeopathic doctor of Edinburg, who told me that the cause of my illness was the chaff-dust settled in my lungs, and that he could do nothing for me but advised me to go to a Dr. C. of Adelaide. I did so, and he also told me that it was the chaff-dust settled in my lungs, and after attending me till all my money was spent, he told me that he could not cure me, and that I would never be able to do a day's hard-work again, and advised me to go into the Adelaide Hospital. I did so but without getting any better. I may state here that I was never ill in my life before and always had a strong constitution, but while ill I suffered very severely with a severe pain across the chest, and was very nervous and low spirited. Having come to Victoria two years ago I heard of Mr. Kugelmann and eight months ago I visited you at Horsham without any hope of being cured as I had a bad cough and bleeding from the lungs accompanied with matter; after examining me you told me the cause of my illness, and described all the symptoms which I felt, and told me that you could cure me, as I had no money you offered to do it for nothing, and since you have been attending me you never charged me a sixpence for attendance or medicines: I am now quite cured already, and all the pain and bleeding has ceased long since, and I am able to do a good day's work and would have been cured much sooner but I hurt myself twice through overlifting, since I have been under your treatment. I may add that I spent about £30 on treatment before coming to you which money was simply thrown away. You are at liberty to make what use of this you like and accept my heartfelt gratitude.—I remain, dear sir, yours truly,—

AUGUST EICHLER,
Bungally, near Horsham.

Witnesses—P. F. Taggart, Grampians, P. O. Mr. Taggart, Alexander Henderson, Bungally, P. O., Charles Bell, Henry Meyer, Carl Matties, Bungally, P. O., Caleb Friggs, Horsham, Frank May, Horsham, William Palmer, Horsham, P. McBride, Horsham, Jas. Kenny, Horsham.

I, August Eichler, of Bungally do solemnly and sincerely declare the above written statement signed by me is to the best of my belief and knowledge true in every particular and I make this solemn declaration conscientiously believing the same to be true and by virtue of an Act of Parliament of Victoria rendering persons making a false declaration punishable for wilful and corrupt perjury.

AUGUST EICHLER,
Taken before me at Horsham this thirtieth day of November 1888.

JAMES GARROLL, J.P.,
Western Bailiwick.

(Copy of Sworn Certificate.)

Noble-street, Newtown, Geelong, Dec. 10th, 1888.

To H. E. Kugelmann, Esq.
Dear Sir,—This is to certify that I, Patrick Keenan, was taken ill about three years ago with a severe cold, which turned into Bronchitis and became chronic. I consulted more than one doctor, and during that time took a great quantity of medicine without it doing me the slightest good, but I became worse every day, wasting away until I became a perfect skeleton. About February last I began to spit up blood, and what with the cough and severe pains in my left lung, and the quantity of bad matter I was expectorating every day, I became very much alarmed. Hearing of your professional skill I consulted you, and you told me you could cure me for a given sum. I agreed, and went under your treatment in March last. At the end of three months I was taken very ill one morning, and vomited about two pints of blood, matter, and stringy phlegm. From that time I commenced to improve, and was gaining in weight every day. About a month ago the blood ceased coming, the cough

(Copy of Sworn Certificate.)

27 Commercial Road, South Yarra, November 20th, 1888.

Mr. H. E. KUGELMANN,
Dear Sir,—I was suffering for eight years from extreme nervous debility and weakness, so much so that I could not sleep; at last I became so bad and weak that I could scarcely walk. My food (what little I took) seemed to do me no good, and I had to leave my situation through it. I had medical treatment, but got no better. I had just given up in despair, when one of your circulars came to hand, and, as a last recourse, I placed myself under your treatment for twelve months. I began slowly to improve. Three years have now elapsed, and I am happy to say that I am, and have been well during that time; my nervousness gradually left me, and I have not had any return of it. What I felt I wanted was rest, which I seldom got. I think it my duty to thank you, not only for the medicines I had from you, but also for the extreme kindness and attention I received at your hands; altogether, I shall ever remember you with gratitude. Several of my friends have been to you and have received lasting benefit at your hands. Anyone calling upon me, I shall be happy to speak to.—I am, dear Sir, yours truly.

Signed at Prahran, in the colony of Victoria, this 29th day of November, 1888, before me, TEMPLETON BENNETT, J.P.

NOTE.—"DOCTOR DIET" is a very clever Physician. disappeared and the lung healed completely, and thank God and your professional skill, I am as well as ever.

P. KEENAN.

Declared and subscribed before me, one of Her Majesty's Justices of the Peace for the Southern Bailiwick, in the County of Grant, this 10th day of December, 1888.

PETER SMYTHE, J.P.

(Copy of Sworn Certificate.)

Bannerman-street, Sandhurst, October 30th, 1888.

Mr. KUGELMANN, Consulting Eclectic,
172-174 William-street, Melbourne.

Dear Sir,—I consider it a duty to suffering humanity to add my testimony to your undoubted skill and ability in successfully treating chronic disease. Seven years ago I began to have difficulty in breathing, and my lungs began to be affected, with great tightness on the chest, and rapidly getting worse I consulted a medical man here and continued his treatment for some time, but not getting any improvement and getting also much weaker, I consulted another doctor here, and continued his treatment for some years. I always had a great deal of hard matter in my chest that I could not get away by any medicines that I used; I had night sweats very badly for years and my appetite almost entirely left me. Ix scurvy or all treatment and nurses which I took under medical advice, I rapidly lost flesh until I was reduced to skin and bone. During this treatment I got the Rheumatic Fever and Dropsy, my legs and body swelled considerably and also my heart became affected, and remained in a weak condition, until I consulted you. The greatest wonder to me is that I survived the fever in the low condition that I was in, for I could not eat or drink without great effort. I vomited most of my food during the whole seven years; and, although my chest was frightfully choked up with matter, all the treatment I had failed to bring any sputa away. Consequently my breathing during the whole of this time remained most difficult in the extreme, so that my life was a complete misery to myself. One doctor whom I consulted pronounced me to be in a very bad state of consumption; AND I WAS TOLD BY ONE DOCTOR, IT WAS ONE THING; AND BY ANOTHER IT WAS SOMETHING ELSE. I tried the Chinese doctor, as I was determined not to leave anything undone to relieve me, if not to cure me, of my misery. This Chinese doctor told me there was a large hole in my right lung, and treated me for it for six weeks; but all to no good whatever, as it all ended in a miserable failure. After this I heard of you, and decided to consult you, which I did; and on examining me, you stated you could cure me; AND AS YOU DESCRIBED EXACTLY MY CONDITION, AND THAT TOO WITHOUT MY TELLING YOU ANY SYMPTOMS, I began your treatment at once, and I am happy to state, I began to improve rapidly. My heart soon getting into a better condition, and is now quite right; also my lungs improved fast, and the matter all came away; my appetite improved gradually, and also my strength, so that I can now breathe quite freely, and my lungs are quite strong again; and I can do a good hard day's work again, to the great surprise of many of my friends, who thought I should have been dead long since, which, I have no doubt, I would have been before now if I had not had your treatment at the juncture that I did. Now any person wishing any further information may have it by calling on me. TO ALL OTHER SUFFERERS I WOULD SAY: DO NOT WASTE YOUR MONEY BY TAKING THE OLD-FASHIONED DOCTORS' TREATMENT. Mr. Kugelmann's medicines are purely herbal, and his treatment perfectly natural, and that is the treatment that I am happy and grateful to say has saved me from a life of misery and an untimely death. That this may be circulated far and wide wherever there may be suffering, is the ardent hope of yours, ever grateful,

JOHN RULE.

Witness—T. MOYLE, Sandhurst.

Declared before me this 24th of November, 1888, at Sandhurst,

C. PENNY, J.P.

P.S.—I forgot to mention that I was treated by you under an agreement, which you strictly carried out, and I am quite satisfied that the treatment I received was worth the money I paid you.

W. J. EDDALE.

* SWORN CERTIFICATES *

(Copy of Sworn Certificate.)

Cobden Street, Kew, August 19th, 1890

To Mr. H. E. KUGELMANN,
 DEAR SIR,—I feel that it is just to you, and to let others know the great benefit I have derived from your treatment, I should speak, and it is with pleasure I do so. I hereby make oath and say that about thirteen (13) years ago I began to feel very unwell, and had continual and great pain from an internal disease, which my medical attendant completely failed to benefit or to correctly diagnose. I continued his treatment for more than a year, with great perseverance, but instead of improving any, I gradually became worse, my doctor first prescribing one drug, then another in endless succession without relief. I then consulted another eminent medical man, supposed to be the most skilled in Melbourne. I continued his treatment for another year, during which time I took an immense amount of Drugs, Poisons, and Minerals, none of which did me the least good whatever. I continued to become worse, and to lose flesh daily, and the pain I suffered day and night was most intense. This Doctor then declared my case to be perfectly hopeless, and that it was only a matter of time, and the disease would kill me. In despair I then tried another Doctor of reputed skill, and he declared that no case of the disease from which I suffered had ever been known to recover, but that he could ease me, and prescribed chlorodyne, which poison only stupefied me, but did not ease my complaint in the least. I therefore abandoned this treatment and tried others, all of which proved to be only blind experiments, as none did me even temporary good. In this state I was therefore forced to pass nine years of wretched existence, many times I would have been glad (had it been God's will) to have died, and so ended my misery, as I never hoped to be well again. Eventually, however, (and I thank God for it), I saw your address in the paper, and I made up my mind to consult you immediately, which I did, and you at once told me the correct nature of my disease, and without hesitation I accepted your treatment and continued it for a good many months, during which time I rapidly recovered, and have been completely cured now for over a year, which generally is a good indication of success. Before I close I would further say I thank God I was ever induced to come to you, and I pray you may be long spared to do good to suffering humanity, and I hope that through reading my case that sufferers with chronic diseases, supposed to be incurable will consult you, and discard the old-fashioned Doctors and their destructive drugs, and operations. Trusting that this will do good, I remain, Dear Sir, Yours very sincerely,
 MRS. ELIZABETH LEE,
 1, Elizabeth Lee, of Kew, Victoria, do solemnly and sincerely declare the above written statement signed by me is to the best of my knowledge and belief, true in every particular, and I make this solemn declaration, conscientiously believing the same to be true, and by virtue of an Act of Parliament of Victoria rendering persons making a false declaration punishable for wilful and corrupt perjury.

Declared before me at Kew, this 4th day of September, W. T. FERRIER, Justice of the Peace for the Central District.

NOTE.—There are a great many medical men now advertising themselves as specialists in nervous diseases, and that they can cure all cases of such a nature as loss of vigor and power, decay of the nerves, loss of vitality and all kindred ailments. But by the vast number of people who come to me for proper treatment after they have tried in vain these advertising legally qualified doctors, and by the way in which they have been robbed by them proves most conclusively that the whole of them are a most consummate lot of rascals, who merely fleece their victims of whatever cash they are able to extract from them. They dose them with Quinine and Iron, Strychnine, Phosphorus, Bromide of Potash, Ammonia and other vile drugs. These may cause a temporary feeling of relief, only to result in greater misery than before. No one whose nervous system is afflicted in any way should have anything to do with these medical sharks, but should at once consult me, and I will tell them at once what to do.

(Copy of Sworn Certificate.)

McClure Street, Ironbark, Sandhurst, October 11th, 1888.

Mr. H. E. KUGELMANN, Consulting Eclectic, etc., 60 William Street, Melbourne.

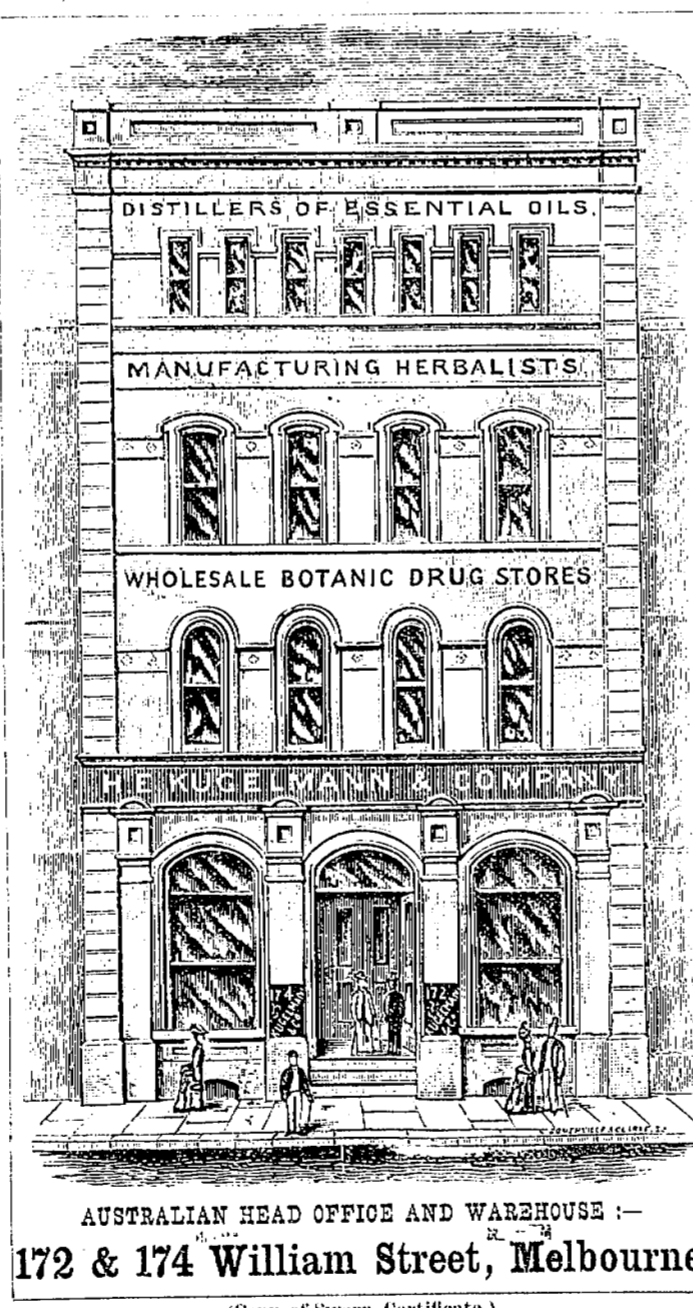

DEAR SIR,—It is with much pleasure that I tender you this testimonial to the undoubted success of your skillful treatment of Chronic Diseases, which has proved the saving of my health, if not of my life, as all may see who read the following: About 4½ years ago I began to cough a great deal often two hours at a time, I directly consulted my lodge doctor, and he treated me for three or four months, but instead of my getting any better my cough remained, also my breathing began to be affected. I then asked him to examine me very carefully as I thought something was radically wrong with me, because I gradually got weaker and continued losing flesh, he did so, and said that I was perfectly healthy, I then persuaded him to examine me again, and after doing so he said he thought I had Dyspepsia, I then left him and tried the Chinese doctor for three or four months without avail. After this I consulted another leading medical man in Sandhurst, and was told by him that my case was one of asthma, and unless I gave up work he could not or would not treat me. After having his treatment for some time, and also getting gradually worse he told me I was fast going into a consumption, and recommended me to go into the Hospital. I then went to the Hospital but of no avail. I then reported my case to the lodge, the lodge requested the doctor to make a special examination of me, on their behalf. A special examination was then made by the above doctor, and, looking into my face, he said "you are done for, you have the Miner's Consumption, and also told me that I would never be able to work again as I was "cooked" because several of their vessels in my lung had burst or collapsed. I then consulted a leading medical man in Creswick, and after examining me carefully all over he stated that I was quite incurable and that it was of no use him treating me. I afterwards tried the Ballarat Hospital, and also a Melbourne doctor, but all without any benefit, as during the time I had the above treatment my disease gradually increased, and my difficulty of breathing was something terrible, especially on taking the slightest cold. I then had the good fortune to consult you when you at once told me the exact nature of my disease and that too, without my giving you any information about my case. On learning from you that my disease was Chronic Pulmonary Asthma with other complications, and that you could cure me, I gladly adopted your treatment, and with the happiest results, as I soon began to improve under it, my disease gradually getting better day by day, until now my health is quite right again. I can eat, drink, and sleep well; I have also gained greatly in flesh and strength, so that now I can do almost any work with impunity. I am prepared to testify to the above personally to any one who will call upon me for the information on my case; and I sincerely hope that others that may be suffering will not waste their time, their money, nor their lives, by continuing to take the old school drugs and poisons; but that they will avail themselves, as I did, of your purely natural treatment, and be cured as I was. I may add that I know of many others whom you have treated, and also, with as good results as in my own case. I wish to add that I had Mr. Kugelmann's treatment under his agreement, and that it was carried out to my entire satisfaction. Trusting you will publish this for the benefit of mankind.—I am, Dear Sir, yours gratefully
 CHARLES CONGDON.

Declared at Sandhurst this fourteenth day of December, 1888, before me.
 S. H. MCGOWAN, J.P.

Revised List of Country Visits for the balance of this year, when further dates will be published.

In order that sufferers in the Country Districts may have an opportunity of consulting Mr. Kugelmann personally, he visits regularly as under, viz.—

- CONSULTATIONS ARE FREE.**
- GOULBURN** (N.S.W.)—At Simon's Commercial Hotel. Hours: 9 a.m. till 3 p.m. on Tuesdays, 21st October—14th November—14th December. Further dates to follow.
 - YASS** (N.S.W.)—At Royal Hotel. Hours: 9 a.m. till 8 p.m. on Wednesday 22nd October—14th November—17th December. Further dates to follow.
 - COOTAMUNDRA** (N.S.W.)—At Albion Hotel. Hours: 9 a.m. till 8 p.m. on Thursday the 23rd October—20th November—15th December, when next years dates will be announced.
 - WAGGA WAGGA** (N.S.W.)—At Criterion Hotel. Hours: 10 a.m. till 6 p.m. on Fridays, 24th October—21st November—16th December, when next years dates will be published.
 - ALBURY** (N.S.W.)—At the Globe Hotel. Hours: 9 till 1 only on Saturday 25th October—22nd November—17th December.
 - KYNETON**—At Junction Hotel. Hours: 3 till 6 p.m. on Tuesdays, 5th August—2nd September—30th September—26th October—24th November.
 - DONALD**—At Royal George Hotel. Hours: 9 a.m. to 5 p.m. on Wednesdays, 6th August—3rd September—1st October—29th October—24th November.
 - ST. ARNAUD**—At Bolton's St. Arnaud Hotel. Hours: 9 a.m. to 5 p.m. on Thursdays, 7th October—24th November, and on Tuesday, 23rd December.
 - MARYBOROUGH**—At Melvor Hotel. Hours: 11 a.m. till 4 p.m. on Fridays, 24th October—25th November, and on Wednesday, 24th December.
 - BALLARAT**—At Craig's Royal Hotel. Hours: 9 a.m. till 4 p.m. on Saturdays, 9th August—6th September—10th October—1st November—25th November—24th December.
 - KANIVA**—At Durant's Hotel. Hours: 9 a.m. till 4 p.m. on Tuesdays, 7th October—14th November—2nd December.
 - NHILL**—At Compton's Commercial Hotel. Hours: 9 a.m. till 2 p.m. on Wednesdays 26th October—31st November—3rd December.
 - DIMBOOLA**—At the Dimboola Hotel. Hours: 4.30 p.m. till 8 p.m. only on Wednesday Afternoons—26th October—31st November—3rd December.
 - HORSHAM**—At the White Hart Hotel. Hours: 9 a.m. till 8 p.m. on Thursdays, 11th August—11th September—9th October—8th November—7th December.
 - NATIMUK**—At Rose's Hotel. Hours: 10 a.m. till 4 p.m. on Fridays 19th October—7th November—6th December.
 - MURTOA**—At Holt's Club Hotel. Hours: 9 a.m. till 12 noon on Saturdays, the day after the Sabbath dates.
 - DAYLESFORD**—At Commercial Hotel. Hours: 11 a.m. till 3 p.m. on Tuesdays, 14th October—11th November—9th December.
 - LILLYDALE**—At the Lillydale Hotel. Hours: 9 a.m. till 1 p.m. on the following Wednesdays—14th October—12th November—10th December.
 - STAWELL**—At the Town Hall Hotel. Hours: 9 a.m. till 2 p.m. only on Tuesdays, 21st August—18th September—16th October—13th November—11th December.
 - ARARAT**—At Tison's Hotel. Hours: 1 till 8 p.m. on the following Thursdays, viz.—21st August—18th September—16th October—13th November—11th December.
 - GEELONG**—At Grand Coffee Palace (late Mack's Hotel). Hours: 9 a.m. till 5 p.m. on Fridays, 22nd August—19th September—17th October—14th November—12th December.
 - SANDHURST**—At Parker's City Club Hotel, Mitchell Street, on Saturday 18th October—16th November—13th December.

(Copy of Sworn Certificate.)

Glenhope, 19th July, 1886.

Mr. H. E. KUGELMANN, Albury, November 21st, 1888.

DEAR SIR,—I have much pleasure in testifying to the great benefit I have received from your treatment. I had been ill for nine months before consulting you, and was compelled to wean my baby only six weeks old. I was attended for months by a doctor up here, who was most attentive; and being a lodge patient it would have been to his interest to have cured me if possible. He did his best I am sure; he said he could do no more, and as I got worse he recommended a change of air. I was so weak that I could not walk across the floor without holding on to something for support. I could not stand long enough to wash my face, my legs used to tremble so, I used to have attacks of palpitation of the heart, and then would be so weak I could scarcely speak. I had no appetite, indeed I loathed the sight of food. I went to Melbourne and consulted one of the leading doctors there. He examined me and told me my heart was the cause of all my trouble; recommended me to take brandy, and prescribed for me. I took his medicine, also the brandy, for some time, but got no better. I went to Gippsland, and then to Deniliquin, and was under a doctor there for some time, and tried everything he recommended in the shape of nourishment, jellies and wines, but did not get any better whatever. I had lost all hopes of ever getting well again, when I was persuaded by a friend to consult you when I came back to Melbourne, and you seemed to understand my case right off. I came home the following day, bringing a month's supply of your herbal remedies with me; and I was not taking them a week when I began to improve. I got stronger and got a good appetite; and acting on your advice I have not tasted any stimulants since. It is over three months since I have had even a slight shock of prostration, where I used to have them two or more times a day; and though the weather is very hot here, I have a good appetite, can do my household work, and feel quite well and strong. The neighbors look at me in astonishment, and say you have performed a miracle. I would earnestly advise anyone, especially mothers, who may be suffering to give you a trial, as I am sure you were the means, under God, of restoring me to health. You are at liberty to make what use you please of this; I write for the benefit of others suffering. I must say I consider the treatment I received well worth the money I paid for it.—I remain, ever gratefully yours,
 MRS. SEWELL, Macaulay-street, Albury, N.S.W.
 Witness—W. E. LAPOINTE, Small-street, Albury.
 Declared before me at Albury this 4th day of December, 1888.
 THOS. AFFLECK, J.P.

(Copy of Sworn Certificate.)

To H. E. KUGELMANN, Esq., Professor of Natural Science, &c.

DEAR SIR,—This is to certify that I, Frank E. E. Knight of Glenhope, was taken ill with a severe cough about July, 1883, but thinking it was only a severe cold, I did not take any notice of it for about six months, then I commenced to expectorate blood and matter very freely. I then thought it was time to consult a medical man, and I went into Heathcote, and was treated for four months, but without receiving any benefit. I then consulted a doctor in Kyneton, of considerable repute, for six months, and although I failed to obtain the slightest relief, he told me that I was all right, only requiring warm weather to complete the cure, which statement I did not believe, and accordingly consulted another doctor in Kyneton, and informed him of the statement of my previous medical attendant, when he informed me that I was in a most unhealthy state, and prescribed for me, and after treating me for five months, he honestly informed me that my case was incurable, and that it was useless to attend him any longer, and he advised me not to take any more chemists' medicines, as all I had taken for the last fifteen months was poison. I then pressed him for a true statement of my case, and he very reluctantly informed me that I was suffering from Ulcerated Lungs or Consumption, and that I was quite incurable. During the time I was attended by the above doctors I was not able to lie down in my bed, and expectorated many quarts of blood and matter from my lungs, and I lost weight rapidly. About this time I saw your advertisement, and decided to consult you, which I did in March, 1885, when you greatly astonished me by informing me minutely of the exact nature of my complaint without my giving you any information, and even without your having sounded or examined me. But my astonishment was greatly increased when you told me that you could guarantee to cure me upon a definite agreement, which I gladly availed myself of. After having taken your medicines for a month I was considerably worse, expectorating very much, and throwing up several pieces of skin from my lungs about the size of the palm of my hand; but after this crisis I commenced to improve very fast. After three months' treatment the expectoration and cough entirely left me, and I gained over two stone in weight, a result which my friends considered little short of miraculous, as all expected I would soon die; and from that time (thanks to your wonderful skill and ability) I have not felt any return of my complaint, and my lungs are as strong as ever they were, and I can do as good and as hard a day's work as I ever did. I am sure that people diseased and suffering should avail themselves of your treatment, and not delay as I did until I was given up to die. I remain, ever thankfully yours,
 Witness—J. C. DANIEL, Glenhope.
 Declared before this 5th day of August, 1886, at Kyneton—THOMAS A. EWING, J.P.

If the above Sworn Facts are not sufficient to Convince the most Sceptical that MR. KUGELMANN'S Treatment is Superior to any other on the face of the Globe, then must we be prepared to reject all Human Testimony whatsoever, Medical Bigots to the contrary notwithstanding.

PURE HERBAL MEDICINES ARE THE GOD GIVEN REMEDIES OF NATURE.

Poetry.

To day.

Oh, let us not hide from our loved ones,
Those we hold dearest and best,
The flowers of affection we nurture,
And bury them deep in our breast.

Novelist.

NADJA;

A Battle With Death.

A Love Story Founded on the Mysteries of Theosophy and Transmigration.

By FRÉDÉRIC M. DEY,
Author of "Narka; or, Reichen Cogswell's
Testamentary Request."

CHAPTER XVIII.—(CONTINUED).

I am compelled now to pass over a considerable space of time, during which I remained in total ignorance of all that was taking place, either in my interests or opposed to them.

Nadja's again, but they were transitory and fleeting, and then the heaviness would cloud her brain once more and she would forget the world in which she seemed to her almost a blank, through which the twilight of comprehension glimmered but feebly.

CHAPTER XIX.

A MIDNIGHT MEETING.

Dhara had plunged the knife which had taken the life of Madame Myrrha into his own heart.

Yo who read will feel much incredulity regarding this story, but who write have experienced this strange fact; but the apostles of Theosophy will certify that it is not only possible, but that perfect conviction between adepts in their faith, no matter how widely separated they are from each other, is a constantly existing fact.

CHAPTER XX.

THE EXECUTIVE COMMITTEE.

The corruption so prevalent among Russian Government functionaries stood us in good stead in the merciless war of extermination which the chief of the Secret Police was now carrying on against the members of the Executive Committee.

Nihilism in Russia.

By Leo Hartman, Nihilist.

NUMBER XI.

AT CLOSE QUARTERS.

Great excitement existed throughout St. Petersburg at the midnight killing of the aristocrat of Kviatskoff, on whose person was found a plan of the Winter Palace, with a tall-tale cross designating the situation of the imperial dining room, convinced the police that each attempt on the Czar's life might be expected.

quickly brushing past his friend, Haltonin whispered a few words relative to the prospects of touching off the mine.

Dr. O. W. Holmes on Heart.

"I never saw a garment too fine for a man or a maid; there never was a chair too good for a cooper or a cooper for a king."

Roses and Diamonds.

By ANNE BRENT.

They lay before her—a necklace of exquisitely wrought gold, set with flashing diamonds, that glittered and sparkled in the light of the morning sun, like eyes of living fire.

though five years had passed over Estelle Gordon's head since the night of the Carrington ball.

Subjects for Thought.

"To gratify a child is a keen delight, but to make it off its duty is often troublesome. To let it off a lesson costs only a trouble; to give it a lesson costs only a pleasure."

Syracuse, N. Y.
Many windows were
filled with
splendid
light.

Farmer.

Expensive Crops Pay Best.

The natural and perhaps almost un-avoidable tendency of farmers' methods during a season of depression in agriculture is to restrict expenses as much as possible, employ less labor, and put their land in grass or other crops more easily and cheaply grown.

Children.

A Cow's Party.

A cat once to her kitten said, "Come listen, kitten, I have found out, your father and I have both agreed to have some friends to tea."

Caught in the Act.

A Boy's Adventure in Paris.

One fine May morning between forty and fifty years ago a little French hoodlum was looking at the windows of a bookshop in the Rue de la Harpe.

Floral Hints.

The English ivy is quite subject to pests, and they will take possession of the plant unless subdued.

Everyone can raise geraniums and the fuchsia by giving the full machine to the former and the raised window to the latter.

Amarielle bulbs should not be planted deep in the pot. The bulbs should be placed on top of the soil.

There is nothing which one regards so much with an eye of mind and pity as innocence, when it is in a state of folly.

Love is the greatest of human affections, and friendship the noblest and most refined improvement of love.

When there is a moral right on the one hand, no secondary right can discharge it.

To take away rewards and punishments is only pleasing to a man who resolves not to live morally.

It appears from statistics published by the Government of India that in one year, while 108 persons were killed by tigers, more than 1,010 children were carried off by jackals.

A machine has been perfected in Chicago for sewing crops by electricity.

God takes men's heaviest desires and will, instead of the deed, where they have not the power to fulfill it; but he never took the bare good instead of the will.

Health.

Sleep—Its Vital Value.

There are thousands of busy people who do not rest for want of sleep. It may be that you much sleep injures some persons; but in an exalted people, and in our intemperate business habits, there is far more mischief for want of sleep than from too much of it.

Sleep repairs the wastes which waking hours made. It rebuilds the system. The night is the repair shop of the body.

Condition Requisite for a Good Memory.

Memory is found in all healthy states of the brain, and consists in a revival in the mind of a past condition or act.

Diet of Old People.

As we increase in age when we have spent, say, our first half-century, less energy and activity remain, and less expenditure can be made.

Health Crumbs.

"Be cheerful. A light heart lives long." This is only health, and good health is good business.

Cleanliness of Animals.

The perfect cleanliness of animals is a very notable circumstance, when we consider that nearly their whole lives are passed in burrowing in the earth.

Gems of Thought.

There is nothing which one regards so much with an eye of mind and pity as innocence, when it is in a state of folly.

Love is the greatest of human affections, and friendship the noblest and most refined improvement of love.

When there is a moral right on the one hand, no secondary right can discharge it.

To take away rewards and punishments is only pleasing to a man who resolves not to live morally.

It appears from statistics published by the Government of India that in one year, while 108 persons were killed by tigers, more than 1,010 children were carried off by jackals.

A machine has been perfected in Chicago for sewing crops by electricity.

His Last Appearance.

By Mary Kyle Dallas.

The wealthy capitalist, Robert Benson, in his library, looking at his feet at a glance, for the first time in his life, thought of his own feet.

"To-morrow," he said to himself, as he lifted his eyes to his lips, and tasted in the most approved fashion, "to-morrow I'll call on Mr. Oakley and ask him to bring the English papers."

"A knock sounded upon the panel of his library door," he thought, at that moment, and at his cry of "Come," a servant in livery appeared.

"Your card tells me that you are Monsieur Eugene la Tour," he said, after a pause. "It is I," replied the stranger.

"You are the 'Little Dick,'" said Benson, holding out his hand. "You run away with a circus company while I was at college."

"I am content," said Dick, "but I have come to ask you a favor. In your business you have many clerks. Give me one."

"We are glad to hear that the accident which occurred at the Circus yesterday, is not as serious as was feared."

"A striking looking woman entered a high-class restaurant recently. She was tall and of magnificent proportions, with fair hair and deep blue eyes."

It is pleasant to know that Mr. Edison's phonograph now reproduces the voice of Lord Tennyson, even as it is heard when he is reciting "The Charge of the Light Brigade."

Miscellaneous.

Be Careful What You Say.

In speaking of a person's faults, pray don't forget your own; remember those with homes of glass.

There is no one who is so much to be feared as the man who is so much to be trusted.

John Thomas Heslop, an English man, was early greatly attracted by some trifling eye trouble which threatened the permanent loss of his sight.

The building shook with applause. A figure with folded arms, on the banks of whose eyes stood, appeared and Mr. Oakley asked the man who was looking for him.

"What is the matter with the favorite to-night? The audience ask themselves. Is it really their Eugene who is breaking your neck? Is he not your brother, once he falls. Has he been drinking? Some one whispers that he is ill."

"I have never seen before, a figure in silver and gold, sparkling with what seems to be the rarest gem, a figure in a headpiece like that of a knight, each pose more graceful than the last."

It is a fatal forgetfulness—the next he lies crumpled and bleeding upon the floor below, and the notes of the multitude are lifted in a wail of horror.

Robert himself is seen pale as he dashes the contents of his box aside, and peers out, and as he looks see Edith Oakley kneeling beside Dick, lifting his hand to his knee, and with Jessie weeping forward, casting herself beside him, pressing kisses on his lips.

"We are glad to hear that the accident which occurred at the Circus yesterday, is not as serious as was feared."

A striking looking woman entered a high-class restaurant recently. She was tall and of magnificent proportions, with fair hair and deep blue eyes.

The customs both of burning and burying the dead prevailed among the ancient Greeks and Romans. Their coffins were composed of various materials, the most common being baked clay or earthenware.

The Russian Government is going to furnish the Japanese to publish or edit political news.

FINANCE.

The following accounts were passed for payment—Fire insurance premium, £1 2s 6d; secretary (committee), salary, and petty cash, £14 17s; auditors, £5 10s.

A vote of thanks was recorded by acclamation to Messrs Archard and Wetherpoon for their kindness in auditing the books and returning the fees, on the motion of Mr Gordon.

Mr Gordon moved that Mr Archard's offer be accepted. Seconded by Mr Stewart, and carried.

Mr Archard, in seconding it, endorsed all that was just said. He knew personally that Mr Cushing was not desirous of the position.

Mr Cushing remarked that he had never thought of being elected. Since his connection with the society had advanced year by year, although going along very slowly.

The mover and seconder withdrew the motion, and Mr Austin was unanimously elected.

Mr Archard moved, and Mr Stewart seconded, that Messrs Cushing and Gordon be appointed vice-presidents.

Messrs Archard and Wetherpoon were in turn proposed; but declined the honor, it being pointed out that the exhibits of salt butter were received by the treasurer, and that Mr Thomas had been put to a good deal of inconvenience in rigging up rooms to put them in.

Mr Jackson pointed out that some years ago it was found that certain farmers were in the habit of getting their children to hand pick an extremely good sample of wheat, so as to show it year after year and get the prizes, and to prevent this the rule was made.

The motion was made. Mr Stewart stating that he would positively decline to become a member or exhibit at the show through it; and Mr Lewis said he would follow in the same footsteps.

Mr Archard hoped the hasty remarks would not be carried out. Mr Stewart moved that the fine of 10s be inflicted on exhibitors in horse class failing to exhibit after entry, be rescinded.

Seconded by Mr Kelly, and carried. A vote of thanks to the chair terminated the proceedings.

A very pleasant evening was spent in the Societies' Hall, Beaufort, on Wednesday, the occasion being a grand concert in aid of liquidating the debt on the local Catholic Church.

Despite the fact that a half-hour prior to the commencement of the entertainment rain fell in torrents, the hall was well filled. The Rev. Father Harrington acted as chairman, and gave a brief history of the church's advancement—from a tent to a weatherboard building, and from that to a brick edifice, of which the people of the town might well be proud.

It had cost little short of £1000, which was a great debt for a small congregation like theirs to undertake to pay off. They had suffered nobly, but being so few, they were unable to pay it all off.

The last entertainment was in aid of the seats, but this one was to go towards the four walls of the building. A certain person had said that if a concert were got up it would be the death blow to the debt; another had said it would be the nail in the coffin of the debt; but he thought, from the host he saw before him, he could confidently say they would be able to put up a tombstone to the debt.

THE MISER'S DIAMOND NECKLACE. In the year 1740 there lived in the Latin quarter in Paris, a famous miser named Jean Avero.

The miser's diamond necklace. In the year 1740 there lived in the Latin quarter in Paris, a famous miser named Jean Avero. The wealth concealed in the obscure hovel where he lived was believed to be fabulous, and was no doubt really very great.

Among his treasures was a celebrated diamond necklace of immense value. This he concealed so carefully that he never allowed it to leave his place himself. He sought diligently for weeks, and, failing to find it, became almost insane.

This miser's diamond necklace. In the year 1740 there lived in the Latin quarter in Paris, a famous miser named Jean Avero. The wealth concealed in the obscure hovel where he lived was believed to be fabulous, and was no doubt really very great.
