Business Notices.

NOTICE. THE Proprietor of the "Riponshire Advocate," in thanking his numerous patrons for past favors, respectfully solicits a

patrons for past tayors, respectually solicits a renswal of support, and desire to state that increased attention will be given to all matters of local and general interest. As a record of news he will always endeavour to make his columns as comprehensive as possible. In all departments, in fact, he will aim at improvement, and, therefore, confidently appeals to the public for increased support.

He has resolved to REDUCE the SUB-SCRIPTION to the "ADVOCATE" (with which is published a 14-column supplement con taining well-selected reading matter) to 38 00 per quarter, and trusts that this concession will be largely taken advantage of.

The Advertising Rates have also been onsiderably reduced, and advertisers will find it to their benefit to avail themselves of the columns of the "Riponshire Advocate," which is the only newspaper that is printed and published within the boundaries of the Shire. As the advocate of the interests and for the welfare of this district, it has a claim for a considerable amount of support, and has a greater scope for extended usefulness than any other journal or journals within a given radius of Beaufort. Job Printing, plain and ornamental, of every description, is executed with neatness, accuracy and despatch, and on the most

reasonable terms. ARTHUR PARKER.

INTERESTING LETTER FROM A WELL-KNOWN SPECIALIST.

Registered, is aware that by departing from the usual routine practice and devoting himself exclusively to a special branch, which he has done for some time, he is not strictly following the paths of professional eviquette, but, as a considerable body of the professional eviquette, but, as a considerable body of the professional eviquette, but, as a considerable body of the professional eviquette, but, as a considerable body of the professional eviquette, but, as a considerable body of the profession are still disserted to stand coldy aloef from anyone of their number who acquires popularity in the treatment of certain alluments and is really a Med call Specialit, he does not his state to resort to what he considers legitimate means for the purpose of disturbing open and the considers legitimate means for the purpose of disturbing able the conditions of the public. It is assuredly before to seek assistance from the quadified practitioner in profession, and of eaching the true designation of quadicry belongs to those shameless adventures who, witcant a ratificle of medical knowledge or a title of dain to the humblest department of the profession, practice extension and deceit, edvertising their meatures as currentalist, men of the lowest grade of intellects as dresponsibility, whose assurance is as unbounded as their pranises are speciets. Such men abound it. Mell curre, Sydney, and other tewns in Australia, and by their finning advartisements attract the advention of the unwary. The mischelf to the health bit symboling their pranises from the follier and entire in the finning advartisements attract the advention of the unwary. The mischelf to the health bit symboling the obstrument of markind should prote them from reserting to the unprincipled; that if pryche he a science, it should be honoused and respect of as such; if at the necessary inquiry and reflections in tid direct the visit from by rostrum-menger to the respectable man and to creep into nooks and corners for conneel and convolation. Every member of

In whom there can be placed, without doubs, unlimited confidence.

The widespread evils and diseases arising fremery est and indiscretion cannot be too generally known, and it is to be hoped that any reader of this persection is to be hoped that any reader of this persection will be awakened to their fearful consequences. If there be any amongst the readers of this letter who have unhappily fallen into objectionable leabits, and are suffering in consequence, and are unwilling to hand an enfeebled constitution to their offspring, I would earnestly charge them to lose no time, but seek at once a means of cure, so that they may be restored to pristine health and vigour, before the evil becomes too deeply seated. I adhere strictly to the most approved and modern lines of treatment in my evolusive branch of practice, embracing Chrenic Nervous, Skin and Spetial Diseases in rien and women, and can, with confidence, undertake the permanent cure of all cases within the reach of medical skil.

To those about to marry, and who are either conscious er doubtful as to their suffering from a latest taint or weskness, a sense of duty on their part should unquestionably prompt them to seek the advice of a competent medical man. All patients applying to me for coursel and help may rest assured that my treatment will be vigorously directed to cure permanently may local defect or weakness, and place them in that titing condition of health, that they can afterwards honourably marry.

To anyone whose confidence in the pessibility of a satisfactory and permanent cure has been shaken by the conduct of various advertising parties who are only medical pretenders with no real knowledge of the human body, and who are in the habit of renating the sameco-called Remedy to all who apply to them, orwho have been victimised by any of the horde of Quacks, who have for years preyed nyon the inexperienced, and whose only object is gain, whose boastful pretensions but veit their ignorance; to any such sufferer I would say, "Do not be deepending, an

fair trial, health, happiness, and a delicious sense of vigour.

Patients living at a distance and unable to attend personally, can be treated at their homes through the post without any interference to their business duties, and can have their medicines forwarded by mail or express to any part of Australasia, carefully packet and concealed from observation.

All personal consultations are free: The fee of At which is inclusive of aniedicines, must accompany each consultation by letter, or it cannot be Feplied to. I trust that, more especially in those cases where the sufferers have but limited means, I shall never be found wanting in carrying out the good old motto of doing unto others what I would wish should be done abto me.

LUZENE, THE NEW LIGHT

FOR SALE EVERYWHERE.

Diseased Naturo oftentimes breaks forth is strange eruptions."—Act iii. Scene 1. TO THE PUBLIC.

SOME patients suffering from nervous affections are afraid, from sheer bashfulness and modesty to PERSONALLY consult a medical man; other patients have not the self-possession and coduess, when in the consulting room, eccurately describe their symptoms, their habit of life, and the nature of the disease they suffer

from.

Let such person (he or she) sit quietly down in the privacy of their own apartments, and with calm minds describe each symptom of their case. A cleer statement thus written, and laid bettern the contract of their cases to a person of the case to a person of the c me, is far preferable in nervous diseases to a personal consultation. Where, however, a disease is of a pecutiar and exceptional character, a personal consultation may become necessary; but my success in correspondence is so great, that of the thousands upon thousands whom I have treated during the last thirty-two years, not a single mistake has ever occurred, not a case has ever been made public—in fact, the very simplicity of my system of correspondence prevents

publicity.

At the same time medicines are sent to my patients in such a form as to dety detection.

How many thousands have 1 not brought upold?

How many have been enabled to enter into the marriage state through consulting me?

How many after marriage bave privately consulted me and been blessed, and their married surred me and been blessed, and their married lives mabe fruitful and happy?

How many wasted ruined youths of both sexes have also been restored to health, and thanked their manhood for having consulted me by letter?

How many questions arise where the family physician is unable to unravel the case, and where, often, the patient lingers on, not daring to tell his family medical adviser the nature of his complaint, until consumption, wasting, or mental diseases set in, and the autherer gets be youd the curable curable stage, and is left a

hopeless wreck?

A letter, written in the privacy of the room A letter, written in the privacy of the room and dropped in the post box, reaches me quietly. The answer is returned as quietly and unostenfatiously, and the patient, without stopping from his chamber, except to post his letter, is by return of post put in full possession of the nature of his case. His hopes are raised; his doubts removed; and he is comparatively a new manint act, in many cases, a new being altogether. The only addition to the ordinary written letter, is the age, occupation, habits, and symptoms—nothing more. The usual consultation fee of £1 (one pound) must be enclosed, otherwise no answer will be retuaned.

There are thousands of cases in daily life where a consultation with one at a distance will remove, by a single letter, a great fear, a great care, and it often solves what appears as an impenetrable mystery. Many a sad heart has been made joyful on receipt of an explanatory letter

To those who are about to marry, I would say, To those who are about to marry, I would say, consult me before doing so, and prevent many after troubles, and remove many nunecessary fears and prejudices; to those more especially who have suffered in early years from disease, or who have yielded to their passions—to those I say at once, consult with me—do not tarry delays are dangerous, and, as an expert, my time may not be always at your service. You can, by simply enclosing one pound, have the benefit of my experienced in the same manner as if I lived in your ewn town, and with the additional advantage of thorough privacy.—Yours, onal advantage of thorough privacy.—Yours, uly, LOUIS L. SMITH.

of a poor character, but two crops of green stuff yielding 10 tens to the acre has been obtained from a four-acre field. The autumn crop was cut into chaff whilst green, and put into a form Ireland before any failed and red and red from Ireland before any failed and red and red from Ireland before any failed and red and red and red from Ireland before any failed and red a tons. The sile is attached to the milking shed for convenience in feeding the cows. The stuff was covered with planking, and pressed down with and a deep out taken out of the ensilage. There was about 2 feet of whole green maize on the top, and beneath this the chaffed green outs and vetches. The test has proved to be a great success. The chaffed material is of a brownish green color, and contains most of its natural moisture. Mixed with a third of hay, chaff, and bran, it is eaten greed-ily by the cows. Mr Wi'son, of the Accientural department whiches here Agricultural department, who has been assisting His Excellency in directing the making of the ensilage, states that a pain in the side and back made me scream out the milk produced by this feed is as rich and wholesome as that produced by cows on spring pastures. Mr Wilson frather tractor, come in, and I had to be carried to bed on spring pastures. Mr Wilson further states (says the Argus) that a great saving of expense has been offected by this method of providing winter food for the Governor's cows.

Dr Wingrove, of Rupmup, was found dead in his bed on Saturday morning. He had been ailing for some time, but was only 29 years old.

A poultry fancier says he always separates the roosters from the pullets as soon as he can distinguish them, and feeds corn to the former and wheat to the latter; one produces fat, the other

For insulting Mr Samuel, M.L.A., on the platform of the Hamilton rallway station, and saying the people must have been hard up for a member when they elected him, Mrs Ernes: Smith has been awarded three days' imprisonment.

Twenty-two acres of land are needed to sustain a man on flesh meat; while the same amount of land under wheat feeds forty-two people; under outs, eighty-eight people; under potatoes. Indian corn, or rice, 175 people; and under the plaintain, or broad fruit tree, over 6000 people.

A serious railway accident has occurred near Birmingham. Two express trains came into collision, both of them being greatly demaged. One was no tumor of course, but in the end there might have been, had not Sierel's Syrun reof the trains was only saved from toppling over a visduet by the smart action of the vacum brake, which was promptly spplied. Two persons were killed.

savs that-"A Russian physician, in success of his experiment. the city of Samuroy, made known to the world about two years ago a core for drunkenness-namely, nitrate of strychnia-a remedy well known to the medical profession, and even imagined to be the agent in Dr Kee'e 's wonder ful cures. The physician claimed that he had tried the remedy in 762 cases with only three relapses, although the act under which the charge was brought time was too short for a complete test. It is to be hoped that the press will widely circulate this remedy. Of course a reputable physician should be con sulted before using this remedy."

A German physician, Dr Kiug, claire that he has discovered how to make at eatable and nutritions cake from wood. This method consists in transforming the cellulose into grape surar, a sutstance assimilable by the animal organism. The biscuit is made by adding to this about 40 per cent of meel of wheat, oats or rye. Phosphate en i all the bone elements may also be introduced. This bread of wood glucose is intended to be fed to cattle, for which it will take the place of oil cakes and other feeds composed of industrial wastes.

Mr Wm. Hancock, Fairfield, N.S. W. with the view of testing the frasibility of safely and profitably shipping tresh grapes to London or other distant markets, in the early part of last Fabruary filled six kerosene tins with g apes from his own garden, putting a layer of saw. dust between each row of clusters. Last week he opened one of the tin and found the experiment an entire success, the grapes being as sound and foli as when the clusters were cut from the vines. and the bloom disturted only where the sewdust had come in contact with it. The test was a severe one, the sawdust being from colonial hardwood, neither so absorbent nor so heat nen-conducting as cork sawdust, in which Spanish

grapes are packed for firing our bets. Holloway's Pills .- Nervous Letitability. -No part of the human use inc e pures more constant supervision than the nervous system-for upon it our health-and even life-depends. These Pills strong hen the nerves and are the safest seneral ourifiers of the blood. Nousea, headache. giddiness, numbness and mental apathy yield to them. They relieve in a summary manner those distressing dysperio symptoms, stomachic pairs, folloess at the pit of the stomach, abdominal distension and regulate a like capticious appetites and confined bowe's-the commonly accompanying signs of defect ve or diminished nerve tone. Holloway's Pills are particularly recommended to persons of studious and sedentary habits, who gradually fall into a nervous and irritable state, unless some such restorative be

occasionally taken.

IT WAS MARY SHERLOCK'S WAKE

"There lays a hundred years of peace and A few months ago an account was lappines."

If we tay a numbed years of peace and happines."

It was the wake of Mary Sherlock, who had alled or old age; and it took place on the night of Thursday, March 19th, 1891, in the City of Gevernment House. The soil there is new York. The room was crowded with men and women, old and young, and an aged junious at the country of ago at a first the room and women, old and young, and an aged junious at the country of ago at a first the room and women, and an aged junious at the country of ago at a first the room and women, and an aged junious at the country of ago at a first the room and ago at a first the room ago at a first the room and ago ago.

silo 12 feet deep, containing about 40 from Ireland before any of them, and, no doubt was at least 105 years old when she entered her lon journey.
But she was one of the old stock, and never

Printed and Published by the Pager's ARTHUR PARKER, of Scanner, St.

Office of the Ripporter Advance North paper, Lawrence Street Beauton Victor) NOTICE.

THE Proprietor of the "Riponshire THE Proprietor of the "Exponshire Advocate," in thanking his numerous patrons for past favors, respectfully solicits a renewal of support, and desire to state that increased attention will be given to all matters of local and general interest. As a record of news he will always endeavour to make his columns as comprehensive as possible. In all departments, in fact, he will aim at improvement, and, therefore, confidently appeals to the public for increased

He has resolved to REDUCE the SUB-SCRIPTION to the "ADVOCATE" (with which scription to the "ADVOCATE" (with which is published a 14-column supplement containing well-selected reading matter) to 3s 9d per quarter, and trusts that this concession will be largely taken advantage of. The Advertising Rates have also bee

considerably reduced, and advertisers will find it to their benefit to avail themselves of the columns of the "Riponshire Advocate, which is the only newspaper that is printed and published within the boundaries of the Shire. As the advocate of the interests and for the welfare of this district, it has a claim for a considerable amount of support, and has a greater scope for extended usefulness than any other journal or journals within a given radius of Beaufort. Job Printing, plain and ornamental, o every description, is executed with neatness, accuracy and despatch, and on the most reasonable terms.

AN INTERESTING LETTER FROM A WELL-HNOWN SPECIALIST.

Branch who is duly Qualified and Begistered, is aware that by departing from the usual routine practice and devoting himself exclusively to a special branch, which he has done for some time, he is not strictly following the paths of professional etiquette, but, as a considerable body of the profession are still disynced to stand colding aloof from anyone of their number who acquires popularity in the treatment of certain allments and is really a Medical Specialist, he does not hesitate to recort to what he considers logitimate means for the purpose of diagram by copical criticism, and of recruing as far as he is able the confidence of the public. It is assuredly better to seek nesistance from the qualified practitioner in preference to the quask.

The true designation of quasckery belongs to those schamsless adventurers who, without a particle of medical knowledge or a fixtle of claim to the humblest department of the profession, practise extertion and decelt, advertising their neutrums as CRR-ALIS; men of the lowest grade of intellect and responsibility, whose assurance is as unbounded as their promises are specious. Such men abound in Mellourne, Sydney, and other towns in Australia, and by their fiaming advertisements attract the attention of the unwary. The mischiff to the health by swallowing the costrums of these persons is oftentinen irretireable, believe the money it fally readed in purchasing, stexerbitant rates, their so-called carative appliances.

The argument is, that the every-day enlightenment of maskind should protect them from resorting to the nonprincipled; that if physic be a science, it should be honoured and respected as such; that the necessary inquiry and reflection should direct the visit from be neglectured from the follies of his own improveduce, and which he is auxious to occeed, renders him more solicitous to shout the responsable man and to creeping incorons and acquaints of the profession is too proud of his qualified since the visit rounder a bushel. Dr. Llewellyn has passed examin

in whom there can be placed, without doubt, unlimited confidence.

The widespread evils and diseases arising from extended indiscretion cannot be too generally known, exit is to be hoped that any roader of this parsyration and indiscretion cannot be too generally known, exit is to be hoped that any roader of this parsyration any suffer from these special complaints, will be awakened to their fearful consequenced. If there be any anongst the readers of this letter who have unhappily fallen into objectionable habits, and are enfirstray in consequence, and are unwilling to hand an enfeetied constitution to their offspring. I would earnestly charge them to lose no time, but seek at cree a means of cure, so that they may be restored to pristine health and vigorr, before the evil becomes too deeply scaled. I adhere strictly to the most approved and modern lines of treatment in my evolucive branch of practice, embracing Chrenic Nerrous, Skin and Special Diseases in men and women, and can, with confidence, undertake the permanent cure of all cases within the reach of uncited skiil.

To those about to marry, and who are either consolous or doubtful as to their suffering from a litent taint or weakness, a sense of duty on their pare should unquestlonably prompt them to seek the advice of a competent medical man. All pallents applying to me for counsel and help may rest assured that my treatment will be vigorously directed to cure permanently any local defect or weakness, and place them in that utting condition of health, that they can afterwards honourably marry.

To anyone whose confidence in the possibility of a satisfactory and permanent cure has been shaken by the conduct of various advertising parties who are only medical pretenders with no real knowledge of the human body, and who are in the habit of cending the sameso-called Remedy to all who apply to them, or who have for years preyed upon the inexperienced, and whese only object is gain, whose beastful pretensions but will their ignorance; to any suchsufferer I

hair trad, health, happiness, and a delicious sense of vigour.

Patients living at a distance and unable to attend personally, can be treated at their homes through the post without any interference to their businessduties, and can have their medicines forwarded by mail or express to any part of Australasia, carefully packed and concealed from observation.

All personal consultations are free: The fee of £2 which is inclusive of-inedicines, must accompany each consultation by letter, or it cannot be replied to. I trust that, more especially in those cases where the sufferers have tut limited means, I shall never be found wanting in carrying out the good old motto of doing unto others what I would wish should be done anto me.

TO THE PUBLIC.

OME patients suffering from nervous affections are afraid, from sheer hashfulness and modesty to PLESONALLY consult a medical man; other patients have not the self-possession and coolines, when in the consulting room, occurately describe their symptoms, their habit of life, and the nature of the disease they suffer

from. Let such person (he or she) sit quietly down in the privacy of their own spartments, and with calm minds describe each symptom of their case. cloor statement thus written, and laid before is far preferable in nervous diseases to a per me is far prescrable in nervous diseases to a per-sonal consultation. Where, however, a disease is of a pecufiar and exceptional character, a per-sonal consultation may become necessary; but my success in correspondence is so great, that of the thousands upon thousands whom I have treated during the last thirty-two years, not a single mistake has ever occurred, not a case has ever been made upilio, in fact, the new char-

single mistake has ever occurred, not a case has ever been made public—in fact, the very simplicity of my system of correspondence prevents publicity.

At the same time medicines are sent to my patients in such a form as to dety detection. How many thousands have I not brought up How many have been enabled to enter into ie marriage state through consulting me?

How many after marriage have privately cou-sulted me and been blessed, and their married lives mabe fruitful and happy?

How many wasted ruined youths of both sexes have also been restored to health, and thanked Farm and Timber Waggons, Farm, Road and Spring Drays, Waggonettes, and all kinds of Vehicles made and repaired on Horses Carefully Shod.

Horses Carefully Shod. their manhood for having consulted me by his complaint, until consumption, wasting, of mental diseases set in, and the sufferer gets be youd the curable curable stage, and is left a hopeless wreck!

A letter, written in the privacy of the room

and dropped in the pest box, reaches ne quietly The answer is returned as quietly and unosten-The answer is returned as quetty and unosten-fatiously, and the patient, without stepping trom his chamber, except to post his letter, is by return of post put in full possession of the nature of his case. His hopes are raised; his doubts remoned; and he is comperatively a new man— in fact, in many cases, a new being altogether. The only addition to the ordinary written letter, is the ere occuration behits and came letter, is the age, occupation, habits, and symptoms—nothing more. The usual consultation fee of £1 (one pound) must be enclosed, otherwise no answer will be returned.

There are thousands of cases in daily life where a consultation with one at a distance will remove, by a single letter, a great fear, a great care, and it often solves what appears as an im-penetrable mystery. Many a sad heart has been made joyful on receipt of an explanatory lotter

from me.

To those who are about to marry, I would say, To those who are about to marry, I would say, consult me before doing so, and prevent many after troubles, and remove many unnecessary fears and prejudices; to those more especially who have suffered in early years from disease, or who have yielded to their passions—to those I say at once, consult with me—do not tarry delays are dangetens, and, as an expert, my time may not be always at your service. You can, by simply enclosing one pound, have the benefit of my experience in the same manner as if I lived in your even town, and with the addiif I lived in your ewn town, and with the addi-

LEASING THE RAILWAYS.

Suggestions have been thrown out from time to time that the difficulty of managing the railways, so far as its Burtou, chairman, and Messrs Hodgetts, financial aspect is concerned, might be overcome by their being leased to a syndicate. While the question has not occupied the consideration of the Govenment, it is not escaping private attention. Already financiers in England J. McKeich 17, W. C. Trompf 15, and no practice; but the supposition proved by the members present, and Mr Burton have been attracted by the proposal, and have written to Victoria for full information to base their calculations

If the system of increasing rates of freight and fares is continued a direct offer to the Government will be made for a lease to the lines, and that within the next 12 months. As a matter of fact also several leading Victerians have taken up the proposal, and are busily engaged in getting out the necessary figures .- Standard.

Saturday's Melbourne matches were both exciting in character and interesting in their results, since there was no match played in which the result could have been considered a certainty. Two of the three teams so far anbeaten lost points, and Carlton now like beating Melbourne, but the latter, finishing splendidly, made the game a drawn one with seven goals apiece. Br. Kildi gerified their rapid improvement by going to Geelong and beating the doctors who prescribed for me; but their treatment did not alleviate my sickness. It imagined that my constitut a was breaking up, and as the disease progressed I have been addressible to the secret of the success of Siegel's Syrup, over what seems to be—but is not—a multitude of different analytic to three, with a great advantage in beigness. It was not a good goal kicking day, for in a covery single the arch falls to the ground. formidale local 20 on their merits by over Collingwood Richmond should have made a better record, while South It is the intention of the Minister of increase by a shock to the nervous system in this duty have been suffocated in the the Lion Bridge in China. It stratches Molbourne's want of accuracy forward prevented them from doing more than gious stone arches. On each of the countries of the count pillars is placed a lion of 20 feet, in results of Scurday's play give an exlength, hewn out of a single markle continual interest to the matches bet-block.

A DJOURNED COURSING MEETING at The Mechanic's Lordon's, Bonef r. on TUESDAY, 14th last, at 8 p.m. All persons interested please attend. R. A.D. SINCLAIR, Hon. Secy.

INTERESTING LETTER PROM A WELL-HNOWN SPECIALIST.

DB. LLEWELLYN, who is duly Qualified and Registered, is aware that by departing from the count routine practice and devoting himself exclusively to a special branch, which he has done for some time, be is not strictly following the paths of professional eviquette, but, as a considerable body of the professional eviquette, but, as a considerable body of the professional eviquette, but, as a considerable body of the professional eviquette, but, as a considerable body of the professional eviquette, but, as a considerable body of the profession or estill dispected to stand coldly alcof from anyone of their number who acquires popularity in the treatment of certain allments and is really a Medical Specialist, he does not hesitate to recort to what he considers legitimate means for the purpose of disarming profession of the confidence of the public. It is assuredly better to seek assistance from the qualified practitioner in profession of quackery belongs to those Estimates adventurers who, without a particle of medical knowledge or a sittle of viain to the humblest department of the profession, practice externion and decalt, advertising their metrunas a currants; men at the lowest grade of intellect and responsibility, whose assurance is as unbounded as their promises are specious. Such men abound in Melbourne, Sydney, and other towns in Australia, and by their theming advertisements attract the attention of the unwary. The nurchasing that has a number to the health by swallowing the nostrums of these persons is oftentimes irretiveable, betides the major profession is oftentimes irretiveable, betides the major profession is oftentimed in the profession in the respectable practitioner. Ediale the money to the profession is too proud of his qu

The widespread crils and diseases arising from excess and indiscretion cannot be too generally known, and it to be hoped that any reader of this paragraph who may suffer from these special complaints, will be awakened to their fearful consequences. If there be any amongst the readers of this letter who have unhappily failen into objectionable habits, and are suffering in consequence, and are unwilling to hand an enfeshled constitution to their offspring. I would earnestly charge them to lose no time, but seek at once a means of cure, so that they may be restored to pristine health and vigour, before the evil becomes too deeply seated. I adhere strictly to the most spoproved and modern lines of treatment in my exclusive branch of practice, embracing Chronic Nerrous, Sain and Special Diseases in men and women, and can, with confidence, undertake the permanent once of all cases within the reach of uncided skill. women, and can, with confidence, undertake the permanent owe of all cases within the reach of uncilcul skill.

To those about to marry, and who are either conscious or doubtful as to their suffering from a latent taint or weakness, a sense of duty on their part should unquestionably prompt them to each the advice of a competent medical man. All patients applying to me for counsel and help may feel assured that my treatment will be vigorously directed to cure permanently any local defect or weakness, and place them in that fitting condition of health, that they can afterwards honourably marry. To anyone whose confidence in the possibility of a satisfactory and permanent cure has been shaken by the conduct of various advertising parties who are culy medical pretenders with no real knowledge of the human body, and who are in the habit of sending the sameso-called Remedy to all who apply to them, or who have been victimized by any of the horde of Quacks, who have for years preyed upon the inexperienced, and whose only object is gain, whose beastful pretended sure of a cure, but apply to me, or to any other reliable medical man, skilled in these special aliments, and the result will be all you could desire. A very successful treatment in Chronic cases of Mervous Debility is Electric Therapeutics, when carefully applied under medical supervision. Part of my suite of consulting rooms is now fitted into an Electro-Hedical Apparatus Department which contains Glasor's and Tepler Hotts Machines for General Franklinization, and a large Combination Battery with Galvanometer and all other necessary accessaries for Gaivanism and Francism. The currents from these instruments impart tone to the nerves, arouse the vitality of the weak, averome conditions that medicines alone cannot reach, and impart to everyone who gives them a vigour.

Fatients living at a distance and unable to attend personally, can be treated at their house the attend personally, on be treated at their house the stream.

alt trial, health, happiness, and a delicious sonso of vigour.

Patients living at a distance and unable to attend personally, can be treated at their homes through the post without any interference to their husiness duties, and can have their medicines forwarded by mall or express to any part of Australasia, carefully packed and concealed from olservation.

All personal consultations are tree. The fee of £t, which is inclusive of-incidicines, must accompany each consultation by letter, or it cannot be replied to. I trust that, more especially in those cases where the sufferers have but limited means, I shall never be found wanting in carrying out the good old motto of sieing unto others what I would wish should be done anto me.

CAUTION.

Purchasers of Clarke's Blood Mixture should see that they get the genuino article. Worthloss initations are sometimes raimed off by un principled vendors. The words "Lincoln and Midland Coueties Drug Company, Lincoln England," are engraved on the Government stamp, and "Clarke's World - famed Blood Mixture," blown in the bottle, WITHOUT WHICH NONE ARE GENUISE.

& Co., Druggists, &c., Agra, India, June o, 1888.

"West Cowes, Isle of Wight, September, 1888, Dear Sirs, —Through the merits of your excellent Ciarke's Blood Mixture the large red pinples which covered my face are fast disappearing. For a long time I put up with the discomfort of these pimples, thinking that nothing would do any good. At tlast I was persuaded to try your medicine, and now I have taken one bottle they are rauidly vanishing. It cannot be too highly medicine, and now I have taken one bothe they are rapidly vanishing. It cannot be too highly recommended, and I am the most grateful. I will tell all my friends about it, but they really do not require telling, because they cau see the difference for themselves. You may publish this if needful.—I am, gratefully yours,

ISLA GERALDINE RIPON."

THOUSANDE OF THEORY MONIALS.

A JAMES TO

THE NEW LIGHT FOR SALE EVERYWHERE.

Discased Nature oftentimes breaks forth to strange crupii as."—Act iii. Scene I. TO THE PUBLIC.

COME patients suffering from nervous affections and afraid from shour beshirings and tions are airaid, from sheer bashtuiness and modesty to Personally consult a medical man; other patients have not the self-possession and coolness, when in the consulting room, eccurately describe their symptoms, their habit of life, and the nature of the disease they suffer

com.

Let such person (he or she) sit quietly down

for the reason partments, and with in the privacy of their own apartments, and with calm minds describe each symptom of their case. A cleer statement thus written, and laid before me, is far preferable in nervous diseases to a per sonal consultation. Where, however, a disease is of a negative and exemption laborators. is of a pecufiar and exceptional character, a per-sonal consultation may become necessary; but my success in correspondence is so great, that of the thousands upon thousands whom I have treated during the last thirty two years, not a single mistake has ever occurred, not a case has the correspondence of the corres

ever been made public—in fact, the cease implicity of my system of correspondence prevents publicity.

At the same time medicines are sent to my patients in such a form as to dety detection. How many thousands have I not brought up old?

How many have been enabled to enter into the marriage state through consulting me?

How many after marriage have privately cousulted me and been blessed, and their married lives mabe fruitful and happy?

How many wasted ruined youths of both sexes have also been restored to health, and thanked their manhood for having consulted me by

letter? How many questions arise where the family to tell his family medical advisor the nature of his complaint, until consumption, wasting, or mental diseases set in, and the entires get the youd the curable curable stage, and is left.

hopeless wreck?

A letter, written in the privacy of the read and dropped in the post box, reaches no quietly. The answer is returned as quietly and muesterfatiously, and the patient, without chapite; trem his chamier, except to post his letter, is by return of post put in full possession of the nature of his case. His hopes are raised; his doubts removed; and he is comparatively a new manthe only addition to the ordinary written letter, is the age, occupation, habits, and symptoms—nothing more. The usual consultation fee of £1 (one pound) must be enclosed, other-

tee of £1 (one pound) must be enclosed, other-wise no answer will be returned.

There are thousands of cases in daily life where a consultation with one at a distance will remove, by a single letter, a great fear, a great care, and it often solves what appears as an im-penetrable mystery. Many a sad heart has been made joyful on receipt of an explanatory letter from me. from me.
To those who are about to marry, I would say, consult me before doing so, and prevent many after troubles, and remove many unnecessary fatter troubles, and remove many unnecessary fears and prejudices; to those more especially who have suffered in early years from disease, or who have yielded to their passions—to those I say at once, consult with me—do not tarry delays are dangerous, and, as an expert, my time may not be always at your service. You can, by simply enclosing one pound, have the benefit of my experiencel in the same manner as if I lived in your even town, and with the addi-

if I lived in your ewn town, and with the additional advantage of thorough privacy.—Yours, truly, LOUIS L. SMITH. Address-DR. L. L. SMITH, N . 41 COLLINS STREET,

"Near Whiteburch, Salop
"March 20rd, 1891."
What are we to learn from Mr. Bateman's
experience? This, that he had no real exasumption. His course and the spiriting up to
the state were sometimed to be contained sumption. His court and the spitting up of matter were symptoms of a thermodify deordered condition of the disestive argues, brought on the expoure, loss of rost, and the breaking up of his regular battle of life. This assuited from his outlying for the prochers and the foolish sleeping in his damp cheshes. Aputs indign that and dyspepsia tellewed, of course, with all the suffering which he details so well. But was the tilmest his fault. We do not say it has his fault, for maybe his occupation compelled him to take such risks, but where there is one case of this kind there are a hundred in which the evil might have been averted.

evil might have been averted. We conclude then that prevention is better than cure, but when a core must be snaght, the successful and trustworthy remedy is Mother Seigel's Syrup. Mr. Bateman told John Wilkin-son this, and his account will soon be printed.

than five years. The first survey of to the ground. The express was travel-4000 acres, situated mear the Werribee ling at the rate of about 40 miles an acres, will be substantially fonced. I that while the laster left Meridich-s erected thereon. The soil is well adapt left at 6.27 p.m., and to judge by the summer months lucerne dourishes.

A wealthy German from New York was in Bartford a few days ugo, and wishing to drive out, went to a stable to hire a team. The man of horses was look to trust a valuable " non-oot" day morning. Mr Francis, the chairto an entire stranger. The German raplied that he could give no references but that he would buy the horse and sleigh, and when he returned the stablekeeper might reland the money. The price was agreed upon and the cash paid down. When later in the day the stranger brought the team back to the stable, his money was returned and he star ed to go. "Hold on," said the man, " you have not paid your horses hire." "Why, my dear sir," said the New Yorker, coolly, "I have been driving my own team this morning!" The stable-keeper looked discusted, but

did not force his claim. There are strange chamber maids as Sheapherdis Hotel in Cairo, A lade declared that the one who waited or her room and attended to sil the deties of the calling, even to making the beds, was a reschusa, dressed as if for a dinner party, with white wais coat and dress coat, and having the air of a refined and educated gentleman. It was really embarrassing to accept his services in such a capacity. One lady, on arriving at the hotel, rang for the chamber-maid, and this gentleman presented himself. Supposing him to be the proprietor, at the very least, she said, "I wish to see the chamber-mail," "Madem," said he, politely, in the very best English he

could muster, "Madam, she am I !" A North of Ireland weekly paper sa voctaes itself thus: "During a late thunderstorm a man crept for shelter thunderstorm a man crept for shelter n to a hollow hig. The rain fell in torents, causing the log to swell so that Marine Insurance Company. w thin. Death stared him is the face. and the sins of his past life orse un betere him in all their vividness. Sad donly he remembered that he wasn't a subscriber to our paper, and be immediately felt so small he was able to back

night out." A wealthy London merchant is reported to have said; "I always feel happy when I am some tisting, for then I know that, waking or sliening, I have a strong, though their order working for me; one who never tires, never sleeps, never makes mistakes, and who is certain to enter the households, from weich, if at all, my trade must come.

- West Indie: there is a mountain of l sait nearly four miles in its longest districted at the least. It is an entire mass of pure crystalline rock salt, and is estimated to contain Leafly so the 10.000,000 tens of that are so en-

In the chance to hirest it must as spired time sides out of your research and it is suppose you could put your as less time into a hard, as you do move, and draw it must be also as you the Americans call "A hig thing it "Bosh! Stud! Humble to every "It is impossible. If we call so that have and time enough to turn as must have a fight step who will be at the pains to set the individual wil New isn't a man wasther there when he fets it? Oh," you say, 'that he coat help it. 'That's worse nonsence than the Time Bank. Yes, he can help it, also dimes out of the.

Look for a second. Here's a nan who possen to tak like this: 'There was not to the says, to stronger men in England than I was up to the cemter, 1884. I am a ranch over, and about this time we had a deal of troubs of with a going of possens. I had to keep weath all sight long, and was searcely ever he look, and offers slept in my damp clother. At any we habbed the peakers and landed them is jail. Shortly siter this I was taken heal. At that I musbed the mouth with slime covering my tonesse and teeth I could ent little or rothing, and what I did eat gave me great pain. I led as it led in a viec, my breathing was labred a d short, and I s at up to he depression, there is a great demand

up is great deal of phogn. I had a diendal hashing cough for two or there about a special cough for two or there about a special to the cough for two or there about a special to the cough for two or there about a special to the cough for the cough fo after night I heard the clock strike every people, but "recision of the tariff," and Four When the bad attacks came on I felt as if I they insist that there shall be a revision "When the bad sitted's came on I fell as if I of the tariff this session, but the bad. I was coughing and philing up matter and phlegm all high long. Finally I got so weak I couldn't walk across the dior, and if I such a proposal. Increased "proweak I couldn't walk across the dies, and it I ventured out my breathing was a bad that I had to stop and rest every law pards. Of course was obliged to give up my work, and for eight months I did nothing. I was under the doctor all this time, and from the first he said my case was a bad one. After a while he said to my wife, 'Your husband is her consumption, and will never get better.'

Such a proposal. Increased "proposal thereased in this color articles, from glass bottles to cigars, and it is politely requested that duties shall be imposed on imported fish, cananas, cement, and even rags. Twenty-five per cent must be converted. Iwenty-five per cent, must be converted into 50, and 50 into 100 per cent., if the desire of the ultra-protectionists is to be me. The platest developments is that concerning the fellmongering inlustry. A meeting was held in Guelong last week, at which it was resolved that a duty of 1d per lb should he imposed on sheepskins exported from the colony, the reason given for the advocacy of this step being that of 17 fellmongering establishments that formerly existed in Geelong there are now only two, which, it is said, connot stand without this protection.

An extraordinary railway accident sellway line on Saturday evening (says the Argus), the most remarkable feature about it being the mireculous escape of the passengers. The Bal arat xpress, which left Melbourne at 4.25 am. on Saturday afternoon, ran into a coods train, which left Geelong about 4 30 p.m., about a mile and a balf on he Gestong side of Lat Lat. The coeds train was travelling in the same direction as the express when the colision took place, otherwise the result aust have been most disastrous. Som dx carriages of the express were filled The proprie cos of it. Werriber Park with passergers, all of whom appear to Estate. Messes Chinnelie and Son, in have escaped with but slight injuries, tend sub-lividing a range area of the fand the guard of the goods train, whose agricultural portion of their property van was considerably damaged, saw the into small farms, and leaving the express train rushing after him, and various heldings for terms of not less saved his life by jumping from the van station is now being carried out. The hour, and the goods train at 15 miles farms will vary in size iron So to 260 in hour, and it is an astenishing fact permanently supplied with water, and station six or seven miles from the place have commodious weatherboard cottages of the accident—at 6.4 p.m., the express ted for the production of all kinds of statements of the driver and fireman cereal and root crops, while during the they had no idea that there was a goods rain ahead of them. The damage done to the rolling stock of the goods train was very great, while the express appears to have been uninjured. ine was blocked til an early hour Sunman of the acting commissioners, does not consider that the recent alterations made in the time-side on this line are

INTERESTING LETTER FROM A WELL-KNOWN SPECIALIST.

Registered, is aware that by departing from the usual routine practice and devoting himself exclusively to a special branch, which he has done for some time, he is not strictly following the paths of professional et quette, but, as a considerable body of the profession are still disposed to stand coldity alcof from suyons of their number who acquires popularity in the treatment of certain aliments and is really a Medical Specialist, he does not hesitate to resort to what he considers legitimate means for the purpose of disarming cynical criticism, and of securing as far as he is able the confidence of the public. It is assuredly better to seek assistance from the qualified practitioner in preference to the quack.

The true designation of quackery belongs to those themselves adventurers who, without a particle of the rich althourselves or a Natio citain to the humblest department of the profession, practise extortion and deceit, advertising their noetrums as crazalls; mean of the lowest grade of intellect and responsibility, whose assurance is as unbounded as their promises are specious. Such men abound in Melbourne, Sydery, and other towns in Australia, and by their fiaming alteritisements attract the attention of the unwary. The mischief to the health by swallowing the nostrume of these persons is oftentimes irretrievable, besides the money totally wasted in purchasing, at exorbitant rates, their so-called curative appliances.

The arrument is, that the every-dar callicitionment The argument is, that the every-day collishemment of mankind should protect them from resorting to the unprincipled; that if physic be a science, it should be honoured and respected as such; that the necessary inquiry and reflection should direct the visit from the poetrum-monger to the respectable practitioner. But noetrum-monger to the respectable practitionor. But also ! the dilemma in which a man finds himself when suffering from the follies of his own imprudence, and which he is anxious to conceal, renders him more suffering from the follies of bis own imprudence, and which he is anxious to concest, renders him more solicitous to shun the respectable man and to creep into nocks and corners for counsel and consolation. Every member of the profession is too proud of his qualifications to hide them under a bushel. Dr. Liwellyn has peared examinations at the chief Medical Colleges in England: is a legally qualified and registered medical practitioner in Victoria; holds high tertimoniale, which all patients may inspect; and is, through a complete study, knowledge, practice, and represence of Special Diseases, a most reliable Expert, by whom there can be placed, without doubt, unlimited confidence.

The widespread evils and diseases arising from excess and indiscretion cannot be too generally known, and it is to be hoped that any reader of this parsyraph who may suffer from these special complaints, will be awakened to their fearful consequences. If there be any amongst the readers of this letter who have unhappily fallen into objectionable habits, and are suffering in consequence, and are unwilling to hand an enfeabled constitution to their offspring, I would extressly charge them to lose no time, but seek at once a means of cure, so that they may be restored to pristine health and vigour, before the evil becomes too deeply scated. I adhere strictly to the most approved and modern lines of treatment in my sylusive branch of practice, embreding Chronic Nervous, Skin and Special Diseases in men and women, and can, with confidence, undertake the permanent cure of all cases within the reach of medical skiil.

To those about to marry, and who are either

Nervous, Skin and Special Diseases in men and women, and can, with confidence, undertake the permanent cure of all cases within the reach of medical skil.

To those about to marry, and who are either conscious er doubtful as to their suffering from a latent taint or weakness, a sense of duty on their pars should unquestionably prompt them to seek the advice of a competent medical man. All pattents applying to me for counsel and help may rest assured that my treatment will be vigorously directed to cure permanently any local defect or weakness, and place them in that fitting condition of health, that they can afterwards honourably marry.

To anyone whose confidence in the possibility of a satisfactory and permanent cure has been shaken by the conduct of various advertising parties who are only uncided pretenders with no real knowledge of the human body, and who are in the habit of sending the sameso-called Remedy to all who apply to them, or who have been victimised by any of the horde of Quacks, who have for years preyed upon the inexperienced, and whose only object is gain, whose boastful pretensions but veil their ignorance; to any sucheufferer I would say, "Do not be desponding, and do not despair of a cure, but apply to me, or to any other reliable medical man, skilled in those special silments, and the result will be all you could desire."

A very successful treatment in Chronic cases of Nervous Debility is Electric Therapeutics, when carefully applied under medical supervision. Part of my suite of consulting rooms is now sitted into an Electro-Medical Apparatus Department which contains Glaser's and Topler-Holtz Machines for General Franklinization, and a large Combination Battery with Galvanometer and all other necessary accessaries for Galvanism and Faradism. The ourrents from these instruments impart to everyone who gives them a fair trial, heath, happiness, and a delicious sense of vigour.

Patients living at a distance and unable to attend personally, can be treated at their bourset to attend the con hair trial, heatsh, happinese, and a delicious sense of vigour.

Patients living at a distance and unable to attend personally, can be treated at their homes through the post without any interference to their business duties, and can have their medicines forwarded by mail or express to any part of Australasia, carefully packed and concealed from observation.

All personal consultations are free. The fee of £1 which is inclusive of-unedicines, must accompany each consultation by letter, or it cannot be replied to. I trust that, more especially in those cases where the sufferers have but limited means, I shall never be found wanting in carrying out the good old metto of doing unto others what I would wish should be done anto me.

LUXENE.

THE NEW LIGHT FOR SALE EVERYWHERE.

Diseased Nature oftentimes breaks forth to strange eruptions."—Act iii. Scene 1.

SOME patients suffering from nervous afterodesty to PERSONALLY consult a medical man; other patients have not the self-possession and coolness, when in the consulting room, eccurately describe their symptoms, their habit of life, and the matare of the disease they suffer

Let such person (he or she) sit quietly dow in the privacy of their own apartments, and will calm minds describe each symptom of their case A cleer statement thus written, and laid before me, is far preferable in nervous diseases to a per me, is far preterante in nervous discasses to a per sonal consultation. Where, however, a discass-is of a perutiar and exceptional character, a per-sonal consultation may become necessary; but my success in correspondence is so great, that of the thousands upon thousands whom I have treated during the last thirty-two years, not a single mistake has ever occurred, not a case has ever been made public—in fact, the very sim-

plicity of my system of correspondence prevents publicity.

At the same time medicines are sent to my atients in such a form as to dety detection How many thousands have I not broug!

How many have been enabled to enter inte the marriage state through consulting me? How many after marriage bave privately consulted me and been blessed, and their married lives make fruitful and happy?

How many wasted ruined youths of both sexes have also been restored to health, and thanked

mental diseases set in, and the sufferer gets ce youd the curable curable stage, and is left a hopeless wreck? A letter, written in the privace of the room and dropped in the post box, reaches are quietly instructions for Self-measurement. A really good The answer is returned as quietly and unostenfatiously, and the patient, without stepping from his chamber, except to post his letter, is by return of post put in full possession of the nature of his case. His hopes are raised; his doubta remoned; and he is comparatively a new manin fact, in many cases, a new being altogether. The only addition to the ordinary written lerter, is the age, occupation, habits, and symptoms—nothing more. The usual consultation fee of £1 (one pound) must be enclosed, otherwise no answer will be returned. There are thousands of cases in daily life where a consultation with one at a distance will

remove, by a single letter, a great fear, a great care, and it often solves what appears as an impenetrable mystery. Many a sad heart has been made joyful on receipt of an explanatory letter To these who are about to marry, I would say, consult me before doing so, and prevent many after troubles, and remove many unnecessary

fears and prejudices; to those more especially who lizre suffered in early years from disease, or who have yielded to their passions—to those say at once, consult with me-do not tarry delays are dangerous, and, as an expert, my time may not be always at your service. You can, by simply enclosing one pound, have the bonefit of my experience in the same manner as if I lived in your ewn town, and with the additional advantage of thorough privacy.-Yours, truly, LOUIS L. SMITH.

> DR. L. L. SMITH, N . 41 COLLINS STREET, MELBOURNE.

Consultation Fee by Letter £1-Fee for personal Consultation, L1 183 The latter is inclusive of scelicine.

Medicines forwarded, well-packed, to all the Colonies, India and Europe. The only legally qualified practitioneer addition and registered under the Medical Board Victoria, and practising the last 37 pears. No. 41 COLLINS St. . E MELBOURNE.

We observe that at Waterloo last week in aid of the local President Harrison has offered the Courch funds, and that the nett proceeds President Harrison has offered the of the entertainment amounted to £11 succession of the position Mr Blane 14s 4d. has just vacated to Mr Chauncey

held by Mr Speight in Victoria. He kett Building Society, Ballarat, will as by far the best after-dinner speaker aims of the Star-Bowkett societies. in the whole of America. He is also a gentleman of unblemished character, and has always shown a very strong fondness for England and anything English, generally opening wide the he has always shown a marked

intellectual pursuits who visit service, America. President Harrison has A rather singular discovery was made America. President Harrison has at Mr. W. Smith's slaughteryard on proved himself in every way an Thursday morning. One of his men, in admirable President, but as the electrusting down a bullock, which had been tion for that important office Linges to but a very small extent upon personal Ballyrogan, found a thick bagging needle, popularity, the manner in which he about 5in. long, imbedded in the fat on has filled the office in the past, or is the beast's ribs. The needle, which was likely to fill it in the future, enters very rusty, must have been dropped into but very little into the count. The beast when feeding, and worked its way election entirely hinges upon the party to the spot in which it was found. The

vote, and it remains to be seen how many of the doubtful States can be to the breeder. captured by each party. His opponent will be his last antagonist, Mr Grover Cleveland, that question having been League was held in the Primitive settled by the vote of the Democratic Methodist schoolroom, Beaufort. It party, taken at a conference just concluded in Chicago. In the main, looking at the election from a British point The Rev. R. Hosken took the chair, of view, the return of Mr Cleveland and addresses were delivered by him will be looked upon with the greatest and the Revs. Adam and R. Jackson, amount of favor. He is decidedly on the principles of Total Abstinence. honest and straightforward, and won At the close of the meeting about 70

golden opinions for himself from leadng English statesmen during his enrolled as members. A number of occupancy of the Presidential chair choice selections of music were pleasbetween the year 1884 and 1888. The ingly rendered by a combined choir. result of the election, however, can not be clearly foreshadowed. It depends to announce the fact that Craig, William very largely upon the skill of the son and Thomas have commenced their political engineers who pull the wires Annual Winter Clearing Sale, and everyfor each party. When Mr Cleveland thing for ladies', children's, and gentlewas elected President in 1884, the men's wear, also house furnishing goods,

and voted the Republican ticket, and their usual prices are fully 30 per cent. vere the principal contributors to the overthrow, as they were to the previous a splendid chance of purchasing new and election, of Mr Cleveland. The present seasonable drapery, clothing, furniture, election will again chiefly depend upon &c., at or below manufacturers cost. We the direction in which the votes of note that each order should be accomthese two States are cast. Thus will [ADVI.] take place a fierce struggle on the part of the Republican to retain the favor part of the Democrats to win the allegiance of these States to their side. In

temper the managers of the State of New York are in at the time a decision is arrived at, as to how the State vote shall be cast. To the minds of Amerimay be the most perfect under the sun, but we who are used to the Monarchical system see much greater advantage in it than the American one. The election will cost millions of dollars, &c., and found everything correct. Mr maintain that the American system of auditor's report be received and adopted. Presidency is less costly than the Seconded by Mr Maher, and carried.

THE election of the President of the English system of Sovereignty, we United States of America will take strongly differ from them in that and Thomas. A sum of L1 was also voted place on the 8th of November. This opinion. It is stated on unimpeach- to the secretary as petty cash. Mr Sinclair The Australian Mortgage and Agency big event in the political career of the able authority that the last presidential moved, and Mr Flynn seconded, that a nation naturally excites an enormous election cost no less a sum than 3s 9d to 4s 1d; prime, 4s 3d. Bar. amount of interest, and the wire-pullers £4,000,000. This is an enormous sum ley—Cape, 2s 9d; fair to good, 3s 9d to of both the Republican and Democratic for political intriguing to have cost the Edward Nickols for his kindnessin gratuitbelief that on the score of cheapness the America Republican system possesses advantages over the English Monarchical system of Government.

recently transferred from Beaufort to Clemenston), in recognition of his untiring A football match has been arranged for efforts to suppress crime during the time he presentation was made by Mr Beygs, who expressed the great pleasure it gave him to do so. He believed Mr McPherson had done his duty to all classes fearlessly and well, and without regard to position; and trusted he would live long to enjoy the present, and that he would always esteem it. Mr McPherson, in response, assured them that when he came to Beaufort he little expected ever receiving such a handsome testimonial, nor did he join the force with that intention. He intended being a policeman in the true sense of the word, and not one in name. bring the offender to justice. He was pleased to receive the testimonial, particularly after having only been 14 months in the district.

the beast's ribs. The needle, which was found of gold every week, but the beast when feeding, and worked its way to the spot in which it was found. The wonder is that he ever became profitable to the breeder.

On Monday evening last a meeting of butchers, farmers and others, numbering about the beath of the Band of Hope White and Cross League was held in the Primitive Methodist schoolroom, Beaufort. It was very well attended, about 200 people being present, mostly children. The Rev. R. Hosken took the chair, and dedresses were delivered by him and the Bevs. Adma and R. Jackson, on the principles of Total Abstinence. At the close of the m-cting about 70 children handed in their names to be enrolled as members. A number of choice selections of music were pleasingly rendered by a combined choir.

THE SACRIFICE OF LIFE. Thousands of lives are sacrificed annually because mankind are not educated in the first rudiments of hygiene and life-preservation. Simple ailments are neglected. The debility increases, and some fatal disease attacks the victim, and all life's burden, life a trouble, and all because mankind is so apathetic and regardless of the signs nature sends that the vital strength is declining. All cases require immediate attention before it is too late, and a course of Clements Tonic invariably has the effect of immediately restoring perfect health. Miss Eva Brown, daughter of Sergeant Brown, Albure, N.S.W., writes on June 15, 1891:—"The followof the opportunity of being vaccina 61, assistance.

there is between an arm to lift with and an arm to be lifted."

So said an American officer the other day when a few of us were talking about the mystery of life in the human body. Yet lots of people understand the principle. What do they mean when they say, "I could scarcely crawl," "I had to fairly lug myself along," &c.? Why, simply that the body had lost its surplus power; it had become a burden, instead of an instrument to carry burdens,

A woman writes in this way: "I had constantly to lie down on the coach and rest. I had barely strength to crawl about. This was in the summer of 1882. The trauble first came upon me in 1876, when I was forty-two y are old. Before that I had always been strong and healthy. Then, however, I began to feel tired stantial people, happy in finding what so many families lack—a medicine containing no evil drug, which mother can administer with confidence to the little ones in their many and languid, and gradually I had teonsider myself a week, sickly woman. At first I had a bad taste in my mouth, and a sinking sensation at the pit of the stomach. My appetite was poor, and what little I ate gave menting the chost and sides. My look seemed to

"I continued in this wretched state for seven years—1876 to 1883. Then came the help I had waited for so long and so hopelessy. In December of that year a little book was left at my ber of that year 4 letter book was left at my house telling of a medicine called Mother Seigel's Syrup, and my husband rend of a case like mine having been cured by it; and I felt a strong desire to try the medicine, but we could not spare the money. "However, when my husband returned from

Bungay on Christmas Eve he pulled cut of his parcel a bottle of Siegel's Syrup and said, See I have brought you a Christmas-box, and it proved to be the most valuable one I ever had THE WATER OF THE FARM.

Cultivators generally have some appreciation of the value and importance of the water of the rain which comes down on their land, but they do not always understand what vast quantities are required to water the face of the country. The owner of a fine farm may look out over at least a hundred acres of his own land, and as he sits in his comfortable verandah, after a land drought and soes a wild as a least a did mo somuch good, and to this end you have leaded to be the most valuable one I ever had in wy life. I began takin the medicine at once, and sould great relief. It seemed to lift a weight from my whole body. My appetite returned and I gradually gailed strength, and by the time I had taken six bettles I was a new woman. I could go about my laundry work with case and pleasure. I still mke an occasional doze, and keep in good health, for which I laye to thank Mother Seigel's Syrup. I know of many in this district who have received great benefit from the Syrup, one or two of the neighbours stating that but for it they would not be alive. I desire others to know of what did mo somuch good, and to this end you have

"July 11th, 1891."
We gladly extend our congratulations to Mrs Gooderhau upon her recovery, and beg to say for the general behoof that the ailment which these very favorable bygienic conditions the steamer had a speedy clearance, and at daybreak she was taken alongside the railway pier, Port Melbourne, to land passengers and discharge cargo.

The two small-pox patients, Mr Osmand and Miss Jones, are progressing satisfactorily at the Sanatorium Williamstown, and no fresh cases (says the following to the offer of the bard. The public Health. Yesterdry the chairman of the board and five members submitted themselves to the operation of vaccination, which was performed by Dr. Gresswell, the me-lical inspector of the board. The public are defended and offer of the public are described by the case of poisoning that a course of Clements Joine intention of invariantly and a course of the invariant land course of the invariant land course of the standard which size and a course of the invariant land course of the standard processed the for so long at time is no stronger, and at Lambeth. Two girls were received in that mild manner over the often the sinust which encioned in the standard poisoned there under suspicious circum. The necessary of the part of

there are innumerable openings between additional—and that will be like the spur the clods which act like so many chimneys put into the jaded herse; he won't get any strength from it, but, under the stimulus rapidly dissipated. This loss may be in assembles the pressure brought to bear to part prevented by a finely pulverised compel a complete revision of the tariff stratum at the top or surface, when no will be such thatno Government can resist, hard surface which the water cannot stand I am not discussing the advisability enter, but running off like rain from the of an all-round increase in the tariff. I ditions of all industries at present, the to the growing crop, and floods are caused have to grasp at it to relieve us from the

yastly understate the extent of the poverty now prevailing. The Samaritans, who are always going about doing good, tell me there are at least 40,000 men, women, and children wanting reliof in the shape of food, fuel or shelter. And as the winter deepens their number is increasing every day. The little work the Government can provide is a mere drop in the bucket. No real relief can be obtained unless private enterprise is stimulated. The soap kitchens are opening nowjust as they existed in the city and suburbs in the pre-protection days, and for the same reason. We have almost, without noticing it, reverted to the conditions of those days. When a Protective tariff is imposed, it serves for a time to exclude the previously imported article, or at least, limit its consumption. But the foreign producer, unwilling to lose his market, soon disc wers means to so cheapen his production that, despite the protecting duty, he can get his goods in and undersell the local manufacturer. Then, the latter has to discharge his goods his hands or become insolvent, or obtain increased protection. We have reached that stage and are dropping back into the old Free Trade conditions once more. There is no remedy but to shut out imports again, and our factories spring into life and our people find employment. The testimony of the manufacturors who have CHIRE been giving evidence before the Chamber of Manufacturers is conclusive on this CARNGHAM RECREATION RESERVE. point. Give us real protection, they say, and we can employ 10, 15, 20 times our and we can employ 10, 15, 20 times our present number of hands. They tell you of the minuber of hands. They tell you of the number of hands. They tell you of the number of hands. They tell you of the above Reserve for three years, from 1st day of September next. The area of the reserve is 60 acres (more or present duties may be increased to 40 to 160 per cent., which may practically mean of the reserve is 60 acres (more or less), situate at Gum Flat, Carugham. present duties may be increased to 200 per cent., which may practically mean prohibition. It may be argued that the imposition of such high duties would be most disastrous to the community. The most disastrous to the community. The JOSEPH WATSON, Shire Secretary. we must continually increase our duties until they become prohicive, if we do not chose to do that we must revert to Free Trade. There is no stopping half way. All Protectionists knew from the TENDERS for DESTROYING RABBITS

TO THE EDITOR.

SIR. -Please allow me, through the medium of your columns, to tender my incore thanks to the residents of Waterloo for their kindness and generosity in rendering me monetary and other as sistance during my recent trouble and bereavement.

S. A. WARD.

FLORIENE!—FOR THE TERTH AND BREATH —A few drops of the liquid "Floriline" probled on a wet toeth-brush produces a pleasant lather, which thoroughly cleanses the teeth from all parasites or impurities, hardens the gums, prevents tartar, stons deeny, gives to the teeth a peculiar pearly-whiteness, and a delighted fragrance to the breath. It removes all empleasant odour arising from decayed teeth or tobacco smake. "The Fragrant Floriline," bring composed in part of Honey and sweetheris, is delicious to the taste, and the greatest discovery of the age. Price 2s 6d, of all Chemists and Perfumers. Wholesale depot Farringdon Road, London, England. FLORITANE! - FOR THE TEETH AND BREAT

In England the average extent of a in England the average extent of a single farm is 390 acres; in France 10 A.D. 1892.

W. E. ANDERSON, Chief Clerk. acres, 4,000,000 owners holding properties of two acres; while farms of 200 acres are so few that they can be counted on the fingers.

The exercise of economy in the Chief Secretary's department has resulted (says the Age) in a curtailment of the illowances to returning officers in connection with the last general election, as well as the general expenditure of adminis ering the electoral law. The returning officers protested against the reduction in their charges on the ground that these charges were the mot be anve. I desire others to know of what did no somuch good, and to this end you have my consent to publish this letter, should you think it best to do so.

"Yours truly,
"(Signed) Mas GOODERHAN, Farsham North In the condition of the finances at present renders it necessary that a reluction shall be made. Mr Wilson further pointed out that when the question of retrenchment was raised it was contemplated to reduce the ordinary To Overdraft Bank of Victoria salaries of the returning officers, but in consequence of the increased work the were required to park. In winnection with the research of the rolls it was decided not to make this reduction, but merely apply the pruning knife to the

> We all know, says an American aper, that the acre, the half-acre, the garden spot even, well set with fruit, gives a greater return in money value than any other portion of the farm but sametimes in a full season we find a little trouble to sell even such a limited quantity of fruit in our small home market, and so we are inclined to for the product. One hundred acres will yield at the same ratio, or produce a total of 20,000 dol, and this sum will he sufficient to warrant a considerable expenditure in order to procure the right market.

'TUTYOUR SPARETIME IN THE BANK.", FIGHT BETWEEN A MAN AND A

"March 23rd, 1891." What are Larn from Mr. Bateman's experience? First, that has man and again. what are specience? First, that he may be superience? First, that he may be superience? First, that he may be supprised by the sought and the spitting up of atterner were symptons of a thoroughly disordered condition of the digestive organs, brought on by exposure, loss of rest, and the breaking up of all this regular habits of life. This resulted from his orthying fo the peachers and his foolish sleeping in his damp clothes. Acute indigetion and dyspepsia followed, of course, with all the suffering which he details so well. But as the suffering which he details so well. But as the suffering which he details so well. But as the suffering which he details so well. But as the fillows his fault? We do not say if was his fillows his fault. The company has a fault his house in the local Chinese camp, and arrested nine Mongolians. The Chinamen were seated around a table, and it is alleged that they were drawing for prizes in

A North of Ireland weekly paper vertises itself thus: "During a late lottery. The police took possession of thunderstorm a man crept for shelter a large box containing lottery papers, into a hollow log. The rain fell in tor- and several basins which were being rents, causing the log to swell so that the man was caught and held firmly within. Death stared him in the face. and the sins of his past life rese up before bim in all their vividness. Sud denly he remembered that he wasn't a subscriber to our paper, and he immediately ielt so small he was able to back right out."

ADVICE TO MOTHERS !- Are you broken in of cutting teeth! Go at at ence to a chemist ducted by means of tickets, on which and get a bottle of Mrs. Winslow's Southing STRUP. It will relieve the poor sufferer immediately. It is perfectly harmless and pleasant to ta-te, it produces natural, quiet sleep by relieving the child from pain, and the little el erub awakes " as bright as a button." I: pain, relieves wind, regulates the bowels, and i th best known remedy for dyscutery and diarrhera, whether arising from teething or

A wealthy London merchant is report d to have said: "I always feel happy when I am advertising, for then bank, as several parcels of marked lot-I know that, waking or sleeping, I have a strong, though silent orator working | Stawell, and Beaufort, were found in for me; one who never tires, never this possession. He also had concealed sleeps, never makes mistakes, and who is certain to enter the households, from wnich, if at all, my trade must come.

A telegram dated Sydney, Sunday, says :- "At an early hour this morning a horrible outrage was committed at Leichardt by two ruffians, who he now in custody. From what can be gathered, and the colice are very retic nt, a house at Leichardt was broken into by two men, who made their way to a bedroom occupied by a girl about 18 years of age; and ravished her in a most iru a! manner, leaving her more dead than alive. Later in the day information was conveyed to the police, and shortly afterwards two young men named Richard Russell and Patrick Mullens were arrested, and have since been identified by the girl as her as aila t.

Holloway's Cintment and Pills .-Ir vellers and Emigrants. - Those who cross the seas change the climate, but they do not change the constitution. The altered conditions of life, the existences of travel and other causes render t'e traveller and emigrant peculiarly liable to diseases and accidents when for from efficient medical aid. With these associa tel remedies at hand the; may be said to have a physician always at their call, and they may be certain that situations will be constantly arising in which they will require a ready resource is time of nee-The directions for use, which accompany each box and pot of Hollow y's Pil's and Ointment, are write in plain and simple

THROAT APPECUIONS AND HOARSENESS -All suffering to m brite tion of the throat and hoarseness will be agreeably supposed at the a cost innuclate teller a orded by the use of Brown's Broughful Troches." These famous l'lozenges " are new seld by most respectable chemists in this country at Is 11d ner box. People troubled with a "Lacking cough," y slight cold, or bronch lan ethous, can of the them too soon, as similar troubles, if allowed to progress, result in serious Pulno arv an Asthuatic Affections, See that the words Browne's Broughful Troches? are on the Covernment Sturp round each box.—Pre-pared by John J. language, and are applicable in all cases.

Did you ever hear of the Australian Time Bank (Limited)? No! Wel, then, you must know about it, and right away, to).

Mr Ansiey describes it. The idea is this, You don't use all your time to advantage. Most officing that truns to waste. You often have the time but no chance to invest it profitably. So the water soaks into the ground and is lest. Suppose you do money, and draw it out on checks as you want it. Do you see? Wouldn't that be what the Americans call "A big thing?"

"Bosh! stuff! Humbur !' you say, "It is impossible. If we could do that we might bank time enough to turn us into boys and girls again."

BABOON.

A Cape correspondent of the "Pall Mall Gazette" describes a deadly fight that recently took place on the Vogel River Mountains, in the district of Somerset East, between Mr Nicholas Hurter and an immense baboon. Mr Hurter was out with h's gun, when his dogs engaged with a number of baboens that were screaming on the top of the rocky precipice overhanging his homestead. Soon all the dogs but one we e disabled, and the latter was engaged in a life and death struggle with an animal that Mr Hurter had wounded in the shoulds. with an animal that Mr Hurter had wounded in the shoulder. Dog and True, so we might, but as you say, it can't be done. Yet, isn't there a moral in he idea? Open your eyes and read. The moral is plain as the true k on an elephant. If you can't get back your waste time, then don't waste it.

Now isn't a man wasting time when he gets ill? at the baboon, when, unexpectedly, a treill?

'Oh," you say, "but he can't help it." That's mendous male baboon—the largest he worse nonsence than the Time Bank. Yes, he had ever seen in his life—attacked him. "Oh," you say, "but he can't help it." That's worse nonsence than the Time Bank. Yes, he cau help it, nine times out of ten.

Look for a second. Here's a man who goes on to talk ifke this: "There was never," he says, 'a stronger man in E.gland than I was up to December, 1884. I am a gamekeeper, and about this time we had a deal of trouble with 1 gang of poachers. I had to keep watch all night long, and was scarcely ever in bed, and often slept in my damp clothes. At 'ast we nabbed the poachers and landed them in jail. Shortly after this I was taken had. At first I merely felt tired and dull. I had a b d taste in the mouth with slime covering my tougue and teeth I could eal little or nothing, and what I did eat gave me great pain. I telt as it held in a vice; my breathing was labored and short, and I systa up a great deal of phlegm. I had a dreadful hacking cough, and could get to sleep at night, for after ten minutes' sleep I would wake un and cough for two or theree hours at a spell. Night after night I heard the clock s.rike every hour

"When the bad attacks came on I felt as if should suffocate and had to be belstered upin bed. I was coughine and spitting up matter and phlegm all hight long. Finally I got so weak I couldu't walk across the floor, and if I rentured out my breathing was so bad that I had to stop and rest every few yards. Of course i was chileed to give up my work, and for eight months I did nothing. I was under the doctor all this time, and from the first he said my case was a bad one. After a while he said to my wife, 'Tour husbahad is in a consumption, and will never get better.'

"I' thought it was all over with me, and every one who saw me thought I would die. will never get better.'
"I thought it was all over with me, and more fierce. By this time Mr Hurter, "I thought it was all over with me, and every one who saw me thought I would die. About this time I read in a Liverpool paper of a medicine called Mother Seigel's Curative Syrup, and isneied I should like to try it. So my son, who lives in Liverpool, get me two bottles, and before I had used up the second one my cough was ail gone, my breathing was easy, and I could eat anything. I soon got back to my work, and have enjoyed good sound health ever since. When I began taking the Syrup I was so low I don't believe I could have held out much longer. I have lived all my life in this district, and in my present house forty years.

(Signed) "Thomas Bateman, "Marlury Locks, "Near Whitehurch, Salop "March 23rd, 1891."

more fierce. By this time Mr Hurter, severely wounded and quite exhausted, had searcely a vestige of clothing left. The encounter had lasted an hour and a half, as well as Mr Hurter could guess, and he was wondering how it would all end. He thought of letting go his grip of the mouster and taking his chance. At this moment, fortunately for the man's life, one of the dogs that had been wounded and quite exhausted, had searcely a vestige of clothing left. The encounter had lasted an hour and a half, as well as Mr Hurter could guess, and he was wondering how it would all end. He thought of letting go his grip of the mouster and taking his chance. At this moment, fortunately for the man's life, one of the dogs that had been wounded and quite exhausted, had searcely a vestige of clothing left. The encounter had lasted an hour and a half, as well as Mr Hurter could guess, and he was wondering how it would all end. He thought of letting go his grip of the mouster and taking the synup left.

The encounter had lasted an hour and a half, as well as Mr Hurter could guess, and he was wondering how it would all end. He thought of letting go his grip of the mouster and taking his chance. At this moment, fortunately for the man's life, one of the dogs that had been wounded and quite exhausted, had searcely a vestige of attention to the dog, but after a short rough and tumble fight it walked off. along the edge of the precipice, frequently

that they were drawing for prizes in connection with a recently organised used in the drawing. Several butchers, knives, which it is said by the police were for the purpose of protecting the "bank" should a raid be made on it by larrikins, were also taken care of by the police. It appears that the whole of the accused alleged to be engaged in the drawing were barricaded by a number of other Mongolians, who were watching the course of events are printed Chinese numbers. NEVER USED IN VAIN.

Diseases of the Skin. to this famous Ointment for its efficiency in removing diseases of the skin. For scrofula, curvy, scald heads, and all eruptions of the skin, no remedy can equal it. To soldiers, sailors, miners, and travellers in foreign lands, it is invaluable.

Sores, Wounds, Bad Breasts. Ulcerated Legs. In this class of maladies, an improvement rapidly follows the first dressing with the

Ointment.

It must not only be applied to the wound or sore, but be briskly rubbed in around the diseased, swollen or painful parts. The effect of the Ointment is increased by fomenting with warm water before the Ointment is rubbed in; but the surface of sores, when healing, should never be cleansed with sponge or anything else.

Rheumatism, Gout, Stiff Joints. Every one suffering from these painful affections should use this Ointment, as it has relieved thousands from torture, after every other means had been fruitless. The Ointment should be well rubbed into the skin at least twice a day, after it has been somented with warm salt and water and dried. The pain gradually abates, and a cure soon follows

GLANDULAR SWELLINGS, BRONCHITIS, SORE THROAT, AND QUINSEY.

To combat these diseases with success, penetrating remedies are necessary. Such are Holloway's Ointment and Pills. When rubbed on the skin, the former penetrates to the glands, and removes any obstruction or impurity which may be impeding their healthy action. This Ointment acts on the very mainspring of life, for through the glands pass all reparative matters; in all the above class of cases, the Ointment and Pills, used conjointly, will act so searchingly, and certainly, as to effect cures in the most deplorable cases.

ASTHMA, SHORTNESS OF BREATH.

In these complaints the Ointment should be well rubbed upon the chest and between the shoulders, in order to make it penetrate to the lungs and air passages, and thus effect a permanent cure.

Both the Oint	ment and Pills si following cases	hould be used in
Bad Legs Bad Breasts Burns Burns Bunions Bite of Mosche- thes and Sand Files Coco-bay Chiego-foot Childrains Chapped Hands	Coms (Soft) Cancers Contracted and Stiff Joints Elephantiasis Fistulas Gout Glandular Swellings Lumbage	Rheumatism Scalds Sore Nipples Sore Throats Sore Throats Skin Diseases Scurry Sore Heads Tumours Ulcers Wounds Yaws

Persistent advertising .- Advertising is a means of prosperity, is not as well an lerstood as it should be. It is a fact that no one who has advertised liberally and systematically has felt like disputng, that it was the best spent money he put into his business. As a horse was never made fat by a single hushel of oats, so a single advertisement is

Anoint thene Eyes with Eye Salve. Rev. 3.18

Sassoom Lumley et Cie, Cairo.

Among the inexhaustible wonders of Nature, not one is more remarkable than the fact, that in whatever part of the world a disease is most prevaint than the most advantal antidate is a This law is well known, and in no instance is the truth of it more strikingly apparent than with reference to affections of the Eye. This most tender and delicate organ is at all times, and in all climes, subject to various diseases; but in the land of the East, in the

countries of Egypt and Arabia, Inflammation, Bight, and Ophthalmia, are so universal, that we may be sure Mother Nature has not failed to provide a remedy near at hand.

The SALVE that we are now offering to the public is prepared from a plant, growing on the boundaries of the vast expanses of desert for which these countries are remarkable, the wonderful healing properties of which have derful healing properties of which have been known for hundreds of years.

Being a regetable preparation it has a soothing effect on the eyes, causing all pain and inannation to disappear, so that in every case recovery is speedy and certain.

By a beautiful chemical process, known only to the proprietors, the active principle of this plant is preserved, so that its virtues are not im-

caired by age nor climate; and thus its healing powers are brought within the reach of all. It s no quack nostrum. but the oldest medicine it is no quinck nostrum, our the ordest mentione in the world—Nature's own ren edy—provided by her for the benefit of suffering humanity. We can guarantee it as a certain remedy for Weakness of the eyes, Inflammation, Swelling Watery humors, Granulations, Ulcers, Opthaliaia, and all complaints the eye is subject to.
Testimonials telling of wonderful cures have been received from all parts of the world, and the following amongst the many from Australia.

will show the estimation in which it is held by all who have used it.

The Egyptian Eye Salve has done me more good than any other ointment or lotion I ever used. It has cured my eyes, and several of my friends who have tried it, have obtained the same beneficial results. It has a great name in this

district, which it deserves. I would not like to be without it."—(Signed) FRANCIS LLOYD. " After using a number of so called reme lies. which seemed to make hereves worse instead of better, ny wife was persuaded by our clergy-men to try the Egyptian Eye Salve, two loxes forwhich, I am thankful to say, have completely cured her after years of suffering,"—(Signed) G. S FERGUSON, Deniliquin. It is sold in all British possessions at 2s 6d
