

# The Riponshire Advocate

No. 941

BEAUFORT, SATURDAY, DECEMBER 2, 1893

PRICE FOURPENCE.

### MONEY.

**TO FARMERS, LANDHOLDERS & OTHERS**  
TO LEND, large and small sums of £5 and other Moneys, for term of 2, 3, 4, 5, 6, 7 years, or as agreed upon, on Freehold or Leasehold Lands, at lowest rates of interest. **McEVROY & CO.**, 21 Market Street, Melbourne. Business for 1891 exceeding £400,000. Borrowers are requested to place themselves in direct communication when any information required will be furnished. All communications treated strictly confidential.

### GEELONG WOOL SALES.

Season 1893-1894.

### GEORGE HAGUE & CO.

WILL hold Weekly Wool Sales as usual every Friday during the coming season. They would call special attention to their **EXTENSIVE WAREHOUSES**, built expressly for the storage of Wool. **SHOW ROOMS**, splendidly lighted, and unequalled in the Colony for the proper display of Wool. Railway and shipping right at the doors. **FARMERS' CLIPS** receive special personal attention, and no lot, however small, is sold under fullest market value. **A LARGER LOCAL CONSUMPTION** of Wool than any other market in the Australian Colonies.

**CHARGES**—The lowest ruling in the Colony. **ACCOUNT SALES** and Proceeds rendered invariably three days after sale. **ACT STRICTLY** as Selling Brokers only. **TWENTY-NINE YEARS** practical English, Continental, and Colonial experience of the Wool trade. **CASH ADVANCES**, if required, directly on receipt of produce into store. **Auction Sales** of Sheepskins, Hides, and Tallow held weekly throughout the year. **WAY-BILL FORMS** supplied free. **GEORGE HAGUE & CO.**, Wool Brokers. Geelong, 1st July, 1893.

**HOLLOWAY'S PILLS**  
All Disorders affecting the Liver, Stomach, and Bowels.  
These Pills can be confidently recommended as the most certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the maladies resulting from a disordered stomach or bowels. These Pills are alteratives and strengtheners of the stomach. They may be taken under any circumstances.  
Weakness and Debility, Nervous Irritability.  
The wholesome effect exercised by these admirable Pills over the blood is like a charm in dispelling low spirits, and restoring cheerfulness. Their mild aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life.  
To Regain Health, Strength, and Vigour.  
Whenever persons find themselves in that state termed a "little out of health," it is necessary that Holloway's Pills should be taken. Both solids and fluids of all kinds are purified, but regulate all disordered actions, and thoroughly strengthen the frame.  
Chronic Coughs, Colds, and Asthmatical Affections.  
These Pills, assisted by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, will be found the most effective remedy for all pectoral diseases. This treatment has proved wonderfully efficient in not only curing chronic coughs and colds, but asthma of many years standing.  
Holloway's Pills are the best remedy known in the world for the following diseases:—  
Femal Irregularities, Rheumatism, Gout, Sore Throat, Dropsy, Scalding Head, Scurvy, Stomachic Disorders, Bilious Complaints, FEVER of all kinds, Sore and Glandular Swellings, Dropsy, Constipation, Indigestion, Typhoid Fever, Liver Complaint, Dropsy, Erysipelas, Piles, Worms of all kinds.

**HOLLOWAY'S PILLS**  
All Disorders affecting the Liver, Stomach, and Bowels.

**HOLLOWAY'S PILLS**  
All Disorders affecting the Liver, Stomach, and Bowels.

**HOLLOWAY'S PILLS**  
All Disorders affecting the Liver, Stomach, and Bowels.

Sashes, doors, and all kinds of Joiner's work made to order at the lowest possible prices. Hardwood supplied at Timber Yard prices.

### NOTICE.

THE Proprietor of the "Riponshire Advocate," in thanking his numerous patrons for past favors, respectfully solicits a renewal of support, and desire to state that increased attention will be given to all matters of local and general interest. A record of news he will always endeavor to make his columns as comprehensive as possible. In all departments, in fact, he will aim at improvement, and, therefore, confidently appeals to the public for increased support.

He has resolved to REDUCE the SUBSCRIPTION to the "Advocate" (with which is published a 14-column supplement containing well-selected reading matter) to 3s 9d per quarter, and trusts that this concession will be largely taken advantage of.

The Advertising Rates have also been considerably reduced, and advertisers will find it to their benefit to avail themselves of the columns of the "Riponshire Advocate," which is the only newspaper that is printed and published within the boundaries of the Shire. As the Advocate of the interests of the district, it has a claim for a considerable amount of support, and has a greater scope for rendered usefulness than any other journal or journal within a given radius of Beaufort.

Job Printing, plain and ornamental, every description, is executed with neatness, accuracy and despatch, and on the most reasonable terms.

### ARTHUR PARKER, Proprietor.

### AN INTERESTING LETTER FROM A WELL-KNOWN SPECIALIST.

**DR. L. LEWELLYN**, who is duly qualified and Registered, I assure that by departing from the usual routine practice and devoting himself to the study of a special branch of medicine, he has been able to do what is strictly following the path of progress. He is a man of high character, and his practice is a model of what a medical man should be. He is a man of high character, and his practice is a model of what a medical man should be. He is a man of high character, and his practice is a model of what a medical man should be.

The wise and virtuous and disease arising from excess and intemperance cannot be generally known, and it is to be hoped that a reader of this journal will be able to do what is strictly following the path of progress. He is a man of high character, and his practice is a model of what a medical man should be.

To those about to marry, and who are either ignorant or doubtful as to their entering from a blind and unreasoning promptness to their part should unquestionably prompt them to seek the advice of a competent medical man. At present applying to me, or consulting him, they are assured that my treatment will be vigorously and judiciously applied, and that they will be able to do what is strictly following the path of progress.

**DR. J. D. LEWELLYN, 25, LORRAINE STREET, MELBOURNE.**

"FOR THE BLOOD IS THE LIFE." CLARKE'S WORLD-FAMED BLOOD MIXTURE is warranted to cleanse the blood from all impurities from whatever cause arising. For Scrofula, Scurvy, Eczema, Skin Diseases, and Sores of all kinds, it is a most marvellous. Thousands of testimonials. Sold in bottles, 2s. 6d. and 1s. each, by Chemists and Patent Medicine Vendors everywhere. S. A. FLYNN, THE LINCOLN AND MIDLAND COUNTRIES DRUG CO., LINCOLN, ENGLAND.
News has been received of a terrible earthquake at Kuchan, a town in the north east of Persia; it involving enormous loss of life and property. As many as 12,000 persons are reported to have perished in the catastrophe. The latest accounts received from the scene of the disaster state that 10,000 bodies have been discovered among the debris in the town of Kuchan and the surrounding district. It is estimated that 60,000 head of cattle have been destroyed.

MELBOURNE NEWS.

(FROM OUR OWN CORRESPONDENT)

A casual stroller through the parks and gardens of Melbourne, could not fail to be struck with the number of shabby loungers who would see in these places. Most of them it is plain, belong to the respectable class, but the gaunt hand of poverty is pressing on them. In the early part of the day, they cluster round registry offices, in the vain hope of getting employment, but later on, wearied and hungry, they seek the public gardens as their only refuge. Many have no roof to cover their heads, whilst a few luxuriate in lodgings, which they obtain at from one to two shillings weekly, picked up by doing odd jobs. These unfortunate, workless men, eye the well-to-do passer by with an envious and hungry look, and certainly they could scarcely do otherwise. The object-lesson to be obtained from a visit to the public gardens, clearly shows that the unemployed of the metropolis form a sadly numerous class. It must be understood, too, that the great bulk of poverty is hid from the public gaze, but the distinguishable fringe is a sure index to its extent.

In this connection it is gratifying to know that the task of finding employment for the workless of the city, is being taken up by private persons. The Government has been applying its energies in the direction of land settlement, but all history teaches that no permanent movement, emanating solely from Government, has ever been a success. Popular aid and sympathy is needed, and in Melbourne this is being freely given by all classes and conditions of citizens. The ultimate result is bound to be salutary. It is not reasonable to expect a lightning transformation in the congested labor market of the colony, but without doubt our efforts to remove the annually recurring unemployed evil, are now being made in the right direction. Another year should see a vast improvement in the condition of Victoria.

It has at last been practically decided to abolish, as soon as possible, the Maribyrnong powder magazine, which is situated within the metropolitan boundary. Some idea of the danger which the magazine in Melbourne, may be gathered from the following facts. When Mr. Hake, the Government Inspector of Explosives, arrived in the colony a couple of years ago, he found no less than 1000 tons of powder stored at Maribyrnong. That quantity, if exploded would have completely demolished Melbourne and suburbs, and the risk of explosion was always present. Since then Mr. Hake has made strenuous efforts to minimize the danger, but he has not been able to bring the quantity of stored powder lower than 800 tons. This amount, if ignited, would devastate an area with a radius of five miles from the centre of the conflagration; a space which now contains 60,000 inhabitants. As the magazine is wrongly constructed, and a stroke of lightning, or other accident outside ordinary precautions might precipitate an explosion, it will be readily understood, that action to remove the magazine ought to have been taken long ago. The depot, from first to last, has cost £120,000, but its transferee would liberate over 200 acres of good suburban land, the State exchequer would be immensely benefited.

It is quite a mistake to suppose that the Cup Racing Carnival is wholly devoted to betting and admiration of equine points. During the recent celebration a lady, holding a high position in Sydney, met on the Flemington lawn a gentleman who had been her love-sick swain in days gone by. The ways of Cupid are quite as mysterious as those of a member of Parliament, or a bank director, for it happened that, although both parties had entered into the wedded state, the old flame was re-kindled, and, with blind fatuity, virtue and discretion were forgotten. In these prosaic days the sequel is easy of solution. The Sydney Divorce Court will be the scene of the next act in this social drama, and Mrs. Grundy will be considerably shocked when the status of the respective parties is revealed.

The present Railway Commissioners unlike their predecessors, appear to be striving in the direction of centralization. Whilst the Government, and all patriotic citizens, are doing their utmost to get the starving unemployed of the metropolis on the land, or employed in country districts, the Railway Commissioners are working heart and soul in the opposite direction. Admittedly the congested state of Melbourne has been the cause of the colony, and Francis, Kibbe, and Co., are apparently endeavoring to perpetuate the state of centralization. Fares and freights have been increased, half the travelling facilities stopped, and metropolitan monopolies created. To make a comparatively short trip to and from the metropolis, two days are now required, and of course the city lodging-house keeper benefits at the expense of the country traveler. The increase of freights and fares, presses most heavily on country people, as the cab and tramway competition prevents much increase in the city. Any patriotic person, must recognize that the agricultural and pastoral interests should be the first consideration of those who manage our State railways. After setting up a Newport monopoly in the frozen meat trade, the Commissioners are now doing their best to "poll the butter export business, by refusing to provide proper refrigerating trucks. This policy is persisted in, all the creameries benefit at the expense of Melbourne, to the great injury of the colony generally.

The greatest aid you can give your newspaper is your printing; if you do not feel able to run an advertisement, surely you can afford to give the newspaper your cards, dogtags, and all business, letter-heads, envelopes, and bills, printing to execute. The newspaper man needs it, and it helps him to pay his printers for setting up the thousand and one free notices which you and your town; but don't give it to the printer or job printing office that can give you no such return, and is spending neither time, money, nor brains in helping you to build up your town. The time may come when a newspaper can live simply upon the revenue derived from advertising and subscriptions, but no ordinary newspaper in any ordinary town can exist, without the auxiliary support derived from job printing. Therefore, if you want a good newspaper—one that can still further help you and your town—give it your job printing.

PRACTICAL JOTTINGS.

BY THOMAS LANG & CO., Nurserymen and Seedmen, 435 Bourke Street, Melbourne.

CALENDAR OF OPERATIONS FOR DECEMBER.

The present year is making up for the drought and heat of the early months, the winter and spring being so wet as to show an inch more rainfall than the average.

Probably this rainy season will continue till Christmas, and if advantage should be taken to put in successive crops of vegetables. Intelligent cultivation shows to the best advantage in the wettest and driest months of the year. The best results from the plot of ground the soil should be trenched and drained. If this is done the ground is the driest in the winter and the moistest in summer. It is plain that if ground is drained that the extra water will be free to escape than if no drains were provided, and to that extent will be dried. It is not so plain at first sight how it is that drained ground is moistest in summer. The water in the soil, which is held in the pores of the soil, is drawn up to the surface of the soil, and as soon as the rays of the sun strike the soil they vaporize the moisture and draw it up into the atmosphere. When drained the ground does not, and any soil in showers or wet fall on the ground will be free to escape than if no drains were provided, and to that extent will be dried. It is not so plain at first sight how it is that drained ground is moistest in summer. The water in the soil, which is held in the pores of the soil, is drawn up to the surface of the soil, and as soon as the rays of the sun strike the soil they vaporize the moisture and draw it up into the atmosphere. When drained the ground does not, and any soil in showers or wet fall on the ground will be free to escape than if no drains were provided, and to that extent will be dried.

Trenching, which is digging the soil about 2 feet deep, keeping the surface soil on the surface, enables the roots of the plants to get down deeper into the soil, where the heat of the sun cannot get at them to scorch them. Without trenching the water, which is held in the pores of the soil, is drawn up to the surface of the soil, and as soon as the rays of the sun strike the soil they vaporize the moisture and draw it up into the atmosphere. When drained the ground does not, and any soil in showers or wet fall on the ground will be free to escape than if no drains were provided, and to that extent will be dried.

ATTEMPT ON THE LIFE OF EMPEROR WILLIAM.

BERLIN, Tuesday. The Emperor William has received a package containing an infernal machine similar to that received yesterday by Count von Capri, the Chancellor of the German Empire. It is believed that the packages were both sent by the same person, as the second parcel also bore the post mark of Orleans, in France. The nature of the packages was suspected, and precautions were taken in opening it to guard against an explosion.

THE INFERNAL MACHINES.

PARIS, Wednesday. Widespread indignation has been aroused here at the plots against the Emperor William of Germany and Count von Capri, the German Chancellor, to whom the infernal machines have been sent, bearing the postmark of the French city of Orleans. The wish is universal that the authors of the outrage could be discovered. President Carnot has sent to Germany offering the utmost endeavors of France to arrest the miscreants.—Star.

FOR LASSITUDE, TORPIDITY, SORE STOMACH, INDIGESTION, HEADACHE, &c.

Take a couple of Fletcher's Pills every second night; they are a prompt and sure cure and give certain relief. FLETCHER'S PILLS are a quick, sure and reliable remedy for all complaints arising from torpid liver, indigestion, weak stomach, and impurities of the blood. They are prepared on rational and sensible lines and do not contain a particle of opium, lead, mercury, or any drastic purgative, but operate by perfectly natural means, by stimulating the flow of bile and thus producing easy evacuations and natural catharses without the annoyance and pain of griping and purging. Beware of the many harmful substitutes on sale in man's shops. None are genuine unless they bear the signature of F. M. Olements, Newtown, Sydney.

FENIANISM IN IRELAND.

A startling incident has occurred in Dublin, which shows renewed activity on the part of the Fenians. Two men known to be Fenians, named Sheridan and Reid, were arrested on Monday in Dublin on a charge of drunkenness. Reid was afterwards released, but in the evening he was murdered, the evidence showing that his life had been taken by his comrades, who were afraid that he had divulged their secrets. The other man, Sheridan, was detained by the police. He had in his possession a number of dynamite, which he attempted to explode in Tyronepore. The police declare that Reid was connected with former dynamite outrages in Ireland. In consequence of these revelations the guards at the public buildings in Dublin have been doubled. Great excitement prevails in Dublin in connection with the arrest of the two Fenians, Reid and Sheridan, and the murder of the former. A man named John Meerns has been arrested on the charge of having shot Reid, and other arrests are expected shortly. It has been ascertained that John Meerns left Dublin after the dynamite explosion in the law courts early in May, and had only recently returned from America.—Argus.

STOCKYARD HILL, THE THOROUGHBRED STALLIONS, ENUC AND SAVANAK.

By St. Albans (sire of Malton and Coronet and many other winners) dam Beauty. SAVANAK is a bay horse with black points and has proved himself a good performer on the turf under heavy weights. TERMS—£4 PER MARE. Also the POSEY STALLION, YOUNG TIGER. Sire, the well-known Pony Tiger; dam, Ettie (winner of many 1st prizes). This pony is owned by silver name and full 3 years old, standing 13 1/2 hands high, with good bone, temper, good action, and promises to be a very fast trotter; has never been beaten in any class. TERMS—£2 10s. For limited number of mares. Good paddocks provided, but no responsibility incurred. All mares must be paid for before removal. For further particulars apply to GEORGE ROBSON, Groom, St. Enochs, Stockyard Hill.

Chrysanthemum plants should be finally cut back about Christmas, letting stems be only about 6 to 8 inches high. Do not water for two or three days till cut is dried, & h-wise plants should be dried. If weather is warm shade the plants. A mulch of 2 to 4 inches of manure should be put round the plants, keeping it to the soil moist, and supplying nutrient to the plants. Water freely. Chrysanthemum stems and pansy should now be planted. Pansies sown now and brought through the hot weather will produce fine plants and earlier flowers than the March sowing.

We have now completed the first series of these monthly "Practical Jottings" which we have been assured by many of our readers have been of use to them. Our aim has been to assist the non-professional grower by writing short simple instructions such as we find during the course of business as required by such.

THE WORLD'S FRIEND.

HOLLOWAY'S OINTMENT.

A cure for piles and Fistulas. Diseases of sensitive parts may be relieved and cured by the proper and diligent use of this cooling and healing Ointment, whose action should invariably be assisted by judicious doses of the Pills—the anxious patient will soon experience wonderful ease from this treatment.

COUGHS, COLDS AND ASTHMA.

The Ointment should assiduously be rubbed at least twice a day on the chest and between the shoulders, when the symptoms will quickly abate. No medicines are more efficient in chest complaints, none can be used with equal safety and certainty.

GOUT AND RHEUMATISM.

These are undoubtedly BLOOD DISEASES, and the poison manifests its presence in the well known symptoms. The only certain means of cure consists in overcoming this depravity in the blood, which is rapidly purified by the use of the Pills. The Ointment, when rubbed upon the skin, penetrates through the pores, acts in union with the Pills, and soon effects a cure.

DROPSY, SWOLLEN LEGS OR ANKLES.

These remedies act directly upon the absorbent system with a power that no dropsy, however inveterate, can long resist. They regulate the circulation—they filter out everything that is morbid or injurious, and they regulate every function.

BAD LEGS, BAD BREASTS AND OLD ULCERS.

This invaluable Ointment is an infallible cure for any wound, sore, or ulcer, of however long standing. For pimples, blotches, scald heads, and scorbutic humours, it is equally efficacious. Both the Ointment and Pills should be used in the following cases—

Cold Legs, Red Swelling, Rheumatism, Burns, Scalds, Erysipelas, Pustules, Sores, Ulcers, Chapped Hands, Itching, Contracted and Stiff Joints.

The Ointment and Pills are Manufactured only at 46 New Oxford St. (late 638 Oxford St.), London. And are sold by all Vendors of Medicines throughout the Civilized World; with directions for use in almost every language. The Purchasers should look to the label on the Pots and Boxes. If the address is not 638, Oxford Street, London, they are spurious.

J. W. BROWN, GENERAL AGENT, ACCOUNTANT, ETC., Lawrence Street, Beaufort. Correspondence conducted with strictest privacy. Charges moderate. Agent for the United Australian Fire Insurance Co.

FOR THE BLOOD IS THE LIFE. CLARKE'S WORLD-FAMED BLOOD MIXTURE.

For cleansing and clearing the blood from all impurities. It cannot be too highly recommended. For Scrofula, Scurvy, Eczema, and Blood Diseases and Sores of all kinds, it is never-failing and permanent cure. It Cures Old Sores, Cures Sores on the Neck, Cures Sore Legs, Cures Bloodheads or Pimples on the Face, Cures Scrofula, Cures Ulcers, Cures Blood and Skin Diseases, Cures Glandular Swellings, Clears the Blood from all Impure Matter From whatever cause arising. It is a real specific for Gout and Rheumatic pains.

It removes the cause from the blood and bones. As this mixture is pleasant to the taste and warranted free from anything injurious to the most delicate constitution of either sex, the Proprietor solicits sufferers to give it a trial to test its value.

Translation of letter from Fiji. The letter of Jonathan to Mr Dunsford. My Friend—I write to you to-day to tell you about my illness. I love you very much to-day because of the medicine you gave to me. Three months ago I was very ill. My body was very weak. I could not plant yams. I could not fish. I could not eat sleep; but now I am quite well again. It is truly wonderful medicine. I beg you Mr Dunsford give me one more bottle as the month of boils is near. Preparation Day (Saturday) Bay Vanua Levu.

Explanation of above Letter. In Fiji at certain times of the year both the European residents and natives themselves break out in boils which do not immediately subside, but tend to develop into terrible running sores. At these times I can conscientiously assert that I know of no better medicine than Clarke's Blood Mixture, which I have used with unflinching success both among my white and black neighbors. The enclosed letter from Jonathan's Christianized Fijian brother, which I have translated, has been almost a miracle and yet one of your large bottles completely set him up. In a diary case even a less than in the bottle of Blood Mixture.

At these times I can conscientiously assert that I know of no better medicine than Clarke's Blood Mixture, which I have used with unflinching success both among my white and black neighbors. The enclosed letter from Jonathan's Christianized Fijian brother, which I have translated, has been almost a miracle and yet one of your large bottles completely set him up. In a diary case even a less than in the bottle of Blood Mixture.

THOUSANDS OF TESTIMONIALS. CLARKE'S BLOOD MIXTURE. Is sold in Bottles 2s 6d each and in Cases containing six times the quantity. It is sufficient to effect a permanent cure in the most obstinate cases, by all CHROMIST and PATENT MEDICINE VENDORS throughout the world. Proprietors, THE LINCOLN AND MIDLAND COUNTRIES DRUG COMPANY, LINCOLN, ENGLAND. Trade Mark—BLOOD MIXTURE.

Clarke's Blood Mixture. CAUTION.—Purchasers of Clarke's Blood Mixture should see that they get the genuine article. Worthless imitations and substitutes are sometimes named and sold by unprincipled vendors. The words "Lincoln and Midland Counties Drug Company, Lincoln, England," are engraved on the Government stamp and Clarke's World-famed Blood Mixture. NONE ARE GENUINE WITHOUT WHICH.

Supplement. Contains an Interesting Serial Tale, Amusing Anecdotes, Pastoral News, Quality Literature, Gardening Items, Etc., Etc.

Business Men, Read! It was Benjamin Franklin who exclaimed, "What steam is to machinery, advertising is to business."

THE WEST AUSTRALIAN GOLD FIELDS.

(REUTERS TELEGRAMS.) PERTH, Wednesday.

Splendid rain fell at Southern Cross yesterday, nearly a quarter of an inch being registered.

Mr. Rennon, superintendent of water supply, is at present in Perth. He states that the Water Department has done splendid work on the fields and roads.

Three tons of stone from the Brookman Syndicate's claim, Coolgardie, yielded 31 oz of gold.

Horse-stealing is becoming very rife on the fields, causing much inconvenience to the diggers...

A meeting was held at Geraldton yesterday, at which the water was passed urging the Government to push on with the construction of a railway to the Marchion goldfields.

FEEDING THE COW FOR MONEY.

The efforts of dairymen to make their cows surpass anything that has yet been done in the way of producing milk or butter needs to be made with a great deal of care.

If the feed is increased gradually, as it invariably ought to be, and its effect is carefully noted, the owner of a cow will have little difficulty in deciding when the safe limit has been approached.

Local and General News. Mr E. T. Dunn, land officer, held a land board on Thursday at Ballarat...

The yields of gold obtained by the various co-operative parties last week (write our Waterloo correspondent) were as follows:—Stevens and party, 25oz 5dwt; Carland and party, 20z 9dwt; Lucky Comyn, 10oz; Golden Gate, 22z; Star of East, 20z 6dwt; Tromp and party, 21z 13dwt; Kinleyside and party, 24oz; Martin and party, 17dwt; Lucky Comyn, 3oz; Newby and party, 15oz; Vaino and party, 14dwt.

The Beaufort Jockey Club play a match against the Avoca on the latter's court next Sunday. The secretary of the Waterloo cricket club desires to acknowledge with thanks the following donations towards the funds of the club:—Mr W. H. Osmond, M.L.C., 11; Captain Bridges, R.N., 11; Mr E. H. Austin, M.L.A., 11 1/2; Mr J. G. Robertson, 11 1/2; Mr T. D. Martin, 13s; Mr G. H. Conole, 10s; Mr W. Schlicht, 10s; Mr J. McKeich, 10s.

The following are the New Year holiday arrangements in the Post and Telegraph Department:—Monday, 1st January, 1894—All Post Offices will be closed to the public at ten a.m. The first delivery only by letter-carrier will be effected. All country mails will be received and despatched as usual. No Money Order or Savings Bank business will be transacted.

A special general meeting of the members of the Waterloo M.A. Association (writes the "Star") Waterloo correspondent) held on Thursday last week. The secretary was instructed to place the following on the business-sheet for conference:—That the conference urge the Minister of Mines to take such steps as will obviate the necessity of miners and occupiers of residence areas having to travel long distances to register claims and areas; and also that miners shall be able to pay deposits on application for lease, and to receive back such deposit or any portion thereof that may be returned, without being put to great inconvenience and considerable expense by long distance travelling.

A meeting of the Beaufort Jockey Club was held at Loft's Railway Hotel on Wednesday evening last. Present:—Messrs Sinclair (in the chair), VanderStoep, Orchard, R. Thomas, and Parker. Correspondence.—From Mr E. H. Austin, M.L.A., intimating that as he had promised to attend the Terang races on New Year's Day he would be unable to act as judge; and promising donation of £2 2s, and wishing the meeting every success.—Received. From Captain Bridges, R.N., and Mr Geo. Lewis, each forwarding cheque for £1 towards funds.—Acknowledged with thanks. From Mr J. G. Robertson, Mr Mitchell, asking for a member's tickets to be sent.—Attended. From Mr Jas. Cowan, asking for a fruit booth to be built on the racecourse.—Request complied with, Mr VanderStoep undertaking to do the work for £1. The secretary reported the results of the sale of booths and gates, as already published. The secretary's action in registering the races, by forwarding the required fee of £2 2s, was confirmed. Mr Sinclair was appointed judge on the motion of Mr VanderStoep, seconded by Mr Thomas. Mr Sinclair returned thanks for the honor conferred on him and would fill the position to the best of his ability and try and give satisfaction. The meeting closed with a vote of thanks to the chair.

Our sporting readers will doubtless need no reminder that the Beaufort Jockey Club cater for their amusement on New Year's Day, when the annual races will be held at the racecourse, Waterloo Flat. There are no less than nine post-ern events on the programme, and comprise the following:—Maiden Plate, of 5 sovs; Handicap Hurdle Race, of 7 sovs; Beaufort Handicap, of 10 sovs; Pony Race, of 3 sovs; Selling Flat Race, of 5 sovs; Trotting Match, to be arranged on the course; Flying Handicap, of 5 sovs; Hurry Skurry, of 2 sovs; and Consolation Stakes, of 3 sovs. The first race starts at 11 a.m. and the meeting has been duly registered under the V.R.C. rules. The stewards have made every provision for the gathering to be a thoroughly enjoyable one, and as we hear there is every probability of large fields and close and exciting contests, the patronage of the public is only required to ensure success. The only season, so that the only crops originally intended for hay and those which proved to be light will be devoted to that purpose. Still we have to remember that the wheat crops have not turned out so well as expected in many parts, and a great number of them have consequently been made into hay, as stripping or thrashing them would hardly have been considered economic management. The area cut for hay this season may be reckoned at nearly 600,000 acres, with an average yield of 11 tons, which will give a total of 7,000,000 tons, a quantity almost similar to that stacked the previous year.

A committee meeting of the Beaufort Mechanics' Institute was held on Thursday night. Present:—Messrs Cameron (president), W. C. Padder, J. W. Harvey, J. Jackson, Dungey, (secy), and Parker. The minutes of the previous meeting were read and confirmed. Correspondence.—From Chief Secretary's office, intimating that the expenditure of 65 per cent of the revenue for maintenance had been approved.—Received. From secretary Shire of Ripon, forwarding donation of £15. A hearty vote of thanks was passed to the council for their kind donation on the motion of Mr Jackson, seconded by the President. The following accounts were passed for payment:—A. Parker, periodicals and newspapers, £3 2s 3d; W. R. Nicoll, (Delivery Courier), 6s 6d; A. Parker, printing, 3s 6d; H. Stuart, fixing lamps, 2s 6d; J. R. Wetherston, goods, 9s 4d; M. Flynn, goods, 9s 4d; Some discussion took place relative to the recent notices being placed in the reading and member's room, and it was pointed out that it was not intended to keep strangers out, but was meant to apply to local people who regularly used the room, and paid no subscriptions. The secretary was instructed to write to the librarian and inform him that books must not be given out to non-subscribers. The meeting terminated with a vote of thanks to the chair.

It is evident in travelling about the country that the area of the bay crop is larger than usual. The acreage which has been cut for hay is great, because so many inferior wheat crops having been devoted to this purpose, but it is doubtful for all that if the total quantity of hay saved is as great as was respiced last year. This crop is liable to vary both in area and quantity, any season, far beyond the intentions of the growers. South of the Dividing Range, paddocks sown for hay are generally cut for hay, but in the north it is different. The wheat is put in, and it all depends on the season and how it turns out to what purpose the crop shall be put. If it promises to yield a fair quality of grain, it is allowed to ripen for thrashing purposes, but if a light yield of grain is anticipated from any cause, it is whipped into the haystack. But neither rust, nor locusts, nor any other plague were present this season, so that the only crops originally intended for hay and those which proved to be light will be devoted to that purpose. Still we have to remember that the wheat crops have not turned out so well as expected in many parts, and a great number of them have consequently been made into hay, as stripping or thrashing them would hardly have been considered economic management. The area cut for hay this season may be reckoned at nearly 600,000 acres, with an average yield of 11 tons, which will give a total of 7,000,000 tons, a quantity almost similar to that stacked the previous year.

It is really wonderful that the Australian people are so slow to see the truth as regards the unscrupulous quacks and charlatans who prey on the credulity of the Australian public. Scarcely a week ever passes but what the press exposes the barefaced and shameful practices of some of these harraps, yet, in face of all they seem to thrive, and the paper who hounds them down, most thrives fattest on their advertisements and cracks champagne over each balance-sheet. Clements and Fletcher's Pills have never yet stopped to deceptor and misrepresentation. They are scientific, therapeutic, and charlatans, and evidence as to their value can be found in every district, and such being the case it is unnecessary to further extol their merits.

Scarcely a week ever passes but what the press exposes the barefaced and shameful practices of some of these harraps, yet, in face of all they seem to thrive, and the paper who hounds them down, most thrives fattest on their advertisements and cracks champagne over each balance-sheet. Clements and Fletcher's Pills have never yet stopped to deceptor and misrepresentation. They are scientific, therapeutic, and charlatans, and evidence as to their value can be found in every district, and such being the case it is unnecessary to further extol their merits.

Concerning the announced nomination of Mr Gillies for the Agent-Generalship, the "Star's" Melbourne correspondent says:—"The 'Age' on Thursday morning published a statement that it was intended that Mr Duncan Gillies should proceed to England as Agent-General for the Premier on being questioned regarding the matter to-day, refused to either contradict or affirm the statement. All that Mr Patterson could be induced to say regarding the matter was that the statement had been made without his authority. From this every reader may draw his own conclusions."

The following are the New Year holiday arrangements in the Post and Telegraph Department:—Monday, 1st January, 1894—All Post Offices will be closed to the public at ten a.m. The first delivery only by letter-carrier will be effected. All country mails will be received and despatched as usual. No Money Order or Savings Bank business will be transacted.

A special general meeting of the members of the Waterloo M.A. Association (writes the "Star") Waterloo correspondent) held on Thursday last week. The secretary was instructed to place the following on the business-sheet for conference:—That the conference urge the Minister of Mines to take such steps as will obviate the necessity of miners and occupiers of residence areas having to travel long distances to register claims and areas; and also that miners shall be able to pay deposits on application for lease, and to receive back such deposit or any portion thereof that may be returned, without being put to great inconvenience and considerable expense by long distance travelling.

A meeting of the Beaufort Jockey Club was held at Loft's Railway Hotel on Wednesday evening last. Present:—Messrs Sinclair (in the chair), VanderStoep, Orchard, R. Thomas, and Parker. Correspondence.—From Mr E. H. Austin, M.L.A., intimating that as he had promised to attend the Terang races on New Year's Day he would be unable to act as judge; and promising donation of £2 2s, and wishing the meeting every success.—Received. From Captain Bridges, R.N., and Mr Geo. Lewis, each forwarding cheque for £1 towards funds.—Acknowledged with thanks. From Mr J. G. Robertson, Mr Mitchell, asking for a member's tickets to be sent.—Attended. From Mr Jas. Cowan, asking for a fruit booth to be built on the racecourse.—Request complied with, Mr VanderStoep undertaking to do the work for £1. The secretary reported the results of the sale of booths and gates, as already published. The secretary's action in registering the races, by forwarding the required fee of £2 2s, was confirmed. Mr Sinclair was appointed judge on the motion of Mr VanderStoep, seconded by Mr Thomas. Mr Sinclair returned thanks for the honor conferred on him and would fill the position to the best of his ability and try and give satisfaction. The meeting closed with a vote of thanks to the chair.

Our sporting readers will doubtless need no reminder that the Beaufort Jockey Club cater for their amusement on New Year's Day, when the annual races will be held at the racecourse, Waterloo Flat. There are no less than nine post-ern events on the programme, and comprise the following:—Maiden Plate, of 5 sovs; Handicap Hurdle Race, of 7 sovs; Beaufort Handicap, of 10 sovs; Pony Race, of 3 sovs; Selling Flat Race, of 5 sovs; Trotting Match, to be arranged on the course; Flying Handicap, of 5 sovs; Hurry Skurry, of 2 sovs; and Consolation Stakes, of 3 sovs. The first race starts at 11 a.m. and the meeting has been duly registered under the V.R.C. rules. The stewards have made every provision for the gathering to be a thoroughly enjoyable one, and as we hear there is every probability of large fields and close and exciting contests, the patronage of the public is only required to ensure success. The only season, so that the only crops originally intended for hay and those which proved to be light will be devoted to that purpose. Still we have to remember that the wheat crops have not turned out so well as expected in many parts, and a great number of them have consequently been made into hay, as stripping or thrashing them would hardly have been considered economic management. The area cut for hay this season may be reckoned at nearly 600,000 acres, with an average yield of 11 tons, which will give a total of 7,000,000 tons, a quantity almost similar to that stacked the previous year.

A committee meeting of the Beaufort Mechanics' Institute was held on Thursday night. Present:—Messrs Cameron (president), W. C. Padder, J. W. Harvey, J. Jackson, Dungey, (secy), and Parker. The minutes of the previous meeting were read and confirmed. Correspondence.—From Chief Secretary's office, intimating that the expenditure of 65 per cent of the revenue for maintenance had been approved.—Received. From secretary Shire of Ripon, forwarding donation of £15. A hearty vote of thanks was passed to the council for their kind donation on the motion of Mr Jackson, seconded by the President. The following accounts were passed for payment:—A. Parker, periodicals and newspapers, £3 2s 3d; W. R. Nicoll, (Delivery Courier), 6s 6d; A. Parker, printing, 3s 6d; H. Stuart, fixing lamps, 2s 6d; J. R. Wetherston, goods, 9s 4d; M. Flynn, goods, 9s 4d; Some discussion took place relative to the recent notices being placed in the reading and member's room, and it was pointed out that it was not intended to keep strangers out, but was meant to apply to local people who regularly used the room, and paid no subscriptions. The secretary was instructed to write to the librarian and inform him that books must not be given out to non-subscribers. The meeting terminated with a vote of thanks to the chair.

It is evident in travelling about the country that the area of the bay crop is larger than usual. The acreage which has been cut for hay is great, because so many inferior wheat crops having been devoted to this purpose, but it is doubtful for all that if the total quantity of hay saved is as great as was respiced last year. This crop is liable to vary both in area and quantity, any season, far beyond the intentions of the growers. South of the Dividing Range, paddocks sown for hay are generally cut for hay, but in the north it is different. The wheat is put in, and it all depends on the season and how it turns out to what purpose the crop shall be put. If it promises to yield a fair quality of grain, it is allowed to ripen for thrashing purposes, but if a light yield of grain is anticipated from any cause, it is whipped into the haystack. But neither rust, nor locusts, nor any other plague were present this season, so that the only crops originally intended for hay and those which proved to be light will be devoted to that purpose. Still we have to remember that the wheat crops have not turned out so well as expected in many parts, and a great number of them have consequently been made into hay, as stripping or thrashing them would hardly have been considered economic management. The area cut for hay this season may be reckoned at nearly 600,000 acres, with an average yield of 11 tons, which will give a total of 7,000,000 tons, a quantity almost similar to that stacked the previous year.

It is really wonderful that the Australian people are so slow to see the truth as regards the unscrupulous quacks and charlatans who prey on the credulity of the Australian public. Scarcely a week ever passes but what the press exposes the barefaced and shameful practices of some of these harraps, yet, in face of all they seem to thrive, and the paper who hounds them down, most thrives fattest on their advertisements and cracks champagne over each balance-sheet. Clements and Fletcher's Pills have never yet stopped to deceptor and misrepresentation. They are scientific, therapeutic, and charlatans, and evidence as to their value can be found in every district, and such being the case it is unnecessary to further extol their merits.

The to all historic gold yields for the week ending Saturday last amounted to 15 oz 18 dwt, the principal ones at Beaufort being—E. Tromp, 2 oz 3 dwt.

A man named William Newman was brought before Mr A. Andrews, J.P., on Thursday, charged with vagrancy, and was sentenced to 3 months' imprisonment in the Ballarat goal. Yesterday the same rate fined Elizabeth Smith £2 for drunkenness. This makes £20 that she has now contributed to the revenue for over-indulgence in intoxicants.

A meeting of the shareholders of the Beaufort Butter and Cheese Factory and Creamery Co. Ltd. was held at the factory on Thursday. Present:—Messrs McDonald (in the chair), Wetherston, Troy, West, W. Smith, Topper, McInnes, J. Jess, Archibald, DeBaere, Holdsworth, and Parker. The minutes of the previous meeting were read and confirmed. The directors and secretary of association as drafted by the directors were approved of and adopted, and the meeting closed with a vote of thanks to the chair. The directors afterwards held a meeting, which was attended by Messrs Hannah (seconded to the chair), McDonald, Troy, Holdsworth, and Wetherston. The action of the chairman and secretary in letting a contract to Mr A. White for supplying 10 cords of firewood for the Middle Creek creamery at 8s 9d per cord was confirmed. Accounts amounting to £29 4s 11d were passed for payment. The secretary was authorized to pay milk suppliers at the end of the month; also to procure skim milk tanks for Middle Creek and Stockyard Hill. £2 was passed to the secretary for petty cash. It was resolved that £50 be paid by Mr Hannah for the erection of the Stockyard Hill creamery, and the meeting terminated with a vote of thanks to the chair.

For new Dresses, Prints, Calicoes, choice Millinery, Boys' Suits, Suits Made to Order, Hats, Ties, Shirts, Boots of all descriptions, at Half-Price, call on J. McKEICH, the Direct Importer.—[ADVT.]

The banks are (writes the Herald) by the mere logic of facts, hopelessly confuting their critics. It was said that these institutions would never be able to carry out their agreements for repaying credit balances on current accounts. But the great bulk of these balances has been repaid earlier and on easier terms than was agreed. The new capital required by the various reconstruction schemes, it was feared, would never make its appearance in time, but most of the capital has been paid in advance of the time. And now the London Bank of Australia has taken the depositors in hand, and proposes to pay them their first instalment—not due until 1894—at a month's notice. This is an operation which delightfully confutes all the shrieking critics, from Mr A. J. Wilson of the "Investors Review" downwards, who have been proclaiming for many months, and in the loudest possible tones, that the reconstructed banks would never be able to pay interest on their deposits, much less repay the deposits themselves.

SORE EYES.—The remedy, MORRIS'S IMPERIAL EYE REMEDY, has been extensively used in the city of Melbourne, and the result is a complete cure in every case. It is the only eye remedy that has been used in the city of Melbourne, and the result is a complete cure in every case. It is the only eye remedy that has been used in the city of Melbourne, and the result is a complete cure in every case.

OPENING OF BEAUFORT BUTTER AND CHEESE FACTORY.

The official opening of the Beaufort Butter and Cheese Factory took place on Thursday last in the presence of

house in the parish during the last 40 years. He was glad to see a grey-headed man like Mr. Troy there just to keep him in countenance, as the sight of so many black and curly heads made him feel like being left out in the cold. He, however, gave him great pleasure to be present. He thought perhaps this was the thing of all others for barbarian, bond and free, Greek, Roman, Scotch, and Irish. There were no differences—and they would not had been holding different views to be much believed they had all agreed to smoke the pipe of peace, making the bust hatched, and go in for burying the bust hatched in Victoria. (Cheers.) He was delighted to see what a handsome building they had. Captain Bridges was one of the best judges as to what was neat and shipshape, and his being satisfied was one of the highest encomiums that could be passed. Everything was so pleasant that he trusted it was an omen for the future prosperity of the factory, that the Beaufort butter would be quoted on the London or Liverpool markets, and in India, Calcutta, Bombay, and other foreign places, at the highest prices, and that the Beaufort brand looked that the best butter that reaches the London market. (Cheers.) He thanked Mr. Troy for calling upon him to say a few words, and having done so, he said he did not say too many, he would resume his seat.

Dr. Adam said that with the progress before he forgot to apologise for his absence at the opening of the factory. He had been able to attend the opening of the two creameries, and especially wished to be present at the opening of the central factory. He was certainly not helped missed it, but he certainly could not help it, as he had to come first. He wished to propose another toast, and one he felt sure they would all drink heartily. It was the health of two directors, to whom they were very much indebted, namely, Mr. Hannah and Mr. McDonald. Without their assistance he really did not know how they could have started the creameries at Stockyard Hill and Middle Creek. Mr. Hannah had stepped into the breach by offering to put up a building, the company to take it over, and when they were able to do so, the company was not in a position to erect the building, and he thought it was very timely the directors should have done so. Mr. McDonald had followed the example in the same spirit. The shareholders were not inclined to accept it through various differences of opinion as to where the site should be, but ultimately it had been taken advantage of. The directors could not please everybody, and as there were certain objections to the other buildings under which need not be recapitulated, Mr. McDonald's were good value for the money, and the company was saved from any immediate outlay, thanks to these gentlemen.

The toast having been cordially received, Mr. Hannah responded. They would have done him a favor by letting him slip out, as he was not accustomed to speaking in public. He was not prepared for the recognition given. The difficulty having arisen as to how a building should be erected, the thought struck him that he could raise the money, and he had made the offer. He did not know that he deserved much credit for what he had done. It was no inconceivable to him to be out of the money if the directors were able to take the building over. He was only too glad to do what he could for the company, and was willing to do more in case it was wanted. The factory no doubt would be a success if they stuck to it. He thanked them for the very kind way in which they had drunk his health, and assured them they would not be backward in spending either time or money in helping to forward the company.

Mr. McDonald was sure he ought not to get any thanks for doing his duty to the district. This was a new industry, and all the farmers should support it. He kept a few sheep, and whilst he had got 12½ for merino wool last year, this year he got 9½—nearly a quarter less. This new industry would benefit all. As far as the building was concerned, being a director he knew the company had no money to spare, and as Mr. Hannah had built the Stockyard Hill creamery, he had done the same for Middle Creek on condition that he received so much per cent. on his outlay till the directors could take it over at cost price. There had been some dispute over the site, but it was all over now, and they had a building on Government ground which could be purchased. Any repairs should be required he was willing to do them.

The toast of "Bartrem and Son," coupled with the name of Mr. Shaw, the machinery fitter, was proposed by Mr. Holdsworth; Dr. Adam remarking that the machinery had been taken over with the manager's commendations, and Mr. Troy adding that in giving the order to Messrs. Bartrem and Son the character of the horse had been considered. Mr. Shaw, in response, apologised for the absence of Mr. Bartrem, remarking that nothing would have pleased him better than to have been here, but that he had only got back from Barmesdale late last night and could not be present. He thanked them for the kind manner in which the toast had been drunk. The toast of the firm was to give three cheers for the machinery, and the only branch that had not done so. Mr. Bartrem having just returned from a tour, they were in a position to place butter on the English and foreign markets to better advantage than before, whilst they also commanded the best possible markets in Victoria. The factory had a real good manager in Mr. Don, who would attend to his duties well, and the machinery could not have been placed in the building to better advantage. When he saw it he thought it would be outrageous to think of making butter there, but on looking over it, and making slight alterations it had become a handsome factory. It had astonished him, after the machinery was fitted, to see what things had been put together and made shipshape. A plant never left the firm without a thorough understanding that the fitter must do the work as though he were doing it for himself, and to do that the company was sure to be pleased. He was glad that every satisfaction had been given to the other fitter, he having been here, there, and everywhere. He could say that this company had started under far more favorable circumstances than any other factory he knew of, and his firm had erected machinery for close on 95 per cent. of the companies in the colony. He had been through Africa, and this side of the line, and no country had a better system than Victoria. This factory had all the latest and most improved machinery. He urged the directors to get

more creameries outside, to tune up the shareholders, and get off all the shares they could. One creamery that he knew of started with 90 gallons. It was said it would never pay, but as a matter of fact the supply increased to 1200 gallons per day last season and 1500 gallons per day this season. Up to last season not a gallon of milk was brought on wheels, but either on pack saddles or in sledges. There was 400 feet of a rise from the station to the creamery—it was mountainous and highly timbered country. That was in Narrick, Gippsland. The water had to be carted two miles to the creamery, and the timber being nothing like it is here for firing, the cost was nothing. This district was suitable for dairying for Gippsland. People ran away with the idea that Gippsland was the best country in the colony, but if they travelled over it as he had done they would find out the difference. The grass was ample, but the cattle could not get to graze till 10 or 11 o'clock in the day, all the sun shone through the trees, and there was not the nutrient in the feed as here. If the farmers only hung together, worked amicably, and let petty things as to size go, the company was bound to succeed, as the district possessed advantages far beyond any that he knew in the colony. If Mr. Bartrem had been present he would have been able to give a better insight into the matter of shipping butter, and he would be glad to answer any questions that might be put to him.

The toast of "The Secretary" was drunk on the proposition of Mr. Wetherupson; Mr. Parker acknowledging the compliment. Mr. Sinclair proposed that health of "The Manager." Mr. Don had taken a very great interest in the factory, and seemed to be the right man to make it a success. The toast was cordially received. Mr. Don being engaged at the factory, there was no response. A very pleasant gathering was then brought to a close.

CRICKET.

BEAUFORT V. BALLARAT WARRIORS. These clubs met in the Park on Xmas Day, with the result that Beaufort won a pleasant and exciting game by 10 runs. It was decided to play 12 sides. The visitors put their strongest team into the field; whilst the locals were also well represented, and had the assistance of W. C. Tromp, a player who did good service on this and many a former occasion. The visitors winning the toss decided to bat on a wicket which proved terribly bumpy, several players getting some nasty knocks about the heads and body. The Warriors were disposed of for 82 runs; Ripper played a lucky innings for 17, and Marks came next with 16. H. Parker took 3 wickets for 16 runs, W. C. Tromp 3 for 27, and A. Tromp 2 for 7. There was a vast improvement in the fielding of the locals, and very few mistakes were made. Beaufort started badly, four wickets falling for 13 runs. H. Parker and E. Tromp put a different complexion on the game, and unduly pulled the match out of the fire. The former made 21 when he was adjudged lb.w. and the latter played carefully and well for 29 not out. A. Parker was the only other double-figure scorer with 10. The innings closed at 92. Hele obtained 5 wickets for 29 runs, Ripper 3 for 22, and Evans 1 for 37. In the second innings of the Warriors 9 wickets fell for 36 runs, Trotman heading the list with 9. A. Tromp and H. Parker trundled in good form, as their averages show—5 for 9 and 4 for 10 respectively. The match proved an attraction to a large number of people. Appended are the scores:—

Table with columns for batsmen and runs, and bowlers and wickets. Includes names like Marks, Evans, Trotman, Noonan, Jones, Ripper, Tromp, Ford, Patterson, White, Rogers, Byes, and totals for both sides.

WARWICK V. FIRST INNINGS. W. C. Tromp, b Hele... 5; E. Lilly, c Marks, b Hele... 3; C. Baker, b Evans... 0; A. Tromp, b Hele... 4; H. Parker, lb.w. b Ripper... 29; H. Parker, not out... 9; A. Parker, run out... 10; E. P. Walsh, b Hele... 5; G. Carver, c Noonan, b Ripper... 1; G. Johnston, lb.w. b Hele... 0; Patterson, st Noonan, b Ripper... 0; Byes... 13; Total... 92.

Bowling Analysis.—W. Tromp, 80 balls, 1 mdn., 27 runs, 3 wks.; E. P. Walsh, 36 balls, 20 runs; H. Parker, 54 balls, 2 mdn., 16 runs, 3 wks.; A. Tromp, 9 balls, 7 runs, 2 wks.

BEAUFORT V. FIRST INNINGS. W. C. Tromp, b Hele... 5; E. Lilly, c Marks, b Hele... 3; C. Baker, b Evans... 0; A. Tromp, b Hele... 4; H. Parker, lb.w. b Ripper... 29; H. Parker, not out... 9; A. Parker, run out... 10; E. P. Walsh, b Hele... 5; G. Carver, c Noonan, b Ripper... 1; G. Johnston, lb.w. b Hele... 0; Patterson, st Noonan, b Ripper... 0; Byes... 13; Total... 92.

Bowling Analysis.—Hele, 91 balls, 3 mdn., 29 runs, 5 wks.; Evans, 64 balls, 1 mdn., 37 runs, 1 wkt.; Ripper, 43 balls, 22 runs, 3 wks.; Ford, c Howell (sub.), b A. Tromp... 5; Hodge, b A. Tromp... 5; Marks, b H. Parker... 2; Trotman, b A. Tromp... 9; Jones, c H. Tromp, b H. Parker... 3; Ripper (capt.), b H. Parker... 0; White, b H. Parker... 0; Noonan, c Johnston, b A. Tromp... 2; Rogers, not out... 1; Byes... 13; Total... 90.

Bowling Analysis.—H. Parker, 49 balls, 2 mdn., 10 runs, 4 wks.; A. Tromp, 41 balls, 1 mdn., 9 runs, 5 wks.

AVENUE V. WATERLOO. On Boxing Day the above clubs met on the local ground in friendly rivalry, and after a very pleasant game resulted in a win for the Avenue by 69 runs on the first innings. The Avenue were the first to bat, and most of the principal batsmen were got rid of very cheaply, no less than five wickets falling at a cost of 15 runs. G. Howell (35) and H. Williams (27) came to the line, and no country had a better system than Victoria. This factory had all the latest and most improved machinery. He urged the directors to get

more creameries outside, to tune up the shareholders, and get off all the shares they could. One creamery that he knew of started with 90 gallons. It was said it would never pay, but as a matter of fact the supply increased to 1200 gallons per day last season and 1500 gallons per day this season. Up to last season not a gallon of milk was brought on wheels, but either on pack saddles or in sledges. There was 400 feet of a rise from the station to the creamery—it was mountainous and highly timbered country. That was in Narrick, Gippsland. The water had to be carted two miles to the creamery, and the timber being nothing like it is here for firing, the cost was nothing. This district was suitable for dairying for Gippsland. People ran away with the idea that Gippsland was the best country in the colony, but if they travelled over it as he had done they would find out the difference. The grass was ample, but the cattle could not get to graze till 10 or 11 o'clock in the day, all the sun shone through the trees, and there was not the nutrient in the feed as here. If the farmers only hung together, worked amicably, and let petty things as to size go, the company was bound to succeed, as the district possessed advantages far beyond any that he knew in the colony. If Mr. Bartrem had been present he would have been able to give a better insight into the matter of shipping butter, and he would be glad to answer any questions that might be put to him.

WOMAN'S HIGHEST MISSION.

It has been truly said that "if modern knowledge is power, it is not wisdom"; and therefore, with increased education, the social status does not always improve, crime does not diminish, nor suffering grow less, and thus the levels of life are not lifted. And now that woman has taken into her own hands the shaping of her destiny can she do better than accept these conditions? Can she conceive of no higher ideals, no grander incentive, and no more beautiful fulfilment? What is it that woman aims at in the widening of her career? Is it not freedom—the intellectual mastery and control that have made man free, and that she fondly hopes will give her freedom in turn? How shall she best attain it? she asks.

But right here in the answer she gives herself, is actually the mistake that she makes, and that perhaps explains in part the hostile attitude of many men and the shrinking of certain women when equal claims and rights are asserted. Precisely by following in man's footsteps, she insists, along the lines he has chosen and with the same objects and ambitions in view.

Just what he has accomplished, I will strive to accomplish. Just as he has built, I will build; just as he has aspired, I will aspire. But surely here is no freedom in its true sense, because no deliverance and enlargement of spirit, giving birth to new individuality and initiative. Undoubtedly there are women gifted to excel where men have excelled in scientific and professional pursuits; but these women are necessarily exceptional. There are reasons deep-seated in her own constitution, and in the constitution of society, why it is not easy nor always to be advised that young women should be subjected to the mental strain and strict training required to fit them for a profession, nor is it well, or often possible that girls as a rule should leave their homes and be sent into the world like boys.

But even under the most favouring circumstances, and when good result has been accomplished without too great sacrifice or injury in any other direction, it is seldom that a woman is able to devote herself without interruption, and to the exclusion of the more intimate interests of life, to the callings that require unremitting and absorbed attention. Marriage comes in as so paramount a factor; an episode in the life of a man, it is a career for a woman, in most cases incompatible with any other career. And for women who do not marry, the claims and duties of home are often quite as pressing and incumbent; the family tie is stronger, the dependence more subtle, and the whole affectional side of life has greater stress and obligation with women than with men.

But apart from these practical considerations, no woman who has sounded the depths of her own nature can help feeling that a profound deception awaits those who imagine that the outward extension of privilege, the liberty to enter the arena and compete for what the world prizes, will satisfy the deep inner craving, the vague but long longing, the unknown want which the world cannot fulfil. Women even more than men are restless, unsatisfied, seeking they know not what, they know not where; for a great hope has gone out of the world, a great light and presence once seen and felt by all.

The world cannot and need not go back to its primitive beliefs, but spiritual growth must keep pace with mental growth. In proportion as the realm of matter is explored and brought within the compass of mind the realm of spirit must expand to receive it, filling and making radiant with its presence the whole visible universe.

The laws and harmonies of nature reveal still deeper harmony and all-embracing law; spiritual truth that reflects itself in man's inner consciousness in the workings of heart, brain, and soul. The mysteries of growth and evolution suggest untold possibilities, and lay the foundations of life and its finalities in ideal regions far beyond the range of physical sense.

The finite loses its grasp, and man becomes aware of his relations with the Infinite, of the constant, infowing of divine energies in his own being, and of eternal reality underlying the passing show of appearance. In the light of such understanding, knowledge becomes wisdom, and higher education becomes the education of the higher nature.

And it is women especially who have the key to this higher knowledge, in their finer perceptions, and sensibilities, their more delicate organisation so quick to discern the hidden sense of things, the meanings that flash out from the unseen and that are not apprehended by the intellect alone, but by the whole personality, which kindles with sympathetic response.

This is the secret of that moral force which gives woman a strength beyond strength, faith beyond joy, and love beyond self. And this is truly woman's "sphere"—her "vocation," whatever post she may fill—to live within vision of the ideal, upon a plane not bounded by the pleasures and pains of sense, and therefore to a certain extent released from the thrallhold of material conditions.

What higher mission and privilege for woman than to lead the example—to set the fashion, as it were, of nobler, purer, and simpler lives, consecrated to deeper and more unselfish purposes?

USEFUL HINTS.

To WASH CLOTHES IN PARAFFIN SOAP.—Cut down ½ lb. paraffin soap and put it into a boiler of water to melt. Rub the clothes well out of the soda water, in which they have been previously soaked, put them into the boiler and let them boil for half an hour; then put them in a tub with plenty of cold water; wash them thoroughly, then rinse in blue water and dry.

To CLEAN EMBROIDERY.—Gold and silver fancy-work of this description may be most easily cleaned with spirits of wine, either alone, or diluted with an equal weight of water. The common practice of using alkali or caustic liquors is very injurious, and frequently destroys the beauty of the articles, instead of cleaning them.

To RESTORE SCORCHED LINEN.—Ingredients: Two onions, ½ oz. white soap, 2oz. of fuller's earth, half a pint of vinegar. Mode: Extract the juice of the onions by pounding and pressing them, cut up the soap and fuller's earth, and boil in water till dissolved. Add the vinegar, and let it stand till the mixture is cold, and let it dry. Wash the linen, and the scorching will disappear, if not so bad as to damage the texture.

TO CLEAN DEANTRIES AND CASES.—The best way is to wash them out with a little pearlash and warm water, adding a spoonful or two of fresh slaked lime if necessary. To facilitate the action of the fluids against the sides of the glass, a few small cinders or fine sand may be used, and the water full of strong oil of vitriol put into a dry bottle will, if allowed to run round its inner surface, rapidly remove any kind of dirt. It should then be drained, and afterwards rinsed with clean water. They have become corroded by holding hard water, a little hydro-chloric acid (spirit of salt) diluted with three times its weight of water will remove it.

To WASH CLOTHES WITH PARAFFIN OIL.—To every eight gallons of cold water put ½ lb. of soap, and fine one and a half tablespoonful of paraffin oil, into a boiler, put in the clothes, let them come to the boil, keep the lid close on boiler, and steam for half an hour, take out each article separately, and wring them out. When all are finished, hang them out to dry. If possible, bleach your clothes on grass after boiling, but where this cannot be done, it is yet possible with care to keep your linen white and clear. Laces and muslin should not be rubbed, but squeezed with the hands in melted soap and warm water. Be careful, in boiling them, to tie them up in a handkerchief to prevent their being torn.

PLANO KEYS.—These can be whitened by washing in a solution composed of 1oz. of nitric acid to 10oz. of soft water. Apply with a brush, taking care that it does not flow on the wood part upon which the ivory is veneered, for the joint will be spoiled. Cleanse carefully with clean water and a piece of flannel. Or, rub with a brush with an equal quantity of water may be used as above. If the discoloration has not gone too far, rub the keys carefully with pure lemon juice. While still damp, put on a coating of whitening or prepared chalk, mixed with a little lemon juice. When dry, brush off with dry brush, taking care that none of the mixture gets between the keys. If, however, the keys are thoroughly worn and discoloured, they must be dismounted, scraped, bleached, and polished, which is a long and tedious affair, and requires to be done by a skilled workman.

To CLEAN BRUSSELS CARPETS.—Brussels carpets may be cleaned in the following manner.—First, stretch the carpet tight on the floor, nail it at the sides, and put in the clean. Procure an ox gall from a butcher, and mix it with a pint of cold water. Have another pail ready with acid water only. Have also two woolen cloths and several dry cloths. Commence by dipping a woolen cloth in the gall-water, and then rub the carpet with it. This will produce a froth on the carpet, and you will now take the other woolen cloth dipped in clean water, with which you will rub the carpet till no more froth rises from it, rinsing the cloth occasionally in the clean water. Then rub the carpet with the acid water, and when dry, the dirt should be changed when it becomes dry. You then rub the carpet as far as possible with the towels.

To WASH FLANNELS.—In washing flannels (notice particularly), to keep them a good colour, and to prevent their shrinking. Get from the grocer 1lb. or 2lb. (according to the size of your washing) of soap bars, which you will get cheaply; for 1lb. of soap barings, cut three ounces of warm water, and mix with this wash your flannels. Be sure you have plenty of warm water, not too hot; put in a handful of your soap jelly, and mix thoroughly in the water; then take out the flannels, one at a time, shake all dust out of them first; then sluice the articles up and down well; rub the flannels as possible for rubbing knots; then sluice the flannels up and down in a machine, if you have one; if not, squeeze them well. Dry in the open air, if the weather permits, as quickly as possible. In washing scarlet or blue flannel, put one tablespoonful of a spirit of ammonia in the rinsing water.

Line-washing is a much more effective mode of purification than white-washing, but is not so often used, as few persons know how to make line-wash. If fine is used it is destroyed by the lime, and the wash easily rubs off the walls when dry. This also happens if the lime is simply slaked in water and used without any fine material. Line-wash should be made by placing some freshly burned quicklime in a pail, and pouring on sufficient water to cover it; if the lime is fresh, great heat is given out; boiled oil (a preparation of lard oil, sold by all oilmen) should then be added, one pint to each gallon of water. The mixture should be stirred till it is dripping, may be used just as the boiled oil. The whole should be then thinned with water. The brush should not be left in the line-wash, or the bristles will be destroyed. Should coloured wash be required, 1lb. of green soap added to every two gallons of wash gives a pleasing drab. Quick-line wash, with skimmed milk, and afterwards thinned with water, makes an excellent wash for out-door walls, as it is not acted on by the weather.

WORKING DRESSES.—It is best to wear washing dresses to work in as much as possible, and to have some washing dresses or having them washed is troublesome and expensive, but dirt and grease do not rest there, and they look fresher and better than stiff dresses, especially in summer. Never trim a washing dress with flowers, or frills; they look out of place, are soon crumpled, and are very troublesome to starch and iron. Do not have a working dress made long; it is waste of stuff, and would be very much in the way. Keep your working dress clean and tidy by wearing over it a large thick apron with a bib, and turning up your sleeves.

You say the coat is three shillings? "Tree shillings, mine friend." "And you warrant it all wool?" "All wool except the buttons and the pocket-flaps." "But how can you afford to sell an all-wool coat at three shillings?" "Mine friend, I can warrant you a better coat for the same price. I tell you you would be sorry to lose money on it?" "Mine friend, I tell you I tell you you would be sorry to lose money on it?" "Mine friend, I tell you I tell you you would be sorry to lose money on it?"

ANY persons found TRESPASSING on YALLA-YALLA RIVER will be PROSECUTED. Fishing and shooting prohibited. No permission given. J. C. WARE.

On Sale AT JEREMIAH SMITH'S CORNER OF LIVINGSTONE & WILLOBY STREETS. American shelling boards, 6 x 12 and 6 Scotch flooring, 6 x 12 do flooring, American and Baltic deals, all sizes, 400 pine weatherboards, 4 x 10 do, American clear pine, 4 in., 5 in., 1 1/2 in., cedar, wide boards, Cedar table legs, all sizes, French crosses, doors, sashes, Mouldings, architraves, skirtings, Broad palings and slings, Stock of all sizes of wood always on hand. Also, GEE-LONG LIMB.

BEAUFORT BUTTER AND CHEESE FACTORY AND CREAMERY CO. LTD. TENDERS are hereby invited for Butter-Milk from the Factory at the price per gallon to be stated. A. PARKER, Secretary.
