He had no right to fall in love, but he did, and, what was more remarkable, his love was returned. Marcelena had lands and burros and a tenement that was a wonder of architecture in her own right and could have married her lover offhand, her people all being subservient to her slighteet wish, but the New England man had a conscience. After winning the girl's love he docided that it would be wicked for him to marry her only to make her a widow. "But you will not die, James"-hts

name was James said Marcelona. "I make myself prayer to God in the thorn that you live. I suffer; then he make you to be well."

"No, dear one, you mistake. God does not ask that you shall lacents your fair body with thorns that I may redover. If any one did that, it should be me. Promise me that you will never again go with the Penitentes-promise me, Marcelana, although I may not live to know that you keep your promise."

So Marcelena promised and then becaush her guitar and played sweetly to her lover, who watched her with intent gaze, long-ing for a new lease of life, that he might

call her his own. Through the interference of friends he became an inmate of the government bospital as the fort and improved so rapidly that he sent for Marcelena to come to him and be married by the post chaplain,

"No," said Marcelena in the proverb of ber people; "that would be the havetook going after the oow. I marry at home or DOS at all."

Pretty Marcolena controlled herealf as best she could and in a moment of longli-ness consented to attend a ball with a former lover, Senor Filipe, who had sworn to himself that she should never marry another man. But of this the New Mexican girl was quite unconsolous. She arrayed herself for the ball in an elaborate danoing shirt of gay striped stuff, embroidered in many colored beads and silver sequine in strings down the breadths. Her dainty feet were incased in soft kid moccasins, for this was an occasion when she wore her tribal dress, and she carried the cesta-note bequesthed to her by her Spanish mother. So accoutance she accompanied Senor Fillpa.

That night Marcalena was, as usual, the belle of the ball. It was not at all surprising that she should accept the homage showered upon her, but her heart was not in it, and at midnight she stepped to the open door of the dancing hell, and looked far over the shining plain, and thought of her lover lying in the ward of the hospa ay ing under toassume glori. ous moonlight. Blance, her friend, had taken the last dance for her, and she step-ped out to breache the welcome tonio of she night air. Some one was singing "El Borrachito," giving the refrain in English, badly bro-"And a passion for a woman caused it all." The Borrachito-"the man who is a litthe drunk"-was the cavalier Filipe who had brought Marcelena to the ball, and who was now ready to take her home, swung to the same saddle, a mode of conveyance not only proper, but popular among the Pueblos. He had lighted her cigarette and was looking into her ayes with that dashing, daring audscity which was her meed of homage. She curied her red lips just a little at his too ardent game, but he was acoustomed to that-only there was that in his mind tonight of which

## Neuralgic Pains and Anæmia.

**THE** number of young girls in Australia who suffer from an aggravated form of anzemia is deplorable, and mothers should be made aware of the necessity for attention to those entrusted to their charge; many a lingering illness, and premature death, has been the result of carelessness in this particular. Miss Crossthwait, of 166 Bay Street, Ultimo, Sydney, was, until latterly, a severe sufferer from the above-named malady and neuralgia. Her restoration to perfect health has been the theme of much comment in the district. theme of much comment in the district. To a reporter who recently interviewed her, the young lady stated :--

" I am now nearly eighteen years of age, and until the last five months have not known for three years what it is to enjoy a night's peaceful slumber. I attribute the nown for three years what it is to enjoy a night's peaceful slumber. I attribute the early stage of my illness to having caught a severe cold whilst journeying to Sydney by rail from Bulli. My symptoms were neuralgic pains in the back and hip joint, total loss of appetite, great depression of spirits, and a dislike to exercise. What alarmed my relatives mostly was a palpitation of the heart; this I always suffered from after the slightest exertion. I rapidly grew thin, and my friends told me that my countenance.

and my friends told me that my countenance, formerly cheerful and joyous, grew sad and depressed; and my step, lately elastic and nimble, was changed for a slow and tottering gait, induced by weakness. My complexion became sallow, and even of a greenish hue, and my gums appeared to be growing white. I took as much rest as possible to ease the neuralgia pains in my back, but I was falling into a very low, despondent state. The doctor told me I was suffering from an aggravated form of anæmia, which, he stated, was very prevalent in these colonies. He prescribed tonics, cold shower baths, and a light, nourishing diet. I could not even follow the strengthening diet he advised, for milk, arrowroot, and so-called slops was all I could manage to swallow. Friends recommended me remedies of all sorts and descriptions, and I must have been a fair source of income to sundry chemists and druggists. But none of these specifics were of the slightest avail, and, instead of getting better, I grew daily worse. Happily for me, a friend of my father's advised him to get

pasms in the left breast, which nearly doubled me up in agony. After these fits would be panting and quite exhausted, and my heart would palpitate frightfully for ore than half-an-hour. In addition to this, had a lot of trouble with my kidneys. There was a continual dull, leaden, dragging gain in the lower portion of my back, which was especially bad after I had been lying in hed. Nothing would make my kidneys act. properly. My heart and my kidneys got worse and worse, notwithstanding the most careful attention of my doctors. For five months I lay on a bed of sickness. I had fallen away to a shadow, and my bones nearly came through my skin. When I felt there was no hope left for me, I read a story of a remarkable cure by Dr. Williams' Pink Pills. I asked for them, and with some trouble I managed to get them. It was after taking a few pills that I had for the first time for months a really refreshing sleep. I procured some more pills, and at the end of a fortnight L could see I was making rapid headway towards recovery. The distressing symptoms of my kidney complaint began to abate. and my heart, almost ceased to trouble me. Day by day

MR. C. M. M'CROY.

I got better, and after taking six boxes I was completely cured. My recovery was very rapid, for in ten werks time I was as well as ever I was, and have never had a single symptom of heart or kidney disease since."

PR. WHLLIAMS' PINK PILLS cure Rheumatism, Neuralgia, Influenza, Sciatica, Anæmia, General Debility, Nervous Prostration, Female Troubles, Indigestion, Insomnia, Locomotor Ataxy, Paralysis, and Winter Ailments.

DR, WILLIAMS' PINK PILLS FOR PALE PEOPLE.

Lord Wolseley's laments on the scarcity of army recruits have aroused widespread attention, which is not to be wondered at, having in view the great national interests at stake; but what has escaped comment is the serious leakage annually recorded from the ranks of men, as the official phrase goes, "medically unfit for further service."

So many condemned incurables have been cured by Dr. Williams' Pink Pillsno less than sixteen army men discharged on medical grounds among them—that the case of Aifred Shaw, above recorded, with the certificate in proof, may be considered typical. But more interesting to readers in the Southern Hemisphere will be found the following AUSTRALIAN CURE BY

SEVEN YEARS of ANÆMIA, SICK HEADACHES and INDIGESTION How a Young Lady Regained Health and Happiness,

HEARING that a young lady residing at Auburn, who had previously been suffering from anæmia, had tried a course of Dr. Williams' Pink Pills for Pale People, our reporter took his way to Mrs. Dick's well-known store in Parramatta Road, Auburn. Miss Victoria Dick made her appearance in a few moments and courteously received the visitor. In response to an enquiry Miss Dick said : "I certainly do owe much to Dr. Williams' Pink Pills for Pale People; I can speak with feeling, for I've suffered for nearly seven years. Anæmia was the principal complaint, but I often suffered tortures from indigestion, accompanied by sick headaches of the most violent description. I began to look upon myself as a regular invalid, and fancied there was no way of escape. Apart from the pains of indigestion I seemed to have absolutely no desire to eat, and everything seemed tasteless to me. My mother would often try and tempt me to eat by making dainty little dishes, but I simply couldn't bear the sight of food.

Q

I used to feel great listlessness. My work became a regular nightmare to me, as I could hardly drag myself about. I would long for night to come, and then long for day. I am now twenty-three years of age; I was about sixteen years old when my illness seemed to start, and it went on for close on seven years. For many nights I would hardly get any sleep, and then it would be of the most fitful description. The pains in my head would rack me dread. fully. I would at times be quite unable to stir, much less do any work. I had plenty of medical advice, for I tried four doctors, one after the other, but no real benefit ensued. I swallowed quarts of medicines and tried all sorts of remedies. My mother thinking per-haps a change would do me good, sent me to Mel-bourne for a holiday, but I returned home as bad as ever. However, about twelve months ago, I gave Dr. Williams' Pink Pills for Pale People a trial, for, as I said, they could do me no harm and perhaps might do me some good. I procured four boxes and determined to hope for the best." "And with what result ?"

MISS VICTORIA DICK,

"Well, you may hardly believe it; the very first box gave slight relief, though I was so dispirited that I scarcely gave it the credit it deserved. Presently I noticed my headaches became less and less painful, the color gradually came back to my face, and as I persevered with the pills, the painful symptoms slowly disappeared, my skin was firmer, I suddenly seemed to have an appetite—such as I had not possessed for years. Previously I might have been eating sawdust for all the taste I had, but this was soon altered; the dull, heavy feeling left, and I felt as if I could run a mile, or go up and downstairs all day. As you may imagine, I was formerly very much run down and most nervous and hysterical, but now I seemed to feel the life flowing through my veins; only those who have been ill can understand the relief I felt at the gradual cessation of all unfavourable symptoms. I continued taking the pills till I took eight boxes in all. I am coefident that Dr. Williams' Pink Pills are alone responsible for my cure. I am now in perfect health. I was recommended to try Dr. Williams' Pink Pills for Pale People by Miss Kennerdale in this district, and she told me they had completely cured her of a very similar ailment. I am thankful I listened to her kind advice

#### THE REMARKABLE CASE OF ALFRED SHAW.

A REPORTER of the South London Press recently paid a visit to 59 Paradise Street, Lambeth Walk, London, S.E., and sought out one of those interesting, not to say unfortunate, young men-Alfred Shaw by name-who, having chosen a military career, experienced the remorse of being compelled to abandon it from causes over which he had no control. Mr. Shaw stands fine feet nine inches in his boots, and is in appearance a fine specimen of the hardy, robust young Britisher. "You invalided from the Army!" exclaimed the interviewer, in astonishment.

"By your appearance, you seem as fit to take a hand in the Soudan or any other campaign as any man who donned a red coat."

'So I am-now," replied young Shaw, laconically. "But it's only during the past two months that I have become myself again."

And then he told the story of how Her Majesty lost a young and promising soldier. He said:--"On December 9, 1895, at the age of 18, I enlisted in the Norfolk Regiment, passed the medical examinations with flying colours, and was sent to the regimental depôt at Norwich. I was settling down quite comfortably when I was overtaken by illness, and on January 8, 1896-barely a month after joining-was sent into the regimental hospital. I had caught a chill a week before. All of us recruits had been sent out on a route march of some 15 or 16 miles, with full kit. I had sweated pretty freely, and after we got back to barracks I feit a bit stiffish, which gradually grew worse and worse. In the hospital they said it was rheumatism and heart disease. "I remained in hospital until April 3rd without improvement. I went home

until May 2nd, but was no better. Into the hospital I was sent again, and here I remained without mending until June 1st, when I was sent before the Medical Board at Colchester, and my discharge was decided upon. Here is the certificate of my

discharge—incurable 1" (A facsimile of the certificate is appended.) "Things began to look blacker still. I got worse instead of better after my discharge. My mother was worried a great deal over my health, but luckily in July she read something in the newspaper about Dr. Williams' Pink Pills for Pale People, and the result was that she bought a box. After taking that I felt ever so much better. In the course of the following month I took several more boxes, and, wonderful to say, I felt as strong and as robust as I ever did in my life."

"You say I look a fine, strong chap," Mr. Shaw remarked in conclusion. "So I am-now, but it is thanks to Dr. Williams' Pink Pills, and you are quite at liberty to print my experiences for the sake of others."

HINTS TO FRIENDLY READERS

You want to see the local paper a successful institution.

Telk about it wherever you go. Mention it to the tradespeople with whom you do business.

If they don't advertise in it, try and induce them to do so.

If you are induced to buy anything from what you have read in its advertis. ing columns mention the fact to the radesman.

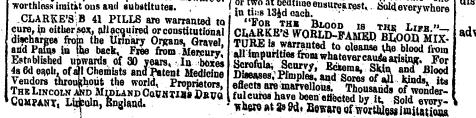

Don't lend your paper to any person who can afford to become a subscriber. but is too mean to support local enterprise.

Beware of worthless imitation An advertisement is a paper man's marketable commodity, and it is quite as much so as a side of bacon, a pound of butter, or a ton of flour. No man can afford to give away the things he sells for a livelihood, and the man wha does so in order to get business is generally in a bad way. Don't try to put the paper man "in a bad way." But exercise a little human nature. Support him ; he needs encouragement and support ; but do it in the legitimate way. If the printer gets a few pounds worth of printing orders from you, he is without informing the publishers, and not in a position to give you a pound's worth of advertising for nothing. A country paper kindly supplies this beautiful simile :-- "You might as well try to shumpoo an elephant with a thimbleful of soapsuds as attempt to do business and ignore advertising.'

A man may as well sit down in a meadow and expect a cow to come and be milked, as to sit down in his store and expect to get trade without adver-

tising. An occasional customer may stray in, inquire for something, and buy it, but most people go where they have been informed that the goods they want are to be found. Furthermore, a con-

siderable proportion of business is made by advertising. An advertisement often suggests to a reader his want of an article, and he goes and buys when he would not have realised his need if he had not been put in mind of it.

The greatest aid you can give your newspaper is your job printing ; if you do not feel able to run an advertisement surely you can afford to give the heads, letter-heads, envelopes, and all business printing to execute. The newspaper man needs it, and it helps him to pay his printers for setting up the thousand and one free notices he gives you and your town; but don't give it to the printer or job printing office that can give you no such return, nor brains in helping you to build up revenue derived from advertising and

subscriptions, but no ordinary newspaper in any ordinary town can exist without the auxiliary support derived from job printing. Therefore, if you want a good newspaper-one that can still further help you and your towngive it your job printing.

Business man (humbly)--- "They didn't seem to until I took it out." The mere fact of your advertising lets people know you are still in business ; also that your business is sufficiently important to stand advertising. If you are in busi ness you cannot afford to do without advertising, as it is too much of an admission to the world at large.-Extract from an interview with a man who

insufficient liver action is in these cases responsible for both. When the liver, through any delangement of the directive organism, ceases to act in a proper manner, a certain amount of bile fuds its way into

the blood, and at the same tirte the blood created from food consumed is of a decidedly poor quality. In this manner the blood becomes congested, the circulation sluggish, and a cold results. Theeir. culation of the blood now being much slower

than usual, the entire system is affected, The nervous organism becomes dustrung, the appetite poor, and the rest distarbed. The body is extremely susceptible to chills, and the slightest draught causes a vicion attack of coughing or sneezing. Many socalled cures for inflaenza fail to get at the root of the trouble, and only afford temporary relief. A medicine that will keep the liver in thorough and regular working order, and the digestion richt, will, without doubt, prove the most effective prevontative and cure for in. fluenza and colds, and is also a remedy for

biliousness, indigestion, costiveness, insomnia, debility, piles, female com-plaints, headache, and all kindred ailments. Keep a box of Bile Beaus handy, and you need have no fears of fees of this character.

QUICK RECOVERY OF MR. CHARLES TATE. "I was suffering fearfully from Influenza and its after-effects," said Mr. Tate of Ithica Cottage, Illawarra Road, Marrickville, Sydney, to a reporter recently. "A friend recommended me to take Dr. Williams' Pink Pills for Pale People. I did so, and am now completely cured. After thirty years immunity from trouble, influenza had gripped me, and it gripped me pretty tight. Without warning, I suddenly became ill. I always had a first-class appetite; it left me altogether. Positively I could eat nothing at all. Heavy headaches attacked me, and they continued to increase in violence; a spasm shot across my chest and an overpowering weight oppressed me there; I felt a sickening contraction of the skin and an ominous gathering of phlegmatic matter that choked free respiration; my whole chest, once firm and sound, became sore, tender, and irritable; I found myself unable to sleep, whilst on top of all these strange and unaccountable sensations came a sharp and persistent cough that sucked up all my strength and stirred the phlegm, but failed to move it. Dull, heavy, listless, faint, and aching, I went to work, and got through somehow. A friend recommended to me Dr, Williams' Pink Pills, and I took them. After a few boxes had been taken I was, honestly, completely cured. I kept on taking them a little longer, just to make doubly sure, but there was no necessity. I was abso-"Weak, Nerveless lutely cured, felt tip-top, and had bade and Depressed." farewell to influenza and its ills." "Yes." he said deliberatingly, "the marvel had been quicker than ever I had anticipated. Influenza, headaches, sleeplessness, want of appetite, listlessness, racking cough, chest pains, weakness, and phlegm all disappeared as if under a magician's wand. I was as right, as fresh, as healthy, and as high spirited as I ever was in my life." "Of course," he added, conscientiously, as the reporter prepared to depart, "it's only a fair thing that I should tell you this after the benefits I have received. My case may not have been as severe as some, but it certainly gave myself and family the greatest anxiety, as my cure gave them the greatest surprise and pleasure. I give you these particulars exactly as they occurred, without exaggeration and with truth in every detail. Nor do I wish them exaggerated. Indeed, there is no necessity; the cure was a good one, and speaks for itself. More or better I cannot say." DR. WILLIAMS' PINK PILLS for PALE PEOPLE are sold by Chemists and Storekeepers, and by the Dr. Williams' Medicine Co., care of Rocke, Tompsitt & Co., Flinders Street, Melbourne; price, 15'3 for 6 boxes, or 2/9 for one box (post free). BALLARAT LIVE STOCK MARKET. Tuesday.

Fat Cattle-289 head (including a further consignment from South Australia) came to hand for to-day's sale, a fair proportion being prime, balance consisting principally of useful to good quality. There was the usual attendance of the trade, competition opening fairly brisk at prices hardly equal to last week, and with slight variation con-tinued throughout, and although there MR HARRIS desires to imm was alightly weaker tendency noticeable. very little alteration in prices can be quoted. Quotations :- Prime pens bullocks, L13 to L13 10s; good, L11 to L13; medium, L9 to L10; prime pen cows, L8 to L9 2s 6d; good, L6 to L7. Averages-Muntham, 20 bullocks, L11 19s 10d; the Hon. W. Calves-Only 10 penned; best to 46s. Sheep-4155 was the number yarded for to-day's sale, a larger propertion than of late consisting of useful to good and prime descriptions. The attendance of buyers was fully up to the average, still the opening sales lacked the spirit of the previous week and although sales fluctuated somewhat prices altogether show a slight decline or former rates, more particularly noticeable in crossbreds and comebacks, whilst merinoes varied very little. Quotations --Prime crossbred wethers, 16s 6d to 17 6d; extra, 19s to 20s; good, 14s 6d to 15s 6d: medium, 13s to 14s; prime crossbred ewes, 16s to 17s; extra, to 18s; good, 13s 6d to 14s 6d; prime merino wethers, 13s 6d to 14s 1d; good, 12s to 13s; merino ewes to 9s. Lambs-576 of this season's drop to hand, and as the supply was under requirements, consequently the demand was very active at prices showing a marked advance on last week's prices. Prime, 10s to 10s 6d ; extra, 11s to 12s; good, 9s to 9s 6d; medium, 8s to 8s 6d.

## A Stroke of Good Fortune.

Miss Belle Collins is a happy young lady. A stroke of good fortune has come in her way. How it came she recently explained o a reporter who interviewed her at her esidence, Freeman Street. North Fitzroy. "Four years ago," said Miss Colling, "I fell a victim to that dangerous malady, in-fluenza. Up to that time I had been exceptionally strong, but the after-effects of he malady reduced me to a very wretched condition. 	An Objection Answered.

As these disorders are of different kinds, the question may reasonably be asked, "How is it possible for one medicine to cure so many varying complaints?" The answer lies in the fact that DR. WILLIAMS' PINK PILLS combine two very important properties. They are a safe and extremely effective tonic, especially to the nerves and the spine, suited not only for men, but also and especially for women suffering from the ailments of their sex; and they have the power of enriching and building up the blood. Consequently, when they cure, they cure in quite a different way to ordinary medicine. Ordinary medicine combats the signs and symptoms of disease, whereas DR. WILLIAMS' PINE PILLS attack the foundations of disease, and eradicate them from the system, not, however, by the weakening process of purging or moving the bowels (as all other so-called blood purifiers do), but by giving direct strength and nourishment to the blood and nerves. Thus it is that they are able to cure so many different disorders.

BUT IT IS IMPORTANT TO GET THE RIGHT PILLS.
