Very many of our readers (says the "Star") will learn with regret of the death of Mr. Robert Chiracide, of Carran-ballas Station, Skipton, who took place on Thursday evening at Bendigo.

An accident happened on Wednesday at Waterloo to Mrs. T. Newey and Mrs. T. Abrey. Mr. Newey was driving a gig out of his yard, when in turning a corner Mrs. Abrey, who had a baby, was partly thrown out.

A terrible drowning fatality at Waterloo was narrowly averted on Tuesday evening. Mr. William Trainor deserves the highest praise for the pluck, coolness, and presence of mind which enabled him to save three lives under difficult circumstances.

The ordinary fortnightly meeting of the Waterloo Branch of the Riponshire Council was held at the Waterloo Hotel, Beaufort, on Tuesday evening, Mr. Sinclair (President) in the chair, and five members present.

Important Announcement. Mr. J. W. Harris, junr., PHARMACEUTICAL CHEMIST AND REGISTERED DENTAL SURGEON.

Private Harry A. Wilson, of Beaufort, has been elected to represent the district in the Victorian contingent to South Africa, Sir Sinclair, the President of Riponshire, arranged for a public "send-off" on Wednesday afternoon.

Snake Valley. (FROM OUR CORRESPONDENT.) The annual meeting of the Carngam Widows' and Orphans' Fund sports was held in the Carngam Recreation Reserve on New Year's Day, and proved one of the most successful gatherings ever held on the course.

The Bishop of Ballarat, Dr. Thornton, has definitely decided to resign the charge of the Ballarat diocese, and has forwarded to the Archbishop of Canterbury and Sydney, and to the board of electors to the see, a formal intimation of his desire to be relieved of his trust.

The annual financial meeting of the Riponshire Council was held at the Mechanics' Institute on Thursday evening; Bro. J. K. Nicoll, G.M., presiding. The annual and half-yearly balance-accounts were received and adopted, as also the auditors' report.

District cyclists met with some success at Ararat on New Year's Day. J. McDonald, of Middle Creek, won the 100yds. mark, won the District Bicycle Race (£3 10s) by a foot in 2min. 23secs.

A man named William Baxter was charged before Mr. R. A. D. Sinclair, J.P., on New Year's Day with the larceny of a pair of boots from C. Broadbent, and was remanded till Monday.

Some excitement was caused in Beaufort on Tuesday by a rumour that a murder had been committed at Waterloo, and relief was experienced when it was discovered that in this instance Dame Rumour had proved herself a lying jade.

[By "TOMAHAWK."] "The pen is mightier than old cheese." Her Majesty's Jail, Cell No. 27, Jan. 3rd, 1900.

Dear Mr. Editor—You will observe by the above address I am at present an honored guest of Her Majesty. I carried out my intention of trying the experiment of just getting a tiny weeny, bit tight, but unfortunately, after putting in a foundation at the Beaufort races, I took the six o'clock train to Ballarat to see the sights.

Chronic Diarrhoea Cured. Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Rush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been suffering from a constant and severe diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel."

DISCHARGED FROM THE ARMY INCURABLE. CURED BY Dr. Williams' Pink Pills for Pale People.

THE REMARKABLE CASE OF ALFRED SHAW. A reporter of the South London Press recently paid a visit to 69 Paradise Street, Lambeth Walk, London, S.E., and sought out one of those interesting, not to say unfortunate, young men—Alfred Shaw by name—who, having chosen a military career, experienced the remorse of being compelled to abandon it from causes over which he had no control.

BUTCHERING ON THE FARM.

Cheap and Useful. Convenience—Weight of Hogs for Family Consumption. On many farms a few hogs are killed and dressed for family consumption each winter. Where this is an annual occurrence the necessary conveniences ought to be provided before hand, and after use stored away for the next season.

SOUTHERN PORK INDUSTRY.

Intelligent Farmers Find Profit in Producing Pork and the Kindest Products. There is no section of this broad country today that has finer opportunities for raising hogs more profitably and satisfactorily than central Georgia, and what is true of this section may be considered true of the whole south, for every section of it has pretty much the same climate conditions, and all have the capacity of growing Bermuda grass, but clover and sorghum, not to mention a half a dozen or a dozen other available plants that are either native or appropriate to the climate.

ANOTHER NEWTOWN CURE. No Catch-penny QUACK MEDICINES Can Produce One Hundredth of the Cures CLEMENTS TONIC CAN. New Cases Every Day.

The Case Of Mrs. Z. DEAN. (From the "Newtown Independent.") Mrs. Dean, of Gwiltown, Newtown, Sydney, now wears an exceptional appearance of robust health, and our reporter was particularly impressed by her vivacity and brightness of manner.

HINTS TO FRIENDLY READERS.

You want to see the local paper a successful institution. Talk about it wherever you go. Mention it to the tradespeople, with whom you do business. If they don't advertise in it, try and induce them to do so.

benefit ensued. I swallowed quarts of medicine and tried all sorts of remedies. My mother thinking perhaps a change would do me good, sent me to Melbourne for a holiday, but I returned home as bad as ever. However, about twelve months ago, I gave Dr. Williams' Pink Pills for Pale People a trial, for, as I said, they could do me no harm and perhaps might do me some good.

Receipts have proved that an excellent quality of broom corn can be grown in South Carolina, Georgia and Florida. The Louisiana sugar crop is this year the largest ever known. It is estimated at 600,000,000 pounds, very nearly 10 pounds a head for our population.

There are in Florida hundreds of thousands of bearing oyster trees, and in California there are more than 200,000 olive trees, producing fruit equal to the best Mediterranean varieties. Maryland oyster fisheries give employment to one-fifth of all the fishermen in the country. But there is a gradual decline in the catch of oysters, so that the number of oyster men is likely to decrease.

1. Subscribers who do not give express notice to the contrary, in writing, are considered as wishing to continue their subscriptions. 2. If subscribers order the discontinuance of their newspapers, the publisher may continue to send them, until arrears are paid.

The greatest aid you can give your newspaper is your job printing; if you do not feel able to run an advertisement, surely you can afford to give the newspaper your cards, dodgers, bill-headers, letter-headers, envelopes, and all business printing to execute. The newspaper man needs it, and it helps him to pay his printers for setting up the thousand and one free notices he gives you and your town; but don't give it to the printer on job printing office that can give you no such return, and is spending neither time, money, nor brains in helping you to build up your town. The time may come when a newspaper can live simply upon the revenue derived from advertising and subscriptions, but no ordinary newspaper in any ordinary town can exist without the auxiliary support derived from job printing. Therefore, if you want a good newspaper—one that can still further help you and your town—give it your job printing.

ABSOLUTELY NO CHARGE. For advertisement in this paper, no charge is made. The only charge is for the printing of the advertisement. The paper is published for the Proprietor, JAMES HARRIS, at the office of the Riponshire Advocate, when written.

WOOL RATES. The Railway Commissioner has fixed the following charges for the conveyance of wool per ton: To Melbourne. To Geelong. To Adelaide.

COMPLETED BY HEALING.—"In the year 1888, when residing at Tunbridge Wells, Kent, I caught cold, which led to inflammation of the bowels. I was attended by local doctors, and received some relief, but the following year I returned to fistula, from which I suffered for eight years; and it was constantly discharging. I was put under chloroform by two doctors, but a view of an operation, but they found that the fistula was too far inside, and an operation would have been too dangerous. In 1890 a second abscess formed, and in 1894 a third. These were all discharging at the same time. The end of 1893 I was again examined by two doctors to see if an operation was possible; it was found that an operation was out of the question, as they stated the inside was filled with abscesses. During the whole of this time I was receiving medical attendance, one year being treated by a local doctor in the town, and having a doctor for four months from a London doctor. During the greater part of this time I was confined in bed, having to be carried up and down stairs, and the doctors gave up all hope of my recovery. In June, 1895, I was advised by friends to try 'Clarke's Blood-Mixture.' After taking one large bottle I found one large abscess gradually drying up. I therefore continued taking the mixture, and also Clarke's Aperient Pills, and in time all three abscesses were completely healed, and I was able to walk as well as ever, and could eat and drink any ordinary food. I am pleased to say it was Clarke's Blood Mixture that effected the cure, having received no benefit from doctors. I should have written before, but wished to see if the cure was lasting. Post Office, Cottswold, Assiniboin, N.W.T., Oct. 17th, 1898.

"P.S.—I may say that I can give you doctors' names and names of friends to prove the truth of what I state. I purchased the mixture at the Sussex Drug Stores, Tunbridge Wells, my name and address then being Miss E. Horner, 3, Warwick Cottages, Frank Road, Tunbridge Wells."

SAVED MY LIFE.—"It is with earnest thanks to the inventor of this medicine that I write these few lines to let you know that I am at last completely cured of the dreadful disease called eczema which rendered me almost unrecognizable. I commenced taking Clarke's Blood Mixture on June 8th, and since then I have had 17 bottles, 2s. 9d. size, three pots of ointment, also three bottles of Clarke's Skin Lotion, which I found was of untold value in allaying the irritation. I was in such a filthy state that the skin in my bed had to be changed every day, also my own linen, on account of the fearful discharge from the sores, my hands were very bad, the beds of them being so dreadfully encrusted with yellow scab that I would think they were covered with rock brimstone. I never expected they would reach their present stage, but now I am able to do light house-odd duties, and I feel I am getting stronger every day; in fact, my husband, my children, and myself truly believe Clarke's Blood Mixture saved my life. I have much to be thankful for, and if you like to make use of my letter you are welcome to do so, as I am fully convinced I should never have been here if it had not been for Clarke's Blood Mixture. 2, Kynaston Road, Stoke Newington, London, N., Oct. 22, 1898."

Mr. E. Taylor writes:—"I send you this testimonial, for I have derived a great benefit by taking Clarke's Blood Mixture, after two years of great suffering with a very bad leg. I have been in a Birmingham hospital 15 months, and six months out-patient at another hospital at Birmingham. I was turned out incurable, as I would not consent to have my leg taken off. I was told to try Clarke's Blood Mixture by a friend of mine, so I sent for a large bottle, and by the time I had taken it I was able to go about on my crutches. I had my leg very quiet, and by the time I had finished another bottle, and by the time I had finished my leg was quite well, and I am able to go to my work."

"I am a Birmingham man, but am working at present in Halifax, and I am willing to answer any questions that anyone may wish to ask, for I cannot speak too highly of it. I recommend it to all. You may make use of this if you like. 2, Hansen Square, Fleet Street, Halifax, Yorks, October 29, 1897."

THOUSANDS OF TESTIMONIALS OF WONDERFUL CURES FROM ALL PARTS OF THE WORLD.

Clarke's Blood Mixture is sold in Bottles 2s. 9d. each, and in cases containing six times the quantity, 11s.—sufficient to effect a permanent cure in the most obstinate and long-standing cases.

—BY ALL CHEMISTS AND PATENT MEDICINE VENDORS throughout the world. PROPRIETORS: THE LINCOLN AND MIDLANDS CONTINENTAL DRUG COMPANY, Lincoln, England. Trade Mark: "BLOOD MIXTURE."

Clarke's Blood Mixture. CAUTION.—Purchasers of Clarke's Blood Mixture should see that they get the genuine article. Wholesale and Retail Dealers are sometimes misled by unprincipled vendors. The words "Lincoln and Midland Counties Drug Company, Lincoln, England," are engraved on the Government Stamp, and "Clarke's World-famed Blood Mixture" blown in the bottle. WITHOUT WHICH NONE ARE GENUINE.

RE-MINING LEASES.—It is notified to general information that applicants for Mining Leases are required, within seven days previous to lodging the application, to insert in a newspaper published in the district where the land is situated, or if no such newspaper, then in one published nearest the district, an advertisement or notice in the form marked "A" in the schedule relating to Mining Leases.

A man may as well sit down in a meadow and expect a cow to come and be milked, as to get down in his store and expect to get trade without advertising. An occasional customer may stray in, inquire for something, and buy it, but most people go where they have been informed that the goods they want are to be found. Furthermore, a considerable proportion of business is made by advertising. An advertisement often suggests to a reader the want of an article, and he goes and buys when he would not have realized his need if he had not been put in mind of it.

SUPPORT LOCAL INDUSTRY.

Correspondent and Valuer for the Railway Bank of Victoria, Limited.

Trust and other Monies to Lend at Current Rates. NOTICE.

We have resolved to reduce to a minimum the price of "The Riponshire Advocate" (with which is published a 14-column supplement containing well-selected reading matter) to 3s. per quarter, and trust that this concession will be largely taken advantage of.

The Advertising Rates have also been considerably reduced, and advertisers will find it to their benefit to avail themselves of the columns of "The Riponshire Advocate," which is the only newspaper that is printed and published within the boundaries of the Shire. As the advocate of the interests and for the welfare of this district, it has a claim for a considerable amount of support, and a greater scope for extended usefulness than any other journal or journal within a given radius of Beaufort.

Job Printing plain and ornamental, of every description, is executed with neatness, accuracy and despatch, and on the most respectable terms.

We take this opportunity of thanking our patrons for past favours, and while respectfully soliciting a renewal of support, desire to state that increased attention will be given to all matters of local and general interest. As a record of news we will always endeavour to make our columns as full and interesting as possible. In all departments, we will aim at improvement, and, therefore, confidently appeal to the public for increased support.

To our Readers and Patrons.

THE PROSPERITY OF A DISTRICT depends chiefly upon the support and encouragement given by the population to local enterprise and industry. Every venture is to a more or less extent speculative, but each, whilst aiming at the success of the promoter, must offer certain returns to the whose support is necessary to achieve certain advantageous results on both sides.

Therefore, Support Local Industry and Local Enterprise.

The law of exchange was never satisfactory in its working; thus it was that the custom of buying and selling, using a standard currency was introduced. One form of that currency known as "paper money," and of paper money there is more than one kind. All kinds are useful, but not every kind retains its original value. The "paper" money most valuable a newspaper proprietor is that which is sent him by "Subscribers and Advertisers."

And he will do his utmost to enable him to a good share of it.

"The Riponshire Advocate" is the Advertising Medium for all Contractors, and notifications of the Shire of Ripon and is the ONLY NEWSPAPER That is Printed and Published within the boundaries of the Shire.

THE war drags on its weary length in South Africa with its ever recurring and sickening records of bloodshed, blooded murder and fleshery unexampled in the annals of civilized warfare.

The Bassett and Waterloo Cricket Club were in friendly rivalry in the Beaufort Park today (Saturday). The match will commence at 3 o'clock sharp. The local team will be chosen on the ground.

On Sunday evening last the Rev. Mr. Cairns, of Ballarat, delivered the pulpit of the Beaufort Presbyterian Church vacant. The attendance was very large. Mr. Cairns preached an excellent sermon from the text, "Unto you therefore which believe He is precious."—Peter, 2 and 7.

CHIPS. [By "TOMAHAWK."] "The boy mightier than oldness." In the early part of the week I met a friend and remarked "By jove, it's hot." He looked at me with a pitying smile and said, "Yes, it will be hot when the summer sets in." Now I ask you that that is a sane remark to make with the thermometer at 102 in the shade and your interior about 602 in the shade. I felt his remark so keenly that I straightway went and lubricated and didn't even ask him to join me. A man that talks about summer as something to come, when it is already here, is not a fit companion for any man.

In keeping with the hot weather, things are very sultry over in South Africa, but the way Britain is pouring troops in from all parts of her dominions is making other nations feel very warm. Their thermometers of common sense are rapidly rising, and they are beginning to be impressed with the fact that the British nation is not a party to interfere with. It has had no other effect than that of being an object lesson to the world as to the powers of Britain to mobilize, it will do some good. Our own second contingent was sent off amid a great furor of enthusiasm, and from reports to hand already our first contingent are as good as the best of them, and no doubt the second will give a good account of themselves if the opportunity occurs. It is already beginning to strain the finances of the colony, and now it behoves our wealthy citizens to stir themselves and assist in a practical manner. In this respect I commend the example of Admiral Bridges, R.N., who has so generously shown what practical patriotism is by subscribing the handsome sum of £1000 to the fund. It is deeds like this that go a long way towards helping to win the Empire, and if of our prominent citizens will only follow suit, the mother country will point with pride to her daughter Victoria as one who expressed her sympathy in the right manner, both as regards men and money. We all feel proud of our gallant Admirals and may he never regret his action.

If that dog inspector motion gets passed, I am going to have a shot for it. £100 a year and he 3d on every dog will pay out a jolly good sum. I have been working it out and find that it will take \$40 dogs to pay the council back their £100 a year and another 200 to pay for the cost of registration books, notices, stationery, and keeping the account—nearly 750 dogs to make it a paying concern for the council. It strikes me that billet will be rushed, as the dog inspector man will be a biased oligarch, with say 25 a week, that is providing there are 750 dogs (he shire); and about this number I have my doubts. I know where there's one, but as for the other 749 they will have to be found. The idea is a good one, if it is going to be a paying concern, and it certainly commends itself to everyone, but if the council is to lose money on the transaction, it will benefit nobody except the fortunate dog inspector, especially if he is a cyclist, or hasn't to keep a horse.

I notice the new Minister of Mines, Mr. Outtrim, appears to be the right man in the right place; and has already made his presence felt in this fossilated department. Now is the time for our Beaufort folks to articulate for a diamond drill to locate the neighbourhood for reefs. I quite believe if a strong case were made out the Minister would lend a willing ear and do his best to assist in the matter. However, I give the suggestion for what it is worth, and let the right people work it out.

Tenders are to be called for keeping the Shire garden in order, and I think this is a step in the right direction. If a good man gets the job we can look forward to seeing something toffy in the way of gardens. The soil is good enough to grow anything, and if it is nicely laid out and a choice collection of hardy flowers planted, it will not only be pleasing to look at, but with the necessary order from councillors, flowers could be had for decorating purposes, as is done in other places where there is a public garden. Of course to get the best results a good practical man who knows his business must be employed, and it is to be hoped such a man will get the job.

A gentleman friend of mine, who had looked too long and too fondly on the wife that is red, was driving a hired buggy and pulled up at a friendly pub. When he came out he saw two traps, his own and a Chinaman's vegetable cart. He mounted the latter, fully impressed that it was his own; picked up the reins, and started to drive off. The Chinaman appeared on the scene; then the circus began. "What for you steal my vegetable? you no good." The man looked at John and said, "You heathen Chinse, let go of my horse's head, or I'll drive you." "No horse," said John; "you two mules foolse; you all same long time plenty lie; you get my cart." The man got down to inflict punishment on John, but as he got down on one side John got up on the other and drove off. One or two friends, who had been amused onlookers of the scene, went to the rescue and straightened matters out, but not without a deal of perspiration, the bibulous one fully believing the Chinaman had got away with his buggy.

The returning officer for the Ararat and Stawell Mining District, having received fresh instructions as regards the Ararat and Stawell Mining District elections, is also supplied with printed copies of nomination papers for candidates, which can be obtained on application.

A representative gathering of residents of Beaufort and district assembled at the Shire Hall last night and extended a hearty welcome to Admiral Bridges, R.N., on his return to Australia after a trip to England in the ship "Admiral". Some 20 gentlemen attended the function. The chair was occupied by Mr. Sinclair, President of the Riponshire, and the vice-chair by Mr. E. H. Anson, M.L.A., and the health of Admiral Bridges was most enthusiastically drunk. Lady Bridges, who accompanied the Admiral's generous gift of £1000 towards the cost of sending a bushman's corps from Victoria to South Africa, and throughout the proceedings the utmost loyalty was evinced towards the mother country. The singing by Mr. J. E. Wetherburn of "The Advance" and "The Advance" resulted in a collection of £2. 6s. 6d. "Admiral" for the "Tummy Atkins" Fund. As a mark of appreciation of Admiral Bridges' generous gift of £1000 towards sending a Bushman's Corps to South Africa, a sum of £12 2s 6d was also promised in the room of a meeting was arranged for Wednesday night in the Shire Hall to form a committee to arrange for a concert in aid of that fund. A number of toasts were cordially honored, and patriotic songs sung. Light refreshments were provided, and altogether a very convivial time was spent. Owing to the late hour which the evening dispensed, we are compelled to withhold a more extended notice till our next issue.

A quiet though very pretty wedding was solemnized at Raglan on the 10th inst. The contracting parties being Mr. James Thomas Stevenson (the second son of Mr. Thomas Stevenson, of Beaufort) and Miss Mary Lillian Panther (the third daughter of Mr. Benjamin Panther, of Raglan). The ceremony was performed by the Rev. H. Robinson at the residence of the bride's father in the presence of the personal relatives of the bride and bridegroom. The bride wore a handsome dress of white silk, trimmed with white and Maltese lace. She wore the usual bridal veil and carried a beautiful bouquet. The bride was given away by her father, Mr. Brown, formerly the school teacher at Raglan, acted as best man. The bride was attended by Miss Lena Panther. The wedding breakfast was laid out in a barn, which was prettily decorated for the occasion, and a sumptuous repast was partaken of by about 40 guests. The health of the Bride and Bridegroom and of the Bride's maid were proposed by the Rev. H. Robinson and Mr. Brown respectively, and were most enthusiastically drunk. The happy young couple spent their honeymoon at Waterloo. They were the recipients of a large number of presents. A committee meeting of the Beaufort Rifle Club was held on Friday evening, 12th inst. Mr. Sands (vice-president) in the chair. Captain Brooks reported the result of the opening match, as already published. Received by Mr. W. Tilley were complaints of a certain member of the club, and authority by removing bulletins and preventing him from practicing. The committee considered that what the secretary had done was done only in the interests of the club. The secretary was instructed to inform Mr. Tilley that when practicing he is to engage the recognized marksman of the club, and in the event of the marker being unable to mark, another member has no shooting to be done, and no shooting is to take place unless this is carried out. It was decided to purchase Talloch's flag-pole for 10s. Accounts amounting to £2 15s were passed for payment. Two fortnightly notices were arranged for "Tomahawk's" trophy, the first on 17th at 300 and 500 yards, and the second on 31st inst. at 200 and 400 yards to be won by aggregate points. J. Parker was elected as an active member of the club. A member offered to buy one of the old targets and bulletins, but the matter was allowed to stand over till the half-yearly meeting next month.

Local and General News. Advertisers and correspondents are respectfully requested to forward any matter required to be inserted in our next issue as early as possible on Thursday, as it is in order to take advantage of the public holiday on Friday. We intend going to press on Thursday night, instead of Friday night as usual.

It is intended to grant a gold mining lease to E. Milligan for 121 ac. near Waterloo. Mr. W. H. Halpin, ex-president of the Middle Creek Branch A.N.A., desires to acknowledge with thanks donations from the following towards the purchase of a new printing press, which was received since programmes were printed, hence not being acknowledged therein:—Messrs A. M. Greenfield & Co., Franks (per Mr. W. G. Pickford), J. McCahey, D. McDonald, H. Dunn, E. H. Welch, J. Cowan, and A. Campbell. Mr. John McKee has been appointed agent for the New Zealand Insurance Company for the Beaufort district. Insurances effected on all kinds of risks, including hay stacks.
