ADVERTISING.

Mr. Business Man!

Keep your new bargains continually before the public through the medium of an advertisement in the "Riponshire Advocate." Bear in mind that advertising always pays, and an "ad" in the local paper, which circulates extensively throughout the district, cannot feil to draw business. It is worth your while to consider a little as to what really is the best means for reaching the people you want to convert into customers. Some business men are rather inclined to be conservative, and follow the course this year that they did years ago. Because they have never tried an advertisement in the "Advocate," they are not inclined to consider this means of reaching the people a safe proposition. The "Advocate" is read by all the family, and lent to friends; and an advertisement still continues to attract attention long after the date of the publication
