Bernard O'Dowd, poet and Parliamentary draftsman, is one of the most interesting personalities Australia has produced. Born in April, 1866, at Beaufort, wherethis father was a policeman, young O'Dowd received his education in a local private school, whence he passed on to State schools at Carngham, Soldiers' Hill, Baliarat, was a good attendance, and the func-REMEDIES

find something that would last for ever.

He began by making a fortune. "If I build a big bank balance," he argued. "I shall be quite secure."

But it did not work out that way.

I build a big bank balance," he argued. "I shall be quite secure."

But it did not work out that way.

I the probable if you are on aver.

I build a big bank balance," he argued. "I shall be quite secure." But it did not work out that way. After making a thousand pounds, he lost it. Then he made another thousand pounds, and his bank falled. Nothing daunted, he made another thousand pounds, and this time de had better luck. It rose to half a million.

But, unfortunately, the more he made the more he needed. His habits once simple, grew expensive. He smashed the motor-car, and a yacht. He smashed the motor-car, and the yacht was lost in a storm. And, at last, he had no money left.

Then he started to think again. He realled his rich friends. Many of them, too, had lost all their money. Others had died rich, but, after all, they had simply left all their money belind them for someone else to use and lose.

Gradually it dawned upon him that money had no endurance. He must try something else.

I built did not work out that way.

After making a thousand pounds, and this time freeze the lost. The your at make another thousand pounds, and this time seed planch, and a such will be sold at fancy prices. The old fellow who guides the dest fines of this particular factory for take, on an average, 5ibs. of food and drink daily. In a year you will have got through almost a ton!

Day by day, to assimilate this enory must poilt an elevent produces his pieces, faithful in every mate craftsman of his kind. He repolishes very old oak by means of pulmice powder. He obtains the fell of use and antiquity in such for pulmice powder. He obtains the fell of use and antiquity in such for them, too, had lost all their money belind them for someone else to use and lose.

Gradually it dawned upon him that money had no endurance. He must try something else.

LIGHT-WEIGHT TACKLE.

The he started to think again. He real stuff. The he started to think again the real stuff. The content of the planch of the planch of the left time. She (he was in the town to-day, but could at fancy prices. The old fellow who guides the desting try in the started of this particular factory for take,

CAUGHT

ROMANCE AND CRIME.

BY HAROLD CHILD. ----Author of "Beautiful Rohilla," "Driven by Fate," &c., &c.

by now, and I'm wet to the skin. With trembling hands Jack struck drawers.

was well trodden, and there was little danger of missing the way. They scampered across the park, passed the lodge with a whoop and a "Tally-ho!" and went a hundred yards down the road before the indignant gate-keeper had time to get up from his tea and go to the door to reprove them.

The jaw-bone with blood—blood that had frozen and congealed; and in the danger of missing the way. They shad frozen and congealed; and in the dingy mantelpiece, not a picture on the walls; the paper was stained with damp and in some places actually peeling off. The ceiling was one of the greatest blessings of modern congealed; and in the dingy mantelpiece, not a picture on the walls; the paper was stained with damp and in some places actually peeling off. The ceiling was cracked and dirty, and the furniture that the hattered and their knees shook in the corner.

There was not a single ornament on the dingy mantelpiece, not a picture on the walls; the paper was stained with damp and in some places actually peeling off. The ceiling was cracked and dirty, and the furniture as mean as the room.

"Why do you turn out of the road of the more delicate that frozen, but the more delicate that frozen, but the more delicate that frozen, but the more delicate that frozen and congealed; and in the dingy mantelpiece, not a picture on the walls; the paper was stained with damp and in some places actually peeling off. The ceiling was cracked and dirty, and the furniture as mean as the room.

Not far from the park gates they beneath them with fright. ty as to who she might be. But the girl made no answer. She seemed, indeed, to be anxious to avoid attracting any attention; for she kept close to the edge, regardless of the than in the middle of the road. There was nothing distinctive in her appearance. She was tall, that was all they could tell; for it was too dark to see her face or even the colour of her hair, and her dark and simple clothes appeared to be much what any girl would naturally wear in like circumstances. The royster-

what any girl would naturally wear in like circumstances. The roystering youths passed on without giving her a second thought, and very shortly a bend in the road had hidden from their sight.

Meanwhile the girl had walked den her from their sight.

With many joking references to the inevitable condition of their burden, and his still complete unconscious
high, and then, taking one of the strips she cast it on the coals, and rammed it down with the poker. It was sopping wet. The fire spluttered and hissed in protest, and it seemed as if the damp cloth would never be quickly on, keeping as close as possible to the hedge, though there was sible to the hedge, though there was and his still condition of their burden, and his still complete unconscious-

inevitable condition of their burden, and his still complete unconsciousness, and speculations as to what was the best to be done with him when they reached the town, they scampered on, meeting not another soul on their way; until, when they saw coming towards the town they saw coming towards them a man, whose halting and difficult pace showed him to be at least middle age. To the ordinary observer of the group of youths. That was

when you get him into the town?" | dow was as black as the night with No one had been able to decide out. youths stared blankly at each other, steps grew slower and slower. She mable to answer it.

"Well, look here!" said the tramp.
"You take the advice of John Crosbie, who knows a thing or two and something like a stab of railed and the state of the stab of railed and the stab that important question, and the On her approaching this house bie, who knows a thing or two, and something like a sigh of relief escapdon't you take him to the House, ed her lips when she saw that all was

whatever you do! The master's the higgest, ugliest, meanest son of a quickly, she left the road and turned higgest, ugliest, meanest son of a biggest, ugliest, meanest son of a think is ever see. That he is! I tell you what, young gentlemen, you take him to the Station. The police'll treat him kinder than what they would at the House, and very likely let him go in the morning without asking any awkward questions. You take him to the station, that's my advice. I'd rather be in gaol than in the House, any night; that I would!

She came to a little door. Then, taking a key from her pocket, she unlocked it, closed it noiselessly behind her and hurried across a strip of garden to a French window that opened a foot above the ground. She held her breath in anxiety as she the House, any night; that I would!

Good-night, gentlemen, and thank ye all!"

Approvisions are sent from the ends of the earth in the refrigerator chambers of great cargo steamers.

On the other hand, there are but few who have any idea what a tick-lik housiness it is, and how very likely of garden to a French window that opened a foot above the ground. She held her breath in anxiety as she tried it. It was unfastened. She pushed it open, slipped into the dark room and closed the window behind her.

Take butter, for example. At one time a temperature of 32 degrees—that is just freezing point—was conher.

Take butter, for example. At one time a temperature of 32 degrees—that is just freezing point—was conher.

PART 2.
But not a single match could be found among the whole party.
"Who is it?" said one.
"Tain't any one as I recognise."
"What's wrong with him?"
"He's ill!"
"They were just stooping to lift it once more, when Jack, the ringleader harsh laugh. "I wish I had half his ocomplaint!"
"What do you mean?"
"Why, the fellow's drunk! Been try-"
"Why, the fellow's drunk! Been try-"
"Why, the fellow's drunk! Been try-"
"The rouse, any ungut; that I would I window behind her.
Good-night, gentlemen, and thank ye all!"
Toom and closed the window behind her.
For a long moment she stood sidered exactly right for butter.
For a long moment she stood a little bureau or couching behind the curtains, listen-tone the fireplace or crocking behind the curtains, listen-tone or less with his kidneys to some day the house. On tiptoe she crept across this temperature; then one day the house. On tiptoe she crept across this temperature; then one day the house. On tiptoe she crept across this temperature; then one day the house. On tiptoe she crept across this temperature; then one day the house. On tiptoe she crept across this temperature; then one day the house. On tiptoe she crept across this temperature; then one day the house. On tiptoe she crept across this temperature; then one day the house. On tiptoe she crept across this temperature; then one day the house. On tiptoe she crept across this temperature, and down went the temperature, 20 degrees lower than usual, with the once was fooded in a refrigerating chamber at this temperature; then one day the house. On tiptoe she crept across this tip the room and closed the window behind the curtains, listentrumed to the silent and motionless figure that was lying in the sound in the bounds and down went the temperature, 20 degrees lower than usual, with the once was frozen solid as a rock.

"Hullo! My pipe's gone out. Groping for it, she opened a drawer and slipped into the key with which she had it, she opened a drawer and slipped into the temperature was frozen solid as a rock.

" The box was produced, and the blind, speechless drunk! Been trying to keep the cold out, I expect!"
The suggestion was accepted with a roar of laughter.

"But what can we do with him?"
"Leave him here! What else can we do?"
"We can't do that! The poor begrand." "All together! One, two—"" All together! One, two—"The poor begrand into the house."

"Not me! I don't mind meeting Sir John, but I'm not taking any of the group, kicking and fighting like of the group, kicking and fighting like are done. The flame burned burned in the sturk. The flame burned ingoing to get the sack, when it occurbing at the head of the stairs. As she put her foot on the lowest stair there came from the servants' quarters a sound of sudden laughter and of voices talking. For an instant of voices talking. For an instant in her hand, she field upstairs and tiptoed rapidly along the passage, till she put her foot on the lowest stair there came from the servants' quarters a sound of sudden laughter and of voices talking. For an instant in her hand, she field upstairs and tiptoed rapidly along the passage, till she temperature, terrible would be the result; they would all burst. You have to be very careful indeed with eggs, and keep them just cold, not frozen. Also eggs must be kept

"SFFIII QFADY RECKENER."

Sir John, but I'm not taking any of his butler this evening, thank you!"
"Why not run him down to town?' suggested someone. "We can all lend a hand, and it'll warm us up a bit; what is it?" said Jack.

forced his way backwards through the dorn toon, too, was locked. Again she took a key from her poche ket and let herself in without a sound.

Fumbling in the dark she locked up the flavour or scent of anything the door and closed and barred the else stored in the same room. besides doing the fellow a good turn. "Look! Look at him! His head! shutters, for curtains there were Meat can be frozen solid at 0.0 F. Oh, my God!"

Oh, my God!"

The snow's got through

'I can't see. Wait a minute!"

I can't see. Wait a minute!"

by now, and I'm wet to the skin. With trembling hands Jack struck drawers.

Come on boys. Up with him! Hoo-another match. One and all stooped; The room was bare and cold and will not keep for very long. Soft ray!"

They hoisted the helpless figure in their arms. Some took his shoulders some his legs, and finding the burden but slight when its weight was thus divided they set off again with a terrific explosion of hoots and shricks" and shricks and tamble were bare. Save for a strip of mathematical match. One and all stroped; and stroped; and the match. One and all stroped; and stroped; and the match. One and all stroped; and stroped; and stroped was bare and cold and poorly furnished. In striking contrast to the luxurious softness of the carpets on the stairs and landing over which the girl had just hurried, the boards of this, her bedroom, were bare, save for a strip of mathematical match. One and all stroped; and stroped; and the match. One and all stroped; and one and all sprang back again with a cry of horror.

In the sudden and uncerimonious fall of the drunkard from the arms of his rescuers his hat had been knocked off. He lay on his left side, were bare, save for a strip of mathematical match. One and all stroped; and contrast to the luxurious softness of the carpets on the stairs and landing over which the girl had just hurried, the boards of this, her bedroom, were bare, save for a strip of mathematical match. One and all sprang back again with a cry of horror.

In the sudden and uncerimonious fall of the drunkard from the arms of his rescuers his hat had been knocked off. He lay on his left side, were bare, save for a strip of mathematical match. One and all sprang back again with a cry of horror.

They hoisted the helpless figure in with a cry of horror.

In the sudden and uncerimonious fall of the drunkard from the arms of his rescuers his hat had been divided they set off again with a cry of horror.

In the sudden and uncerimonious fall of the drunkard from the arms of the back and cold and provided they set off again with a cry of horror.

In the sudden and uncerimonious fall of the drunkard from the arms of the stairs and cold and cold and cold and the stair knowledge. In striking contrast, such as s rific explosion of hoots and shricks' and his right cheek and temple were and laughter. The snow on the path and laughter. The snow on the path are exposed. Shearing in the Buangor district has been at a standstill. The cold, rough weather caused many deaths amongst the poor sheep which had been shera.

STACK MEASUREMENT .- To find the contents of an oblong stack with perpendicular ends, multiply the length by the average width (between bottom and eaves) and the product by the height from the ground to the eaves. For the top multiply the area at the eaves by half the height to the right. The weight may be ascertained very accurately by measuring the cubic contents of a truss, and from this calculating the height at the top.

What you have been Waiting for!

I am now making Deliveries of the World-famed

GRA

4-Cylinder 21-25 h.p. Which has set a New Standard in Values in the Light Car Class for Up-to-date Design and Construction.

Light Weight. High-grade Australian Body. 3 Speeds forward Genuine Timken and reverse. Westinghouse and Lighting System.

Consumption, 30 35 miles to the Gallon. In fact, the most wonderful value yet in Light Cars.

Petrol Consumption, 30-35 Miles to Gallon Guaranteed.

There are very large shipments on the water to take care of the great number of orders already booked. Big shipments will arrive regularly every month, thus enabling us to prompt delivery to purchasers. THE GRAY is the most talked of n production to-day, and, owing to its light weight (about 15 cwt.) and powerful, smooth-running 21-h.p. engine, combined with the most modern 3-speed forward and reverse gears, will certainly be very

popular as soon as inspected. The front and rear axles and bearings, together with the differential gear and bearings, are all Standard Timken manufacture, these being the highest grade of manufacture in America, and enables differential to e withdrawn from casing without interfering with springs or dismant-

ling rear of car. Rear springing Duplex semi-cantilever.

THE GRAY holds the world's official record for petrol economy for this sized car with a performance of 33.8 miles to American gallon, which equals 42 miles to Imperial gallon. Beautiful Australian built body is fitted to the Gray, which is uphoistered in best quality genuine leather. with nickel screen and fittings and bevelled plate glass window in hood. All Cars sold complete with Westinghouse electric starter and lighting

equipment and spare rim, tyre, and Think out your ideal light car, and then compare it with the Gray. You will be convinced. Full stocks of Spare Parts at popular prices in stock, and arriving

PRICE I£295 COMPLETE.

Three months' free service to buyers of this car. Tuition also free. Inspection Invited. - Terms may be arranged, if necessary.

into Pandemonium!" "Come, come, dad! You can't when you gave them leave without their asking for it, but go and pay

"Tsh ! Tsh ! Tsh !" said Sir John "You know well enough." Hubert you don't skate yourself, and go and spend nearly all day watching them,

"Nothing of the kind, Hubert! go to see if my presence will restrain supply for thirty seconds might wreck them a little from ruining the whole blessed place. If I wasn't there to to-night after dinner. The Mort-keep order they'd tear up every tree in the park to make hockey sticks! on the Daunton Park lake. They're But there, let's talk of something

> "Capitally ! I can't imagine why but I'm getting any amount of briefs

"I wish you'd give it up, and come home to look after your poor old cripple of a father. I'm getting on, Hubert; I'm an old man, and my constitution's breaking up. I shan't last long, and I feel that I want someone-What the devil are you laughing at ?"

For Hubert, after a noble effort to keep his countenance, had given it up as hopeless, and was lying back "No, no, dad!" said he; "that won't do at all. An old man? No one would take you for a day over goes, and I can see you in the saddle again. You'll be giving me a lead yet, if I'm not mistaken. No; dad !" he went on more seriously; "you're not in need of me yet; and you waiting all night. It's close on din-know what I think about my work. be down here with you as active as you are. And if ever the day comes, which please God it won't for many years yet, when I have to take your

in your footsteps for having some knowledge of the law and of human nature in general." "That's all very well, my boy,

"Let's say no more about it, dad. I'm thoroughly in love with my work now. And I've been very lucky. You remember the Blake will case, which I won? Mrs. Blake sent me this when it was all over." He handed to his father a massive

gold watch, considerably larger than those now in vogue, but of exquisite workmanship. The face was of gold, and beautifully chased; the back enamelled in the daintiest of colours with a picture of a nymph and a shepherd in an Arcadian grove; and rim opposite the 9 and the 2 of the

(To be Continued.)

SMOKING IN CHURCH.

Smoking is common in South American churches. A visitor to Peru records that at a church in Lima he noticed one of the congregation enjoying a cigar during a service, while through an open door he

In Atlantic City, too, smoking serstables, and I arrive to find the vices are held. They are, however, whole place in Stygian dackness, and exclusively for men. When the weather is hot, the men are invited to sit in their shirt sleeves and take off their collars.

Smoking in church is not considered irreverent by the Dutch when the seryou may smoke.

There is more than one men's serwhere visitors are told to take off to fill up their pipes and get them still well. started before the text is announced.

TREMENDOUS TRIFLES.

MACHINERY DEPENDS FOR ITS EFFICIENCY UPON OIL.

Our physical existerm and wellbeing depend on a series of tremen-

Without the incredibly small specks of dust suspended in the air, we would be deprived of the beauties of diffused light and the blue of the sky. Worse still, there would be no rain for water-vapour condenses around these tiny specks, to form the drops that eventually fall as rain.

Without the electric spark-endurthought the work might employ a ing about the thousandth part of a good many poor wretches that other- second - high-speed petrol engines

But perhaps the most unheeded gas, no oil in the house, and nothing ting between the moving parts of but a few miserable candles to see every piece of machinery in the world. finger again to help anyone in the this film of oil alone prevents a mamass of metal. Without that greasy coat between the revolving shaft and and the guide over which it travels. house; and their cries and laughter an engine would be seriously damagutes.

Although so thin, this layer of oi 'em !" cried Sir John, starting from is, nevertheless, tremendously strong, of an ancestor gave 'em the right to be a weight of two hundred tons on walk across the park. That's the the shaft, yet a film of oil one The maintenance of this sleeve of

oil is one of the most important duties of those in charge of machinery, and all kinds of ingenious devices blame them for skating on your lake are used to keep up a regular supply of oil. A simple and clever automatic lu-

bricator is used for oiling the shafting in all large works, in which there may be thousands of bearings. It works on exactly the same principle as a stylographic pen-that is, it only supplies oil when the shafting is running, just as the pen only supplies ink when you are writing with it. In the high-speed turbines now use on board ship the failure of the oil

the machine. When the enormous amount of me chinery in the world is taken into account, and when it is realised that every moving portion of the machin ery is floating on films of oil, i seems that this matter of lubrica tion is really a tremendous trifle.

INTERESTING ITEMS.

phuretted hydrogen and prussic scid, is produced by smoking tobacco, but only in very small quantities.

ber stamps, wax, and even bread. flowers; mignonette, lilies of the val-

driak. These films are afterwards small margin of one mark, but was shown to the drunkard, and have stfected a cure in several cases.

Confirmed Proof

HAS BEEN TWICE PROVED. In gratitude for relief from aches and pains of bad backs-from dis-

tressing kidney ills-thousands have publicly recommended Doan's Backache Kidney Pills. People who tes-"Hullo!" said Hubert Annandale, caught a glimpse of a bishop, in full tified years ago now say the results what's the meaning of this, dad? episcopal robes, indulging in the same doubly proves the worth of Doen's lawury. Backache Kidney Pills to all kidney suffer**ers** :—

Mrs. Wm. Howard, Halpin Street. Beaufort, says: "My husband suffered more or less with his kidneys or some time, the symptoms being backache, a tired weary feeling, and dizzy attacks. The pain in his back worried him a good deal a d headcapped him somewhat at his work, he could not stoop or more them'y without increased pair suggested that he should course of Doan's Backarise the beneficial results that he went on taking them, and he is glad he did, for three bottles banished every symptom of kidney trouble, and made him feel splendid. Six months

Two years later, Mrs. Howard says: "My husband is sill a preat believer in Doan's Backache Kidney Pills. They cured him of backache over two years ago, and he has not been troubled with the complaint Doan's Backache Kidney Pills ar.

sold by all chemists and et melicepers on receipt of price by Foster-McClellan Co., 15 Hamilton Street S. sy.
But, be sure you get DOAN'S.
