HARVESTING days are busy days on the farm—a few hours delay may result in the destruction of your crop.

With a Fordson the work is done quickly and thoroughly, and allows the farmer to store the crop ahead of the showers. Mr. H. M. D. Casson, of Pallamallawa, owns two Fordsons,

"I harvested about 450 acres with two 8-foot Headers. The Fordson handled the machines nicely and gave no trouble. Cost of harvesting was 1/9 per acre. So well pleased am I with the Fordsons that another is coming forward to assist in placing a larger area under crop next year. Good luck to the Fordson."

See your nearest authorised Ford Dealer to-day, and investigate the advantages of owning a Fordson.

Previous to taking Doon's Pills, he was in a very poor state of health, complaining constantly of awful pains in his back, which prevented him from moving about freely during the day, and speiling his rest at night. He was also subject to dizzy attacks and felt tired and languid, having no energy for anything. After suffering in this way for some time, he was advised to take Doan's Backache Kidney Pills. He soon had reason to be thankful for the advice, for. by the time he had finished two or three bottles, he felt ever so much
