HOW DO YOU LIKE IT - THE LID ON, OR THE LID OFF?

There is a world of differences between an economy where there is suppressed inflation. The first represents a surrender to uncontrollable prices, a surrender all the more reprehensible because no surrender is called for, in the light of modern knowledge. Man can master prices and prices don't have to master nen.

The second case, of suppressed inflation, represents the result of colley. By pollcy I don't mean just the pollcy of a Government. The citizen, that is to say you, can be a pollcy-maker in suppressing inflation, just as you can be a pollcy-maker in suppressing bushours or protecting public parks, or flora or fauna.

With inflation, as with burglary, you can't comfortably wait for the law to put the lid on burglars. The law needs your active cooperation in that matter, otherwise your passive reliance on police.

I By knowing when your Commonwealth Bonds and Inscribed Stock mature, and by taking the necessary action at that time, you can be sure of securing uninterrupted interest payments from your investment. So study the following tion very catefully.

Have Your Securities Matured? If you have lodged with your bank for safe custody more than £10 worth of any of the securities listed above, right, you should have received a letter from the Prime Minister, accompanied by a folder explaining how your securities

may be converted. If you have not received such a letter, check the maturity dates of your securities in one of the following ways:

Investment in the Sixth Security Loan is not confined to those with maturing securities to convert. Everyone may buy Bonds for cash or by instalments (for £10, £50, £100, £500 or £1,000), or Inscribed Stock, through any Bank, Savings Bank, Money Order Post Office or Stockbroker. 1. If your Bonds are in your own possession. Look at them at once and compare the maturity date printed at the top with those shown in the list above.

2. If you lodged your Bonds with your bank for safe keeping. Most banks issue a receipt or acknowledgment for Bonds left with them for safe custody. If you hold any such receipts, compare the maturity dates shown with the list above.

3. If you cannot discover maturity dates. Go to your bank today and ask whether they hold for you any of the securities listed

above.

How to Convert

If you find that your securities have matured or are about to mature, ask your bank or stockbroker for an application form for Conversion into the Sixth Security Loan. Fill in one form for each series of Bonds or Stock maturing and hand it back. That's all. You will then possess Sixth Security Loan Bonds or Inscribed Stock of the same value as your maturing securities, and interest on your securities will continue.
