CHURCH OF ENGLAND

In the junction of the Lexton-Chute road an accident had occurred, and he investigated. One lad, Ronald Herbert, was dead. The other lad was unconscious, and he made him as comfortable as possible. The motor cycle collided with a bent tree 8 ft. off the west side of the road and both men were knocked off by a limb. There were skid marks from the bend to the tree. His impression was that deceased took the turn at a very fast rate and were unable to bring the motor cycle back on to the road. The road was mostly gravel, and the traffic heavy. Clouds of dust would make the visibity about 70 yds. An ambulance was obtained from Ballarat and the injured man taken to hospital. Witness described the road measurements where the accident occurred, and said the hent limb of the tree was 3 ft. 7
