R.S.L. BOWLING CLUB

ANNUAL MEETING Prospects are bright for a suc-cessful season for the Ripon R.S.L. Bowling Club. The annual meeting, held at

the Mechanics' Institute on Monday night, was attended by 16 members, and the chair was occupied by Mr F. J. Martin (president). Owing to the absence in Ballarat of Mr A. A Robnson (secretary), through illness, Mr S. R. Pascoe acted in that capacity. The secretary (Mr A. A. Rob-

inson) submitted an annual report, in which he thanked the mmitteemen and greenkeeper for their co-operation during the year. There was an increase in membership, but there were not members to finance the club. A Scott-Bonner mower had been purchased. A good deal of work had been done by working bees. There were three socal matches during the year, and a number of their members visited other clubs' tournaments A number of competitions took place for trophics The ladies were thanked for a donation of £10 and co-operation in other rabbit drive were thanked, and

it was pointed out that the green was an asset to the town and was well worthy of support A letter was received from the secretary, apologising for his abto the Repatriation Hospital in Rallarat. He also made an analvsis of the financial position. The statement of receipts and expenditure for the year showed: £193/0/10; expendiCr. balance of £5/11/1. The statement of assets and liabilities showed that assets to-The statement was adopted subject to audit, on motion of Martin and W

Riponshire Advocate

Mr Martin said it had been a very good year, but they were held up by accounts from the previous year; they had a motor for sale, which should bring them out about square: The retiring president (Mr Martin) thanked the members and officers for their co-opera-

tion during the year. M A. B. McIntosh acted a interim chairman. The following officers were eltosh and A. McGregor; secretary and treasurer, Mr S. R. Pascoe: assistant-secretary, J. J. Sutton; auditor, Mr J. Finnin: committee, Messrs. Saddlier, W Fillingham, D. McGregor, N. Acton, A. H. Read, A. A. Rob Hughes, T. McNaughton, and C

. Broadbent: greens committee Messrs R. Saddlier, A. McIntosh, and W. Glenister; match tin. N. B. Acton, R. Saddlier, and S. R. Pascoe; delegates 10 Messrs. F. J. Mar-The president thanked Mr Robinson for the great assistance he had given as secretary during the past three years. In handing over the chair, Mr McIntosh wished Mr Martin every success as president in the Mr H. J. Troy moved that a letter be sent to Mr Robinson. expresing the hope that he

Seconded by the president, and Mr McIntosh moved that the scription all round be £2/10/ for R.S.L. and non-R.S.L members. Seconded by Mr W. G. Gillingham, supported b Messrs. Pascoe and Martin, an

It was decided that night bowling fees be £1/10/, on motion of Messrs. A. and D. McGregor. The matter of lighting fees was referred to the committee Visiting bowlers' fees were

les' fee was left in the hands of the Ladies' Auxiliary The matter of a joining fee was leferred till next annual meet-

Opening day was fixed for Saturday, 11th Novr., on motion of Mr W. Beasley The president said the green was looking very nice and was It was resolved to ask the lades to provide afternoon tea on

opening day, and to have men's rinks from 1 till 3 p.m., and charged.
Mr Saddlier suggested that each member here try and get The matter of the official opcning was left in the hands of

was made to the committee and arrangements for outside matches were also left in their hands. would soon be restored to health. | would be a great success.

## Cuts Ten Inches Diameter Of Timber

n Ten Seconds mproved Motorised Saw Speeds Up Timber Cutting

DIAMOND JUBILEE SHOW REVIEW-1950

Farmers, woodcutters and timbermillers were interested in the performance of the "Stihl" Motorised chain-saw demonstrated at the Royal Agricultural Show at Stand 185. The saw was shown in various diameters up to 5 feet. Its high-speed cutting rate means getting the job done more quickly with greater ease and handling efficiency.

use with the chain saw prin- and have proved themselves

## DIAMOND JUBILEE SHOW REVIEW-1950

# NEW PORTABLE POST-DRILLER BOON TO FENCERS

"Petrolflex" speeds up fencing and provides powerised workshop fittings where electricity is not available.

In a normal days work with this unit, 200 7-strand erected fence posts can be drilled—drilling a 14 in. hole through a 6 in. post takes only 6 to 8 seconds.

The old Brace and Bit method of drilling posts is now outmoded with the advent of the "Petrol-flex" unit.

Powered by a 1 H.P. 4 cycle "JAP" or "Villiers" petrol engine. operating for 8 to 10 hours on one gallon of petrol, and mounted on solid rubber wheels, it is a truly portable tool.

An 8 ft. 6 in. heavy-duty steel flexible shaft, with rubberised casing, is standard equipment. Driving core is made from strands of spring steel plane wire bulk up in layers to 2 in. diameter, and provides maximum strength whilst maintaining flexibility.

To the end of the shaft is screwed a heavy duty, ball bearing mounted, geared drilling Headplece, fitted with 10 to 1 ratio worm reduction gears providing a drilling speed of approximately 250 r.p.m. The worm gearing of this unit positively eliminates any jamming in green, half green, or dry timbers of any variety. Wood bits

The "Petrolflex" Post-Drilling machine and Portable Workshop.

For general drilling with high speed metal drills. Often eliminating the need of dismantling an assembly to drill a hole in any part. Wire brushes for descaling and removing rust may be used in conjunction with this fitting. Also suitable for drilling droppers with high-speed drills.

## ICEMASTER

### THE MOST COMPLETE KEROSENE REFRIGERATOR EVER BUILT

All the benefits of dependable refrigeration are made available to even the most isolated homes by the magnificent big new Icemaster. It provides generous, safe storage wherever food has to be bought in quantity. It makes the ice-blocks and iced desserts that mean so much in areas where heat is prevalent and protracted. And Icemaster is built and engineered to make its grand benefits available for many long years to come.

## With Every Feature An Outright Winner

• Easy - to - clean, porcelain enamelled interior has rounded corners, stain-resisting bottom.

• Easy action combination handle - latch is readily adjustable to ensure constant secure closure.

• Covered Crisper keeps fruits and vegetables crisply moist, fresh and flavoursome.

• Glass chilling tray, just beneath evaporator, allows low temperature storage for fish, meat.

 Stainless steel door trim has no dirt-collecting screw heads. Positive cold-seal.

 Evaporator has three ice-cube trays, ample shelf - area for frozen desserts.

## PASTURE

DIAMOND JUBILEE SHOW REVIEW-1950

## The Backbone of Australia's Welfare and Economy

Pasture is by far Australia's greatest and most important single crop, for upon its development depend all our primary livestock industries. In years gone by, due mainly to misunderstanding of certain fundamental factors, vast and costly mistakes have been made, resulting in improper land utilization followed by low production and unsatisfactory financial returns. Because pasture is the cheapest and most suitable livestock feed, the aim must be to economically produce and maintain production of high quality feed to meet the requirements of the stock from season to season, at the same time preserving and building up soil fertility by proper management. The ley farming principle should be the basis of cropping programmes, because it is the only way to naturally protect the soil and gain the highest yields. The tremendous variation in soils, climate and rainfall throughout this country determines wide variation in farming technique.

It is the responsibility of 3 in to 6 in high, then al-When establishing and im- every land-holder to utilize lowed to recover. However, proving pastures, careful his country as far as possible should growth become very consideration must be given to the best advantage for the "sappy" it is advisable to in selecting the most suitable productive capacity of supply hay, preferably in the species, and strain, for the dustralia's primary inform of long chaff fed from a locality. Architects and home owners have readily appreciated the patented "fresh air" principle of Wonder-Heat, its exceedingly high efficiency, economy of operation, beauty of line, and ability to burn ANY fuel.

Last winter even the large resources of our factory organisation were unable to keep pace with the phenomenal public demand for Wonder-Heat, and we strongly recommend that you order NOW to ensure a healthy, comfortably heated home next winter.

## using from 13 to 2 gallons per hour of cheap crude oil

Imagine for a minute what this can mean on your property—or any property. Tremendous savings within a few short years of operation. More money for the modern

appliances and equipment that are fast becoming essentials on well run farms to-day. More money behind you in "lean" years of drought or flood. More money for every purpose for which it is used simply from saving on running costs.

### Another challenge to Kero Tractors

Mr. W. Herath, of Merbein, writes saying: "We have a kerosene operated tractor about the same horse-power as our 'J' model Lanz. We have found that we use about 14 to 12 gallons of kerosene per hour as compared with ½ gallon per hour of crude oil with the Lanz. "Oil consumption is praccically the same. We have spent only £4 on repairs on he Lanz in doing 2,200 hours, and this consists mainly of new fan belts." Mr. Herath adds that he thinks the kerosene job is soing to need much more than £4 spent on it during the same number of working hours.

### Plan for the future

Increased efficiency and productivity with lower operating costs should be the aim of every man on the land to-day. In this, the tractor plays probably the most important role. It has had a revolutionary effect on all branches of agriculture in the past, and the excellent satures of the Lanz and K.L. Bulldog Crude Oil Tractors in particular, with their unparalleled low running and maintenance costs, make it possible for the farmer to retain the greatest possible margin between production costs and market returns, regardless of whether prices are high or low. The ability of the Lanz or K.L. Bulldog to keep tractor production costs to the very minimum rovides the logical answer to future power requirements.

K.L. Tractor Sales Pty. Ltd. have received hundreds of letters of appreciation in similar terms to those pub-

## A GOOD SIGN

for motorists everywhere

Everywhere throughout Australia people interested in cars, vans, trucks, 'buses or tractors look for the Nuffield Dealer Sign. They know that the motor trader who displays it specialises in the sale and service of Australia's widest and most popular range of motor vehicles.

And so, for the motorist on the look-out for a new car . . . the businessman considering a new van or utility . . . the transport operator investing in a new 'bus chassis or truck . . . the farmer about to buy a tractor . . . this is a good sign.

It offers the motorist — in the matchless range of MORRIS, WOLSELEY, RILEY and M-G cars — a choice of thirteen separate models, each an acknowledged leader in its class. It offers the business man and the transport operator, in the comprehensive MORRIS and MORRIS-COMMERCIAL range, the widest selection of commercial vehicles on the market. It offers the farmer—in the NUFFIELD UNIVERSAL models—the most modern, versatile and hard-working tractor in the country.

And it offers them all after-sales service second to none. Wherever you see it—the Authorised Nuffield Dealer Sign is a sign of better things in motor vehicles and service.

Your Best Proposition is a Nuffield Product

RIPON SHIRE COUNCIL

MONDAY, NOVR. 13.

Ripon Shire Council was held at the Shire Hall on Monday. Present — Crs. A. J. Hinton (president), J. Kirkpatrick, D. . S. Mackinnon, R. C. Guthrie Russell, H. J. Buchanan, and Cr. Kirkpatrick apologised for the absence of Cr. Schlicht; Cr. Russell apologising for the absence of Cr. Roddis.

CORRESPONDENCE. From C.R.B., concerning bridge, Carngham-Trawalla, Rd. It was also stated that that the main roads maintenance schedule for 1951 had been approved. From C.R.B., in regard to allowance of £1025/2/6 under Hy-

land Plan. From Lands Department, with reference to site for Comfort Sta-

tion at Mechanics' Institute Beaufort. There was no provi sion whereby the Council could control portion as a site for a Comforts Station, but the trustees had power to lease portion to the Council. — Cr. Buchanan moved that the position be placed before the Public Works Department and approval asked Seconded by Cr. Watkin, and From Public Works Depart ment, in regard to appointment of anditor Mr Horseshoe was the auditor appointed. --- Cr Russell -- He should be a lucky man. - Re-

From Health Department, re

requirements at Chute Public

From State Electricity Com-

mission in regard to restoration

for motorists everywhere

Everywhere throughout Australia people interested in cars, vans, trucks, 'buses or tractors look for the Nuffield Dealer Sign. They know that the motor trader who displays it specialises in the sale and service of Australia's widest and most popular range of motor vehicles

And so, for the motorist on the look-out for a new car . . . the businessman considering a new van or utility . . . the transport operator investing in a new 'bus chassis or truck . . . the farmer about to buy a tractor . . . this is a good sign.

It offers the motorist — in the matchless range of MORRIS, WOLSELEY, RILEY and M-G cars — a choice of thirteen separate models, each an acknowledged leader in its class. It offers the business man and the transport operator, in the comprehensive MORRIS and MORRIS-COMMERCIAL range, the widest selection of commercial vehicles on the market. It offers the farmer—in the NUFFIELD UNIVERSAL models—the most modern, versatile and hard-working tractor in the country

And it offers them all after-sales service second to none. Wherever you see it—the Authorised Nuffield Dealer Sign is a sign of better things in motor vehicles and service.

Your Best Proposition is a Nuffield Product!

## THE BANK YOU OWN REPORTS TO YOU

THE people of Australia own the Commonwealth Bank. Consequently you, as part owner of one of the greatest co-operatively owned enterprises in the world, will be interested in what service your Bank is rendering the people of Australia, what profit t is making and what use is made of these profits.

Perhaps you are one of the Bank's 4,000,000 lepositors; if so, you have a double interest and will vant to know how the Bank is making your money erve the economic development of Australia.

The Balance Sheet of the Commonwealth Bank nd Commonwealth Savings Bank for the year ended 30th June, 1950, revealed some of the answers to these questions. For instance, Banking profits were 22,665,971, to which was added £4,332,849 profit made by the Note Issue Department.

Indirectly, the bulk of these profits comes back to you. £4,182,849 was paid into Public Revenue. £1,139,489 into National Debt Sinking Fund, £1,236,220 into the Bank's reserves, £47,655 into Rural Credit-Development Fund and £392,605 into Capital Account The amounts paid into Public Revenue and National Debt Sinking Fund help to reduce taxation, since that sum would have had to be raised in direct or indirect taxation had the Bank not made these contributions

The money paid into the Bank's reserves will be used in the further expansion of the Bank, to increase and better the service to the people. The amount paid into Rusal Credits Development Fund will be applied form of grants to assist various aspects of Primary Production. Grants from profits total £522,580 over a period of years. Here are some ways the money

A Chair of Agricultural Economics has been established at an Australian University so that men may be trained in this important work; pedigreed stock has been imported to improve Australian strains; research has been made into fodder conservation and into diseases of fruit, plants and stock; herd testing has been carried out extensively. Country once scarred and made useless by soil erosion has been reclaimed and now bears flourishing crops; barren land has been rade fertile and highly productive.

All these things have been done with the profits arned from the wise investment of your money. The ollowing are some of the ways that money has been

\$252,000,000 was advanced by the Commonwealth sank to Marketing Boards and Co-operative Societies luring the last twelve months. With this money progressive payments were made to Primary Producers pending sale of their products to consumers. Great sums of money have also been advanced directly to home builders or to Co-operative Building Societies; to Industrial and Commercial undertakings of every type; to Local, State and Commonwealth Government bodies; to export basic foodstuffs to the British Ministry of Food.

The Commonwealth Bank is owned by you-your money enables it to seek the possible and the nation-
