HOUSING COMMISSION ESTATE. The surveyor has commenced work on the subdivisional plans and tenders for site erection of ten homes have been call-. Response of local builders is disappointing. After preparation f the survey plan, the design of roads and drainage will be attended to and estimates submitted to the Housing Commission to allocate finance. It appears that extension of drainage in Burke street will be necessary to sarve the estate. This procedure has been discussed with the Commission's BEAUFORT WATER SUPPLY.

Petition forms have been prepared for signature of ratepayers and their early completion would be appreciated. R. LINSTEN, Shire Engineer
