a frightening experience to be without money - more frightening still if you are not used to being that way.

Perhaps that is difficult to realise in these prosperous times. But national prosperity does not guarantee that personal adversity is not lurking near for us. A death, i fire, a drought, an accident, a national emergencyany of these may change our lives overnight. No man knows what the future holds for him, his family, or his possessions.

Our future needs our help to-day, and the best help we can give it is to save steadily every pay-day. This will enable us to meet an emergency or seize an opportunity. Open a Commonwealth Savings Bank Account to-day. COMMONWEALTH

ESSENTIAL TO THE DEVELOPMENT OF OUR RURAL AREAS

"Australia is passing through a period of tremendous expansion," said Mr. J. P. Norton. "Tens of thousands of people are flocking here from the old centres of the world. By coming here they are demonstrating their faith in the future of this country and it is, therefore, up to our own people to do the same.

Mr. Norton continued. "Increased population brings increased responsibilities to our Commonwealth and State Governments. The development of our rural areas to meet the ever-increasing demands for food production is dependent to a large extent on the provision of adequate public facilities. These include transport, water and electricity supplies, hospital and educational facilities, all of which are a vital part of our present programme of national development.

"People in the rural areas have always been to the forefront in demonstrating their confidence in the future of Australia," Mr. Norton maintained. "I would appeal to them," he said, "to once again give expression to that confidence and assist in the national development by subscribing generously to the 15th Security Loan."

15th Security Loan Bonds or Inscribed Stock may be purchased, for eash or by instalments, through any Bank, Money Order Post Office or Stockbroker. 10-13 Year Securities will bear interest at 34% per annum, 3-Year Securities will bear interest at 34% per annum, 3-Year Securities at 2% per annum. GOLF CLUB

ANNUAL REPORT.

At the annual meeting of the Beaufort Golf Club on March 13, the following annual report by the president (Mr R. C. Hodgetts) was adopted:—

On behalf of the Committee. I have pleasure in presenting this report for your considera-

balar ce-sheet herewith shows a debit balance at the C.B.C. of Sydney, Beaufort, of £50/14/4. This is in contrast to last year's balance-sheet which showed a credit balance of £150 11/3. To offset this, the Club's assets have increased to the value of £140 by the acquisition of a utility truck and by golf balls on hand to the value of £49 In spite of an increased membership, which was very pleasing, there is a decided drift downwards in the finances of the Club. It will behave us to give attention to this matter and it may be arrested by:--

1. A considerable increase in membership. (The course could accommodate 80 to 100 more players).

2. By decreased expenditure on the course; either by more voluntary labour or a reversior to a shorter course.

3. Increased fees. 4. Special social efforts to augment the funds.

The annual tournament was not as financially successful a the previous year's. Socially however, a very pleasant aimos phere pervaded the tournamen and many congratulations werand many congratulations wer given to us by our visitors of the splendid organisation. Appreciation was expressed by many people of the excellen luncheon provided by the Fir-Brigade Ladies' Auxiliary. Ou associate members, as is thei usual custom, attended to the afternoon tea arrangements actions to the action of the action of the extended to the extended mirably. I extend, on behalf of the Committee, our thanks tone and all who contributed either by their labours or by do nations of cash or gifts, t bring further renown to th Club. The Committee is at tempting to avoid a clashing c dates with the Chalambar Club I think much more can be don to advertise our Club by mor members attending neighborsing tournaments. This particular point seems to call for or anisation.

I extend on behalf of all members, congratulations to Club Champion, John Hundand to B' Grade Champion Bill Jackson, to the Ladier Champion, Mrs Day, and Miss B. Watkin, in the B' Grade We are proud of the Beaufort-Skipton Team, comprised of members of our Club and th Skipton Club, which won the District Shield

In spite of a generous donation of £50 from the Associates, the scheme to finance the purchase of a new gang of mowers by the issue of debentures had to be abandoned, because of lack of support from members. The Committee has made other financial arrangements. The mowers have been ordered and will arrive soon.

Many improvements are nece sary at the Club House. I hope sary at the Club House. I nope members will give earnest con sideration to this matter and devise some means of raisin; money for this purpose.

The Committee feels that praise is due to the green-keeper for the excellence of the green lart year. The prohibit

scrapes last year. The prohibi-tion of the use of scrapers also contributed in this direction. Your Committee have been most assiduous in the discharge of their duties. The Club is in deed fortunate to have men who are prepared to devote so much of their time to the welfare of the Club and its mem-

May I ask all members to do their utmost to make this coming season a very successful one, and may 1952 be for you all a golfing season of unprecedented achievements.
