COST OF PERIODICAL REPAIRS effected in 1913/5 (Damages Excluded) of Cars built in 1907 & 1911.

The whole of the Cars built in the above years are taken.

Car No.	Built.	Station.	Year of Repairs.	
405	1907	Spare.	1913	23. 2. 3
431	"	South Melb.	1914	32.11. 9

508	"	North Melb.	1914	<u>22.17. 2</u>
				<u>229. 6. 3</u>

Average per Repair.. £ 25. 9. 7

No other cars built in 1907, 1911 & 1913 were repaired during years 1913/5.

The average "periodical" repair effected in 1913/5 of 43 cars built in 1885/7 was £ 41.12.10

The same periodical repair effected during

1913/5 to 9 cars built in 1907 & 1911 was 25. 9. 7

£ 16. 3. 3

The "aged" cars therefore cost 63% more for each periodical repair than cars built in 1907 & 1911.

The above averages also show that the cost per repair in 1915 exceeded the cost per repair in 1913 by ~~23~~ 23.9% whilst the Company's records show that the cost of the labor and Material used in such repair only increased to the extent of 4.12% during the same years. This would point to the fact that the repairs are becoming more onerous with advancing age.
