

You helped bring Ballarat 17 and 23 to Bylands back in 1970. A few years later you responded to our appeal for funds to transport 467 and 680 up from Melbourne. Two years ago your donations moved 667 and 673.

Photo, L. Crowe Collection.

Now we need your help to move Geelong "Butterbox" car no. 9 from the Bellarine Peninsula up to Victoria's Tramway Museum at Bylands.

Since the S.E.C. tramway system closed in Geelong in 1956, Putterbox 9 has been housed in a farm shed. It is in fairly good condition (especially the roof) and is intact apart from controllers, truck and trolley pole (all of which we have ready to install once it gets here).

The car has cost us \$400 to purchase and the transport quote is \$600. Thus we need a cool \$1,000 right now! We have to shift the car within four weeks so you can see the urgency of our appeal.

We don't need to point out that it is very hard to get any refund back from the Taxation Department these days but your donation will automatically yield a refund cheque next year. We know you will also gain quite considerable satisfaction from having helped our deserving cause by adding a unique and "different" vehicle to the Museum's collection.

This is your chance to help your Museum in a much-needed and material way. It's now or we lose it!

Tear off this slip, write out a nice big cheque and mail it off right away.

Thank you.
