

## And up goes a tram

**A front-end loader and a tram collided in High St., St. Kilda, today.**

*After the collision in High St., St. Kilda.*

No one was hurt.

The tram driver said he overtook the front - end loader in High St., about 300 yd. from St. Kilda junction.

The two vehicles collided and the front-end loader was pinned under the tram. The tram was pushed off the tracks and tilted.

Tram workmen

jacked up the front of the tram to free the front - end loader.

The tram was driven away for repairs — still tilting on its damaged suspension.

The accident happened about 8 a.m. Other trams were held up for 30 minutes.

There were two women passengers on the tram.
