INFORMATION PAPER

BASIC PUBLIC HOLIDAY TIMETABLES

It is proposed that basic holiday timetables be adopted based on Sunday services, with first and last tram times as for weekday schedules.

The changes proposed are based on results of surveys carried out on Queen's Birthday 12 June, 1989, which have identified areas of overservicing during the morning periods. Afternoon and evening services are not being altered.

The Footscray - Mcneee Ponds and East Malvern - City services will be operated as tram routes, in lieu of the Sunday bus arrangements, and the Malvern - City service will extend through to the City during the afternoon, instead of the Sunday - Orrong Road shuttle arrangement.

It should be noted that the services will be augmented as required to cater for sporting events, etc.

Following the introduction of the revised timetables, checks will again be taken to ensure services adequately meet passenger demand and adjustments will be made as required.

It is proposed that the schedules as specified be operated on the following holidays: -

New Years Day
Australia Day
Easter Monday
Anzac Day
Queen's Birthday
Cup Day
Boxing Day
and any other day declared
as a Public Holiday.

The attachments are: -

- "A" - results of checks taken on Queen's Birthday and compared at hourly intervals with the proposed timetables.
- "B" - complete set of service specifications for the proposed services.
- "C" - working table status.
