

NICHOLSON STREET TRAM WORKS

BIN COLLECTION DETAILS

There will be no changes to your rubbish, green waste and recycling collection throughout April and May 2019 during tram works.

Dear resident/business owner,

Public Transport Victoria (PTV) in partnership with Yarra Trams will be undertaking works to install new platform stops along Route 96 on Nicholson Street between Brunswick Road and Blyth Street in Brunswick East from Monday 8 April until Friday 17 May 2019.

During this time, some sections of the left lane of Nicholson Street will be closed to all public traffic.

- **Please take out your bins as usual; normal collection will take place.**
- **If required, contractors will shift your bins to a suitable location for collection based on daily works; they will also return your bins to your property following collections.**

We thank you for your patience and we regret any inconvenience caused by these essential tram track improvement works.
