## Delivering the Metro Tunnel

Thank you for your patience as we deliver major works across Melbourne to prepare the network for the Metro Tunnel.

These works include realigning tram tracks between Stop 20 Park St and Stop 22 Toorak Rd to facilitate the construction of Anzac Station.

The Metro Tunnel will provide space on the rail network for over half a million extra trips to and from the suburbs during peak periods each week and reduce travel times by up to 50 minutes a day. It will also help take cars off our busy roads.
